PUBLIC NOTICE.

Notice is hereby given that until February 15th the undersigned may be found at the Dominion Lands' Office, Prince Albert, for the purpose of receiving evidence, etc., concerning claims to land in this district.

On application, an appointment will be made, if possible, for receiving evidence in any particular claim or class of claims preferred.

Blank forms, on which evidence in the majority of cases is to be formulated, will be furnished.

By authority.

(Signed) W. PEARCE,
Inspector.

Dated at Prince Albert,
January 22, 1884.

NEW ADVERTISEMENTS.

PUBLIC NOTICE.

The undersigned may be found at the house occupied by W. Scott Robertson, Esq., Edmonton, until the 25th July, 1884, and will receive any evidence that may be offered in support of claims to Dominion Lands in the vicinity of Edmonton.

Special appointments for receiving evidence, in disputed cases, may be had for any claim or class of claims, so that all parties interested may be present.

By authority,
WM. PEARCE.

Prince Albert

January 15th 1884.

Dear Sir,

We arrived here today all right having had a very pleasant trip one day longer than usual owing to heavy snow in the Touchwood Hills and on the Salt Plain.

I have applied to the Minister for a further advance of Four Hundred dollars ($400) which, on arrival in Winnipeg, I wish you would place to my credit in the Ontario Bank I presume the Bank will honour cheques signed in my name for your initials.

I trust that everything is progressing satisfactorily with you I know you have enough work on hand to keep you busy.

Yours &c

Wm Moore

A. Walsh Esq.

Dear Sir,

We arrived here today all right having had a very pleasant trip one day longer than usual owing to heavy snow in the Touchwood Hills and on the Salt Plain.

I have applied to the Minister for a further advance of Four hundred dollars ($400) which, on arrival in Winnipeg, I wish you would place to my credit in the Ontario Bank I presume the Bank will honor my cheques signed in my name per your initials.

I trust that everything is progressing satisfactorily with your Staff you have enough work on hand to keep you busy.

Yours &c

Sir,

I have the honor to request that you will be good enough to make me an advance of four hundred dollars ($400), to be sent to Winnipeg on account of expenses connected with the investigation of Prince Albert claims.

With the approval of the Commissioners I have engaged the services of Mr R.A. Rattan as secretary for the work; agreeing to pay him therefor at the rate of five hundred dollars ($100) per month. This, in addition to the expenses of the trip, will require the amount asked for in addition to what is already at my disposal in Winnipeg

I have the honor to be

Sir,

I have the honor to inform you that I arrived at Prince Albert today and will at once commence my investigation into the old claims in this district. I trust to be able to dispose of them with tolerable dispatch but owing to the character of the people with whom I have to deal I fear that great expedition can not be attained. I hope, however, to dispose of at least the greater number of cases with satisfaction to the Department and also to the claimants.

I Robert Evans of Albion Ontario acting as Land Guide for the Prince Albert District make oath and say

That early in the month of September last past Charles Patrick Moore Forest Ranger for the Prince Albert District came to me and stated that he and I could make money out of the Inspection of Homesteads. That one Van Luven would give One hundred dollars to have a report favourable to him made. I replied I could not report anything but the facts in connection with the case. His reply was that although the Government would not likely discover him state he was willing to give me that amount and that Moore and myself might just as well have that amount do not. I refused to have anything to do with it and went to Van Luven and told him if he was giving notes or money to Moore he was giving the same for nothing that such would do him no good.

Prince Albert } In the matter of the Charges against

at present of Prince Albert N.W.T.

I Charles Patrick Moore at present of Prince Albert in the North West Territories Forest Ranger do solemnly affirm and declare as follows:-

As regards the Van Loven charge I say:- That shortly after my arrival in Prince Albert the said Van Loven came to my lodgings and asked me to go to his house I did so when he enquired if I knew one Evans (meaning Robert Evans then a land guide in Prince Albert) I replied that I had only known him since I came to Prince Albert. He then commenced talking about his claim and said he would like me to go out and see it. He said if I could fix it (i.E. the claim) with Evans so as to get a good report from him so that he could get his patent he would give me twenty five dollars. I told him I would not take a cent from him but I would see Evans. On another occasion I saw Van Loven who asked me what Evans said about it. I told him I had forgotten to mention it to him. He said he would give Evans twenty five dollars cash and his note of hand for twenty five dollars more in one

gaged report ~~and~~ for if Evans did not do so he would lose it as he had not complied with the terms of the Mineral Land Law. and Colonel Sprout would get it - I told him if that was the case I would have nothing to do with it.

Before I saw Evans I believe that Van Luven saw his Lawyer and told him about the matter. When I last saw Evans he told me that he would have nothing to do with it. He would do what was right in the matter and would give the claim the best report he could consistently with his duty. He said he would not take any money. I communicated this to Van Luven who was very angry and supposed then reported case.

I solemnly declare and affirm that Waggoner Crown Timber Agent never spoke to me of this charge of Van Luvens until he handed me the letter of suspension from W Pearce of the 3rd November - I asked W Waggoner if he had any thing against me & he said nothing at all he was very sorry this had occurred & advised me to go to work to clear it up.

I solemnly declare and affirm that said charges made by Van Luvens [illegible]

Sir.

I have the honor to acknowledge the receipt of your letter from Inspector Pearce written in your name dated Nov 8 informing me that I had been suspended from the duties of Forest Ranger for this District on account of certain charges which had been preferred against me. which letter enabled me too late to answer by last mail.

In reply I beg to state that I am wholly ignorant of the general charges referred to in the first part of Mr Pearce's letter and can only at present deny having been guilty of any conduct or practices inconsistent with my duties as Forest Ranger and I am to request in justice to myself that I be furnished with the particulars of the charges referred to and the names of the parties making them.

As regards the particular charge in the Van Tuyen case I beg leave to enclose the declaration of myself and of Robert Ross a respectable Citizen of Prince Albert together with a memorandum of Mr Duck Dominion Land Agent here. From these papers I think you will see that the whole thing is a conspiracy got up by Van Tuyen to injure me when he found that his enterprise at Lindsay had resulted in failure

. and these explanations will prove satisfactory and will be sufficient to clear me of the false charges that have been made against me

If anything further is required from me let me know as I would have no difficulty in procuring certificates from respectable and prominent citizens of Prince Albert as to how I have performed the duties of my office since I came here

As you say the Minister of the Interior has been advised of my suspension I beg to request that he be furnished with copies of my declaration and of Mr Ross's and of Mr Pascal's and of this letter

Extract from the deposition of J. Nicholson in the matter of the application of Charles Sproat to Cancel the Homestead Entry of Solomon W. VanLuven :-

"That about one month previous to this date the said Solomon W. VanLuven communicated to this deponent the knowledge that one C.P. Moore Government Timber Agent of this place had demanded of him, the said VanLuven, the sum of $100 to secure a report from the said Inspector that would secure to him (VanLuven) his Homestead right.

That about two weeks subsequent to the above communication from VanLuven I was present at an interview between Solomon W. VanLuven and the said C.P. Moore. Moore called VanLuven a little to one side not more than six or eight feet. I could distinctly hear much of the conversation but not all. But from hearing VanLuven's statement a few days previous I could very clearly make an intelligent connection of almost the entire conversation.

C.P. Moore said that he had got into trouble. That the Government had got wind of the matter that had been

Sir,

In reference to a communication from Head Office number 6794 / 5702 dated 19th November last, being a protest by Mr. H. Keenan against the cancellation of his entry to the N E ¼ 22. 47. 26 W 2nd M. made by George A Toole, I have the honor to report:—

The file containing the whole case with the decision of the Land Board was forwarded to Head Office by the Prince Albert Agency on the 15th December last.

The facts of the case may be briefly recited, so far as my memory serves me, which I think will be borne out by the file:

Sometime during last Winter Toole first made his application which was not received owing to Keenan filing Leave of Absence from Either the Minister or

his entry of the 28th ult. of

I have the honor to report:—

That the entries in the whole
case until the decision of the Secretary
of the Interior dated March

were in the Gilbert Depositary
of the 15th December last.

That from the time when the

Such point made his application
which was not received owing to
there filing <u>here & there</u>
from Elmira the Minute or

Commissioner, attending to, [illegible], April or May.

Poole, at the expiration of that time, made his second application. Immediately thereafter Keenan took possession of the land, remaining on it a few days - probably not more than one or two - and doing a slight amount of improvement.

Owing to a misunderstanding on the part of the Prince Albert Agent no action was taken in the matter until after my visit in August last when the Agent was instructed to notify Keenan to make his defence and on receipt thereof to forward all the papers in the case to the Land Board. This was done and the Land Board decided that Cancellation should be carried out.

Keenan was a member of the North West Mounted Police at the time he made entry. He left the Force in the Fall of 1882 and re-entered the Force in the Fall of 1883. During the time he was not a member of the Force he acted as Bailiff at Prince Albert.

Sir,

I have the honor to report that I was this day called upon by Rev Père Végréville and Hon. Charles Nolin in reference to the Survey into River lots of the land bordering the South Branch of the Saskatchewan River in Townships 45 Ranges 27 and 28 W. 2nd Meridian and Townships 44 and 45 Range 1 W. 3rd Meridian.

They state that the Government promised that this subdivision into River lots would be made last year and that it has not been done.

At their request I promised to submit the matter for your consideration = they will themselves communicate with you on the subject.

The above Fractional Townships were surveyed last year; they contain a great many disputed claims which, if the plans were forwarded at once, might be settled before I leave Prince Albert.

The Parish of St Laurent was surveyed several years ago, but no plan has as yet been received by Agent here. In it, also, are a number of claims, and applicants for entry: many disputes have already arisen there and they are constantly growing in number: the Sooner

Cher ami,

Je reçois à l'instant votre lettre et vous remercie de votre communication. Elle me fait plaisir à connaître et je la garderai précieusement. Depuis mon départ de Paris, je n'ai pas eu le temps de m'occuper de rien. Je suis arrivé à Paris le 27 Décembre à 5 h. du soir. Le lendemain matin, j'ai été voir Mr. Bertin à qui j'ai remis votre lettre. Il m'a reçu très aimablement et m'a promis de faire tout son possible pour me faire entrer à la Revue politique et littéraire. Il m'a dit qu'il ne pouvait rien me promettre avant le 15 Janvier, époque à laquelle il doit y avoir un remaniement dans le personnel de la Revue. Il m'a dit aussi qu'il ne pouvait me donner que 100 francs par mois pour commencer. Cela est peu, mais je ne me décourage pas et j'espère bien arriver à gagner ma vie. Je vais voir aujourd'hui M. Bertin de Vaux, rédacteur en chef du Journal des Débats, qui m'a promis de me recevoir. Je vous tiendrai au courant de mes démarches.

Je vous prie de présenter mes hommages à Madame Chevrier et de recevoir pour vous-même, cher ami, l'assurance de mes sentiments les plus affectueux.

I have the honor to acknowledge the receipt of your letter of the 30 September last enclosing one from Mr Peter Mowrie respecting his claim to certain lots fronting on the river Saskatchewan, in the Prince Albert settlement and in reply to state that the rule with respect to river front lots is that they are ten chains in width, one of which they can take as a homestead claim and the other as a pre-emption, by the same person.

You will be later advised in regard to Mr Mowrie's case as before coming to a decision, it will be necessary to examine Mr Allen's survey and to refer to that gentleman for facts which he observed on the ground in connection with Mr Mowrie's occupation

In surveying the
townships fronting on the Sas.

be laid out to the depth

The departure from
this rule that has been made
in the case of the holdings of
old settlers in Prince Albert

in view of the fact, that the
intention of the Government to
lay out the lands on the
system had not been generally
known previous to their occu-
pation. But in the future
and in all future time, this rule
are to understand, that no
more land on the river than

Sir,

In further reference to your letter of 20th November last, respecting that portion of it which relates to the claim set up by Mr Peter Hanrie on behalf of himself and sons for certain lots in Prince Albert Settlement, I have to state that, at the time of the survey by Mr. Aldous, Mr Hanrie's occupation by residence was confined to Lot No 12, and he also had a small field on lot No 7.

In Mr Aldous return he is entered for lots 12 and 13, to one of which he would have a homestead and to the other a pre-emption right, as he lives on the former.

Mr Aldous also has the names of Mr Hanrie's two sons noted for lots 5, 6, and 7 but neither of them, either at the time or previously, resided upon any one of these lots.

Mr Aldous' note further shows that Mr Fiddler and three sons had taken possession by residence and cultivation of lots 9, 10, 11 and 12. When your office is regularly opened

Sir,

By direction of the Minister I have the honour to inform you to proceed, with the least possible delay, to obtain for this Department the following, that is to say:—

Evidence, by Statutory declaration in all the cases of claims preferred in your district to land on which the occupation was previous to, or at the time of the Transfer of the Territories to Canada.

It is necessary that you should be careful to include all cases of this kind therefore you would require to ascertain from any settler, not evidently a recent one, when his occupation of the land commenced.

The information is more immediately wanted for the lots covered by Prince Albert and St Laurent settlements, or say — so as to include more fully any claims of the kind that can be found — from Fort Carlton to Fort à la Corne, on land which has been surveyed and can be defined by number of section or river lot.

Sir

As the majority of the settlers on the South branch of the river Saskatchewan in the vicinity of the Parish of St. Laurent have taken out their lands Scrip to be surveyed with narrow frontages similar to those of their river claims on other parts of the Dividend and in view of the difficulty likely to be experienced in this Office in adjusting the boundaries of these claims in accordance with the section survey; I have at the request of several of the settlers so situated the honor to request information as to the possibility of resurveying these sections into river lots on a similar plan to that adopted in Prince Albert Settlement, none of these claims having as yet been entered in this Office

I have the honor to be.

I have the honor by direction of the Minister of the Interior, to acknowledge the receipt of your letter of the 11th March last stating that you had been requested by several of the Settlers on the vicinity of the Reach of St Laurent to obtain information from the Department as to the possibility of their having a re-survey of their river claims by the Government and to inform you that it is not the intention of the Government to cause any re surveys to be made of course any sub-division differing from the regular survey, they may desire they can procure for themselves when the lands come into their possession. You will please therefore communicate this decision to the persons interested.

Le Havre, 21 Octobre 1862.

Monsieur le Maire du Havre a bien voulu me donner connaissance de la délibération du Conseil municipal de cette ville, en date du 11 de ce mois, relative à l'établissement d'un service régulier de bateaux à vapeur entre le Havre et Southampton.

Cette délibération, qui a été prise à l'unanimité, exprime le vœu que le Gouvernement de l'Empereur veuille bien accorder à la Compagnie générale transatlantique, qui a déjà obtenu la concession d'une ligne de paquebots-poste entre le Havre et New-York, la faculté d'établir, entre le Havre et Southampton, un service régulier de bateaux à vapeur, qui, partant du Havre le matin, arriverait à Southampton dans la journée, et repartirait de Southampton le soir, pour arriver au Havre le lendemain matin.

Le Conseil municipal du Havre pense que ce service, qui serait fait par des navires spéciaux, ne nuirait pas à celui qui est fait par les paquebots-poste, et qu'il serait, au contraire, très favorable au développement des relations commerciales entre la France et l'Angleterre.

Je ne puis, Monsieur le Ministre, qu'appuyer auprès de vous la demande qui m'est adressée par le Conseil municipal du Havre, et je vous prie de vouloir bien me faire connaître votre décision à cet égard.

Agréez, Monsieur le Ministre, l'assurance de ma haute considération.

Le Préfet de la Seine-Inférieure,

Sir,

I have the honor to Enclose herewith file number 924 of this Office Covering a letter from Mr Louis Schmidt and others as also a petition signed by a number of the inhabitants of the Parish of St Louis de Langevin praying for a resurvey of the lands on the river Saskatchewan within the Parish into lots of 10 chains frontage on a plan similar to that adopted in the Parish of St Laurent.

As I have already expressed my opinion as to the desirability of such a resurvey I have the honor to refer you to my previous letters on the subject.

Re T. J. Agnew's claim to part of sec's 11 & 12, 45, 1 W 3rd M.

Mr W. R. Gunn called today re a claim to part of sections 11 and 12 Tp 45, R 1 W 3rd M - prepared by T. J. Agnew as assignee of Philip Guardipé - who claims as claims of land fronting on R Saskatchewan - extending back from River 2 miles - by reason of occupation and residence thereon at and prior to 15th July 1870.

Mr Hayter Reed filed a letter claiming a portion of the same land by reason of purchase from Guardipé.

None of the parties have so far filed any written documents shewing transfers from Guardipé

The evidence, as far as it goes, would seem to shew that Guardipé is entitled to said land under the provisions of the Manitoba Act if extended to that district.

I informed Mr Gunn that owing to an interview I had with Rev Père Végreville and

Sir,

I have the honor to inform you that it is reported to me that a portion of Township 48 Range 4 W 2nd M, lying South of the South Branch of the Saskatchewan River, containing about one thousand acres, has not yet been subdivided. There is, as yet, only one settler on this land who is desirous that a survey be made in order that he may obtain entry.

As the Expense of the desired Survey would not be great I would beg to suggest that the Agent here be instructed to notify any intending settler or purchaser, in respect of this land, that on his obtaining a survey of the land covered by his application, made by a Dominion Land Surveyor, and submitted to the Government, the same, if approved, will be forwarded to the Agent here with instructions to deal with the land.

Should such instructions be brought to our notice. June 7th 84.

I have the honor to enclose herewith file No 342 of the P. Albert Land Office. having reference to a claim entered by Alex. Debruil to the E½ Sec 7. - 46 - 26 W of 2nd to homestead and pre-empt the same.

Attached thereto is a declaration of said claimant corroborated by his father as to the residence and improvements on the same from which it would appear that all the conditions to date connected therewith which were done last summer. The improvements consist of a house erected last year with about 150 sq ft and 20 ac of cultivation 10 ac broken in 1883. 10 ac broken in 1884.

It is clearly impossible consistent with the regulations to grant him a homestead and pre-emption entry though. can yet does he seem entitled to special consideration of any kind in connection therewith. Sir,

I have the honor to report in the matter of the application of George Connor to cancel the entry of James McIntosh to W½ 20, 45. 21 W. 2m. — which application was made on 11th December 1883. No defence has, as yet, been filed.

Mr Connor called on me and asked on what terms he could obtain entry. I informed him that I would recommend that he be allowed a H. entry for 80 acres and a P. entry for 80 acres ~~from~~ at two dollars an acre, or H. entry for 160 acres, and 160 acres as P. at ~~three~~ dollars an acre, one dollar an acre cash to be paid at date of entry. in the latter case.

Mr Connor appears to be a desirable settler. He has brought his family and stock up from Ontario and is anxious to get a decision as soon as possible that he may be enabled to make entry and to prepare for Spring operations. or, failing to enter for this land, that he may have time to obtain other land as a Homestead.

I trust that his case will be favorably considered and that an answer may come in the matter if possible by return mail.

Sir,

I have the honor to request that, if possible, the limits of the district embraced in the Prince Albert Agency be defined in order to enable the Agent have it made a systematic arrangement of the Township Registers.

A scheme was submitted to you by the Commissioner during his last visit to Ottawa having in view the division of the whole of the North West territories into districts. It was suggested that each township Register should contain 24 Townships, 6 Townships North and South and 6 East and West.

If a scheme of this nature is approved it is advisable that action should be taken without delay, particularly as to this district, in which a large number of new Townships will be thrown open for entry during the coming season.

Plans are already prepared

Sir,

I have the honor to enclose herewith H.O. file 17,725, having reference to the application of W. Stevens for right to cut for saw logs, N.W. 27 NW 32 on which entry, after considerable correspondence, Stevens obtained on 27th June last — forwarded to H.O. 28th the June returns from Prince Albert Agency.

On 7th July 1883 Stevens made application for patent. This application was forwarded to the Commissioner at Winnipeg on 23rd July and was returned to the Agent Regd for a new application. On the 14th August on the same date the application had been made known to the Agent.

On the 16th August Stevens was notified that he must complete his application for patent that was for the lands not done so.

It appears from these above

The Honorable
The Minister of the Interior
Ottawa

Ord.

to

to the file, that, on 7th July 1883, Stevens conveyed this land to one W.A. McLean and that, on 20th August 1883 McLean transferred his right to one John F McKay

I heard Stevens now come to make his application he could not make the affidavit required in paragraph 8 of the application. I have, therefore, instructed the Agent here to amend the form of application by substituting, for paragraph 8, the following: —

"That prior to 7th July, 1883, I have not, directly or indirectly, assigned or transferred, nor, between the 25th May, 1883, and the said 7th July, had I agreed to assign or transfer, any right title or interest in the above mentioned land; but on the latter date, having received a recommendation for patent from the Local Agent, I supposed that I was at liberty to dispose of my interest in the above half section and I, accordingly, did dispose of it."

I trust that this action will meet with your approval

Mr. Jas. Williams, Supt. of the
Rocky Mountain Division of the
Denver & Rio Grande R.R. Co.
Pueblo, Colo.

Dear Sir:

We are directed by the Board of Directors of the Denver & Rio Grande R.R. Co. to request you to have the following resolution entered upon the minutes of the Board of Directors of the Rocky Mountain Division of the Denver & Rio Grande R.R. Co. and to furnish us with a certified copy of the same.

"Resolved that the Secretary be and he is hereby directed to notify the Rocky Mountain Division of the Denver & Rio Grande R.R. Co. that the Board of Directors of the Denver & Rio Grande R.R. Co. will not consent to the issuance of any bonds by the Rocky Mountain Division of the Denver & Rio Grande R.R. Co. for the purpose of building any line of railroad, or for any other purpose whatever, unless the Board of Directors of the Denver & Rio Grande R.R. Co. shall first approve of the same."

Please attend to this matter at once, as it is necessary that we should have a certified copy of the resolution in time to present it to the Board of Directors of the Denver & Rio Grande R.R. Co. at their meeting on the 12th inst.

Yours truly,

Sir,

I have the honor to Enclose herewith D.O. file No 36.244 Concerning lot 15.46-26 W 2d.

The claim appears to have originally preferred by Messrs Coombs and Marshall on the ground of purchase from one Stevenson.

This R. J. Pitchard it appears purchased Coombs and Marshall's interest & he applied to Cancel Stevenson's entry which Cancellation went by default; but no more Entries being given on Cancelled Homesteads he purchased at $2.50 per acre ¼ Cash, balance in 1, 2 & 3 years with interest on unpaid portion at 6% per annum.

Pitchard has concluded the purchase and paid first instalment on 18th September 1883 which was included in the Returns of Prince Albert Agency for that month.

This I presume concludes the case.

In the matter of a

Charge of attempted Black-Mail

Preferred by

Examined by W Pearce

Inspector Dom Lands.

Solomon W. Vankuren. Sworn.

Said:-

I live on Section 28

Mr Moore saw me first in

I think, July, 1888, about the last

(1) of the month. His interview was

held in or near Harris Lumber Co's

warehouse - He conversation was

opened by Moore. I had made

a statement to Moore regarding

the location of my "claim". I told

Preferred by

Solomon W. Neuhauser, Esquire.

Sir:

I have the honor to

transmit herewith the Report of

Special Agent Jones, who was detailed

to investigate the charge of attempted

illegal sale preferred by you against

Edwin Ellert, trading as the Pennsylvania

Farm Dairy, at Hall, Pennsylvania, on

January 20th, 1909. Edwin Ellert

that I had been absent from my place, a few days at a time, but had otherwise been a bona fide occupant. I asked him if he thought that was such a settlement as the Government required. I asked him this question because he was, in a way, familiar with me. He was looking about for land and enquiring about claims and I thought his opinion would, maybe, be worth something. I was uneasy and annoyed at attempt being made to take my claim from me.

I thought Moore occupies the position of Indian Agent. I did not think he had anything to do with Homesteads. Do not know that he pretends himself as being familiar with the Land Act. Moore said I would lose my claim and told me that he would advise me to offer Evans, some Grande money to induce him to take a favorable report. He said it was better that I should not see Evans; that he (Moore) would "fix it" for me. If I would tell him what money I would give Evans I asked what he supposed Evans would demand. He said "not much - probably twenty five or fifty dollars" - I said that

(3)

88

was a good deal of money. I did not say whether I would, or would not, give it. told him to see Evans and ask him what he would take.

(3) In a few days Moore saw me again. Said he had seen Evans and Evans demanded two hundred dollars; would not touch the thing otherwise.

I told him that settles the matter because I could not raise the money. I owe a pro rata. The (4) best use I could try to raise it for that is was a good claim and that if I could save it by paying $100 I would get it cheap.

I was afraid to say I would not give him the money, thinking that if I did so he would turn against me and injure me in my (5) claim. He finally told me he would see Evans again and may be Evans would reduce it a little.

6 He afterwards told me he had seen Evans — who would not abate a dollar: he must have the $100 or report against me.

About that time I met Mr Evans on the street. He told me that Evans intended to have had his 7 claim declared abandoned for assessment work he never made to me regarding

Moore

(3)

(4)

(5)

88

money matters and if this was the case he would advise me to pay no attention to them; that he (Evans) did not wish to make money in that way. I thanked him and told him I would pay no regard to them.

Moore then left & me for the $100 - said he did not want the money himself & would not take a cent from me; it was all for Evans. I told him Evans did not want the money in that way; that I had seen Evans. Moore said Yes - Evans wanted the money but wanted to save the thing up. He said I would lose my claim unless I paid it. (18)

I told him I had no ready money; that money was owing to me but I could not get it - money was coming to me for washing. He asked who owed me. I told him; and that I had notes from the parties. He asked me if they were good - I said I thought they were but that I would not sign note over until I saw the parties who gave them to me; I had promised that I would not use them and the parties requested me to hold them, & would not sign them over without their consent - I finally told him I would not (19)

88

not give the notes at all. I told him I had the notes when I said I should see ready money. I was afraid that if I refused outright to pay him he would use his influence against me.

Moore came to me again and says he has settled this thing with Evans himself for $75; he had already paid him $25 out of his own pocket, agreeing to give the rest $50 when Evans was going home and he (Moore) would look here for it. In reply to this I said I would not see him lose anything by giving, & he came here, that he had not paid Evans a cent.

(10) Moore came to me after this and says the matter had the settlement as Evans was going and to see my claim next week and if he did not get his money he would defeat against me. I told Moore that if I lost my claim because I was a poor man and could not raise $100 I would sift the matter and find out who was to blame the law lets me. Mr Evans came to me shortly afterwards, in person as Evans, and told me that the thing had to stop; that he washed his hands of it altogether. He told me to shake Moore off. He said decidedly that he had never discussed the money.

(11) Sometime

(10)

(11)

88

Sometime after Evans came to me and said he had been dismissed or suspended — I forget which. He wanted me to give him a statement that would clear him with the Government. I told him I would make no statements, unless at the request of the Government and that if I was ~~testified~~ I would say the truth — that he never would have anything to do with it. I told him this more since he (Moore) did not want the money; that Evans demanded it all.

Moore came to me about the last of October: I was in Conference with Mr Robertson at the time. Moore took me to one side; I stepped about 5 or 6 feet — wishing Mr Robertson to hear the conversation that good reason to anticipate what his object was. I told him I was in a great hurry and the conversation must be short — and short. I commenced speaking in rather an undertone, not a whisper, as I suppose to allow Mr Robertson to hear. Moore began by saying he had got into trouble with the Government on account of this number ~~matter~~ that he had been dealing ~~on~~ between him and me. He asked who I told it to. I said I had told it to my lawyer as a

Client

88 Client would to his "Counsillor"?
I dis ing believe if had come out
through him; if it had come out it
must have been through another
source; He said it must have come
out through me as it was a charge
against him of having asked me for
£100 for causing any claim for mon
the Lais. I asked you to give
me an affidavit denying under
oath that I ever demanded of you
£100 or any sum whatever to secure
a report on your claim? I said
I was the truth, and I would not
swear to lie for him or anybody
else. (15) He then said he would
not ask me to swear if I would
only give him a statement in writing
that would clear him with the Govern-
ment. Told him I would make
no statement unless at the request of
the Government. He then, in a
threatening manner, said "Look
here - if you don't give me a
statement in writing that will clear
me with the Government you are
going to lose your claim" -
I must do what I say; you will
be compelled to leave £1,000
I said "All right"; that
before I would swear to lie
or even subscribe to one I would
lose my claim: I had done a

mine out of ten of my neighbors and was willing to take my chances with them.

In reply to Mr Fitzpatrick (acting for Mr Moore)

I was aware of the fact that there was claims adjoining on my claim. (15)

I remember going to Mr Ross's house to see Moore one morning and that — not seeing him — left word for him to come over to see me. Moore asked me to let him know when I was going out to my claim and I went to Ross's to tell him that I was going to drive out that day. (16)

When the offer was first made to me I did not reject it but requested Moore to find out what Evans would take. (17)

I never borrowed Moore $25. (18)

I told Moore I had no money, but that there was money coming to me; that different men owed me sums of from $25 to $50. I told Moore I had notes and accounts. (19)

Moore states to me that he did not want the money; that it was only to satisfy Evans. I told him (20)

88

Hint to Evans. Evans replied that he would not take a cent. Hint he must not mention it to make Evans a present. When [illegible] Evans I forbid him what [illegible] to Mr Evans replied.

[illegible] Evans said

Did he tell you that?

I swear positively that on no occasion did I say that I would give Evans $20 cash and $50 in notes if he would give my plaintiff a good send off.

(21)

Moore always told me that he never wanted a deal - that he would see Evans - that it was all for Evans.

(22)

I might have expressed the opinion that I thought Moore or Evans or both of them ought to be dismissed the object of my repeated interviews was to keep track of what Moore was doing.

(23)

In reply to Mr Pearce

My occupation is a farmer. Last summer I was engaged in selling machines for Harris Lynn & Co. I did not have much land under crop last summer. I helped in the building of my house and had men to assist me.

When Moore made improper proposals to me I did not report him to Mr Waggoner till about

a week after. Mr Buck came to me and wanted me to make a statement but I declined. I was not fully satisfied, from the way the thing was going, that Moore was alone in the game and was afraid Evans might be in it and that between them they might blast my character and "kick me." I told Mr Waggoner, at the time that I did not want to report it because they might do this.

At the last interview between Moore and me, when Mr Robertson was present, Moore told me I was all right to get my claim (26) if they could clear it up as he had seen Evans report and that it was a good one.

Mr Waggoner told me not to have anything to do with him (Moore) whatever; and to report him to the Government. He (Waggoner) could not say whether Evans had anything to do with it but said I should have nothing to do with either of them. I asked Forsyth (27) whether he thought it was a game of Evans, or Moore alone. He said he did not know whether Evans had any thing to do with it or not but that I might bet my bottom dollar that Moore would beat me out of $100 if he could.

It was one a week, might have been 2 or 3 weeks after when Mr Buck asked me to make a statement. I don't think it was a month after — that is after I spoke to Mr Waggone. It was after I told Moore that I could not raise the $100 that I first spoke to Mr Waggone

26 July" shows that I brought the Compass"

About a week after I returned from la Corne Vanlaren came to see me very early at Rae's where I was staying. asked Mrs Rae if I was in. She said I was in bed yet - I was not feeling very well that morning. When I was about half through breakfast Vanlaren came again and said he wanted to see me at the Shop - I went over and we went upstairs. Vanlaren [illegible] over the shop. After a little Vanlaren said "Mr Moore. You are acquainted with Mr Evans?" I said I was, but not acquainted with him since coming to Prince Albert, but not known him before. Vanlaren then spoke about his claim: this was the first time I knew he had one - He called for me at Mrs Rae's before I ever spoke about his claim. He then told me all about it and said that if I could get Mr Evans to report favourably on his claim he would give me twenty five dollars. He took

88

88

took out his pocket book and counted the money out - $20 & $25 in, I think, $2 bills. I said I did not want the money. The reason he gave for being so anxious to secure his claim he told me was that he wanted to help his old father - his parents, he said, lived in Ontario and his father was a very old man.

I said that I did not want his money but that I would see Evans and ask him if he could do anything to help him. He said to me "I am a poor man. if I could give more money I would do it."

I met Evans twice shortly after that but did not think to speak to him about Vaulcroes matter.

One day I was going to Mr Waggoner's office and Vaulcroes spoke up with a horse and buckboard - He asked me what Evans said regarding his claim - I replied that I had forgotten to mention it to Evans - He then said "You can tell Evans what I will do for him - I will give him $20 cash and 2 notes for $25 each, if he will give my claim a good send off."

Vaulcroes

88 Vanlaven said I knew that he could not comply with the homestead law as he could only go to his place on Saturday and return to Prince Albert on Monday and that if he could not get a good report from parties at the claim.

I said I would see Mr Evans about it - but when I met him again forgot to speak of it until one day I was with him in Betts & Gwynne store I said to Evans then that Vanlaven would pay him to give a good report on his claim. We were talking about the thing as a joke I was laughing about it and said "Yes, we could make $100 out of it easily enough". It was a joke and treated as a joke.

The next time I saw Evans I spoke to him about it. Evans said he would not take money from any person. He said he was told before he left Winnipeg that he could make money out of claims but he was not going to take money from any one. He said I could tell Vanlaven that.

Sometime after that I met Vanlaven who asked if I saw Evans. I said "Yes" and told him what

what Evans said - Vaulveen was very angry and never spoke to me after that for 3 or 4 weeks - At this time he asked me was Evans afraid of the notes. I said I did not know. (9)

Vaulveen spoke to me another time after that, "to shew you that these notes are good", he said, "I have traded off one of them to Mr Johnston, for a gun". (10)

Neither I, nor Evans, ever got any money from Vaulveen or anyone else - I invariably told Vaulveen that if the thing was fixed I did not want anything. (11)

Vaulveen was constantly after me. He always seemed very anxious to get Evans to give a favorable report: he was afraid that he was going to lose his claim. (12)

Regarding the charges that have been brought forward I went to Mr Waggoner and asked him if he knew anything about them. He said that he did not. At the time Mr Waggoner handed me my suspension Carter [illegible]

He said he had nothing against

The letter of suspension came

be necessary for me to do anything. We have never at any time up to this date received any such letter from the Government. charging me with anything or casting the slightest suspicion

Regarding Vanluven's charge there is no truth in them. Mr Betts said he would come down at any time and mean that the reference to the matter in his store was in the way of a joke - as it was. (112)

It is untrue that I ever made advances to Vanluven they came invariably from Vanluven. All through I said distinctly that I did not want a cent from Vanluven. (171)
Vanluven always said he was a poor man and could not give more than he has mentioned.

The day Vanluven spoke of having the conversation in presence of Mr Robertson, he Vanluven called to me and said he wanted to see me - he said he wanted the pardon which I took from him

I saw him again that day and learned him the truth and at the time booked him why he would not give me a clearance showing that I had

$25. I asked Vanlaeven
for a written statement that
he had refused his offer of $25.
Vanlaeven said that it was

The time I mentioned Van-

not think of it as a bribe

Memorandum.

On arrival of Mr Waggoner in Prince Albert — finding there was considerable local feeling manifested against him — he deemed it advisable to send Mr Moore down the River with Mr Bawden (Mr Lord Steamboat — Ottawa) who was going down the Saskatchewan to inspect some limits for his firm.

Waggoner, few days afterward, was greatly surprised to see Moore return — Moore gave as his reason for not proceeding down the River with Mr Bawden — that the Canoe used for the purpose was overloaded, he had never been in a Canoe before and did not consider that his life would be safe.

As an additional reason for his return Moore state that Bawden charged him for his meals — he (Moore) having to cook them.

Moore was also informed at Fort à la Corne that there was no wood cut below that point on the River and that consequently there was no need of his going further.

On his return he presented to Mr Waggoner a bill for $25- which he had paid one Letellier dit Lachance for conveying him from the Forks to -

Moore states that he was afraid to come from the Forks to Prince Albert alone as he might get lost, not knowing the road and having no compass.

Waggoner states that immediately after Moore's return he heard complaints that Moore had been making statements to the settlers to the effect that he (Moore) had been sent to Prince Albert to settle land claims. Mr Waggoner gives, as authority for this charge, the name of Mr Vankoughnet Deputy Supt Genl of Indian Affairs.

re Vanluven

Moore states that if Waggoner when Vanluven complained of Moore, had informed Moore of the charge it could have been settled at once.

Waggoner states that when Vanluven laid the complaint against Moore he (W.) directed him to write to the proper authorities; that he (W) did not want to have anything to do with it. This (W. states) Vanluven did.

Moore states that about 20th October Vanleuven asked him to act for him (Vanleuven) in the latters absence in

Sir,

Encl. to P.A. file 97

I have the honor to enclose herewith File 197 of Prince Albert Office which is attached an affidavit of A. McArthur, made before me today, corroborated by R English and Margaret Hutton.

This affidavit discloses pretty fully all the facts as nearly as they can be ascertained that Mrs Proctor's friends now ask is that she be allowed to homestead the NW¼ of the half section claimed by her husband.

During my visit here last Summer Proctor himself called on me in reference to his claim his statement, as well as I can remember, agreed with the enclosed affidavit. At the time Proctor asked me if I thought he would obtain a H. entry - My answer was that I did not think he would; he then said he would wait and see Mr Russell when he came up - no doubt thinking Mr Russell might deal more favorably with him.

It appears that very soon after the interview above reference to Proctor left

Voilà, Henry, la chère vieille ville. Si possible tôt ou tard je voudrais te faire connaître quelques-uns de mes meilleurs amis. for Ontario, taking his child with him. It is probable that an investigation it would be found that Mrs Proctor is not wholly blameless for her husband's desertion. Her father, it is said, before her marriage threw out inducements in the way of a promise of property to any young man who would marry the girl; this promise was not fulfilled when Proctor married her. It would be safe to assume that, owing to the malady to which she is subject, Mrs Proctor is not now of fair mental capacity.

I informed the parties who are pressing Mrs Proctor's case that I saw no grounds for the claim of right to homestead preferred by Proctor as, at the date he took up the land, he knew that odd numbered sections were withdrawn from entry; his improvements were trifling and his residence had, at that time, been nil; it would have been easy for him to have them located on an even numbered section to which he could have obtained entry; I therefore saw no reason for according to his case special consideration; I had told him he would, no doubt, get permission to purchase at $2.00 an acre.

The views then expressed I still entertain but if after reasonable time has elapsed, say 3 months from the date he deserted his wife, Proctor fails

89

fails to return to the land, I would recommend that the Government sell to Mrs Proctor one or both of the quarter sections on the same terms that would have been granted to Proctor.

The plea that Mrs Proctor's father is unable to support her is not at all a strong one. I think it would be found that there are hundreds of settlers in the Country who, under much more disadvantageous circumstances, are forced to support their families. It is said, however, that he refuses to have anything to do with her and it is possible that the neighbours have espoused her cause in order to obviate the necessity of supporting her.

If this meets your approval please forward to the Minister.

Sir.

I have the honor to enclose herewith for the consideration of the Minister the application of one George E. Applegarth, of this place, for permission to make a second entry. The facts of the case are disclosed in the affidavit herewith.

It appears that the consideration Applegarth received from Slater in reference to his former entry is hardly sufficient to class his case as one of sale or abandonment having been given voluntarily by Slater. Some, I presume, to secure his good will than for any other reason. Slater was the individual who cancelled Applegarths entry and entered the land himself -

Under the circumstances I beg to recommend this application for the favorable consideration of the Minister

I have the honor to enclose to you, for the consideration of the Minister the application of one Donald McKay who asks for an interchange of his H. & P. entries; and that his time may count from the time he first began bona fide residence in 1877.

The affidavit enclosed shews, as fully as I could ascertain them, all the circumstances of the case. It is corroborated by two of his neighbors - apparently very reliable men.

McKay seems a stupid sort of an individual and, under the circumstances, I would recommend that his petition be granted on his paying a fee of $10.00 for the required interchange.

Sir,

I have the honor to enclose herewith a letter from one James McAree asking to reinstated in his H & P. entry to N/2 11, 46, 1 W 3rd. Copies of the order of the Lands Board and also the report by Evans on the case are attached.

McAree, as nearly as I can learn, is a man of good intention but very poor execution. If reinstated it is probable that his cultivation and improvements will not be very extensive.

Under the circumstances I would recommend that McAree be allowed to homestead 80 acres and pre-empt 80 acres at $2.00 an acre, having the choice of 1st sections; or to homestead one 1st sec: and pre-empt the other 1/4 sec; at $3.00 an acre, $160 to be paid in cash at date of entry; 60 days to be given McAree to determine what he will do. Afterward, if McAree refuses both propositions, the land to be open for the first applicant.

As will be seen by declaration of McLaughlin, attached, he came to this district from Poplar Point, Manitoba, in 1880. He is an old soldier who came to Winnipeg in 1857, served with the Royal Canadian Rifles; obtained his discharge and remained in the Country.

There is nothing to show why, at the date he did so, he should have settled on an odd numbered section excepting his statement in one of his affidavits that he did not know what section he was taking up; States that he enquired of the neighbors as to the number of the section but they were unable to inform him.

As this Township was surveyed in 1878 It seems almost incredible that McLaughlin did not know on which

Vanluven vs Moore

Prince Albert
February 1/81 James P. Fraser — Sworn

Live in Prince Albert; am a carpenter. Was at Mrs Rae's boarding house from the last of July 1880 to the present time.

Moore was there from about 1st September until December.

After Moore was there 8 or 10 days I remember Vanluven came to the house several times enquiring for him. Remember Moore saying to Mrs Rae on one occasion that he did not wish to see Vanluven. That was early in September. Heard Moore state that he had heard a man accuse Vanluven to his face of having forged an order on him and under the circumstances he did not wish to have anything to do with him (Vanluven).

On several occasions I heard Moore tell farmers and others that he had nothing to do with Land matters; that Mr Duck was appointed by the Government for that purpose; that if they wanted just keep quiet and wait the payment would be stopped by them.

After Moore commenced working

I have the honor to encl[o]se herewith for the Ministers consideration an affidavit by one William Spencer in which he asks permission to make a second entry on grounds which are fully disclosed in the affidavit.

The applicant is an H. Hudson Bay official; has been all his life in the country and, like many of his class, has been rather unfortunate in his endeavors to make a livelihood by farming.

Applicant is, I understand, in very poor circumstances and it might therefore be advisable not only to grant his request but to allow him to make a free entry. I think he has made a fairly honest endeavor to comply with the Homestead requirements.

H.D. file 5H.478

I have the honor to enclose herewith H.O. file 5H.478 relating to the application of one Peter Robertson to pre-empt the S.W.¼ 35. 45, 21 W 2nd M.

The history of this case may be briefly recited as follows:-

In 1878 Robertson first began to improve the S.E. ¼ 34 of 45. 21 — prior to Survey. In June 1879 he built a house and commenced residence thereon, residing continuously in it until May 1882. The house was situate near the Eastern limit of this ¼ section; his stable was erected on the S.W ¼ 35 and considerable improvement was made on this ¼ section prior to Survey of the Township in 1880.

Owing to an error of the Surveyor in executing his plan of this Township Robertson's improvements were shewn to be on the S.E. ¼ of 35 and the S.W. ¼ 36 — one mile too far East.

the Township was open for entry the Agent, not having instructions to grant entries to odd numbered sections, Robertson could not obtain P. entry to the S.W. ¼ 35. As his improvements were shewn on the S.E. ¼ 35 the Agent, on the 24th April 1882 sold the S.W ¼ to one Margaret Reynolds

Correspondence in reference to this matter appears to have been instituted with H. O. in June 1882. H. O's reply to Robertson's application was that as his statements were not explicit enough he would have to furnish further evidence before the Minister would move in the matter. In course of time Robertson submitted the requisite evidence. His affidavit is dated 22nd Feby 1883. In May 1883 the Minister replied to Robertson stating that the evidence produced by him was not sufficient to warrant the cancellation of the Sale to Mrs Reynolds but that it was sufficient to shew that Robertson had complied with the Homestead Law and that, accordingly, a patent would issue to him for the S.E. ¼ 34.

One Owen E Hughes, who acted as agent for Mrs Reynolds,

in

98

in the purchase of this ¼ section filed a letter stating that as agent for Mrs Reynolds he was satisfied that Robertson had been fairly dealt with in the matter and, on behalf of Mrs Reynolds, he was willing that the sale to her should be cancelled and that Robertson should be granted P. entry thereto.

It appears that before this letter reached H. O. the patent to Mrs Reynolds had issued and the Government therefore declined to take further action.

Robertson called upon me recently and stated that the S.E. ¼ of 35 was, he considered, as good as the S.W. ¼, and that if he could obtain title to it, he thought he would be able to exchange with Mrs Reynolds and thus preserve his farm as he originally intended it to be.

Robertson has a large family; has made considerable improvements and appears to be a good settler - I think, therefore, that every possible leniency should be shown him - After his H. duties have been performed I cannot see that his application for a H. patent could now be recommended owing to his not

having resided on the place since May, 1887. He, however, is not wholly to blame as he appears to have been doing his utmost since June 1887 to settle the matter.

If, before the Sale to Reynolds, the office had been aware of the true facts of the case, the Sale to Wm Reynolds would not have been made and Robertson could then have obtained H. entry and preempted the SE¼ 35 at one dollar an acre; the fees together with the purchase money would have amounted to $180.

Robertson states that owing to the hard times he is unable to pay this amount at once but that money is due him and, if given time, he can make the payment. I therefore told him that I would recommend the Sale to him of the the SE¼ 35 and SE¼ 34 for $180, $60 cash and the balance ($120) in 3 equal annual instalments bearing interest at 6% per annum - the patent to issue to him immediately for the SE¼ 35 but not for the SE¼ 34 until he shall have paid the balance of the $180. I informed him that as soon as he has completed the above payment he will be entitled to make a second H. entry, the SE¼ 34 will be ample security for payment of the $120 &c

This course, in Robertson's case, is much out of the ordinary line but as the Government in

adopting it will receive as much for the land as they wanted have done. if the ordinary course has been taken. I trust that my recommendation will meet your approval. I told Robertson that it was highly probable it would be acted upon.

My dear Sir,

Yours of ~~the~~ 4th Instant

In reference to the charges Vanluven vs Moore, ~~an investigation~~ has been carried on, at intervals, ever since my arrival. It seems taken the form of a fight between Vanluven and Moore, and the result is that every day or two one or other asks to be allowed to furnish further evidence; and to prevent grounds for complaint, I have allowed them to submit all the evidence they wish — When the file goes down you will observe that a great deal of it is very wide of the mark.

Some an observation dropped by Vanluven I think it worthwhile that I may obtain some information indirectly bearing on this case with reference to the conduct of either Evans or Moore. Some not sure which — and perhaps neither is implicated. I have asked the individual concerned in the case to come to the office and if he fails to do so I shall subpoena him.

expected to send off a report of the whole case to you by this mail, and have written you officially and privately in the matter; but since then both parties have appeared and wish to file further evidence. Since I began this letter Moore has come in with two new witnesses: What he intends proving I dont know. However until I get the evidence of the party I have sent for I will not close the case. Until I am conversant with all the facts I will not give an opinion

As regards the Brandon office I will do as you wish, and will stop over there on my return to Winnipeg. It will probably be three weeks from tomorrow before I shall be able to leave Prince Albert. The class of men one meets here is such that the only way to get at the facts is to allow them every latitude in telling their stories in their own way. As a result the taking of evidence is very slow but I must say that I am highly pleased with the honesty displayed. I never before took so much evidence where I had so little doubt as to the honest endeavor to tell the truth, of the parties testifying. Their land matters are in a frightful tangle caused, I

must

must say, largely by the delay of the Government in opening the office after the Agent had been appointed.

As you will observe, when these matters come before you, there is no Act or Regulation ever framed, or that could be framed, to meet all the variety of cases. They must be decided mainly on the equities thereof; and the result of the Commission, I presume, will have to be confirmed by an O. in C.

Many of the witnesses, on whose evidence cases rest, live at some distance and the result is that, so far, very few cases are finally closed. It is therefore impossible at present to send you a comprehensive or intelligible synopsis.

As soon as the rush to file claims and give evidence is discontinued I shall go carefully over all the cases and endeavor to make them all thoroughly complete before I leave, or to leave matters in such a condition that the Agent here will be able to collect any additional information that may be required and forward it to me at Winnipeg. I don't think that more than half the claims have, as yet, been presented, and I have been kept busy from morning to night receiving evidence. Had it not been for the services of Mr. Sullivan

have proved very efficient, this investigation would occupy a much longer time

With further reference to the Brandon office, I would like to have copies of any files or correspondence relating (1) to the entry of the nominee of Lieut. Governor Dewdney — over which you may remember Murphy made a row; and (2) to the Homestead entry of the Brandon postmaster, who obtained entrance to the Land Office through the back door. This matter could be forwarded to me at Brandon, and should I think of anything else in this connexion I will write you by next mail.

We are having, on the whole, delightful weather here.

I enclose herewith a private memorandum of my own in reference to Mr Sullivan — which explains the telegram sent today.

P.S. Since writing the above I have had Brown & two witnesses in. Brandon & Wrigglesworth. I don't know whether all this evidence possible has been rolled up yet or not. I hope so

Sir,

I have the honor to submit through you, for the consideration of the Minister, the application of one Henry Poncha who has this day called upon me with the request that he be permitted to make an interchange of his H. and P. entries

Poncha has entered for the S/2 17. 47. 27 W 2nd M. and, in error, entered the S.E. 1/4 as H.-his house and improvements being on the S.W 1/4 which he now desires to have entered as his H.

I would recommend that Poncha's application be favorably considered and that he be allowed the desired interchange on payment to the Agent here of a fee of Ten dollars ($10). Also that his time could from date of giving into residence, he stating he is a victim of blood disease & may die any day & would like to have his patent ~~of~~ as soon as possible.

I have the honor to be

Keenan first improved in 1878; Sold in that year (Oct²) to Ballantine. One Lee files a claim to SW¼ but this claim may be ignored - Lee made H. + P. entry, Dec. 1882. Ballantine states that he applied to Agent for Entry but could not obtain it as Agent was not notified until Aug 1882 to grant entry to odd numbered Sections
2 { 1 { Agreⁿᵗ to sell May 1882 2 { 2. C. Coombes to Boyd 5/8/82	Coombes, except when living on this land, was clerk for Lt. Mair + others; Was refused entry by Agent because of non-residence.
3 { (1) Agreⁿᵗ to sell May 1882 (2) 2. C. Mills to Boyd	Mills never applied for entry. Wigmore obtained entry 8/12/82 Began residence Apl '83 + has resided continuously since. Wigmore makes affidavit as to value of the improvements - at time he made entry (which are given in red - under the figures stated by Mills) Wigmore expressed his willingness to pay the value of the improvements - With reference to Wigmores valuations Mills sees Wigmores corroborating witness at the time Wigmore made his entry. Wigmore knew when he entered for the land that Mills had sold it to Boyd - Wigmore it appears has made considerable improvements since he made entry - Appears to have dealt in Cypress claims to a limited extent but not more so than a large number of other people in Prince Albert district. Mills has never made H. entry.

4 {Agree[t] of Sale 1 C. C. McBeth to Boyd	McBeth took possession of and claimed all sec: 7. Sold his right to N½ to Lute Wm McKay for $320. States that at time he took possession he did not know odd sec's were reserved from H entry. McB has never made H. entry. When he took possession there were 10 ac. breaking done for one McCrumm and 5 ac. done for one Spence. Spence had shanty on SE¼. Spence had left the district & sent McBeard that he could have his claim. J. McKay, agent for McCrumm, gave McB, also, McCrumms improvements & claim.
5 {Agree[t] to Sell (2) 2.C. A.J McKay & Boyd (3) 2.C. (confirmation Catherine McKay to Boyd)	This land was first taken up by Alex[r] McKay (Father of Andrew J McKay) who died in the Autumn of 1878) Deceased had a water mill on Red Deer Creek a little S of the S. limit of sec: 23. As it proved on survey to be on sec 14 he sold it to one Henderson for $700. Henderson has H. & P rights to N½ 14.
6 {2. C. 6/80 McKay to Boyd.	Joseph McKay never had H entry. Bought Revis claim 84 from A. C. Campbell. Resided on it until 1881 & sold to Thomas Swanson.
7 {Affidavit P[te] Anderson that he sold to Enkaten Henderson that he purchased from Enkaten 2. C. Henderson to Boyd	Pat[k] Anderson first improved this ½ sec; then sold to W.C. Anderson. Mason claims the right to H & P this sec: Corp improvements (when he went upon the land in 1888 (June)) were of no account, except a little fencing of trifling value. The old breaking had become weed grown. Mason states that he has broken 27 acres on NW¼ and 7 acres on SW¼ since June — since when he has been absent from the place only one month. One Bueno also claims SW¼ as P. in connection with SE¼ adjoining. States he has had 1½ ac. under crop but this none was cropped last year. Bueno Claim is apparently not a very strong one altho he states he had done $70 worth of fencing. On examination Bueno admitted that he had not been the place for a long time; that he purchased from one Brooks.
8 {Affidavit Alex Sutherland - that in 1877 he bought from Papa and sold to Bishop. Affidavit from Bishop that he purchased from Sutherland in 1878 (3) 2.C. Bishop to Boyd.	Sutherland states that in 1877 when he purchased from Papa there was a small house & other improvements on the land. That in 1877 he built a house and in 1878 he built a second house & stable & in the latter years broke 20 acres. Bishop states in his affidavit that Sutherland resided on the lot, but does not say for what length of time. Bishop filed letter to Minister stating that he owned the land and that it would be a hard case if had to purchase from the Govern[t]
9 {2. C. Cook to Boyd.	Roderick Cook now claims right to purchase E½ 16- 24 Tp 4 R at $1.00 an acre. Cook states in his affidavit re E½ 16 that in 1882 he resided for 3 mos on W ½ 2. 46 27 his H.

(10) (1) affidavit of McLeod that in 1879 he purchased from Roderick McEwen - (2) L.C. McLeod to Boyd -	
(11) L.C. Neilson to Boyd	10 acres of the breaking and $15 worth of fencing are on N W ¼ 32, balance of breaking and improvements being on S W ¼ 5. There is considerable discrepancy as to dates in Neilsons affidavits - on file - A a Norwegian + doubtless discrepancy has arisen through ignorance or stupidity - N W ¼ 32 was entered by one Mowat as P. 15/12/82 when M. stated his willingness to pay value of improvements S W ¼ 5, not yet open for entry -
(12) L.C. Goodfellow to Boyd	Goodfellow in 1880 purchased the claim of Telephore Martin to this land - Claim consisted of 13 acres breaking - Goodfellow is proprietor of a planing mill in P.A where he resides - Peter Mowat 15/12/82 entered this land as H - stated willingness to pay cash value of improvements.
(13) McDonald to Boyd - L.C.	McDonald does not appear to have made H entry.
(14) L.C. Powers to Boyd	Powers does not appear to have made H. entry.
(15) L.C. Gray + Miller to Boyd	Miller laid claim to this land stating that he employed Gray to make improvements - Gray denies statement and claims improvements as his own - On 18/12/82 this ¼ sec was sold to one Manley by Agent who had not been notified of Boyds claim - Manley was instigated to purchase this by his Solicitor W Mack and probably knew of Boyds residence + improvements - However as patent has issued the question arises whether it is worth while to cancel it by legal process - It might be advisable to let Boyd know that if he does this he can purchase it - Boyds Agent files letters asking that Boyd be granted S W ¼ 35 - still vacant - in lieu of this - It appears Manley agreed to convey a ½ section to one Percival V. Ridoubt + being unable to purchase one ¼ sec: owing to a counter claimant he purchased this and conveyed it to Ridoubt - The whole transaction on the part of Manley + his Solicitor is very reprehensible.
102	Henry Ward made H. entry to S W ¼ 36 7/12/82 - He states the only improvements to be 5½ acres breaking and about $10 worth of fencing; Agent informed him that such could not be considered improvements in the meaning of the Act. Ward appears to Endeavouring to get on - States he has put up $250 worth of building and $30 worth of fencing last year - Desires to get advance in order to procure a wife but owing to dispute re his entry does not like to take so important a step until this right be confirmed
	Miller's claim to this land and S E ¼ 35 appears to be a purely speculative one - Miller is however a good settler; has been residing for some years in Tp 48 - R 26 — not yet open for entry.
	S E ¼ 35 claimed by Gray as H and S W ¼ 36 as P

Gilbert Carter —

I have a Homestead Entry to SW/4 32 "
48. 24 W 2nd M.

One day on the way to the Post Office
I met Evans and asked him if he
was going to winter with us. He replied
that he was going down in two weeks.
I then said to him "I suppose we
poor fellows who have Homesteads wi.
catch fits" As nearly as I can rem-
ember Evans' reply was "You gi
me credit for knowing more about
your homesteads than perhaps I do."

I first made the acquaintance of
Moore the Sunday after he arrived
at Prince Albert. I once asked him
if he thought it would do any good
if I were to write the Minister asking
to be allowed to live with my brother
instead upon my Homestead. He
him also if he would go & my place
and give a report on it that I can
send with my letter to the Minister.
Moore said that this was not in his
line of business; that he was a
here as a Forest Ranger. Moore

laughed at my suggestion. He never suggested to me that by paying some thing I could get a favorable report.

Keane said Vanlueven had offered him money if he would help him in his claim. Keane said Vanlueven's father was a very old man and he would like to help him if he could.

I first got acquainted with Moore on the bank of the River on the first Sunday after Moore came here.

It was, I think, within a month after this that Moore spoke to me about Vanluven. He asked me what sort of a man Vanluven was. I said I did not know much about him as I had had no dealings with him. I think I said Vanluven was an honest man or was doing an honest business I forget which. Moore then said to me that Vanluven had offered him money to induce Evans to make a good report of Vanluven's claim. I don't remember the amount he said Vanluven offered but I think it was four or twenty five dollars. I said to Moore "Is not that bribery?" Moore said "Yes" and added that he had a good mind to report him and would do it if it was not for his old father or because his father was so old. He told me Vanluven's father was dead.

At the time Moore told me of it I thought he was speaking seriously. Did not think he was intimate enough with me to tell me such a thing as a joke.

Vanluven called at the shop a day or two afterwards. He then asked me did Moore ever tell me anything about him (Vanluven) having offered him (Moore) money. I did not even then recollect the conversation and told Vanluven I knew nothing about it.

Until yesterday (4th Feby) altho Moore several times spoke to me about Vanluven's attempt at bribery I cannot remember the conversation we had on the subject; but when Moore related a portion of the conversation that occurred at the time - I then remembered it,

Sir,

I have the honor to submit for your consideration the application of one Alexander Campbell, who has Homesteaded the N W ¼ 19 and Pre-empted the S W ¼ 30, 47. 26 W 2 M. and who, by reason of occupation and residence thereon prior to Survey called upon me today with the request to be allowed to purchase 30 acres of the East part of the N E ¼ 24 adjacent to his Homestead — Campbell states that at the time of survey he had 13½ acres broken on this ¼ section, and has over 20 acres in all broken and under cultivation thereon. He states that the only land of any value on said ¼ section is about 30 acres in area

He hopes to purchase this land, I presume, at one dollar an acre.

The sketch enclosed herewith shews, as nearly as I could ascertain, the position of the land

ought to be obtained. I have seen the marsh described on sketch but do not know that it is correctly shewn thereon; but I know that the marsh is, in its present condition, totally unfit for any purpose whatever.

The Red Deer Creek is a very crooked and sluggish stream and all along it are extensive swamps and lakes. No doubt at some future time it will be possible to reclaim the land that is now useless, and it is possible that capitalists might purchase and reclaim it but not for many years to come.

Mr Campbell is, I am informed, one of the best settlers in this district, and it might be advisable to sell him 40 acres of the N.E. ¼ 2 st. comprised in the E½ of Legal Subdivisions 9 and 16. I informed Campbell that if any portion of this 1st section were sold to him it would not be less than 40 acres; and I would recommend to your favorable Consideration the suggestion that he be permitted to purchase the 40 acres above described at $2.00 an acre.

My dear Sir

Am getting along as fast as my agreeable
men and anticipated troubles, but things
are in a forgetful mark. Many of the claims
I found it very slow work taking
evidence. That the only way to get at the facts
is to let them tell their own way.
The Dr C. based on the Russells means does
not mean the great majority of claims which
are forwarded. Such is that little should issue
so long as 3 years residence has been done
he dwells dwelling by one or several, and when
in nearly every case there has been more for
the past two years. Another class, a large
one, claims the time put in by others from
whom they purchased should count to them
as if they had done it. and if they have
any land entered as H & P. and residence
been done to the slightest extent prior to Oct
79. they are entitled to their pre-emption at
$1 per acre. and the former residence should
count even if there may have been an interval
of several years in which residence was
suspended by no one.

Let. 1. 1884

I have the honor to enclose herewith H. O. File 6860 relating to the application of John McCadden to be permitted to acquire on the most favorable terms possible the SE¼ 21 and N½ 16, 48. 25. W 2nd M.

The facts of the case are, briefly, as follows:—

McCadden, in October 1879, commenced to reside on the SE¼ 21, intending that to be his H. and the N.E.¼ 16, to the South, to be his P. (You will observe that, although the portion claimed as P. is not adjacent to the H., it was the practice at that time — although contrary to the Act — to grant entry in this manner in many districts)

McCadden resided continuously on SE¼ 21 until October 1883

Being unable to make entry to an odd numbered section - the Agent not having at that time authority to accept such entry - he resolved on Homesteading the N W ¼ 16, and Pre-empting the N E ¼ 16 and purchasing the S E ¼ 21.

In June 1887 he made entry as above. Sometime afterwards he discovered that he had made an error in his entry and on 18th November 1887 he was allowed to interchange entries for N ½ 16 and make the N. E. ¼ his H.

By instructions to the Agent subsequent to the date of McFadden's entry he would have been accorded H entry to 21 and would have been allowed his P. at one dollar an acre. Having resided on the H for three years he could then have made application for his patent and on recommendation thereof he would then be entitled to a second H entry for N W ¼ 16. thus obtaining 480 acres of land by performing six years residence and paying in addition to entry fees the sum of $160. Whereas by giving him H. entry for N E ¼ 16 and allowing his P. even at one dollar an acre and selling to him the S E ¼ 21 at the lowest

possible

possible rate (one dollar an acre) he will be obliged to pay $320 for the same area of land that; equitably, he is entitled to acquire for $160. However, to entitle him to this he would require to reside for 3 years on NW ¼ 16 which is not at all eligible as a residence being largely composed of hay swamp and pasturage.

W^m^ Fadden - as his improvements shew, is a good settler; and, taking all the facts into consideration I would recommend that on paying a fee of $10^00^ patent issue to him for SE ¼ 21 and that his H entry for 16 stand as it is, his residence thereon to count from the date he went upon the place in October 1883. He to pay for NW ¼ 16, his P. at the rate of $2^00^ per acre.

I trust this will meet with your approval.

Sir,

Encls. H.O.C. H.S. 2nd

I have the honor to enclose herewith H.O. file 46.2.24 relating to the application of one Daniel Cameron.

The land affected is not yet open for entry but has been surveyed and is covered by other plans. I see no reason why it should not be open for entry unless it is that it has been reclaimed.

The applicant is certainly a good settler: his affidavit - accepted to file - of the truth of which I have no doubt - shews him to be of a very good class of settler and to have made valuable improvements.

The land applied for is adjacent to the 3rd Meridian and the S.W.¼ of 25- contains only 120 acres. Cameron thinks it hard that he is not able to Homestead 160 acres. Therefore, so far as section 25 is concerned, I would recommend that he be allowed to Homestead the S½ of the S½ of this

section and Pre-empt the N/2 of the S/2.

He has resided on this land from 1898, having for 3 years previously lived on the adjoining section which he now wishes to obtain as his second H. & C.

Having made entry for S/2 25, as above suggested, there is nothing to prevent him from immediately applying for his patent and entering for N/2 24 on which he already has considerable improvements, the price of his Pre-emption in section 25 to be one dollar per acre and on section 24 (Second entry) two dollars per acre.

Before making a final order and granting entry in this case I beg to direct your attention to a letter attached to this file from D. J. Waggoner, Crown Timber Agent for this District, from which it appears that Cameron, out of pure malice toward certain of his neighbors, destroyed a quantity of timber in the neighborhood — to prevent them getting it. I understand that the timber still lies where he cut it and that it has now become decomposed and worthless. I therefore think that Cameron should be compelled either to prove to the Satisfaction

Of

109

of the Dominion Lands Agent here that he did not destroy the timber in question, or, failing such proof to pay for the timber destroyed the fees required by the Crown Timber Agent — He should not be permitted entry until this matter has been settled.

Sir,

I have the honor to enclose herewith the application of one Michael Fox to be allowed to make Homestead entry to SE¼ 26-47-27 W 2nd M.

Encl°

The evidence discloses the fact that Fox never resided on the land in question

In 1881 he purchased from one Hugh McDougald his right to this ¼ section for thirty five dollars ($35-) McDougald's improvements consisted of about 4 acres of breaking.

Fox, in the Summer of 1882 broke 20 acres and cropped 4 acres and in 1883 cropped 2 ½ acres; has erected a small house worth $100 and stables and fencing worth $113.

Fox bases his claim to right of entry on the ground that at the time he purchased from McDougald in 1881 he did not know that said sections were reserved.

The part of the Township in which this

I have the honor to enclose herewith Prince Albert Office File 169 relating to the application of George Glaister to H. & P. S/2 27. 46. 27 W 2. M. and to purchase the N/2 of said section at One dollar ($1.00) per acre.

Encls. P.A.F. 169

The evidence goes to shew that Glaister in 1879 settled on the land in question and broke 5 acres. He then returned to Ontario intending to sell his property there and return with his family to this district Owing to a failure of the crops in Ontario he was unable to dispose of his property there until about February 1881 when he at once set out with his family for this district

When here in 1879 he meaned have made entry for the land in question — he states had it at that time been open for entry.

Having, as he thought, shewn his good faith by making the improvements above mentioned he believed the Government would permit him to make

his H. and P. entry and on his return to the Country in 1881 he took possession of the land and has resided thereon continuously ever since.

Glaister has now 85 acres broken, 70 of which have been cropped, a house and other buildings worth $400 and fencing worth $300: he is undoubtedly a first class settler

I think the most liberal way in which he can be treated is under Sub Clause "b" of the Regulations of 25th May 1881 in which it is recited that settlers on odd sections north of the main line belt of the Canadian Pacific Railway should have the privilege of purchasing, to the extent of 320 acres of the odd numbered sections occupied, at the price of $1.25 an acre but that patents should not issue for the land so purchased until after 3 years actual residence thereon by the grantee.

In Glaister's case, however, I would recommend that the price of the land be $1.00 an acre owing to its isolated position at the date residence began. In a few months he will have completed his 3 years residence and will then have the privilege of making a H. entry if he desires to do so. I would also recommend that he be permitted to purchase the remainder

of the Section at $2.00 an acre.

As it is possible that he may be unable to raise the money to pay for this land it might be well to sell it to him on time, ⅓ cash balance in 1, 2, and 3 years — interest on the unpaid portion at the rate of 6% per annum: Patent to issue on payment of the full amount.

I trust that this will meet your approval.

Sir,

Pat 259

I have the honor to enclose herewith Prince Albert Office File 259 with my finals report and recommendation in the matter of the application of Henry A Reid.

~~came to this District~~

Reid, in 1879, was engaged with his uncle Leslock Reid in surveying &c.

In June 1879 he took possession of the S½ 19. 48. 2nd W 2m. and broke thereon in that year 6½ acres and in 1880 9 acres: he has now, in all, 24 acres broken. He did not commence residence until May 1881. Since then he has resided continuously thereon; has buildings to the value of $800, fencing worth $75 and 24 acres broken; is a married man.

Reid's case is somewhat similar to that of Glaister. It is said that but for ill health Reid might have gone into residence immediately after first

Monsieur le Maire,

J'ai l'honneur de vous informer que le Conseil municipal de Paris, dans sa séance du 14 février courant, a voté un crédit de 1 000 francs pour la souscription ouverte en faveur des victimes de l'inondation de Meaux.

Je vous prie de vouloir bien faire connaître à votre Conseil municipal que la Ville de Paris a pris part à cette souscription.

Veuillez agréer, Monsieur le Maire, l'assurance de ma considération distinguée.

I answer recommend that in the latter case sub-section 2 of the Regulations of May 1881 which settles or not settles the allowance to Purchaser of 3 years rent[illegible] at 4½ per cent. On this case I answer recommend that it be permitted, the Purchaser getting at 4½ per cent provided in regulations. 4½ and not the balance viz 1. 7 and 3 years rent interest at 5 p/c per annum

I would recommend that he be treated under sub-section "C" of the Regulations of May 1881 where settlers on odd sections are allowed to purchase after 3 years residence at $1.25 per acre. In this case I would recommend that he be permitted to purchase the West Half (½) section at $1.00 per acre payable in instalments, ⅓ cash and the balance in 1, 2 and 3 years with interest at 6% per annum

I trust that this will meet your approval.

Vanderveer v. Vanderveer

Evidence of

Hugh Boddy sworn

Examined by Mr Vanderveer

Q. Are you a single man? A. I am a married man. David Vanderveer and I live with my father. I can write a little. I can read and know what the penalty of making a false oath would be. I think there would be some penalty. I am a Presbyterian.

I recollect Mr Vanderveer coming to my father's to solicit an order for marrying. I know nothing had any conversation with my father about it either. I remember my father giving three times for the bride. I was with him the first time. I was not with him the second time. After the second time I was not with him. The third time I was with him. After the third time I was not with him. I know nothing about the matter to me either. I did not know why the ceremony was not performed on Saturday to come here today.

Vanderveer first came to my father about a year ago. My father gave an order and received his money for it. There was an order given for marrying. I never signed an order. I have signed my father's name to orders received by my father. I signed in the presence of Vanderveer frequently. I never signed an order. I believe there was a Hugh Vanderveer here from Edmonton for a week about a year ago. He is a [illegible]

I think William Flett my sister and wife were present at the time my father signed the order. I heard Flett say last night that he was present at the time.

I told you on Saturday that there was no one present excepting my father, mother sister and myself when my father signed the order I was standing near him at the time

David Bannerman — Deceased

Isaac Pearce

I never spoke to anybody in my neighborhood about the order given to Vanluven. I did not mention it when I went home the other day after giving evidence here.

I was not at home when Vanluven served the subpoena on my son. My son told me of it about a quarter of an hour afterwards. We spoke about it that night to Jim Custer and my son in law John Flett

To Vanluven

Do not know whether my son Hugh was present or not. Do not think he was when I signed the note: It was almost dark when it was signed. I do not remember what the order was like. You wrote it on a piece of paper and read it over to me. My daughter told me on Saturday that she told you she saw me sign the note.

When Mr Keough came and he told me the Reaper was ready for me. He asked he

You were not present when I went for the binder. I refused to take it because the order was not right

2d W Pearce

If it had not been for the new statement I would not have taken the machine.

2d binder

I got the order from Forsyth when I came for the machine and knew that it was signed by Hugh Cameron & Co. Forsyth & Co that was not my name. In the order I required the machine was to be delivered not later than the 20th of the month. I say that the order was not my writing and was not signed by me.

The only startling thing in the proceedings was that it was Hugh Cameron instead of my name

I remember your asking me if I remembered saying the order was paid for and that was not the order.

When the order was produced I said it was and in signature Van Luven & that was the order I have given. I said "if you say that is the order I gave you it is so" I called William Lee &

I am a neighbor of David Bannerman
I was present when Vanluven and Bannerman had an altercation about a binder.
I came down with him that day to help
him take the machine home. He refused
to take it because he found the order
had been changed, and the name on it
was not not his own. It was not because
of the row with Vanluven. We went home
without the machine. We did not have
any conversation about the thing on the
way home. I heard for the first time
last Saturday that Bannerman had been
down giving evidence before you in this
matter. My brother John Flett told me.
I stayed at Bannerman's home last night
We had very little conversation on the Lord's
Day.

I was at Bannerman's home when
the order was signed. I was not quite sure
whether Bannerman gave one order or
more than one. I was present by accident
at the time - happened to call in as a
neighbor. I saw Bannerman sign the
order, He signed it "David Bannerman"
I do not remember what time of day it was

Bannerman

Bannerman signed it with a pen and
Canaan even positively whether he was
sitting or standing when he signed it but
I am positive he signed his name "David
Bannerman". I was standing behind
him at the time. His son, wife and
daughter were all standing about looking
at him sign the order

Q Tax Lawyer

Said Bannerman signed the order
with a pen. Do not know that it was a
fountain pen you used in writing the order.

On Saturday night I told you how
proud when the order was signed I asked
you then if Bannerman was injured while
drunk I did not say to you that when
you said that he had signed only the
one order. The I said "about" when
I had seen him, Bannerman sign it.
I said I saw him sign one order, I
did know what only for machine it was
for but that if he had only signed the
one I had seen him sign it was all
I knew that I had.

When I saw Bannerman sign
the order I knew it was for some

that the Jew was not there. Isaac I
know the Jew could write his name but
that was about all he could do. Isaac it
was unreasonable to suppose the boy
would sign the order with his father
in the house and his father being able
to write well. You said that that Bow-
man had signed a very good sig-
nature for you that day and that it
corresponded very well with the one you
got a year before on the order. I then
said it was a damn mean trick that
you were playing on the boy - to go
to the house when his father was not at
home and get him to sign for you; that
it did not look very well.

I came with Bowman when he
came in for the machine. When we saw
the order I said it was not Bowmans

Forsyth said Bannerman would have to take the binder, that he had his order for it and he took the order out of his pocket and read it to Bannerman. Forsyth said he was going to put the men who dealt into the machines. Bannerman finally said he would come in but he didn't want anything to do with him. He said that you and he had had some quarrels and that he wanted to deal with Forsyth. Bannerman did not then make the least suggestion as to the order being a forged one. All he said was that he had been in for the binder and could not get it. He said he would come the next day.

At the time I was working at Harris Dunn & Co's I was hired by Van Leuven and paid by him. 1st Thursday in Jan 7 1858 I took an order for a cliff-hanger from Mr Daniel Bauman at his home.

I told him I would not do that unless he made his mark asked him if some member of his family could not write, he told me his son could and asked his son to sign the order. his son sat down and signed it. before Mr Bauman handed me the order he remarked his son had signed his own name instead of his / his father's / I asked me if it made any difference. I told him not with me unless it did with him. I took the order and went to Harris Bros & Co Quarry shortly afterwards and did not see the order again to examine it until after Mr Bauman had absolutely refused to take the machine on his last trip in. Mr Forsyth agent for Harris Bros & Co brought up the order and left it with me about the 22nd July 58. After Mr Bauman left I asked Forsyth to see the order. he showed me it. and I asked him how the mark came on it (indistinctly) he replied that Bauman having denied the order stated I (Bauman) had signed it myself. On the back the order made his mark on it, in order to make him believe he Bauman had made the mark himself hoping to induce him to accept the order. I told him I did not like it, and that would preclude any possibility of compelling Mr Bauman

Sir,

I have the honor to enclose herewith as the evidence and correspondence relating to the charges made by Solomon W VanLaven against Forest Ranger C P Moore.

An investigation was held by me in the Land Office here on the 23rd ultimo Moore was represented by his Counsel Mr Fitz. Cochrane: the evidence of Moore and VanLaven was taken under oath and separately by Mr Rattan and when written out it was read over and subscribed as being correct by Moore and VanLaven. Some minor evidence was taken, in the form of affidavits, from Messrs Jenkins, McKenzie, O'Leary Maclise and Nelson: these affidavits are attached. There is also attached a memorandum of statements made before me on the 26th ultimo by Messrs Waggoner and Moore. The evidence of VanLaven and of Moore is of a directly opposite character. it cannot very well be summarised but will have to be read in its entirety to be clearly understood

Monsieur le Président,

J'ai l'honneur de vous informer que le Conseil municipal de Paris a voté dans sa séance du 5 février courant un crédit de 100 000 francs pour l'érection d'un monument à la mémoire de Victor Hugo.

Le monument sera élevé sur la place du Panthéon, devant la façade principale de l'église.

Le Conseil municipal a décidé que le monument serait confié à un artiste français, choisi par un jury composé de membres du Conseil municipal, de membres de l'Institut et de représentants des Sociétés d'artistes.

Le Conseil municipal a également décidé que le monument serait inauguré le 26 février 1885, jour anniversaire de la naissance de Victor Hugo.

Le Président du Conseil municipal de Paris,

Monsieur le Président du Conseil des Ministres,

115

[illegible]

understood.

On the 8th instant Moore appeared with one Bannerman who preferred a charge of forgery against Van Luven (see Bannerman's affidavit). Van Luven then asked for a subpena to bring Hugh Bannerman to give Evidence - which was granted. All parties, Moore. Van Luven, David Bannerman and his son Hugh, and Flett - a neighbor of Bannerman, appeared and gave evidence. Van Luven also filed two documents marked Exhibits "X" and "Y". Exhibit "Z" was written in my presence and you will observe that the writer, Hugh Bannerman, makes H of two different forms - one like that which appears on Exhibit "Y."

So far as the latter evidence is concerned - if I am to express an opinion - I must confess, judging from the manner of giving evidence, that I can attach very little weight to it for two reasons

1st - I think it very improbable that this matter had never been the subject of conversations in the family of Bannerman or of Flett his neighbor. From my own experience of people of this class I believe that such an occurrence would form the topic of very many conversations. It appeared to me that the Son had been well drilled as to what he would say and was

instructed

118 instructed to know as little as possible. Flett also gave his evidence as if prejudiced against Van Leuven. Reading it over I think you will come to this conclusion.

2nd: Until Van Leuven made the affidavit yesterday which is attached to the file, Bannerman, I think, was afraid that he would be sued on the order and naturally wished to strengthen his case: his evidence, therefore, is not wholly disinterested.

3rd: I would further direct your attention to the fact that Bannerman has stated that when he came for the machine he was prepared to take it and would have done so but for the quarrel between him and Van Leuven. This Flett contradicts, stating that Bannerman came down prepared to take it if it had been delivered according to order, but would not take it on the "Jungé" order. I think Flett is wrong in this as the question of taking or not taking the machine had been decided on the visit of Jungé to Bannerman and that Bannerman came prepared to accept it. Jungé had the order with him when he went to Bannerman's place and sent it to him. Bannerman did not then ask to see it. The conclusion I have come to in the matter is that Van Leuven's testimony

to

118

[illegible]

is the more probable. Cameron did not want the machine, his banner operations being nearly over, and if his son Hugh had signed the order as Van Luven asserts, he saw in this fact a reasonable pretext for repudiating it and embraced the opportunity.

Forsyth appears to have acted strangely in adding "his" to the Legislature. Van Luven states that Forsyth will call on you regarding this matter.

Of course Moore's object in hunting up this evidence against Van Luven is to throw discredit on him, but as far as the charge made by Cameron is concerned Schmidt that, owing to its very doubtful character, it may be eliminated altogether from the consideration of the matter under investigation.

With reference to Easton's evidence it is, as far as it goes, in favor of Moore although obtained at the instigation of Van Luven. Van Luven is of an excessively suspicious nature and while these land matters have been under discussion cannot see two persons talking together without suspecting that his affairs were being discussed. He is also of a very excitable temperament and has no doubt been greatly irritated by the many persons in Prince Albert who seem to have

nothing

118

nothing better to do than to amuse themselves by gossiping and making as much trouble as possible between neighbors

I would direct your attention to the memorandum of statements made before me by Waggoner and Moore on the 26th ultimo - from which it will be observed that the relations existing between these gentlemen are not such as should exist between men occupying their relative positions, and if it is decided that Moore shall be re-instated I would suggest the advisability of removing him to another district.

9 January 12 1884

Sir,

I have the honor to submit herewith confidential report, my opinion on the investigation of the charges preferred by Solomon W. Van Luven against Charles P. Moore, Land Ranger, which you were at liberty to investigate, if you deem it advisable to do so.

I gave both parties all the latitude they could desire, and it will be observed in the report of evidence, no affidavits etcetera to file, a great deal of testimony has been received which has no particular bearing on the case.

As no third party was present during the alleged negotiations of Moore and Van Luven it was impossible to get corroborative evidence on either side. The question was what is the value credible of the two and this is to be ascertained chiefly from circumstantial evidence bearing on the case. There is no doubt

doubt in my mind that Moore has given cause for the complaint (which Lemon. aland was prepared by Mr Vankeyhead) of unnecessarily alarming the settlers. Both Mr Dusk and Mr Waggoner state that such was the case: this, however. Moore denies — in fact Moore's defence consists chiefly in denying everything.

Stacey Van Lewen is somewhat of a "schemer" and if by means of a moderate payment a favorable report could have been obtained for his claim I do not doubt that he would have given the money. When asked by me why he continued negotiations with Moore he replied that he was afraid Moore and Evans might collude against him and possibly prevent him from obtaining his land: whereas by playing Moore and Evans off, one against the other, he thought he might eventually succeed in obtaining his land without paying anything. It will be noticed that Evans affidavit corroborates — to a large extent — the statements of Van. Lewen. Van Lewen, so far as I am aware, did not know the nature of Evans' affidavit until after he (Van. Lewen) had subscribed the report of his evidence.

Moore, on my arrival here was given, at his request, a copy of

all the affidavits that have been filed, to enable him to bring all the testimony he could in rebuttal. Moore never dreamed that Evans was deeper in the muck than he was himself, and he thought to make a "scape-goat" of him.

There is one point in particular which Moore has been unable to explain satisfactorily to me - namely, why, as an official of the Government, he did not spurn the offer of a bribe when it was first made to him, and report the matter to his superior officer. In justice to him, however, I must say that his explanation was received by Van Lewen's statement and he thought it impossible that Evans would do him (Van Lewen) a good turn. If Evans' affidavit is to be credited there can be no doubt of Moore's guilt although it is possible that Evans was far from being a disinterested witness. Nothing has been brought out in the investigation, however, to show Evans to have been guilty of any grave impropriety. His report on Van Lewen's No. 1 Quartz Claim to Deputy Duck just before the theft is as follows:-

"See Van Lewen (W.C. 1/4 25, Vol. 204) Has 11 acres broken, 2 acres in crop, no fences. House, small log, shingle roof, size 16 x 18, value $250. No stable or other buildings. Residence irregular and interrupted since 1st April last. Not there

now, September 22nd 1868!

A copy of my letter of instructions to Agent Duck directing Evans employment in St. Inspection is annexed to this letter, also a copy of Agent Ducks letter to Evans. You will observe that in my instructions to Agent Duck, Evans is required to report once each week but this is omitted in Agent Ducks letter to Evans having, apparently, been overlooked. The result was that Evans made no report at all until just before leaving and it is consequently impossible to tell whether he altered any report or not.

Moore is an inveterate tattler and underlyes his proclivity "in season and out of season". The investigation has shown, I think, through Moore's witnesses that he was incessantly sticking himself up in matters from which he should have rightly abstained — for instance arranging with Carter to go to Du his land and report to you; also offering to sell ploughs for Van Curen; his presence at the quarrel between Van Curen and Bowerman; discussing Van Curen with Forsyth — in fact, throughout the whole time, he seems to have been conversant with the details of every petty quarrel and gossip in the neighborhood. He does not appear to have had nearly enough to do as Forest Ranger. He chooses himself an

the

119 please that the duties of the position were new to him. At his age and with his confirmed proclivities I fear that he will never get over that propensity of his for gossip and preference for the business of other people rather than his own.

I think much of this fuss might have been avoided if Waggoner, at the commencement, had dealt vigorously with Moore. The latter, judging by his actions, appears to have thought that his position was entirely independent of the Coeur d'Alene Agent. I fail to understand why, when this matter was first reported by Mr Cavanaugh, Waggoner did not take Moore in hand and strictly define his duties and if, thereafter, he overstepped them, suspend him immediately and report to you. Waggoner appears, really, to have been afraid of Moore. On Waggoner's part it may be urged that, being new to the position, he scarcely knew how to act. The state seems very timid and asks as a favor that his name be kept out of the matter as much as possible and is very much afraid of Moore being again placed under him — if re-instated. If he is, Waggoner thinks it will cause him a great deal of trouble and annoyance.

probably soon receive a largely signed
Petition from the residents of this place
and neighborhood, asking that Moore
be re-instated and, I dare say, highly
Moore as an official. You are aware
of the value of such petitions. Moore
distinctly told me that he had nothing
to do with this one. I have been informed
by others that this is not the case and
further, that the thing is being got
up by the party with whom, for some
months, Moore has been boarding.
and who fears that if Moore is not re-
instated he will lose his board money

You may remember that Crown
Timber Agent Stephenson stated his
opinion of Moore. In the Examination
I asked Moore if he ever stated to an
official of the Department that it was
not the salary which induced him to
come to Prince Albert in his position
His answer is given in which he explains
what he meant. As to the value of his
statement you are as good a judge as
I am and I need not express an opinion
thereon (See paragraph "21" of Evidence).

After hearing all the evidence,
and seeing the parties who gave
it, my opinion is that Moore,
if not guilty of all that has been
charged against him by Van Luven,
has, to put it mildly, been guilty
of indiscretions of so grave a nature

as

119 as to unfit him for the position he has occupied.

I would particularly direct your attention to one clause in the memorandum of wherein Moore states that he was afraid of losing himself between the forks and Spruce Creek - between which points there is a well beaten trail - If liable to lose himself in such circumstances he certainly is not qualified to be a Forest Ranger

Should he not have time to go over all of them this season you will have him divide himself first to those which you desire to have earliest inspected.

You will please furnish him with a list of all entries to be inspected, date of entry, by whom entered. In cases where to your own knowledge the parties are complying with the homestead provisions of the Dominion Lands Act it will not be necessary to have an inspection made.

Mr Evans will report to you once each week and in his report he will state in each instance the area of land broken, area under crop, area fenced description and value of building and also the length of residence in each case which he will ascertain by the most careful enquiry possible

I have the honor to enclose herewith an application from Samuel Thomas Kitchen for S 1/2 18-48-25 W 2nd

The said S. T. Kitchen is a Canadian native born and a British subject by birth. He has his homestead entry for the N.W. 1/4 12 in the Tp. above mentioned and has resided thereon since 1882 and has broken 35 acres of the land. His application was accompanied by the S.E. 1/4 and N.E. 1/4 sec. 1/4 sec. having been taken in error. He also has his homestead 1/4 sec. in Manitoba but it is only 7 miles from Portage and being worthless only for pasturage and grass, and a large portion of it is under water. He makes application for this as it is lying so long idle is claiming exemption because of the hill of his statement that he has not sufficient means to settle upon and has to work for others to support himself and family. He is a good settler and has broken 35 acres.

Under these circumstances I would recommend he be permitted to purchase the S.E. 1/4 sec. and the N.E. 1/4 sec. 18 Tp. 48 Rge. 25 W 2nd as he only has claim for pre-emption right as above stated. I pay in cash for benefit of Crown the present value of the improvements he may have thereon.

We have the honor to make application for permission to survey and purchase three acres of swamp lands situated from three to five miles or thereby north of Prince Albert.

Our object in making this application is that we may be certain of having a supply of hay for the forty teams and two hundred head of cattle which we find necessary to the carrying on a lucrative lumbering operations at Prince Albert.

As the above mentioned lands there are only a few large swamps which are not near any settlers; these swamps will need a considerable outlay by way of drainage and clearing and we would respectfully request that we be allowed to proceed with this work at an early date so as to be able to make all of the hay this summer

As I understand the case, these lands at present are really lakes, hay can be cut only on a very limited area thereof, and in that portion only by hand, but by drainage to an very very considerable extent and clearing out of willows upwards of 1000 acres could be made available, these lakes having been formed by Beaver dams

increased consequently while no injury is done to any one, all are more or less benifited therefore I would recommend this to your favourable consideration

Until this land is surveyed I think it would be inadvisable to take any steps, but as I understand that the plans of the township in which they are situated are now or shortly will be transmitted to you, steps may be at once taken thereon

I understand that Mr Thomas McKay has a half interest in Mr Blanks allocation, said McKay being in my opinion as much, if not more, worthy of consideration as any of the others and all the parties are men of enterprise and able to carry out said drainage successfully

The only point that remains is how the different allocations are to be treated, or whether any preference is to be given allocants over any one else who may more wish to obtain them, and I would suggest one of three courses.

1st Ask for tenders from the public to drain and fit for hay the area determined to be drained, (that area would have reference to be obtained from the Surveyor Mr D.L.S. Reid,) as payment for the drainage the lowest number of years the hay or pasture would have

exclusive

124 effectively right to cut the hay or otherwise utilize the land.

2nd. That a lease might be granted as leases for any term of years, in no case to exceed 21 years, to Messrs Clarke & McKay and Moore & Macdonnell for 200 acres each conditional upon their commencing to drain and fit it for hay lands within one year from the date of Agreement the remainder can be leased to other parties after such drainage has been effected.

3. 200 acres of these lands might be sold to McKay & Clarke, 200 acres to Moore & Macdonnell and the remainder to be leased subsequent to drainage to the farmers in this neighborhood.

That is an undertaking which can only be carried out by considerable capital it would then be necessary to increase the area to be granted to Messrs Clarke & McKay and Moore & Macdonnell. but that can be obtained only through the Surveyor's report.

I have the honor to enclose herewith H.O file No. 1923. N.A. being the application of Geo. Scarlett, R. Gwynne & H. Keenan for coal claim on the South side of the Saskatchewan River opposite the town plot of Prince Albert.

These claims are purely speculative, the improvements if any are not more visible, the land is timbered, and if cleared is not suitable for agricultural purposes. For about a half mile back from river being largely swamp, behind that for two or three miles being nothing but sand ridges.

The parties in question have not called on me and I presume have abandoned all ideas of ever successfully prosecuting their claims. I have thought it advisable not to notify them regarding same, and return file in consequence.

These claims are not as good as Trueter's one which there has been some correspondence (See H.O. file 6/422 470/29) Trueter has called on me but I have told him to come and see me just before leaving. that there are many others on record more important than his. which should first be attended to.

de la Division pour sa belle
conduite le 28 Avril

In the Fall of 1887 he bought from one Austan the latters rights to N W ¼ S. 18. T 22 N R 3 W 3rd M. paying him therefor $550. He then began residence on this place and has resided thereon ever since, continuing at the same time to cultivate N E ¼ S 12 T 22 N.

Some time after purchasing from Austan Aream discovered that the only way to get title to this land was to cancel Austan's entry and enter for it himself. He made application accordingly and the case went by default but at that time he could not obtain the land excepting by purchase at $2.50 an acre - which he was unable to pay.

Last Fall he thought that by making entry to his original H. N E ¼ S 12 T 22 N R 3 W he could at once apply for and obtain patent. He made entry but his application for patent was refused on the ground of non-residence for the 12 months preceding his application

You will observe that Aream claims only a ¼ section in each case.

Under the circumstances I would recommend that the patent issue to him for N E ¼ S 12 T 22 N R 3 W and that

128

that on receiving his recommendation for the same he be permitted to make H. entry for 80 acres of nw/p 2 and P. entry for the other 80 acres of said pt sections at $2.00 per acre.

This is outside the provisions of the Dominion Lands Act but I presume comes within the class of cases recited in the O. in C. affecting the Prince Albert claims which I was to investigate and which the Land Board was to decide so that if you approve of my recommendation it will be necessary only to advise the Minister of the decision and if it meets his approval he will then notify the agent to give effect to it.

Sir,

In reference to the claim preferred by you in your declaration made at the Dominion Lands office here, that you should be allowed to purchase your pre-emption, SE ¼ 32. 48. 24 W 2 M at $1.00 an acre I have the honor to inform you that before the question can arise as to the price of your pre-emption you must first fulfill the duties of your home-stead in accordance with the requirements of the Dominion Lands Act. One of the prime requisites being that you shall have completed three years bona fide residence on your homestead before you can make application for patent.

I may further inform you that owing to your non-residence your entry as Homestead and Pre-emption to E ½ 32 48. 24 W 2 M is liable to be cancelled at any moment.

Monsieur le Préfet,

J'ai l'honneur de vous prier de vouloir bien me faire connaître si le Conseil municipal de votre commune a voté la dépense nécessaire pour l'établissement d'une ligne télégraphique entre votre chef-lieu et la station de Pierrefitte, sur la ligne de Paris à Bâle par Nancy.

Dans l'affirmative, je vous prierai de vouloir bien me faire connaître le montant de la dépense votée par le Conseil municipal, ainsi que la durée de l'imposition spéciale qui a été votée pour y faire face.

Dans le cas contraire, je vous prierai de vouloir bien me faire connaître les motifs qui ont déterminé le Conseil municipal à refuser la dépense.

Sir,

At the solicitation of Mr John Hutson I have the honor to request that he be permitted to interchange his homestead and pre-emption entries for S½ 28, 46, 27 W 2nd M.

The facts of the case, as stated by Hutson, are as follows.

In the Spring of 1881 he took up this ½ section and then commenced improvements, erecting his house on SE¼ of said section where he has continued to reside ever since. On this ¼ section he has his house, stable and granary, and 30 acres broken. He states the value of the buildings to be about $450: they are built of logs and can not be removed.

Hutson made H. entry for the SW¼, and P. entry for SE¼, in March 1882 and a few weeks subsequently discovered this error but failed until now to make application

In relation to Mr. Mahlon Masters 2 years old horse is respectfully referred to the undersigned for his opinion as to the pecuniary interest of said horse to the owner.

We have visited the horse, examined said Master, and do believe.

That the value of said horse is not less than $150 nor more than $200.

Mahlon Master owns the SW¼ of Section 7 and the SE¼ of Section 12 and has a large amount of hay and grain for sale. Inquire at Section 7 or 12.

for the desired interchange.

I have informed Hutson that I would recommend the interchange to your favorable consideration.

If this meets your approval please instruct Agent that on payment by Hutson of a fee of $10.00 he may interchange the entries.

If it be possible under the law that Hutson's time can count from the date he first went into residence it would be well to accord this privilege. The interchange of entries is cause of doubt in my mind about determining the question.

I have the honor to enclose herewith File 71st of Prince Albert Office being the application of one Michael Canny for S.E. and S.W. entry to S/2 12, 46, 28 W. 2nd M.

The file was once in your office and was returned to the Agent here because the corroborating witnesses were not neighbors of applicant. An additional affidavit has been attached - stating the reasons why he is unable to obtain the corroborating evidence of neighbors and from what I can learn I do not doubt the truth of his statement.

A memorandum of protest to the issue of patent to Canny - made by one Ambrose Lepine - is also on file. Lepine protests on the ground that he has 2 acres of breaking on the half section in question. Regarding this claim of Lepines it might be as well to instruct Agent to receive from Canny the value of this breaking before handing Canny his certificate. On this point

however, I cannot see that Lepine is really entitled to consideration.

Another affidavit do am file from one Louis Schmidt who also protests against the issue of patent to Canny on the ground that Canny signed a petition praying that the land along the River in his neighborhood should be subdivided into 10 chain lots.

It is further said that Canny has been instigated to make application for patent by certain persons here who seem to make it their business to create as much trouble as possible among neighbours.

As, however, with the exception of the claim of Lepine, there are no other counter-claimants to the land in question, and as Canny has been so long a resident thereon, I see no reason for refusing his application for patent

I Charles Patrick Moore of Prince Albert, late Forest Ranger, make oath and say

That with reference to the closing paragraph of a letter dated 18th November from D. J. Waggoner to Mr Walsh, Commissioner I wish to explain,

That I came to Prince Albert on the 27th August 1883. That a Mr Bowden was going down the River to Fort a la Corne to examine timber limits and Mr Waggoner said to me that it would be a good chance for me to go down with him and find out what I could about wood and timber. He asked me if I would be too tired, after resting only one day, I said I did not think I would be and was willing to go.

Mr Bowden and I agreed that we would take a horse back from Fort à la Corne. We looked about nearly all day trying to get a horse. Mr Waggoner sent us to VanLuven to see if we could get one of his horses. VanLuven said that his horses were in the Country and he could not give us one. We failed to get a horse and Mr Bowden got word in the Evening that Mr Beatty was going to send a York boat to the Forks. Mr Bowden came up from Gascheu and told one of these. He and I agreed to start

nett morning. Before we started I went to Mr Waggoner's bed room and asked him for some money to pay my expenses, Mr Waggoner gave me a $5 bill. We went down the River in the boat and got to the Forks in the Evening. We then went up to a farmers house on the bank occupied by one Beads and were told that Beads was in Prince Albert. I then went to the top of the hill and hallooed across the River. Came back to the house and told Mr Bowden there was a man coming across for us. One Letellier came across in a boat. I hauled the boat a half mile up the River. We put Mr Bowden's stuff into it and crossed the River. We stored the stuff in Mr Bowden's Letellier's store house and stayed with him that night. Letellier and I discussed the wood business for 2 or 3 hours that night. Letellier told me that Mr Goodfellow of Fort à la Corne, Clerk in the Hudson Bay Co's store could give me all information that was necessary in regard to the wood. I asked Mr Bowden if he was going to hire Letellier to take us down to Fort à la Corne: he said he was.

We started next day for Fort à la Corne. Called at the house of a man on the road and had dinner. Do not know the man's name. After dinner Mr Bowden said to me that as I had

had

had my dinner with him the day before I could give this man a dollar and that would "square" us. I paid the dollar and we went on to Fort à la Corne : arrived there in the evening.

I consulted with Mr Goudfellow until after 12 o'clock at night about the wood and timber. I told him I was sent up to look after the timber lands for the Government and that there was a Crown Timber Agent in Prince Albert Mr Goudfellow told me to see the Crown Timber Agent that if he would call on Mr Clarke, Chief Factor, H.B.Co. Prince Albert, he would tell him all about the wood as far as the Hudson Bay Company was concerned. I asked Mr Goudfellow if he thought it was necessary that I should go down the River ; he said he thought not, that there was no wood cut down there that he knew of excepting 200 cords at Sabins Rapids 50 or 100 miles below where Mr Bowden was going.

I said to Mr Bowden "If you can't get Indians to go down with you I will certainly go with you myself." Mr Goudfellow had given him to understand that he could hardly get anyone as the Indians were so independent at that time ; had got their treaty money or something. Mr Bowden, Letellier and I went to the Indian Reserve

to a Chief's house and get a man to go and before I left Mr Bowden had 2 Indians boys with him. I could not leave until I saw that he had secured them.

I called Mr Bowden to one side and asked what Letellier had charged him for taking us down to Fort à la Corne. He said £12. I said "that is outrageous". I said I did not know what I would do as I had no money to pay him. I asked if he had made a bargain with him before leaving the Forks Prince Albert. He said no. I said if I had known that I certainly would have made a bargain. and if I had thought he would charge that much I would not have gone at all. I called Letellier to one side and asked him what he would charge me for taking me to Fort à la Corne. He said he had charged Mr Bowden £12 but he would charge me only £6. I asked what he would charge to take me back again to Prince Albert. I said I was in a strange place, had no money and nothing to Eat. He said £30. I said that for this he would find me in grub and would take me back and forward across the River twice for this amount I said it was too much and I could not give it; that I would walk first. I was going to

start to walk. Letellier then told me that as I had no money and was a stranger he would do the whole thing for $20. I told him I would give him that if he would take me back to his own house and give me my dinner breakfast and supper next day - which he agreed to do.

I swear positively that Mr Waggoner never told me — as he says in his letter — to go down to Fort à la Corne and chamber wood - for he knew nothing about the wood at the time.

When we came back to Prince Albert I found Mr Waggoner at Taylor's boarding house. He said I had no right to promise the $20. that I should have walked home before giving that amount. I told Mr Waggoner that I was a stranger; had no money and nothing to eat and could not walk 50 or 60 miles. Mr Waggoner replied that the man would have to wait for his money; that he would not pay it. Letellier was present at the time. I said to Mr Waggoner "Let me have $20." - I still had the $5 he had given to me. He said "I will lend you $20" He went upstairs and fetched me a $20 bill. I paid this and the $5 to Letellier.

Mr. Lincoln's Letter

Dear Sir,

Please find enclosed a letter from Mr. Lincoln to Mr. Seward, which I have received from Mr. Lincoln's private secretary, Mr. Nicolay. Mr. Nicolay requests me to send the letter to you, as he is not sure of your present address. He says that Mr. Lincoln wishes to have the letter published in the Democratic papers of Chicago. Mr. Nicolay says that Mr. Lincoln wishes to have the letter published in the Democratic papers of Chicago. Mr. Nicolay requests me to send the letter to you, as he is not sure of your present address. He

Waggoner asked me for the money and I gave it to him, and thanked him for the use of it.

I swear positively that I was never asked to do anything in my official capacity by Mr Waggoner until the 2nd October. Mr Waggoner instructed me then that I was to go across the River and travel East west and North and find out where the wood was and to make a plan of the ground shewing where it was situated. On the 3rd October I crossed the River and commenced work. and when I returned I said to Mr Waggoner that it was very hard for a stranger to travel in that Country without a Compass. He said to me that I would soon have a compass; that he had written to the Government for 2. I went to a young man here and borrowed one. I could not get along without it. The time passed and no Compass came from the Government. The owner of the Compass I had borrowed was leaving Prince Albert and came to me and asked me for his compass. I said I would take it to Mr Waggoner and see if he would not buy it for me. The compass was

marked

133 marked £7 0s and he said he
would sell it to me for £5 0s.
It was a good compass. When
I asked Mr Waggoner to buy it in
the presence of another gentleman
in the office he said the Government
did not allow him or me to buy any-
thing whatsoever - and he again
told me he had sent for two Com-
passes and they would soon be
here. I returned the Compass
I had borrowed.

After I began work I reported to
Mr Waggoner every other day. He told
me I was doing a splendid business. On or
about 7th October I made out a plan in the
presence of Mr Evans upstairs in my room,
shewing the position of the wood I had found.
I took it down to Mr Waggoner who said
he would send it to the Government.

Up to 24th October I measured
of Hudsons Bay Co's wood about 702
cords and 446 cords the owners of which
were not known - this I reported to Mr
Waggoner. I went out several days after.
wards but could find no more wood.

The next thing that I heard after
that, not hearing anything about it in the
world before, was that I was suspended.
It was about 12 o'clock in the day when
Mr Waggoner handed me my suspension.

At that time I asked Mr Waggoner
had he anything against me as a man

He

4279

Mr.

133

he said "no". I asked him then, had he anything against me or regarded my official duties. He said "no - none whatever." Mr Waggoner was sitting down at that time. I said to him "I have been informed, Mr Waggoner, on good authority, that you are at the bottom of all this trouble". Mr Waggoner got upon his feet — I swear this positively — and said "I know no more about the charges preferred against you than the child unborn". Mr Waggoner told me to keep cool over the matter, and go to work very quietly - and try to clear myself of it. I walked out and had no more to say to him.

I used to go to Mr Waggoner's office occasionally and have a talk with him. I wanted ask him if he had heard anything from the Government. "Not a word". He wanted reply. The day his cheque came and mine did not, he expressed great surprise. This was the November cheque

I had no more conversation with Mr Waggoner about my dismissal until the day I had prepared my defence in the best way I could. I then spoke to Mr Duck asked him if he knew anything about the matter. He said he knew nothing about it but what Mr Waggoner had told him. and gave me a letter to that effect - stating that Evans said an offer had been made but did not say who had made it.

I met Mr Waggoner on the Stairs and said

133

paid to him that I had a letter from Mr Dowl and from Mr Sproat, and as he had said that he had nothing against me and I wanted him to be kind enough to give me a letter to the Minister. He said "Mr Moore I have kept clear of this thing as far and it would be better for me not to have anything to do with it - and it might be just as well for you." I said "all right," and walked away.

(See opening paragraph of letter to Mr Walsh from dated Nov 18 1883)

I further swear positively that whenever any one spoke to me about the Government and the land my reply always was that if the people would only have patience and wait the Government would do the right thing with them. I further told them when they asked me about their Claims to land, that I had nothing to do with these matters; that Mr Dowl had been appointed by the Government for that purpose and they turned on him.

Mr Haggarty never asked me to write one letter in his Office. He gave me [illegible] paper one day it was [illegible] and told me I could take them to my room and write my letters there.

Sir,

I have Herewith to Enclose herewith
1034 Prince Albert Office File Containing the application
of Joseph Parenteau Jr for Homestead Patent after
three years residence, of the S.W.¼ 28.44.1W3

You will observe it is somewhat
irregular, but I have requested the agent to
recommend it. Their first application was
Equivalent to have Parenteau's Pre Emption
Cancelled & have him entered for all north of
the Ravine and the mission all South. The
difficulty in that would be the Expense of
a Survey to enable the Department to accede
to their request, neither of the parties were
willing to incur said Expense. They then agreed
if the Mission would pay for the Pre Emption
he Parenteau would deed to the mission
on acquiring title all South of the Ravine
and they entered into a written agreement to
that effect. This written agreement was de-
stroyed but the undue Landing still Existed,
Morally binding at least, hence clause 8
has been Expunged and the attached
affidavit substituted.

I would therefore recommend it to
your favorable Consideration

P.A. file 1027

I have the honor to enclose herewith Prince Albert office file 1027 concerning the application of one Peter Turner to Homestead the N½ of the S½ 11 . 48 . 21 W 2 M. and to Pre-empt S W¼ 12 adjacent.

Turner since 1877 has resided continuously on the portion claimed as H. His improvements consist of buildings — which he values at $900 — and 40 acres under cultivation and fenced.

Should the claim of Mrs Thompson to the right to Homestead the S½ of S½ of said section 11 not be recognized Turner would prefer to enter, as H., S E¼ 11, and P. S W¼ 12. It might be advisable, therefore, to defer granting entry to Turner until Mrs Thompson's claim — which will be submitted to you with the other claim in this District — has been disposed of.

Should her claim not be recognized I see no reason why Turner should not

Sir,

I have the honor to inform you that Mr Henry Ruttle desires to erect a Grist Mill on the S.E.¼ 28. 45. 21 W 2 M. which has been entered by me as a Homestead but on which my residence has not been sufficient to Entitle me to apply for a Patent.

Mr Ruttle has satisfied me of his ability and intention to Erect a Mill and I have, therefore to request that all that portion of said S.E.¼ 28, lying South of the Canal River, together with the right to Erect a dam (10) ten feet in height flooding so much of my Homestead as a dam of that height will be cancelled and sold by the Government to Mr Ruttle on his building said Mill by the 1st Nov. 1884, should he not do so by that time, then this privilege to be accorded to the 1st person who will Erect such a Mill suitable for grinding flour and cattle feed for the settlement.

Encls. Sir,

I have the honor to enclose herewith a letter, this day handed to me by the Agent here, concerning alleged dissatisfaction existing in the District because what is known as the Prince Albert Colonization Company have not established a resident Agent to receive applications for entry to land in the Townships allotted to that Company.

This allotment embraces about 8 Townships situate near the South Branch of the Saskatchewan some of which have been surveyed and could be open for entry and the whole of them will soon be in a similar condition.

It is reported that there are several squatters already in this locality and many enquiries are made, at the Land Office here, concerning these Lands.

I would suggest, therefore, that if on the first day of May next this Company is not in a position to open its agency within the tract the Agent of Prince Albert district be instructed to grant Homestead entries and Pre-emption entries therein. 140

There is considerable feeling expressed here with reference to this Colonization Company as to the uncertainty prevailing with regard to the obtaining of entries in this tract. This feeling would be allayed if it were authoritatively announced to intending settlers that if the Company is not in a position to receive entries within the time specified the Land Agent here will be instructed to do so.

To the Honorable
Sir John A Macdonald

Dear Sir,

Having some time since had a conversation with Mr C R Moore concerning my settlement duties upon my Homestead entry and received a proposition from him that if I would pay a $100 he would secure such favorable report from the Land guide here that I would have no difficulty in securing my claim .. And having had a long acquaintance with Mr Waggoner in whom I place implicit confidence I at once applied to him asking his advice in the matter as I did not wish to compromise my claim in any respect Mr Waggoner advised me to keep my money in my pocket and have nothing to do with Mr Moore or the Land guide.

At Mr Waggoner's request I now write the particulars to you and hope that it will not militate against me receiving my claim.

The facts are these:—

After stating to Mr Moore that I had occasionally been absent from my claim but not more than four days at any one time. I then asked Mr Moore if he thought this was such a settlement as the Government would require. Mr Moore thought that it was not sufficient and advised me to offer the Land Guide money to induce him to make a more favorable report, at the same time saying

Monsieur le Président,

J'ai l'honneur de vous informer que M. Crispi, Président du Conseil, Ministre des Affaires Etrangères d'Italie, vient de me faire savoir qu'il a reçu de M. Rudini, son successeur au Ministère de l'Intérieur, communication officielle de la lettre que j'ai eu l'honneur de lui adresser le 10 courant, pour lui annoncer mon départ de Rome.

M. Crispi m'a répondu qu'il regrettait mon départ, et qu'il aurait bien désiré me voir rester à Rome jusqu'à la fin de la session parlementaire, afin de pouvoir me remercier personnellement de la manière dont j'ai rempli mes fonctions.

M. Crispi a ajouté qu'il me priait de vouloir bien, avant mon départ, prendre congé de Sa Majesté le Roi, et de Leurs Majestés la Reine Marguerite et la Reine Douairière.

M. Crispi a exprimé le désir que je me rende à Naples, pour y prendre congé de la Famille Royale, et il m'a prié de vouloir bien me charger de ses compliments pour M. Nicotera, Ministre de l'Intérieur, et pour M. Zanardelli, Ministre de la Justice.

Je suis, Monsieur le Président,

Votre très humble et très obéissant serviteur,

Le Chargé d'Affaires de France,

P.S. Remember me kindly to your wife.
Yours truly

he owned fit it all right with the Land Guide and a few days subsequently Mr Moore informed me that the price demanded was $100. I told him that I was poor and could not afford so much money. Mr Moore then said I would lose my claim even unless I paid the amount. I told him that I thought it hard that because a man was poor he must lose his claim and that I should feel very sore if such should be the case. Mr Moore left me and in a short time returned with Mr Evans who tried to smooth over the matter.

At this Stage of the proceeding I appealed to Mr Waygoner whose advice is above stated. Mr Moore now says that he has fixed the price with the Land Guide at $75- and that he has himself paid $25- and obligated himself the remaining fifty ($50) at such time Mr Evans wished to return East but that he, Moore, looks to me to re-imburse him in the matter.

And now in conclusion I will say that I have done the best I could consistent with my means & circumstances to make my residence legal, as I know it is conscientious. But if the Government should think that I have failed therein and sincerely trust that I may be allowed the first opportunity to purchase as my all is at stake in the improvements now upon the claim.

I have the honor to remain

Sir,

Owing to the isolated position of your agency and to the fact that the services of a Homestead Inspector are not available I have the honor to instruct you to adopt the following process in dealing with the Cancellation of H. entries, and to continue the same until you are otherwise instructed. The method adopted throughout the other districts not being applicable to yours:-

On receiving an application for inspection you will require applicant to deposit with you a bond fee of $20 as guarantee of good faith, and to make affidavit by interpreter that the entry in question is liable to cancellation; that there is no collusion between applicant and the person who made entry and that the application is made with a view to a re-entry of the land applied for by himself or by some one whom he must nominate

I have the honor to enclose herewith file number 1023 of the Prince Albert Office

The only irregularity about this that the pre emption is not on the Dam Section as the homestead but the custom has been to grant it on adjacent sections when improvements and residence were done prior to survey as is in this case, the township being surveyed in June 1883. The improvements on Sahys pre emption are not very much, but he came years ago to prevent any dispute to what proved to be his pre emption purchased one Gold hawks claim. Gould hawke had also claimed it as a pre emption

The other point is whether his pre emption shall be here or 102, on this head I have taken evidence he having purchased a claim to same. and it will be forwarded when with the remainder of the claims when the Report can be completed as to date.

Sir,

In reference to the parcel of land in the vicinity of Fort à la Corne, which you claimed on behalf of the Church of England, I would suggest that you prefer the claim in the name of the Church Missionary Society as I understand that the work done in connection with the mission established on the land in question was done solely by that Society, and that consequently the claim should be preferred by them.

As the papers appear at present the Department might be in doubt as to whether the land is claimed by the Church Missionary Society or by the Bishop of Saskatchewan in his Corporate Capacity. If it is decided that the Bishop should own this land the better way would be to procure a Conveyance from the Society to his Lordship after the issue of patent.

Sir,

I have the honor to inform you that I have this day been waited upon by one Ledger Gareault, accompanied by the Rev. Pere Andre in reference to a claim preferred by the former to the North East quarter of Section 23 - 43 - 2 W 3 M. which I believe has been before the Department, and he has been informed that he could purchase it at $2.50 per acre. He thinks he is entitled to it, if not after patent, at least at $1.00 per acre, and wishes his case reopened. He states that evidence is at Fort Qu'Appelle. He also seems to think that if this be considered at the same time as the claims of those in this District are, he will be accorded more liberal terms and wishes the evidence be forwarded to Winnipeg for consideration by the Land Board.

If you deem it advisable to reopen it, by forwarding the papers therein to the Commissioner it will be considered when the remainder of them are.

Sir,

I have the honor to forward herewith copies of two letters addressed by me to Messrs W.F. Maclise and James Preston of Prince Albert regarding claims severally prepared by them to land on the North Side of the Saskatchewan River opposite to the Town of Prince Albert.

The Preston Claim has already been before you (see D.O. File 40,029)

Mr Maclise, the other Claimant, is a Barrister and in order to establish a claim has only drawn a few house logs upon the land in question.

Sir,

I have the honor to enclose herewith a letter I have this day received from Mr. D. H. Macdowall, Member of the North West Council for the District of Lorne. Mr. Macdowall states his case pretty fully and I can see no reason why his views as to the registration of interim receipts, given by the Agent for land purchased, and countersigned certificates for recommendation of patent, should not be meet.

The time is particularly opportune, Parliament being now in session, and I would suggest your forwarding Mr. Macdowall's letter to the Minister giving him your own views as to the desirability of making the proposed change in the Law of registration affecting the North West.

Sir,

I have the honor to enclose herewith a letter from this Government addressed to Mr. H. M. Macdonnell, Premier of the Province of Ontario, by the Minister of France.

Mr Macdonnell states in his note that he is anxious to obtain certain information respecting the Crown Lands of the Province, and requests that the necessary instructions may be given in the matter.

I have in acknowledging the receipt of this communication, to inform Mr Macdonnell that I am prepared to forward any letter to the Minister of France which he may desire to address to the Government of this Province, and shall be glad to receive the necessary instructions in the matter.

Dear Pearce,

I should be much obliged if you would bring to the notice of the Land Board, when they are making their report on the subject of the Prince Albert claims, the importance of some changes being made in the law affecting the registration of lands in the North West.

As the law at present stands it is interpreted by the Registrars in the following manner - 1st That all deeds for registration affecting land must be registered in the Dominion Registry Office for the District - 2nd That deeds can only be so registered with respect to lands for which the patents have issued.

Few patents having been issued in this district, & homesteaders being on land for which patents have not issued, & this I believe without exception, the result is that, being unable to offer security on their land, during the hard times & low prices at present prevailing for produce ~~at present prevailing~~, very many of the farmers have been obliged to borrow money for their immediate necessities at enormously high rates — the usual rates being from 24 per cent upwards.

Even in a country such as the North West & in prosperous times it would be hard & perhaps impossible for a farmer to pay such high interest & make a competence with the hope of being able to redeem the debt.

The remedy I should suggest is:- that Dominion Registrars be allowed to register all deeds with regard to lands

(1) That have been purchased from the Dom: Lands Agent & for which the purchaser holds the Dom: Lands Agents interim receipt pending the issue of the patent.

(2) That have been recommended for patent. This would embrace all lands on which homestead duties have been performed thus making the homesteader entitled to a patent.

The result of this change would be that the large majority of farmers in this district would be able to borrow on mortgage at a reasonable rate of interest, & would thus be able to see their way to redeem their indebtedness when better times come with the future - increased settlement & opening up of the country. It is my belief that were this change made immediately it would ease matters so much as to materially relieve the trade-depression so heavily felt in this settlement & to alleviate the feelings of discontent which are in a great measure due to the straightened circumstances of the people. As matters stand then are many farmers who have not the means to put in a crop this year, but some such change as suggested above & put in force at once, would place it in their power to acquire the means. Yours, &c truly, D. McDowall

July 21st 1888

Dear Dean,

I should be much obliged if you would bring it to the notice of the Governing Bodies that we are making this request on the ground of the Prince Albert claim, the importance of some changes being made in the Law affecting the registration of Lands in the North Island.

At the time of Passing Statute it is understood by the Registrars in the Provincial districts - 1st That all deeds for registration & affecting land would be registered in the Provincial Registry Office for the District - 2nd That deeds can only be registered with regard to lands in that District.

The Lands thereby been assured in this district & consequently help on the wealth & prosperity of this District & this Statute evidently expedites the result if being made to affect assuredly & more speedily the land titles & the Province at large, thereby [illegible] every year many of the pioneers have been obliged to borrow money for their immediate necessities at enormously high rates — the usual rate being from 2½ per cent upwards.

There is a country such as the North Island & the Parliament time it would be hard & practically impossible for a person to [illegible] & make a complete search with the view of seeing only if perfect the title.

The remedy should suggest is:- that Provincial Registries be allowed to register all deeds until appeal to Court

(1) That there be Provincial Courts the time: Courts Court & for which the Provincial Registries Provincial Registry be open [illegible]

(2) That there be recommended for Native. This would enforce all deeds or which Provincial Registries Registry be allowed & Native.

The result of this change would be that the Law simplify & assure to their Chiefs would benefit to those or another are reserves with of natives, young Those to note is see there may & reduce their [illegible] when Native there [illegible] with the Law affecting the Registration of Lands in the North Island. - increased settlement & opening up of the country. It is only [illegible] these changes would immediately & would see matters so much better & assure to [illegible] as to materially relieve the Bank-Agencies so heavily left in this settlement & [illegible] the Judges of Provincial Courts are as a great measure due to the simplicity & assurance of the Law. Monsieur Clément.

Mr Mc Kay called upon me a few days ago - and, being desirous this evening to see Paretin, I instructed the Department to obtain application to Court for the Loan with which this Company replied that he was not a proper person to be trusted.

This is a case in which I shall be very glad to see Paretin prosecuted for he is a notorious swindler.

Depreau has been a resident of the West Indies since 1815 - and it is possible that his services in Louisiana with the Volunteer Corps of Infantry may be of importance.

Mr Mc Kay has this time been to Natchitoches - and, upon

connected therewith.

Mr McKay called upon me a few days ago - and, being fearful that somebody would cancel his entry to the land in question, I instructed the Agent not to receive applications to cancel until the 1st June next which will give time to consider whether Applicants request for patent can be granted.

This is a case in which I should like to see leniency exercised if sufficient grounds can be found to exist.

Applicant has been a resident of the North West Territories since 1875 and it is possible that his services in connection with two celebrated Polar Expeditions may be of sufficient moment to entitle him to the consideration of the Government.

Mr McKay had three Sons in addition to the Hon James McKay deceased - and none of

161

of these who are now living are in a position to assist him.

His son George died about a month ago, leaving a large family in comparatively poor circumstances. The Reverend John McKay, another son, is a Presbyterian Missionary in the North west and is also in indifferent circumstances - having a large family to support. The only other son is Angus McKay Indian Agent at Norway House who is as little able to render assistance as his brother.

The land in question has been occupied, apparently, since 1876 and the old gentleman's infirmities alone prevent him from performing the residence duties of his homestead. The house on the land has been occupied by tenants since

Sir,

I have the honor to report through you for the information of the Minister on my inspection of the Crown Timber Office at Prince Albert.

The Agent, Mr D.J. Waggoner, arrived here in the latter part of August 1882 Until 1st October he does not appear to have had an office: during that month he rented a room from one Taylor, paying $10, and in November rented an office from Mr. Elliot, paying $10.22. On 1st December he took possession of his present office, which was originally a store. The building is one story, 17 x 28 feet, owned by J.M. Campbell, the rental is $15 a month. The entire building is taken up by one room a portion of which is curtained off and serves as a bed-room for the Agent.

The office safe has not yet arrived. It was on board the Steamer 'Lily' which was sunk last Fall some distance below Medicine Hat.

The office is situate on the Main St which Mr Waggoner states admits of his seeing across the River and keeping a supervision to some extent over the timber trade.

The Agent has sent away, in all, 32 letters - none of which have as yet been indexed. and he has received 6-8 of which number 32 were entered in Letter Register and indexed by Mr Grosvenor, Assistant Dominion Lands Agent: the remainder have been merely booked.

He appears to know nothing of [illegible] keeping; his Office books and records has no cash book and his receipts and accounts are kept on sheets of foolscap: it is therefore impossible, without examining his letters, to tell how much cash he has remitted to Head Office.

I suggested his applying to Head Office for a cash book and Letter Index as well as a diary, that he may be enabled to preserve a record of all transactions.

In this connexion I would suggest that Mr Waggoner be instructed to apply to Mr Agent Duck for information concerning the proper keeping of his books. I am sure that Mr Duck will be glad to give him the necessary assistance. It is well that the

duties

duties of Mr Waggoner's office have not been very onerous. Had they been I fear that the present complicated condition of affairs would be hopelessly exaggerated.

He was informed by me that he would for the future be expected, every day before closing his office, to look and properly file his letters, enter them in his Letter Register and index them and to keep a complete index of all letters sent; also to keep a cash book so that a glance would shew the amount of money received and remitted to Head Office.

I have no doubt that he has endeavored to discharge his duties satisfactorily and that the failure is due solely to a lack of experience in office work. He will have for some time to come a difficult position to fill in the collection of timber dues - a strict enforcement of the Regulations being particularly distasteful owing in a large measure to the laxity which has characterised their administration in the past. in this District

Agent recommends that an allowance be granted the Forest Ranger for house hire in the prosecution of his duties or, rather, that the Government furnish a house to the Agent which

the

the Forest Ranger, can use when necessary.

On this point I may be permitted to express the opinion that it would be a somewhat expensive matter to carry out the agents suggestion. In the Dominion Lands Department the Land Guides get an allowance for horse hire of $2.00 a day, extending over 6 months; and I think that were the Forest Ranger to receive a like amount, as allowance, for a period of 3 months, or a lump sum of $200, it would be found to be sufficient for the purpose.

As it is possible that the Agent may think my strictures as regards the conduct of his office more severe than the facts warrant I would suggest, if the Minister approves, that a copy of this Report be forwarded to him.

Mr Waggoner states that Mr Cain a resident of Prince Albert applied to him for a permit for 25 Cords of wood, on obtaining which, and paying the dues thereon, he requested the Agent to find some one to cut and deliver the wood. which the Agent, as an act of kindness, did. He states that owing to his obtaining it more cheaply than could be done through local dealers he has no doubt incurred their displeasure

From reports which reached me I inferred that the Agent had used his official position to acquire property here from residents of the place at very low rates if not as a gift.

I enquired of Mr Waggoner as to the facts of the case and am informed by him that he obtained from Messrs Mair and Clarke a piece of land, East of the Land Office, about an acre in extent, for the sum of $100 - about ½ of the then selling price - one

Since my last visit the work of the office has been comparatively light altho subsequent to my arrival the Agent and Assistant Agent have been kept busy with the work connected with my investigation of claims.

The office work well conducted; the Agent appears to make his returns promptly and so far as I can learn the public generally are well satisfied with his treatment of them. The Assistant Agent Mr Gauvreau has been able, owing to his former experience, to render valuable assistance in putting the office in good working order. The Agent prior to his appointment to the position having had no knowledge of the particular duties and routine pertinent to his office.

Owing to the indefiniteness as to the limits of this district to be ultimately established the Registers cannot be arranged as systematically as is desirable. I have suggested that for the future the Agent shall base his arrangement of Registers, taking Township 89 as the Southern boundary of his District. I had hoped that the limits of this District would have been definitely fixed before this and that the Agent would have been enabled thereby to properly systematise his registers.

The work of the office from 1st September last, to date, has been as follows: —

46 H. and P. entries and 3 sales; 26 applications for Homestead Patent, 15 with Pre-emptions attached; All applications have been entered in the Township Registers to date; all receipts have been forwarded monthly and promptly to 31st December, as only $10 were received in January that amount has been retained for the February Return.

307 letters received have been all indexed excepting the last 50; 439 letters sent have been all indexed excepting the last 40. Referring to the latter I suggested getting an Index to cover several letter books because where one index is used for each book

book the arrangement must become inconvenient as the number of letter books increases, the Agent in course of time would have only his memory to guide him in referring to particular subjects.

Before closing I beg to direct your attention and to ask your opinion as to the advisability of keeping posted in the office a list of Pre-emptions connected with Homesteads the patents for which have been applied for. the Exhibit posted in the office to show when the six months given, in which to make payment, expire. I think that this would have the effect of constantly reminding Claimants or applicants for patent that the public generally are aware of the limit of time in which payment should be made and this would probably tend to urge prompt payment.

There is another matter in this connection to which I may allude. You are aware that a good many sales have been made in which the purchaser is given time on his payments. I would suggest, therefore, the advisability of keeping a separate Register for recording such sales to enable the Agent to notify purchasers when their payments become due.

Sir,

Since writing my confidential letter to you of 12th ult re my investigation into the charges preferred by Van Luven vs Moore, I have received additional information bearing on the matter which I have now the honor to report.

Evidence was offered by Moore not materially bearing upon the case beyond attempting to blacken the character of VanLuven, against whom Moore preferred a charge of forgery. and altho I think the charge not proven certain things transpired in connection therewith which reflect very little credit on Van Luven.

Sir

I have the honor to enclose to you for the consideration of the Minister my Report on the investigation of claims to land in the Prince Albert District.

As you are aware, I left Winnipeg for that point on the 7th January, reached Prince Albert on the 15th of same month, and returned to Winnipeg on the 7th inst., having been detained at Brandon two days investigating certain matters in connection with that office.

While at Prince Albert I was kept constantly occupied taking evidence, and when the number of affidavits filed, about 1000, is taken into consideration, and the class of people from whom the evidence was obtained, it will be seen that both Mr Ruttan and myself have been busily occupied. The parties furnishing evidence being generally of a class who have never kept memoranda of their own affairs. their education in business being limited. it was only after a great deal of questioning, comparing of dates, and reference to Neighbours

Winnipeg.
March 12th 1884.

Sir,

I have the honor to enclose to you for the consideration of the Minister my Report on the investigations of claims to land in the Prince Albert District.

On you are aware, I left Winnipeg for that point on the 4th January, reached Prince Albert on the 15th of same month, and returned to Winnipeg on the 4th inst. having been detained at Duck Lake two days investigating certain matters in connection with that office.

While at Prince Albert I was kept constantly occupied taking evidence, and when the number of affidavits filed, about 1000, is taken into consideration, and the class of people from whom the evidence was obtained, it will be seen that both Mr Britton and myself have been busily occupied.

The parties furnishing evidence having generally of a class who have been kept numerous of their own affairs. Their education is limited. It was only after a great deal of questioning, comparing of dates, and reference to

neighbours, that any approach to precision could be obtained, their dates having reference largely to the year of the Red River Rebellion, 1869 - 1870, the visitation of the Small pox in the North West in 1871, or the year of the flood on the North Saskatchewan in the Spring of 1875. Although it is probable that the evidence as to dates and sizes of residences in many cases may not be accurate, also as to the values of buildings and fences, in the latter respect great differences of opinion were expressed. I am glad to say, that I believe nearly the whole of it, however, was honestly and truthfully rendered. The errors, whatever they may be, are unintentional.

The experience and knowledge of Mr Agent Buck have been of the greatest service in this investigation. In my opinion, he has, in every case, expressed his honest conviction uninfluenced by personal friendship, or otherwise, in the slightest degree.

Before going into the merits of the claims, it is perhaps advisable to enter into a brief summary of the history of the Prince Albert settlement, so far as can be ascertained from the investigation, also a slight review of the surveys, the establishment of the Land office, and the correspondence which has passed between the office and the Department, as well as between the Department and various claimants in the District.

The settlement of Prince Albert was commenced in 1866 by the establishment of

167 [illegible]

[illegible] Thursday, that very afternoon it previous
would be attained. Their date Tuesday
afternoon largely to the year of the Red Rose
Rebellion, 1864 - 1870, the visitations of the Small
pox in the North West in 1871, or the years of the
flood or the North Saskatchewan in the
Spring of 1915. Likewise it is probable that
the increase in money would tend to be
reduced, also as to the values of buildings
and farms, as the latter reported great
difference of opinion were expressed.
How glad I am, that I belong mostly the
duties of it, however was hurriedly and
thoughtfully rendered. The exact, statutory
duty may be, are ascertained.

The reference and Town Judge of Mr. Grant
Hawthorne Town of the greatest service in
this investigation. In my opinion, he has,
in many years, expressed his knowledge
unqualified by personal friendship, or
otherwise, in the slightest degree.

Before going with the merits of the claims,
it is perhaps advisable to write with a
brief summary of the history of the Prince
Albert Settlement, as far as I am acquainted
from the investigation, also a
slight review of the County, the Establish-
ment of the Land office, and the correspond-
ence which has passed between the office
and the Department, as well as between
the Department and various claimants
in the District.

The Settlement of Prince Albert was
commenced in 1866 by the Establishment

167

of a Presbyterian Mission on what is known as Lot number 78 in the River Survey. The Reverends John McKay and A. Nesbit, together with some two or three servants, appear to have been at that time the only residents of the Mission.

Prior to the establishment of the Mission, and for some years subsequently, there was very little settlement in the neighbourhood, and it seems that the then residents were exclusively Half Breeds and Indians - By the term "Half Breeds", I mean men, many of whom now take treaty, and are therefor, legally, Indians, although having other than Indian blood in their veins, and who at that time were not regarded as Indians.

It is difficult to say, what at that time constituted an Indian in contradistinction to a non-Indian - Prior to 1876, the date of the Indian Treaty at Carlton, when the Indians ceded the tract of country which includes the Prince Albert settlement, there seems nothing to shew that there was any legal distinction made between whites and Indians - Subsequent to that date, the distinction being those who take Treaty and those who do not.

Does it follow that those who took Treaty in 1876 were Indians prior to that date? As this is a subject which requires more consideration than I can give it, I prefer not to express an opinion, particularly

of a Presbyterian Meeting or what is known as Sabbath morning Prayer Meeting. Mr Reverend John Preston, and C. Heath, Esquire with three or four Servants, appear to have been at that time the only residents of the Meeting.

Prior to the establishment of the Meeting, and for some years subsequently, there was very little settlement in the neighbourhood, and it seems that the then residents were exclusively Presbyterians and Unitarians by the term "Presbyterian" I mean many of whom were both friendly, and are therefore, legally, Christians, desirous, having other than Christian blood in their veins, and who at that time were not regarded as Christians.

It is difficult to say, what at that time constituted one Christian in entire distinction to a non-Christian. Prior to 1858, the date of the Christian Treaty at Pretoria, when the Christians ceded the tract of country which includes the Prince Albert settlement, there seems certainly to show that there was any legal distinction made between British and Christian - subsequent to that date, the distinction being, those who took Treaty, and those who do not.

Does it follow that those who took that Treaty in 1858 were Christians prior to that date? Or this is a subject which requires more consideration than I can give it, I prefer not to express an opinion,

Parliamentary

particularly, as I think equal, or nearly equal, privileges can be given, as a result subsequent occupation and residence, to those who now claim lots, and who heretofore have based their claim on occupation, at the date of Transfer, 15th July, 1870, by those who are now considered Indians; but who probably, at the time of the Transfer were not so regarded by the community.

As will be seen from the schedules very few claims have been preferred by reason of peaceable occupation prior to the Transfer. Of these claims only about twenty five per cent have been able to establish their right, as the Act clearly defines, that such claims must be established by bona fide residence of claimant, tenant or agent, or person through to whom title is obtained at or prior to 15th July 1870.

It appears that about the year 1869, the attention of outsiders was first directed to the Prince Albert District. Few settlers, however, commenced residence until 1871. From 1871 to 1873 it will be observed that few persons had settled in the District.

Those who settled prior to 1873 were, almost wholly, former residents of Manitoba, or ex officials or servants of the Hudson Bay Company, whose term of service with the Company had expired.

About the year 1874 a few individuals from the Eastern Provinces of Canada and from Great Britain, commenced to settle

ordinarily, as I think agreed, or nearly
good, principles can be given, as a result
subsequent occupation and residence, to
those who were aliens here, and who thereby
have lost their aliens or occupation,
at the date of Treaty, 15th July, 1870, by those
who are now naturalized Citizens; but who
probably, at the time of the
Treaty were not to be regarded by the Govt.
generally.

It will be seen from the Schedule very,
few aliens have been prepared by reason of
Records occupation prior to the Treaty -
Of these aliens only about twenty five
per cent have been able to establish their
right, as the Act clearly defines, that such
aliens must be established by two fold
evidence of alienage, Issued or Grant, or
proof shewing to whom title is obtained at
or prior to 15th July 1870.

It appears that about the year 1864,
the attention of authority was first directed
to the Inuvik Island district. The letter,
Inuvik, commenced residence until 1871
from 1871 to 1875 it will be observed that
we persons had settled in the district.
There were settled prior to 1875 were,
almost wholly, former residents of Manitoba,
or officials or servants of the Hudsons Bay
Company, whose term of service with the
Company had ceased.

About the year 1874 a few residents
from the Eastern Provinces of Canada and
from Great Britain, commenced to settle
in

in the District, and from that year until 1878, there was a moderate increase in settlement - Between 1878 and 1882 the great majority of the settlers arrived - The greatest number appear to have come in 1879, chosen their locations, and then returned to the East, bringing their families back with them to the Prince Albert District in the following year -

Few of the settlers in the District appear to have had any knowledge of the Dominion Lands act, and it is contended, I think honestly, that they all anticipated that their claims would be treated as they had been treated in Manitoba under the "Manitoba Act" - They seem to have been quite oblivious of the fact that the terms of the "Manitoba Act" extended only to those in occupation of lands at or prior to the 15th July 1870, whereas they have laboured under the misapprehension that if, at whatever date the Government should place these lands in the market, they could shew possession by reason of their own residence, or the residence of others, through whom they obtained title, they would be entitled to patents for their holdings for at least 160 acres - This opinion led to the transference of claims from one individual to another, out of which has arisen the present complications -

Two classes of settlers have entered the Prince Albert District from Manitoba, viz:- the English speaking settlers, largely

in the District, and from that year until
1878, there was a wonderful increase in
settlement - Between 1874 and 1881 the great
majority of the settlers arrived - The greatest
number appear to have come in 1879, others
their locations, and then returned to the East,
bringing their families back with them to
the Fraser River district in the following
year -

Few of the settlers in the District appear
to have had any knowledge of the Mennonite
faith, and it is contended, I think
truthfully, that they all anticipated that
their adopted world to Israelite - or they
had been trained in Manitoba under the
"Manitoba Act" - they seem to have seen
little objection after the fact to the terms
of the Manitoba Act" believed only to exist
in consequence of local or prior to the
15th July 1870, when they became followers
under the new dispensation, that is, at what-
ever date the Government should please they
should in the world, they could obtain
possession by means of their own exertions,
or the exertions of others, through whom
they obtained title, they would be entitled
to patents for their holdings for at least
160 acres - This opinion led to the trans-
fers of claims from one individual to
another, out of which has arisen the
present complications -

Two classes of settlers have taken up
the Fraser River district from Manitoba,
one: the foreign speaking settlers,

Mennonite

largely composed of Half Breed, and the French speaking settlers, who are, probably, wholly Half Breeds - The latter class settled in the neighbourhood of Stobart, Duck Lake, and the South Branch. Those in the latter District have not yet made entry to their lands, nor have any claims been preferred by them, owing to the fact that they anticipate a re-survey of the District into River lots - When this re-survey is completed these settlers will, no doubt, prefer their claims -

In reference to them, I have very reliable information to the effect that prior to July 15th 1870, not one French Half Breed settler was resident either at Duck Lake, or, where they are at present located, on the South Branch - at that date. However, a number of them were wintering at a point about 25 Miles South of what is known as Batoche's Crossing, probably, in Township 40.

These people, prior to 1871 or 1872, made a livelihood, wholly, on the plains, hunting or trading, and could, therefore, scarcely be called settlers - At the instance of some of the then leading members of the community, they abandoned their encampment (it could scarcely be called such) and settled where they now are - Their number has been largely augmented from the French speaking settlers of Red River -

this re-Journey is completed these Letters

In reference to them, I have very
little information to the effect that
prior to July 12th 1870, not one Pound Holy
Bread Letter was resident either at Bread
Cake, or, unless they are at present locate,

however, a number of them were Residing

Re Surveys

It cannot be urged successfully, that the Government have been negligent in the prosecution of Surveys - when we consider that the system of Surveys is regulated by Act of Parliament, and that, to make it as it should be, surveys in this District could be undertaken only, as they have been, it must be conceded by all who are familiar with the circumstances of the case that no time has been lost in advancing the surveys in the Prince Albert settlement. — In 1878, and the following year nearly all the land, as yet open for entry, was surveyed.

Prince Albert Land Office

An Agent was appointed for this District in the Summer of 1878, and arrived in Prince Albert in August or September of that year - Owing to various circumstances, it was not, however, until September 1881, that the office was regularly established.

Correspondence of importance, affecting the District seems to have originated in 1878 in a letter from the Agent to the Department, respecting the claim of one Peter Harris to River lots in Prince Albert numbered from 5 to 13 inclusive.

In reply to this letter the Minister states that River lots would be surveyed Two chains in width, running back

two

Re Re Survey

It cannot be urged too strongly that the Government have been negligent in the prosecution of Survey - when we remember that the progress of Survey is regulated by Act of Parliament, and that it works it is ordered to be, Survey in this district could be undertaken only, as they have been, it must be preceded by all works are familiar with the inconvenience of the case that so time has been lost in enhancing the Survey in the Towns Client settlement. In 1878, and the following year nearly all the land, as yet open for entry, was surveyed.

Thames Client Land Office

The Depot was established for this district in the Summer of 1878, and carried in Thames Client in Department of that year - During a portion of Government, it was not known, until September 1881, that the office was regularly established.

Correspondence of importance, affecting the district seems to have originated in 1878 in a letter from the Depot to the Department, requesting the return of one Peter Harris to Thames Lots in Thames Client surveyed from 5 to 13 inclusive.

In reply to this letter the Minister states that Peter Lots would be surveyed then others in waste. Surveying took

167

two miles from the River, and that settlers would be entitled to one as a homestead, and to another as a preemption.

In further reference to the above matter the Minister writes to the Agent, under date 20th January 1879. No. 12 301. as follows:-

"When your office is regularly opened, and having received the returns of surveys, you will prepare to take entries - If Mr. Nowie's sons have not gone on to their lots 5, 6 and 7, to live thereon, they will have neither homestead nor preemption rights to these lots, and, in such case, unless they should tender immediate purchase money, the lots will be open for entry by any one else - You will please inform Mr Stonie of the substance of this letter."

From the foregoing, it will be observed, that it was clearly the intention of the Government to permit the acquisition by any settler of two lots - one as a Homestead, the other as a preemption -

On October 8th, 1880, the Agent is instructed to obtain evidence by Statutory-Declaration in all cases of claims preferred in this District to land in occupation at or prior to the Transfer of the Territories to Canada -

The Agent is told to try to include in his enquiry and report all cases from Fort Qu'Appelle to Fort à la Corne -

Mrs

his wife from Rio, and that letter would be initialed if one of Immediately would be presumptive.

In further reference to the above matter the Minister writes to the Court, under date 20th January 1894, No. 12.301, as follows:-

"Upon your office is regularly opened, and having received the returns of January will prepare a table entire. If five Months have not gone or to this date, I send, to this Court, the will have neither Immediate or Presumptive right to this last, and, as such case, unless they should turn immediately the Treasury warrant, the last will be open for entry by any one else. Upon will have reference Mr Thorn's of the Entrance of this letter."

Upon the foregoing, it will be observed, that it was clearly the intention of the Government to permit the acquisition by any letter of two lots - one as a Homestead, the other as a pre-emption.

On October 8th 1880, the Court is instructed to obtain evidence by Statutory-declaration in all cases of claims figured in the District to look in occupation at or prior to the Inception of the Province of Canada.

The Court is told to pay to Wesleyan or his Agent any rental allowed upon that Section to be Reserved

On March 5th 1881 the Agent transmitted to the Department a report of his examination comprising in all 23 lots in the Prince Albert Settlement. In his accompanying letter he states that there are no settlers of the class reported in the vicinity of Carlton, and that he believes there are some at Fort à la Corne from whom however, no evidence had been obtained, presumably, the land had not been surveyed.

The receipt of this letter is merely acknowledged by Head office.

In Head office letter of 14th January 1879 to Agent is the following:-

"In surveying the Townships fronting "on the Saskatchewan all River lots will "be posted in ten chain width with a "depth back from the River of two miles- "The departure from this rule that has "been made in the case of the holding "of old settlers in Prince Albert and "other places was made in view of the "fact that the intention of the Government "to lay out the land on the River, had "not been generally known previous to "their occupation, but in the present "and future time, people are to understand, that no one can hold, in any "manner more land on the River than "I have above indicated - that is to "say, Twenty Chains as Homestead "and Pre-emption."

A Petition was given me to lay before the

On March 3rd 1884 the Dept transmitted to the Department a report of this accompanying, in all 25 lots in the Inner Chest Settlement. In his accompanying letter he states that there are no letters of the above reported in the vicinity of Cowlan, and that he believes that are here at Port à la Loss from whom, however, no evidence had been obtained, presumably, the hand had not been surveyed.

The receipt of this letter is merely acknowledged by Head Office.

In Head Office letter of 7th January 1884 the Dept is following:-

"In answering the Surveyor's printing "on the Postal Returns all Bare Lots until "disposed of in the ordinary with a "depth back from the Bare of two miles- "the departure from this rule that two "Bare weeks in the case of the Labrador "of old letters in Inner Chest and "other places was made in view of the "fact that the existence of the Government "to be long out the Land or the Bare, had "but been generally known previous to "this occupation, but as the present "and future time, people are to under- "stand, that no one can take up any "more Land or Bare than "shall have since existed - that is to "say Lands Shores or Harbours "such Description.

A Station was open as to say before

"the Minister of this Department from certain "settlers East of the main Prince Albert settle- "ment, to be permitted to retain their lands "with a half mile width of frontage, in "which manner they had taken up and "occupied them. — I have not yet succeeded "in having this granted, altho, I have "previously recommended it in view of "the reason above stated.

"Should any enquiries be made of you "by the parties interested you may inform "them that the matter is still in abeyance".

On the 11th March 1882 the Agent writes on behalf of the settlers of the Parish of St. Laurent, asking that the district where they have been settled shall be surveyed into River lots and on the rectangular system, and urges that this request be granted.

In letter of 21st Dec. 1882, Head Office replies that it is not the intention of the Government to cause re surveys to be made and proceeds as follows:-

"Of course any subdivision different "from the regular survey, which they "may desire, they can procure for "themselves, when the lands are in "their possession. You will please, there- "fore, communicate this decision to the "parties interested".

From correspondence in the files sent to me, it appears that it was the intention of the Government, as late as the Spring of 1883, to re survey into River

Lots

"The Minister of the Department from Baton
"Rouge Post of the years Three Oblong Settle-
"ment, to be permitted to retain their lands
"with a total area width of fourteen, in
"which manner they had taken up and
"occupied them. — There not yet proceeded
"in twenty this granted, altho, there
"provisionally recommended it in view of
"the years above stated.

"Should any inquiry be made of you
"by the parties interested upon what ground
"them that the matter is delayed,

On the 11th March 1870 the Department
wrote in behalf of the settlers of the
Parish of St. Bernard, asking that the
district within they have been settled
shall be surveyed into Farm lots - and
that this request be granted.

On letter of 21st Dec. 1870, Mark
Office replies that it is not the intention
of the Government to cause to be surveyed
in wards and proceeds as follows:-

"Of course any interference different
"from the regular survey, which they
"may desire, they can procure for
"themselves, when the lands are in
"their possession, for such places, there-
"fore, communicate this decision to the
"Parish interested."

There correspondence in the file
went to one, it appears that it was the
intention of the Government, as late as the
Spring of 1880, to survey into Farm
lots

167

lots, the portion of land settled upon by these Half Breeds in St. Laurent - While I was at Prince Albert I was waited upon by the Rev^d Père Végréville and Hon. Charles Nolin and on January 17^th 1884, I wrote the Minister on the subject, at the request of those gentlemen.

Head Office letter of 2^nd August 1881 instructs Agent to open his office, for the Homesteading, Preemption, and sale of Dominion Lands within the surveyed townships in his District and for the registration of claims to land not yet open - A copy of the Regulations of 25^th May 1881 is sent him and he is told to be guided by them in all transactions; he is further told that none of the lands in his District come within the 24 Mile Belt.

Owing to an oversight or miscarriage of instructions it was not until some time in the summer of 1882 that the Agent received a copy of the Instructions of the first of January of that year, hence great delay has occurred and hardships may have been inflicted on people by reason of their being unable to obtain entry to odd numbered sections settled upon prior to October 1879, as provided for in the said Regulations.

While on this subject you will remember, that in some cases in the Battle District, two months subsequent to the date of the Order in Council of the

Lots, the portion of Lots settled upon by three Half Breeds in St. Norbert - to this Lots at Three Oaks must be added upon by the Pembina Trail and Dawson Road. Otherwise Metis could not commence [illegible] 1871, Lands the Province or the Dominion at the request of Macpherson.

Head Office letter of 2nd August 1871 instructs Depot to open this office, for the transacting, henceforth, such sale of Dominion Lands within the surveyed townships in this District and for the registration of Patents & Lands sold open - A Copy of the Regulations of 2nd May 1871 is sent this and is told to be guided by them in all transactions; he is further told that there of the Lands in this District comprising the 24 Mile Belt.

Owing to an oversight or misapprehension it was not until some time in the summer of 1872, that the Depot received a copy of the Instructions of the first of January of that year, these great delay has occurred and there. Settlers were here disturbed or perplexed. By reason of this delay, would be advisable to add numbered Patents dated upon prior to October 1871, as provided for in the Dominion Regulations

Letters on this subject you will remember, that we have sent in the Battle District, two months subsequent to the date of the "Order in Council" of the

9th October, it was allowed to settlers to go into possession of their lands, that being considered a reasonable time after the issue of such order before the settlers resident in the Battle District could be apprised thereof.

If two months were a reasonable allowance in the case of the Battle District, when we consider the difficulties in communicating by mail in the Prince Albert District, at that date, it would be no more than reasonable to allow until 1st of May following, within which time, these Regulations should go into force in the latter District.

In fact where it can be shewn that a settler took steps to prove his intention of taking up land, by doing a little breaking or otherwise, but having to return to the East on business or other matters incident to his settlement, I would recommend, that in such cases, where it is shewn, that the individual started for Prince Albert as early in Spring as he could reasonably be expected to do, even altho, he did not reach there until 1st July, following, he should be accorded the same privileges, as if he had settled prior to the 9th October - Therefore in the classification the date has been extended until the 1st June 1880-

The next correspondence of importance seems to be the submission to the Minister of Mr Lawrence Clarke, of a series

of

4th October, it was allowed to settlers to
go into possession of their lands, that being
considered a reasonable time after the
issue of such order, before the settlers
resident in the Perth district could be
expected there.

If two months were a reasonable allow-
ance in the case of the Perth district,
how we consider the difficulty in com-
municating by mail in the Swan District
district, at that date, it would be no more
than reasonable to allow until 1st of May
following; within which time, the
Superintendent should go into force in the
Sutton district.

In fact unless it can be shown that
a settler took steps to have his intention of
taking up land, by during a little teaching
or otherwise, but during, to return to the
land or Assistant or other Settlers interest-
ed in his settlement should recommend,
that in such case, unless it is shown,
that the so introduced should for Swan
District be early in March or he could
reasonably be expected to do, even able,
he did not teach then until 1st July
following, he should be accorded the
same privileges, early, to take settle-
ment & the 4th October - Changes in the
Classification the dates has been reduced
until the 1st June 1870-

The most serious objections
seems to be the submission to the Minister
by two Persons Clerk of a Circuit
of

of Resolutions passed at a public meeting held at Prince Albert, October 8th 1881 which the following is a copy:-

1. Whereas land was reserved for Railway purposes only as late as May 1881, and previous to that date many bona fide settlers in the District of Lorne N.W.T. had performed Homestead duties on odd numbered sections: Resolved that the Right Honorable the Minister of the Interior be requested to grant homestead patents to such settlers.

2. Whereas the price of land for Preemption and purchase was largely increased in May 1881 and many persons had settled in the district of Lorne N.W.T. previous to that date: Resolved that the Right Honorable the Minister of the Interior be requested to grant to such settlers their land at a price in accordance with the Order in Council existing at the time of settlement.

3. Whereas previous to the Survey of this section of country many land claims were taken up, occupied and improved, by bona fide settlers, and on the Survey being made, found themselves on Hudson's Bay Company and School lands: Resolved that the Right Honorable the Minister of the Interior be requested to secure such occupants in their holdings.

4. Whereas many persons have been settled on land in this district for three years and more, and have performed the homestead duties required by law, and many persons have brought lands from such settlers

of Berkshire passed at a public meeting held at Three Cities, October 8th 1884 which the following is a copy:-

1. Whereas Land was returned for Rollway purposes as May 1884, and Pensions & that duly sworn Free Settlers in the District of Cairns N.W.T. had performed Threefold duties or odd something during: Resolved that the Right Honorable the Minister of the Interior be requested to grant Threefold Deeds to such Settlers.

2. Whereas the Area of Land for Homestead and Pensions was largely increased in May 1884 and many Pioneers had settled in the district of Cairns N.W.T. Pensions & that date: Resolved that the Right Honorable the Minister of the Interior be requested to grant such Settlers at Free in accordance with the Order in Council existing at the time of settlement.

3. Whereas on Pensions to the survey of this district of Country many Land claims were taken up, occupied and improved, by bona fide Settlers, and on the Survey being made, found themselves on Railway Reserves and School Lands: Resolved that the Right Honorable the Minister of the Interior be requested to issue such occupants as Free Holding.

4. Whereas many Pioneers have been settled on Land in this district for three years and more, and have performed the Threefold duties required by Law, and many Pioneers have thought Land from such settlers

settlers depending on the good faith of the Government for security in their holdings: Resolved that the Right Honorable the Minister of the Interior be requested to grant patents to such persons with as little delay as possible -

5. Whereas the Indian title in this Territory has not become extinct, and the old settlers and Half Breed population of Manitoba were granted Scrip in commutation of such title; and such allowance has not been made to those resident in the Territory: Resolved that the Right Honorable the Minister of the Interior be requested to grant such scrip to those settlers, thus placing them on an equal footing with their confreres in Manitoba - (6) Resolved that no land entries be made unless they are accepted in accordance with the Order in Council existing at the time such lands were taken up -

7. Resolved that the Honorable the Member for the District of Souris be requested to present a copy of the above Resolutions to the Honorable the Minister of the Interior and to obtain a reply -"

I would particularly direct your attention to Number 4 of the above series of Resolutions as it bears directly on the class of claims which now require to be considered.

On the 22nd November 1881, Head Office replies to Mr Clark's letter and treats the Resolutions seriatim.

Reporting

Regarding Number 4, however, it says, "Number 4 has been answered in the replies to the first three Resolutions.

So far, I cannot see that the replies to numbers 1. 2 and 3 of these Resolutions meet the case, and throughout the correspondence, there does not appear to be anything directly bearing upon it excepting a letter to Mr Clarke from Head Office, dated 14th April 1882. The point raised in Resolution Number 4 having been pressed upon the Minister, he, on above date, replies as follows:-

"The Minister, among other amendments to the Dominion Lands Act, which he recently proposed for the consideration of Parliament, has included a provision for the case of settlers who have complied fully with the Spirit of the homestead law before it was possible for them to obtain regular entry.

As you are aware, the amendments were withdrawn and it certainly was wise that, on re-submission in 1883, the proposed clause treating of this particular point was omitted - I have not with me a copy of the draft of that Act as submitted, I cannot, therefore, say in what way it was intended to apply.

We now come to the Order in Council of 9th July 1883, based on a memorandum of the Deputy Minister, dated 28th June last, laying down a basis for the settlement

Regarding Number 11, Tenure, it says "Number 11 has been answered in the reply to the first three Resolutions."

So far, Lennart is that the reply to Numbers 1, 2 and 3 of the Resolutions went the rounds, and Thereupon the correspondence, Then does not appear to be anything, directly, having taken it Receipt by a letter to the Clerks from Head Office, dated 11th April 1882.

The point raised in Resolution Number 11, Tenure, has passed upon the Minister, he, on above date, replies as follows:-

"The Minister, among other communications to the Governing Council, united to Parliament, has included a provision for the case of settlers, who have complied fully with the object of the Immigration Law, before it was possible for them to obtain regular entry."

Upon as above, the communication and it certainly was this, as he subsequently Explained to the Minister, Lennart, Tenure, Number 11 has been answered in the reply to the first three Resolutions.

So far, Lennart is that the reply to Numbers 1, 2 and 3 of the Resolutions went the rounds, and Thereupon the correspondence, Then does not appear to be anything, directly, having taken it Receipt by a letter to the Clerks from Head Office, dated 11th April 1882.

The point raised in Resolution Number 11, Tenure, has passed upon the Minister, he, on above date, replies as follows:-

He now owes to the Order in Council of 4th July 1882 based on a memorandum of the Deputy Minister, dated 2 preceding Sept, Copies have a basis for the settlement

settlement of all claims in the Saskatchewan district, which may be briefly summarised.

With reference to those who claim possession through peaceable occupation prior to the Transfer.

By clause 4 Sec. 125 of the Dominion Lands act of 1883, it is stated that possession can be established only through residence in person, or by tenant or agent and that in such cases 160 acres are to be patented to the claimant free, and should the River lot contain a larger area, the balance can be acquired at the rate of One dollar an acre in cash.

This clause does not provide for a claim to more than one lot, but, as will be seen from the Map of Prince Albert, these River lots vary in width from 5 to 20 chains. There is no reason why, if a man held 20 chains, he should not acquire it in two lots as easily as in one, so long as the two were adjacent, and no counter claimant.

In the matter of these River lots it must be remembered that the rule had been laid down that a settler was entitled to homestead 10 chains and pre-empt 10 chains adjacent. This, I submit, conclusively, the right to purchase the adjacent lot, to those settlers who establish title by reason of occupation prior to the Transfer, so long as the two lots did not materially exceed 20 chains in width and there should be no counter claimant.

359

167

settlement of all claims in the Scotch Colonies district, which were so briefly summarized.

With reference to this late claims pending there through possible overpaying prior to the transfer.

By clause 3 Sec. 125 of the Dominion Lands Act of 1883, it is stated that pensions can be established only where previous dues in person, or by tenant or agent and that in such cases proceeding are to be pushed to the claimant fyn. and should the Minister determine a longer one, the balance can be acquired at the rate of five dollars an acre as such.

This clause does not provide for a claim if more than one lot, but, as will be seen from the Draft of Terms called, these late have been in under from 3 to 20 claims - Thus in no case only, if a man held 20 claims, he would not acquire it in two lots as hardly is in use, during as the two were adjacent, and no vacant claimant.

In the matter of these late it must be remembered, that the rule had been said down that a settler was entitled to claims adjacent - This Lot, somewhere, the right to purchase the adjacent lot, to three settlers who settled by reason of occupying prior to this transfer, during as the two lots did not materially locate 20 claims in with one claimant in no vacant claimant.

If, however, a case should occur where the two lots materially exceed the area covered by a width of 20 chains and depth of two miles, I do not think the right to acquire the excess over the 160 acres claimed as Pre-emption should be granted at one dollar an acre unless the improvements should be such as to warrant specially liberal treatment.

It would seem further, from this Order in Council that special care was to be taken to preclude the possibility of one individual proving a free title to more than one lot by reason of occupation at or prior to the Transfer.

The Order in Council, however, further provides that should the cultivation by one person at the date of Transfer exceed 160 acres the whole amount so cultivated should be granted to him.

A perusal of the Order in Council in connection with this Report will be necessary to an intelligent understanding of the different classes of claims which have arisen, and as to how each should be be treated, but it is particularly noticeable that the class already spoken of as embodied in Resolution Number 4 is not touched upon at all, so that nothing remains but to treat each case on the equities thereof, according to the evidence furnished and in which a basis of settlement has been proposed for your consideration and if favourable you will recommend same for the approval of the Minister.

There

167

If Tenure, a case should occur where the late practically exceed the area covered by a width of 20 chains and depth of two miles. I do not think the right to acquire the lease over the two areas claimed as the surplus should be granted at one dollar an acre unless the surplus should be used as a necessary pasturing. It would seem further, from this Order in Council that special care must be taken to preclude the possibility of one widow- ished person by fire title to more than one but by means of acquisition at or prior to the Transfer.

The Order in Council, Tenure further provides that should the application for one person at the date of Transfer exceed 160 acres the excess cannot be sublivided, should be granted to him.

A perusal of the Order in Council in connection with this Report will be necessary to an intelligent understanding of the different classes of claims which have arisen, and as it has each should be treated, but it is particularly notice- able that the above already adopted by an authorized in Manitoba Tenure it is not intended upon actual settling remains but it must each case on its requisites thereof, according to the evidence furnished and in terms of settlement has been prepared for your consideration and if favourable upon will recommend same for the approval of the Minister.

There is a point in the order in Council alluded to particularly worthy of attention. The Deputy Minister recites the enactment in Sec. 5, 43 Vic: Cap. 26 which provides that the Government is not bound to protect any one found to have been settled on odd or even sections prior to survey; but he goes on to observe that, "it would" "seem unfair that a settler, who began" "his farm at Edmonton in 1871, a time" "when Homestead settlers with half a" "dozen miles of Winnipeg could obtain" "preemptions at a dollar an acre, " "should have to pay for his pre-emption" "the Regulation price per acre in June" "next when the office for that district" "may be opened for the giving of entries"

He goes on to state that the enactment in question received great publicity, immediately after its passage, throughout Manitoba and the adjoining territory; but before there was nothing to discourage the pioneer in settling in advance of Survey, rather on the contrary, the provisions with reference to School Sections occupied before Survey, tended to strengthen the presumption that he would be protected. In practice he was so protected.

The Deputy Minister therefore suggests that it would be only a reasonable concession to allow settlers West of the 2nd Meridian, who took up land prior to 14th Oct. 1879, to receive not only their Homesteads on odd or even sections, but also their preemptions

The Deputy Minister regrets the unwillingness of the Government to provide that the Government is not bound by any error found to have been settled or made or were dealing prior to August 1st, 1905, or to observe that "it would" "have uniform that a letter, who keeps" "his farm at Edmonton on 1st Sept. a time" "when homestead duties with half a" "day's ride of Wainwright would obtain" "exemption from a duties on area," "should have to stop in his employ" "the Regulations prior per area in force" "must when the office for that district" "were opened for the giving of entries" "by" to state that the most unsatisfactory after the passing, throughout Manitoba and the adjoining territory; but before this was nothing to discourage the pioneer in settling on odd sections of Government, either the contrary, the practice with reference to Soldiers desiring exemption before taxes, tended to strengthen the presumption that it would be practiced. The Deputy Minister thought suggested that it would be only reasonable concession to allow settlers until the 2nd Nov. 1905, who took up land prior to 1st Oct. 1904, to reside not only three months or odd or two days, but also three

pre emptions at one dollar an acre.
He lays down the Second Meridian because
West thereof the Government had issued
nothing to designate the location of the
Belts thereon.

A Post office was first established
in Prince Albert in the Autumn of 1879,
prior to that date Carlton being the
nearest Post office, about fifty mile distant.
The mails were brought from there to
Prince Albert, irregularly, as opportunity
occured.

After the establishment of a Post office
at Prince Albert in 1879 the mails were
transmitted with tolerable regularity,
about once in three weeks until
January 1880. From the last mentioned
date until the opening of navigation
in the following Spring the Prince
Albert District was without a mail.

It is also urged on behalf of the
Settlers in this District that whereas, in
others parts of the Country, the lands
have been enhanced in value by
the construction of the C.P. Railway or
other public works, their lands have
been made valuable chiefly by their
own labour and exertions. The only
opposition that can be urged against
this opinion is that the settlers in
Prince Albert District have benefitted
by the supplies, chiefly flour, required
for the Indian Department. As to
this, they state that the Government
has

A post office was first established in Jones Valley in the Autumn of 1879, prior to that date Granby being the nearest post office, about fifty miles distant.

The people were brought face to face with Jones Valley, as opportunity occurred.

After the establishment of a post office at Jones Valley in 1879 the people became acquainted with towards navigating about over in three weeks until down as 1880 - then it last reached and did until the opening of navigation in the following Spring the Jones Valley district was small.

It is also urged on behalf of the district that, whereas, in other parts of the Country, the people have been assisted in order to the construction of the C.P.R. line or other public works, this people have done work valuable although by their own labour and services - The only objection that can be urged against this opinion is that the settlers in Jones Valley district have benefitted by the expenditure, although given, required for the Provincial Government - As is this, they attach the Government

has benefitted equally with themselves, in getting cheaper flour - There is no doubt that indirectly the construction of the C.P.R. has benefitted them but the urge with some force that it has also lowered the price of flour supplied to the Indians along the North Saskatchewan at least $2.00 per hundred pounds, and has correspondingly reduced the price of wheat. It may be urged that these settlers went there of their own free will, expecting to reap the benefit, as pioneers, when the tide of immigration turned follow them - On the other hand they urge that a settlement like Prince Albert is of incalculable advantage to the Country in furnishing at moderate cost the supplies needed by these immigrants -

I have thus gone pretty fully into this, so that you may be conversant with all that has been urged on behalf of this settlement, and also the reasons that have governed my conclusions as to the mode of treatment to be adopted.

In basing the recommendations generally on the several cases on the value of improvements as they existed in May 1885, I have done so because that was the time of the great land excitement, and it was generally thought then, that 2 x 4 entry would be accorded those who had complied

the Interfaith Council with themselves in getting Chaplain Flynn. There is no doubt that we durselfs the annexation of the C.P.R. has benefitted them but the wage earners that it has also benefited the people of Flora supplied to the factory the North Saskatchewan at least 2^{00} per thousand pounds, and the corresponding enhanced value of natural. It may be urged that these letters merit the of their own free will, especially to reap the benefit, experience, when the tide of immigration turned following them - On the other hand they urge that a settlement like Prince Albert is of no calculable advantage to the Country in furnishing at moderate cost the supplies needed by these increasing wants.

Since this is getting fully into this, so that you may be enumerated with all that has been urged on behalf of this settlement, and also the reasons that have induced our Executive not the needs of treatment to be adopted.

In doing, the recommendations generally on the line of road on the plan of improvement setting forth in May 1882, I then drew to mind that was the time of the great land settlement, and it was generally thought that 2nd rate settlers would be secured those who had capital

with the homestead requirements of the Dominion Lands Act. And as will be observed in the letter of the Deputy Minister of 11th April 1882 addressed to Lawrence Clarke of Prince Albert it seemed fair to infer that patents would be granted those who had completed the homestead duties in spirit, if not in the letter. On this head it may, no doubt, be urged that so long as three years residence has been performed, it is not material whether it has been done by one or several. No Homestead Act that was ever put in force contemplated this. The object of granting Homesteads was to make permanent settlers of those who took up the land, at least to such an extent, that the value of the improvements made by them would be such that the land would not be in danger of reverting to a state of nature, owing to its falling into the hands of speculators. The very fact of short periods of residence is a good criterion that the occupation has been of a speculative or make-shift character. In such cases it will probably be found that the occupants devoted very little attention to improving their holdings. If improvements in such cases should be really valuable they, as a matter of course, deserve more consideration.

Regarding the River lots in the Neighborhood

with the Homestead requirements of the Dominion Lands Act. But as would be observed in the letter of the Deputy Minister of the 14th April 1880 addressed to Lawrence Clark of Three Oaks that Patents would be granted three years from completion of the Homestead duties as stated in the letter. On this head it may be well, to urge that as long as Three years residence has been performed, it is not material whether it has been during the one or second - The Homestead Act that was now part in force contemplated this - The object of granting Homesteads must be permanent settlers of these who took up the land, at least to meet on behalf, that the improvements made by them would be in case of inserting it a state of nature, owning to ill health - with the Homesteaders - The very fact of short periods of residence is a good criterion that the occupation has been of a speculative or trade. theft character - In such a case it will probably be found that the occupants devoted very little attention to improving their holdings. If improvements such were made should be hardly noticeable thing, as a matter of course, there were none considering the time had in the

167

neighbourhood of Prince Albert (Town) it may be said that so far as cultivation is concerned the land in the majority of cases has, by disuse, become weed grown and is not now as valuable as if in a state of nature - The establishment of the Town, and the existence of cows, horses and pigs incident thereto, has rendered it extremely difficult and expensive to keep up the only kind of fencing available to the settlers for the protection of their crops, freight rates and the high price of lumber rendering it impossible to erect barbed wire or board fences, and the ordinary fence of poplar poles is of such as nature, as to afford a very weak defence against the encroachment of cattle where pasturage is limited, hence a large area that has been cultivated, and still could be, has been abandoned, the cost of maintaining fences in these conditions being greater than the value of the products of cultivation. Therefore, taking the "Mission" (Presbyterian) property as a centre, I think two miles above and below that point should be allowed as a reasonable limit within which cultivation might properly be abandoned - This area would be bounded by lot 82 on the East and lot 60 on the West.

It will be noticed in the recommendations that the test of bona fide occupancy has been based on the cash value of the improvements.

weight-theorem of Prince Albert (Thm.) it
must be said that he has a distinctive
ingredient the Lord in the majority
of cases Thm. by theses. Theorem must prove
and is not now a valuable early in a state
of nature - The establishment of the Thm.
and the existence of cows, horses and pigs
was first that. Has rendered it extremely
difficult and expensive to keep up the
only kind of farming available to the
settler for the purchase of this crop,
freight rates and the high price of
human remaining it impossible to
meet border wire or town farm, and
the ordinary farm of popular parts is of
such as nature, cattle - offend - over
much defence - against the encroachment
of cattle unless protection is limited,
time, a large area that the farm cul-
tivated, and still could be, the farm
abandoned, the cost of maintaining
fences in this sandstone being greater
than the value of the product of cultivation.
Therefore, taking the "Prairie" (Productive)
property as a centre, district two miles
above and below that point should be
allowed as a reasonable limit within
which Cultivation might properly be
abandoned - This area would be bounded
by Lot 52 on the East and Lot 60 on the
West.

improvements on lot. This may, in some cases, appear rather hard, but under the Homestead Act, each party is required to reside upon and improve his holding for at least six months in each year, for three years and he would be a very poor settler, if in that time, his improvements did not amount to $600. The only basis on which these claims can be adjusted is the cash value of the improvements, as otherwise, it would be found, that many claims would be preferred by persons who have never, bona fide, resided in the spirit of the Land Act.

The claims have been divided into the following classes. The first six apply to the River lots in Prince Albert; the remainder to lands other than River lots.

Class 1

Those by reason of residence on, and peaceable possession of, on and prior to 15th July 1870 - the date of the Transfer.

Recommendation

River Lots. 160 acres free; 160 acres at $1.00 per acre, balance, if any, at $2.00 per acre.

It will be found that, possibly, with one exception, that of John McDonald River lot No 81962, none claiming River lots have conducted farming operations thereon, to such an extent, as to warrant granting more than 320 acres at the minimum price. In one or two cases

the

improvement on lot. This way, it saves cost, officer rather than, but make the Municipal Bet. Each party is required to make open and improve his holding for at least five months in each year. Failure thereof to be a very poor letter, if in that time, his improvements did not amount to $800. The only basis on which these claims can be adjusted is the cash value of the improvements, otherwise, it would be found, that many claims would be forfeited by persons who have never been on the land.

The claims have been divided into the following classes. The first two applied to the Bois Lots in Jones Ellert; the remainder to other than Bois Lots.

Claims taken up since date of Transfer by claimant who is still resident thereon having completed at least three years residence.

Recommendation.

From the letter of the Surveyor General to Agent Duck dated Dec. 79 concerning Peter Hourie's claim, the right to homestead on River lot and preempt another is conceded. Where bona fide residence commenced prior to 1st June 1880. Would recommend preemption at $1 per acre, if subsequent to 1st June 1880 at $2.50/100.

Where only on Lot is taken the area in excess of 160 acres to be paid for at the rate of $1 or $2 per acre according to date bona fide residence commenced. If two lots are claimed out of surveyed area grant 160 acres as homestead, 160 acres as preemption at price at date of settlement, all in excess of 320 acres to be paid for at $2. per acre. there were no regulations prohibiting the purchase of lands to the extent of 640 acres, whether odd or even. This class includes those who have Homestead and Preemption entry, and who wish to purchase one or more 1/4 Sections in addition.

— Recommendation. —

As these claims are based on occupation of the land at a time when there was no distinction between odd and even Sections, would recommend that applicant be treated on the basis of the recommendation in Class 9. If applicant has Homestead and Preemption entry, consider the preemption as purchase, the value of improvements to entitle claimant to proportionate area as in Class 9. Thus the total value of his improvements to be taken into consideration whether made on Homestead or other part of Sect. No. 6. 9. A. has a homestead and preemption but claims right to purchase remainder of section would grant right to A. 1/4 Section in addition to his preemption, if total value of his improvements were worth $1000; to 1/2 Section, if improvements are worth $1500.

It will be noticed that the evidence of transfers of lands consists in many cases of a mere affidavit of the fact. There can, however, be little doubt that the present claimants are the true ones. It is certainly remarkable, and speaks eloquently for the honesty of the settlers there, that under this loose system of transfer there is not one case of disputed ownership of lands

The 13th inst re Prince Albert and think you need not give yourself any apprehension over your lots near Prince Albert but what you will be liberally dealed.

I found that a large number of the cases were not provided for by the "Dominion" passed for settling those claims. So soon as I obtained all the evidence I divided them into classes, made a report thereon and have submitted to the Minister. If he approves an "Order in Council" can then be passed and the titles granted thereunder. It left here 3 days ago.

So far as the Indian title is concerned if my recommendation is approved you can be as liberally dealed with as on the prairies you claim, and the said indian title if admitted as has been pressed would I think open a loophole to an indefinite number of bogus claims being preferred.

16468	2		1 House, 1 Stable + 28 acres cultivated - Purchased from Thos. McKay - 1 year in possession - says he has about 40 chains frontage & Johnston is adjacent in possession of House -	Mackie states that he bought lots 2 and 3 from Thos. McKay, who, he believes, bought from one Webster, who had a shanty and house partly erected, & 18 acres broken on both lots. States that he had only a verbal transfer from McKay.	Recommended - 160 acres as Homestead - balance as Pre-emption at $1.00 per acre - Homestead and Pre-emption Entry fee to be paid by Claimant. A. Mackenzie. Commissioner. Thos. Lawe Inspector. Winnipeg April 7th 1884
16469	31		1 House, 19 acres cultivated Purchased from N. Erasmus 2 years ago - Farm at present in possession & worked by James Anderson -	Chas. J. Anderson, Claimant, was absent; and his son Joshua gave evidence as to his father's residence and improvements.	
16470	33		Kennedy has a house and small stable in the front of this Lot - Do not know what he claims - Has only been in possession a short time	Peter Hownie is farm Instructor at Touchwood. The evidence of his son was therefore given; and is, no doubt reliable. Probably no Deed from Hownie to Boyd. Boyd sold lot to Kennedy in 1878; but deed was not made till 1881. Kennedy died intestate: his brother Jno. J. Kennedy Administrator, & his Widow administratrix. Deceased left Widow & four children.	In deed Boyd to Kennedy it recites there was a deed Hownie to Boyd dated 2/3/77
16471	47		1 House - 8 acres cultivated - House vacant -	Flett is entitled to Pat. by reason of 3yrs residence of himself, without reference to former residents. The Deed, Campbell to Flett is signed by Alex. Campbell as atty for Rodk. - P. of attorney is attchd. Not a regular P.A. - merely a statement that Alexr. Campbell is authd to act. - Rodk. Campbell, as far as can be learned, is not in the Country. - This conveyance, although not perfectly regular, is undoubtedly Genuine.

16477	1		Russell - Good farmer 40 ac. fenced and under cultiv. 3 years in possession.	McKays purchased from Drever - Drever began residence in 1875 Drever resided on Lot 1 &. Lot 1 has been changed in Survey of Tp. 47. R 1 W. 3 made by Rausher in 1879 - The Department have instructed Agent that Rauscher's plan is the one he is to be guided by, therefore Billings instead of getting patent for Lot 1 W 3 P. M. containing 238 acres will be granted all of River Lots 1 & 2 Tp. 47. R. 1 W 3rd in excepting there out the rear 40 chains of said lot containing 255 acres. 16479	8.		no report special to this Lot -		Residence accomplished - but improvements meagre - to be sold at $1.00 per acre
16480	10.		same as Lot 8.	Edward Fiddler came from Manitoba where he held land under Hom. Act.	In conformity with requirements
16481	14		no occupant.	See copy of Will on file and statement made by Edward Fiddler deceased's father, and Mrs Fiddler (widow of deceased) From statements of both parties it is probable that about a month before his death deceased on being removed by his father and brothers to his father's House had them prepare his will leaving the larger portion of his property to his wife - His wife accompanied him to his father's house. after being there about a week she states that deceased, probably instigated by his brothers turned her out of the house. She returned to her father's house - He probably then destroyed the former will and made a new one dated 24th January 1882 of which copy is attached It seems a very hard case for the Widow, and if Law permits widow to be protected, think it desirable that this should be done.	In conformity with requirements
16482	17		1 House 1 Stable - 20 acres Cultivated - Purchased claim from W. ટપાલ ખાતાની કામગીરી

ટપાલ ખાતું એ સરકારનું એક મહત્ત્વનું ખાતું છે. આ ખાતું દેશના લોકોને પત્રો, પાર્સલ, મનીઓર્ડર અને બચત બૅંકની સેવાઓ પૂરી પાડે છે. ગામડાંઓમાં ટપાલ ખાતાની કામગીરી ખૂબ જ મહત્ત્વની ગણાય છે.

ટપાલ ખાતાની કામગીરીમાં પત્રોનું વર્ગીકરણ, પાર્સલનું બુકિંગ, મનીઓર્ડરનું ચુકવણું અને બચત બૅંકના ખાતાઓનું સંચાલન મુખ્ય છે. ટપાલ ખાતાના કર્મચારીઓ પોતાની ફરજ પ્રામાણિકતાથી બજાવે છે.

ટપાલ ખાતાની કામગીરીમાં ટપાલ પેટીઓમાંથી પત્રો એકઠા કરવા, તેમનું વર્ગીકરણ કરવું, યોગ્ય ગામ કે શહેરમાં મોકલવા અને પહોંચાડવા સુધીની પ્રક્રિયા સમાવિષ્ટ છે. આ પ્રક્રિયા ખૂબ જ ઝડપથી અને ચોકસાઈથી પૂરી કરવામાં આવે

16488	Memo of sale Johnston & Rannie 28/4/75. aff.t of Thos A. Rannie as to sale of Lots to him - residence to be.	J. Rannie (Russell's report) 1 House, 4 acres cultivated - Poor settler, farms but little - Think he is a freighter and trader, and is evidently holding on to this large claim for purposes of speculation - Has 11 acres - Says he purchased from Ed. Johnston about 3 years ago - Has a dispute with Morris about their lines. —

This might be classed in Class No 2 - 160 acres free 160 acres at $1.00 per acre - balance 97½ acres at $2.00 per acre - Homestead and Pre-emption fees to be paid

Remarks.

L.B. adjoining

16489	29	1 House & Stable - 10 acres cultivated - 2 acres fall wheat - 2 acres fine meadow - 2 acres pasture - Rest rough - Lot is [illegible]	Mackie appears to have first taken up lot. Draw a horse loss upon it and sold to Murray - Since Murray left it has been cropped each year and [illegible] horse occupied by a tenant	In conformity with requirements
16490	30	1 House, 1 Stable & 10 acres cultivated - Improvements on lot in possession of Russell.	Mr Kraus appears to have resided steadily -	This lot partly cultivated - short in area and improvements also - A fine plant recommended -
16491	32.	1 House & 2½ acres cultivated - Has been in possession of 2½ acres purchased from Jas. Stephenson	This lot originally taken up by Mr Erasmus who gave it to his adopted son R. Anderson. Erasmus made affidavit to this effect. Erasmus resided on the lot. Since sale all land & timber has been cropped by Erasmus & house occupied by Peterson as tenant of MacDonnell. It appears one Stevens claimed the lot and had 4 acres breaking when he sold to Erasmus. 1875.	In conformity with requirements
16492	34	1 House - 1 a. cultivated - Knows nothing about this claim - Road allce 1½ ch. wide between this Lot & 33.	Deceased Kennedy occupied lots 33 and 34 residing on the former. Mr Storey Pruden makes affi that he took up the lot 1870 and resided thereon until he sold to Kennedy 1877. Mrs. J. Kennedy [illegible] of deceased] makes affi that her deceased husband resided on 33 adjoining until his decease in 1875 - That deceased died intestate, that the Co. has administrator and herself administratrix of estate. That deceased at his death had $3710 worth buildings and fencing on lot 33 and 65 or 70 acres cultivated in both lots - The buildings occupied by Pruden on lot 34 have been destroyed -	Pruden's residence mere makeshift - To be sold Claimant at $2.00 per acre
16493	35	1 House - 2 a. cultivated - Knows nothing about this claim -	Demerais is at present living on lot, but is ill and unable to attend.	Demerais' residence appears continuous - to be sold at $1.00 per acre
16494	36.	1 House, 1 Stable, 15 acres cultivated - 2 Acres [illegible] - Claims 12 ch. front - [illegible] - Improvements on lot from [illegible]	Howie although a resident was employed largely in freighting & as general labourer. Main was occupied in lumbering after his [illegible] Howie's farm while his wife resided on this lot - During '82 Kennedy's tenant. Kennedy is business manager for O.E. Hughes & C.E. Prince -	To be sold at $1.00 per acre
16495	38	1 House, claims 6 chains front along road - Has been in possession - Makes improvements across this lot -	Title does not shew Pruden's residence. Nor is there any conveyance from Pruden - Lazer is now at Cumberland - His wife's evidence was taken as far as she could give any.	To be sold at $1.00 per acre
16496	39	1 House, 1 Stable - 15 acres cultivated - Improvements across this lot -	No written transfer Robertson Jr. to Inskater, but R. makes affi that he sold to Inskater for $500. R. appears to be honest but stupid and not much could be made out of him.	To be sold at $1.00 per acre

Remarks

Land Board Decision.

16499	40.	1 House, 1 Barn, 1 Stable - 10 acres cultivated - Claim 40 ch. purchased from W. McKay last fall - Has lately sold 20 ch. to Jerry McKay & 3 acres to Robertson -	This lot was once claimed by John Sinnett who sold to Gilbert McKay from whom Kennedy bought in 1877 for $100. at date of which there was only one acre breaking. No written transfer.	N. comes so near $600.00 grant. 160 acres free - balance at $2.00 per acre
	41		Lots 41 & 42 appear to have been claimed by the late Wm McKay of Fort Pitt who sold to Sinnett. The land is originally described as 1/2 Mile Square fronting on the River - Affidavit of Kennedy that he bought his & received 3/4 sc from Church 2nd. Kennedy & Billings 29/1/84. Consideration $400	Residence performed, but improvements too meagre to be sold at $1.00 per acre
16497	44		Gilbert McKay through whom claim is chiefly established is now at Fort McLeod - His evidence could not therefore be obtained. Trail whose name appears in Lots 42, 43, 44 is brother-in-law of Gilbert McKay and son-in-law of Wm McKay whose name appears in these Lots -	In conformity with requirements
	45		N.C. McKay states under oath that by mistake the West of Lot 45 was made out in his father's name that on Feby 21/84 he got 20 from his father - that he has been in possession and exercises ownership right since July 1882 - that he erected a frame house 18 x 24 with $1600 & broke and fenced about 10 acres - that he began to reside on the Lot in July 1883 & has continuously resided since -	Residence performed - improvements now worth upwards of $2000.00 (see remarks) grant free Patent -
16500	46.	1 House, 1 Stable - 5 a. cultivated Purchased from N. Erasmus - 4 years in possession - 5 Brush & cultivated field cont 2 years on Lot 47 belongs to this man Jas Anderson -	Anderson states that in 1874 he bought Sy. Erasmus' claim to this lot paying him therefor $150 there being then no improvements -	In conformity with requirements -
16502	49	Lot 49 has recently been sold by Jas McKay & John McBeth McKay Report includes other Lots - Has had possession 2 years -	McBeth originally claimed W. 1/2 ch. McKay the remainder of the lot. McBeth's improvements consisted of 3 acres of breaking and shanty & McKay's 7 acres. Stevenson purchased from McBeth in 1876. In 1877 Stevenson purchased from McKay paying $300. Evidence given by one James Corrigal who has always lived with Stevensons. The latter evidence not obtainable as he was away trading. It is probable he did not commence his residence till 1877. In subsequent affidavit he states he resided continuously from Sept 1876	In conformity with requirements
16503	51.	1 House, 1 Barn 1 Stable purchased from A. Campbell and Peter Turner - Has been in possession 2 yrs. Mixed farming. Lot runs along west side of St. Road along Lane (Report includes other Lots)	This lot also Lot 50 since purchase from McKay have been occupied by James Hoey manager for Stevensons. Cultivation has been extensive & buildings kept in good repair.	In conformity with requirements

		Date Claimant made H. entry	Remarks	Land Board Decision.
16511	Pt 1/2 61.	Abs. Russell 77. Aldous 78.	1 House 1 Barn 1 Stable 35 a. cultivated. Respondent in all this part of 61. Mr Mair Residence from Pt 61 still in this report is on Pt 62 as per 68 since new Counsel also in the Case. Actually agreed upon 6 acres cultivated - one about 20 acres of his improvements on this lot. Mrd. very grasping - wishing to claim more land than he can be entitled to.	Free patent. Land is situated in a good settlement & is steadily increasing in value. Purchased at Sheriff's sale. Has no residence on this lot. To be sold at $2.00 per ac.
16512	68.		Prudent Cook entered this lot in 1872 & in 1873 sold to Stevenson & they (Cook & Stevenson) then considered one lot. Thomas McKay's aff. states Stevenson resided upon it from 1872 to 1877 inclusive at which time Stevenson sold to Mair. Mair states that at the time of purchase there was only a log house & stable on it worth $200, & that the buildings $150. & since he has erected a frame house & barn worth $1200. Mair took possession in 1878 & resided continuously thereon until 1882 since which time the house has been occupied by tenant. Mair resides there when he is in Prince Albert. Mair's house on the lot cost him more than $1500. is worth now probably not more than $3000. Has also fencing & out buildings.	Free patent. Both parties are entitled to patent. Notice particularly the different parcels into which it is divided by the patentee. If this is so can be complied with would recommend charging fee of $20.00 for each patent. 160 ac. free balance at $2.00 per ac.
16513	69	1 Frame House 1 Stable & 18 acres cultivated - McKay has trouble with his brother about the line of their improvements each into this lot about 17 acres - he is accepting of Crown Commissioners award this disposition has one of the best houses in the settlement	McKay states that he bought this lot in 1876 for the late Mr McMurray, husband of Harriet McMurray. The deed was made direct to the two of them to avoid delays and conveyances. Lots 68 & 69 were originally claimed by Stevenson as one lot. See remarks Lot 68.	To be sold at $2.00 per ac. See remarks.
16514	70.	Put up report for 68 application to this lot - report for 70 also application	Badger original claimant was an Indian. Bartlett's residence was no doubt bona fide but he does not appear to have been a very enterprising farmer as at date of sale to Mair in 1877 combined value of improvements $315. Since Mair purchased lot he has conducted a store on this lot. There is also a combined flour and saw mill worth about $1000. other buildings bringing the total up to $16.000.	Free patent for 160 ac balance $2.00 per ac.
16515	71.	3 Houses - 1 Barn & 30 a cultivated - McKay owns a field on 2 sides of 71 & considered he has built a new dwelling House	The buildings consist of dwelling houses - The building occupied as Land Office being one of them. Schisler had a house on this probably prior to transfer but only lived on it during summer. This house was a temporary one, his bona fide home being on lot 69 which he claims by reason of occupation at the time as he lived here in summer for convenience of sending children to school at Prince Albert.	Free patent 160 ac. balance $2.00 per ac. see under terms of transfers
16516	74.	2 Houses 1 Barn 1 Stable & 30 a. Cultivated - Cannot say what amount of Hair first to claim by McKay & Finlayson & R. Russell Rolleyson & small Lot 2 acres from Finlayson for which he paid $100 (Report includes Lot 73)	Claimant's father gave him 6 chains of this lot - purchased from one Brewer. McKay purchased 6 chains more from one Bear & 5 chains of which he (McKay) gave to L. Clarke - claimant's brother-in-law. The 17 chains obtained by claimant contains what is now known as Lot 74. Claimant has agreed on certain conditions to convey 1/2 this lot to the Hamilton Land Co.	Free patent. Commenced Winnipeg this 8th day of 1878 McLean

16517	77	1 House 1 2 storey all board roofed - with 1 addition 2 storey 1 Kitchen 1 2 storey [illegible]	On this lot a portion of the Town of Prince Albert is situated - hence the value of buildings. Present claimants are carpenters and Builders and farm on a pretty large scale. They claim by reason of their own improvements thereon W.½ of S.4 R.26.	Free patent.
16518	79	1 log house 1 Barn 18x24 roofed with shingles - only about 20 acres cultivated - fenced - [illegible]	Lot first claimed by Jno. McKay who gave it to his brother George (See Aff. Jno. McKay) It appears George McKay has sold several portions of this lot. The interested parties wish the Govt to issue patents to the various holders for portions claimed. George McKay died intestate leaving widow & several children, eldest 14, youngest 2 years.	Assigns of McKay are entitled to patents. Notice pointed out by different parties who claim it is adverse to the patentee. If this were case the Surveyor would recommend charging for 160 acres @ $2.00 per acre.
16519	80.	18 acres House, 1 Stable & 18 acres cultivated - [illegible]	Original claimant came here as Missionary in 1866. Resided here until 1881. Commenced improvements in 1867 and continued them up to 1881. Adam McBeth seems to have purchased a claim to this lot which was satisfied by the payment by French of $200. (See Transfers)	160 acres free. balance @ $2.00 per acre

Recommendation

If residence has been in conformity with homestead requirements for three years or more and improvements on 1st May 1880 worth $600. – 160 acres to be granted free, and excess to be paid for at $2.00 an acre Should improvement not come up to requirements and prevent claim and be objected to Mennonites entitled to be permitted to obtain immediately for 160 acres and pre-empt the balance at $2.00 per acre –

3 Houses, 1 Church 1 School House 1 Stable & 9 acres cultivated Roads cross all between Chs: and the Church property

Do not Know what is claimed by the Church School House on the front of Lots 55 and 56 - Suspended by public subscription

Lot originally claimed by Jacob Beads, who never resided on it, and cultivated only little. In 1875 gave 3 chains to Bp. of Saskatchewan, and sold the Bishop another 3 chains for $75^{00} The Church was erected in 1875 and has been occupied as a Church to date - The School House was erected in 1877 and occupied as a school until the erection of Emmanuel College in 1880.

Free deed for this lot.

Beads owned 54, 55, 56, 57: his house was on Lot 57. The Bp. of Saskatchewan lived in Beads' house in '76 and '77 - Beads living then in a small house on 56. The house on this Lot was also occupied by a tenant of Finlayson - Very little, residence or improvements. Flett makes affidavit that when he bought from Finlayson he received some deeds, probably all that existed, which he deposited in Winnipeg with the late Jos. Macdonnell, Barrister - They cannot now be found

To be sold at $1^{00} per ac.

Beads at one time purchased the buildings on Lots 56 and 57 from the H. B. Co and any personal right that Lawrence Clarke might have in the Land For some years prior to 1871 the H. B. Co. had a trading post on either Lot 56 or 57. This post was turned an outpost of the Co. being open for trading purposes only at intervals - Title to Lot 57 has been claimed through occupation at time of transfer. It will be noticed however, that Clarke in his affidavit, states that the Co claimed no title in the Land - and sold merely the buildings to Beads -

160 ac at $1^{00} balance at $2^{00} per ac.

	Transfer in File: Nature, date & Amount.	Remarks.
Sumner		The land claimed by Sumner was taken up by him in 1863, when he built a house, and began residence, residing continuously on the land until the death of his wife in 1882. The land claimed is described as being the 10 chains of frac. N° 14. 23 & 26 west of, and immediately adjoining H.B.Co. Reserve.— Sumner was originally an employee of H.B. Co. but left the same many years ago. About 1 acre of Sumner's breaking was cultivated last year, & house occupied.
Umpherville		Umpherville originally claimed 20 chains; but, on Survey of Indian Reserve, there were only 20 chains & 79 links between the H.B. and Indian reserves, of which Sumner claimed 8.10 chains leaving only 10 chains and 79 links to Umpherville. It is said that Umpherville, before his death, Sold this land to one Peter Sumner.
Church.	The claims of Church are as follows, in their application — The N.E. Fractional Quarter of Sec 25 - the S.E. Fractional Quarter of Sect 36 The N.E. Fractional Quarter of Sec - 36 - all lying to the Northerly and Westerly of the Saskatchewan River and being in Township 48 Range 20 West of 2nd principal Meridian - and also all the remainder of said Sections 25 and 36 to the to the. See file No 16591 for remainder claimed —	Mission was established in 1853, and maintained till 1877. when it was removed to the opposite side of the River, which is now James Smith, Indian Band Reserve. The buildings and improvements were on the N.E.¼ 25, and S.E.¼ 36; Consisting of a church, dwelling house, Servants Residence, and out-buildings — cultivation consisting of probably 6 or 8 acres. All improvements have probably gone to ruin. Being an Indian mission, it was moved for convenience of Indians; and has since been included in Reserve. Do not know whether it is claimed by the Church Missions Society, or the Bp. of Saskatchewan in his Corporate Capacity. I suggested to Archdeacon McKay that the claim should be prefered through the Church Missionary Society. Probably the oldest mission on the Saskatchewan Nos 16589 and 16590 are clearly entitled to Free Patent for 160 ac. each if over second 160 ac. when merits is not material value at $1 per ac Excess in case of Nos. will not be material. In Case of N° 16591. recommend 160 ac. Free. 160 additional at $1 per ac. Whether Church Patent should issue to Bishop of Saskatchewan in his Corporate Capacity - or to Church Missionary Society - does not seem very clear. If the latter are in position to acquire lands should it should be patented to said Society: Patent to issue in order of Claims. (See note in next column) Winnipeg April 8th 1884 A. Braki. Transfers on file: Nature, date & Number.	Remarks.
16618 D. C. McKinny to Halpin	Halpin claims right to P. at $1.00 per acre, by reason of improvements made by McKinny. Halpin made H.E. entry to this on 21 April 1882.
16619 Affidavit that Said purchased from McKinlay.	Said is, no doubt, a first rate Settler, — One of the best in the District
16620	In the Spring of 1883, after erecting his house, Beaune was burnt out, and lost everything he possessed. He was consequently obliged to work off his place to earn money the following year. Had it not been for this misfortune he would be entitled to receive his P. at one dollar an acre. This is a case which, it seems to me, might be argued in this way: Had the land been open for entry when Beaune first took possession, he would probably have made entry; and, having done so, had he, after being burnt out, applied for 12 months leave of absence, it is probable he would have obtained it. Having obtained it he would now be regarded as having complied with H.E. requirements; Could now apply for Patent; and would be entitled to his P. at $1.00 an acre. Because he was unable to obtain entry, through no fault of his, should he now be debarred privileges which he would have enjoyed had he been able to make entry!

16621	Giles claims P. at one dollar an acre, on the ground that he came to the District and chose his land in 1879, and arranged for the building of a house for his family. Returned to Ontario. Brought out his family the following Spring. Reached here in July. Began residence, and has continued on the land to this date. Is married and has young family: In all, seems a good type of settler.
16622	M'Beth bases his claim on grounds that he purchased improvements from Main for $60. in 1880. consisting of 10 acres breaking and a shanty. Breaking done in 1879 and 1880 by Main. M'B. also states that his P. is very much cut up with sloughs and ponds, and is not worth more than $1.00 an acre
16623. Has sold his right to P. to Belanger for $400 which has been paid him	(See my L. to Commissioner p. 300. P.A.L.B.)

16626	Affdt. of Smylie Sale to Main 1879. Consideration $15.00 Affdt. of Main's Sale to Scott: Consid $75 Affdt. Carter, March 1882, purch[d] from Scott, Consid[n] $100, and in July 1882 sold to Thompson for $250	Thompson, when he purchased, thought he could obtain land at $1.00 an acre, and delayed applying for it till these lands were withdrawn from Sale. He however sold out his business in Ontario, and came with his wife and family; and, in July, began residence on the land. Thompson is a carpenter and farmer, likely to make a good settler. Has a wife and 7 or 9 children. Dupl Carter D Thompson 15/8/82. Consideration $750.00
16627	2.C. Isbister to McKenzie 26/4/80	2. Isbister made improvements on W[2] 5, and sold now 1/4 to McKenzie, and S.W.[4] to Hon Lawrance Clarke, H.B.Co. McKenzie is engineer on River boats in summer, and resides in Prince Albert in winter.
16628		3.- Applicant has never had H.E.- Resided with his father on River Lot 31 Prince Albert from 1875 He also claims right to River lot W. 7 ch. 18 P.A. which he purchased from W.C. Anderson.
16629	Affdt. of Bell that he bought from Campbell.	4. Bell made H. entry S2[4] 2. 48. 25 6/5/82 cancelled for non-fulfilment of duties. Bell is a baker in Prince Albert. States he purchased Campbell's claim to whole section. Sold his right to W[2] to George Munn for $400.
16630	Affidavits	5. Goodfellow claimed also SW[4] 32. 47. 26 which he sold to Boyd, May 1882 for $300. G. is proprietor of planing Mill in P.A.
16631		6. Campbell is a merchant living in Prince Albert.
16632.	2.C. McBeth to Wm. McKay. Not properly executed: but McB. makes affdt. that he did sell for consider[n] named, and has been paid)	7. McBeth first took up Sec. 7 in May 1880. Resided on SW[4] from said date to Oct. 1883 This sec had been formally taken up by Geo. McCrum and one Spence. The latter resided on S2[4] for a short time in 1877/8. McBeth obtained both McCrum's and Spence's improvements: the latter consisting of $10 acres breaking - chiefly on SW[4]. McBeth sold S[2] of 7 to Boyd, and N[2] to the late Wm. McKay of Fort Pitt; who is represented by his son Thomas McKay, who files application on behalf of the estate for which Donald A. Smith and Arch[d] McDonald of Fort Qu'Appelle, are executors.

16633 Affdvt. of Cook that he sold to Willis and received $400.	(8) Cook also claims W^{t} 10, 46. 27 by reason of residence and improvements. See Inlay's Cook made H. entry to W^{t} 2. 46. 27.
16634 Affidavit of G. B. McKay that he sold to W. C. McKay in January 1883. Deed G. B. McKay 2. C. to W. C. McKay 29/1/83	(9). G. B. McKay had his entry Cancelled on his own application by reason of the land being unfit for settlement. By H. O. letter 14/4/83, 59313, G. B. McKay is informed that he can be accorded H. and P. entries for this W^{t} section; but time will count only from entry, as affidavit does not mention residence. (Note: It must have been an oversight granting him this privilege. Probably was not known that an odd-numbered Section was affected.)
16635. Affidavit of Snell that he purchased Collingwood's claim	(10.) Collingwood appears to have taken up several such claims as this, doing a little breaking,— in this case amounting to 4 acres. Snell had house and stable on this land which he removed to his H^{d} Res^{ve} N W^{t} 2. 48. 25 W. entered 12/6/82. Has resided on his H. 6 mos. in 1883. 16639	P.C. 7/6/82 Wallis to Wynnestench $255.	Land cropped only one year. Improvements now of no value. Wallis took up the land for the same reason that Brinneau did, — as a convenient place to live. Says he cut hay, and sold to freighters, situation being convenient for that business

(1) McBeth has on his H. (S.8 Tp 24 - R 8 - 25) 20 acres broken & 80 acres fenced and on his P. (N.E. Tp 24 R. 8 - 25) 25 acres broken & 80 acres fenced - Buildings on H. worth about $1100.. Fencing on H & P. about $300 (in all $1190) His buildings would probably be worth more if he had been able to purchase. S.8 Tp 24 R. 7 for which he has been waiting in order to erect buildings on the more advantageous building site which it affords. The place on which his buildings are at present is subject to floods —

(2) Cameron has a good house worth about $800 on his hold, about 70 acres under cultivation & fenced. Other buildings worth about $300. Breaking worth about $350. He has altogether about 100 acres fenced fencing worth about $ 400. Cameron began residence in 1876 & has resided constantly since. Is a very good settler. Think he might be allowed to acquire the desired land —

(3) Young values buildings on H.S.[1] at about $1300 and all fencing at $1000. Buildings probably worth $800 & fencing not more than $500. A good deal of his break, of which he had 100 acres, has only been cropped to the extent of about 30 acres the last 2 years. Young came to the District in 1875 & has resided here ever since. Altho not naturally qualified for farming he has done his best to succeed. There is no doubt that at the time he came here he was prepared to purchase the land he now applies for.

A. G. Snetzelaar first occupied & sold to Lee in 1879. See in 1879 and to Sutcliffe, who in July 1880 sold to Wigmore & in 1881 Wigmore sold to Jackson present claimant for $75.

(4) H. See Wigmore's affidavit in Boyd cases re S.1/2 same section. Jackson made H.E. entry to this 1/2 Sec. in the Fall of 1881 to prevent, he says, a counter claim to the land. He bases his claim to be permitted to purchase on what had been done hitherto on the land. None of the parties claiming appear to have ever resided but to have taken up the land as a pure speculation - Jackson H.S.[1] prefered through occupation prior to Oct. 1879. Sutcliffe also has H.S.[1]

(5) applicant is of the firm of Moore & Macdonnell, has a fine residence near his mill, says he built there as it is a more convenient situation than the land, which he claims he can work as well from his present residence. Has devoted all his agricultural operations to this 1/2 Sec 200 acres of which he has fenced. He states that at least 100 of the 320 acres are taken up by lakes and ponds.

(6) Lovedunn states that he wanted have applied for patent when he left his place in Summer of 1883 but expected Mr Russell to arrive and wishes to settle the whole matter at once. Think that under the circumstances his H. might be recommended waiving the informality of present non-residence. Improvements and buildings are on the whole S.E.a: on S.1/2 he has only 60 acres breaking. Estimate of house for probably $500. two hay [illegible]

(7) Miller is proprietor of Livery Stable and Restaurant, his former H. (W.[1] 28, 108, 24 W) was cancelled Sept. 1882 to enable him to make another entry when land is open for entry, think he might be permitted to H.E. at $2 per acre. Had he not made H. entry to other lands, would have recommended P. at $1. but in no case should be under the circumstances be allowed to acquire by purchase as his notices are Specific other 1/2 Sec at same price. Has not commenced residence until 82. He has since 1879 lived on adjoining Sec, while working land claimed. N.E. Tp 24 R. 20. contains only 115 acres + is badly broken by banks of River Saskatchewan.

(8) Clarke is a good settler & hard working man. Married with family. Desires to H.S.E. 20 + P. N.E. 20 at $1.[00] + perch. per

(3) Pasture orchard building on H21 at about $200 and all pasturing at $100. Building probably worth $300 + pasturing not more than $200. A good class of this land. 16670 ¼ agmt to sell May 1882 ¼ & 2.C. Millett to Boyd.	Millett never applied for entry. Wigmore obtained entry 8/12/82 & began residence Apl. 1883 and has resided continuously since. Wigmore made affdvt as to value of improvts at time he made entry, as follows. House $50., other buildings $10. Fences $25. At time of entry Wigmore expressed readiness to pay value of these improvements. Millett was present & corroborating witness at time W. made entry. Wigmore at time of entry appears to have been aware of the sale of the land to Boyd - appears to have dealt in Squatter's claims to a limited extent but not more so than many others in P. A. Millett has never made H. entry.
× 16671. 2.C. Goodfellow to Boyd.	Goodfellow in 1880 purchased the claim of Telesphor Martin to this land. Claim consisted of 15 acres breaking. Goodfellow is proprietor of a planing mill in P. A. where he resides. Peter Mowat 15/12/82 entered this land as H. stating his willingness to pay improvements - 10 acres of breaking & $15 worth of fencing is on N.W.¼ 32. Main improvements.
16672. 2.C. Neilson to Boyd includes S.E.¼ S.[illegible] (and is attached & filed in claim 73.	House &c being on S.W. ¼ 5.14 8. 26 which Neilson resided upon. There is a considerable discrepancy as to the dates in Neilson's affdvt. He is a Norwegian and discrepancy no doubt arises from ignorance or stupidity. This land was entered by one Mowat as 15/12/82. Mowat stated his willingness to pay for imps.
16673. McDonald to Boyd. 2.C.	McDonald does not appear to have made H. entry. Claims ¼ Sec. 2. 14 8. 26. Had also River Lots 60 & 61 which he sold to Lawrence Clarke. See evidence on those Lots.
16674.	Canny claims that at the time he commenced ~~residence~~ on S½ of 12 he was entitled to purchase 640 acres at $1.00 an acre. Has resided continuously from 1878 to present time on S½ of 12. Has applied for patent therefor. Says he had to borrow money to pay for his P. cannot see that has much claim to right to purchase. Think there is no doubt that others are trying to purchase this land through Canny. - Improvements on C's H. are not extensive -

16675		On S.W. 1/4. 21. Stobart has 15 acres broken and fenced, dwelling and other buildings to the value of $1230. fencing $300; Wells $200; whole value of the improvements on the 1/2 Sec. being $2670. One Scott resided upon and cultivated this claim up to 1881 as employee of Stobart. Since then vacant. Stobart purchased S.W. 1/4. 21 at $2. per acre to prevent any counter claim arising. claims right to purchase N.W. 1/4. 16 by reason of extensive improvements made at a date when he could have purchased at $1.00 an acre had the land been for sale. No doubt of his ability to purchase.
16676		Goodfellow is in the employ of H.B. Co and has been since he came to the country residing at the H.B. post at Fort à la Corne. about 8 miles from the Land claimed. He is a man of large family - seems striving to get along. His eldest son is unfortunately deaf and dumb & has been sent to Montreal to be educated, otherwise the son of owned it. this land and make home for family. Goodfellow would have purchased the land at $1.00 an acre - Had it been in the market when odd & even Sections were being sold. Thus McKay disputes to some extent Goodfellow's right to S. E 1/4 2. through a claim which he purchased from one Baikie (See evidence on that claim) Thus Class (2) Disposal of this 1/4 Sec. will be conditional on the disposition of Baikie claim. N 1/2 of S 1/2 and S E 1/4 to Goodfellow.
16677	Murdoch McLean to Wm Oliver (deceased) 1/10/78. Heirs are said to be John Oliver. Lumber Merchant. James Oliver. Ref watchmaker Jane Crane wife of Jno. W. Crane Merchant all of Toronto.	McLean broke about 6 acres on S 1/2 Sec. 15 in 1874 erected walls of a house on N/2. In 1879. Oliver erected a house on N.W. 1/4. 14. which he homesteaded, preempting S.W. 1/4. 14. It is probable Oliver resided on Sec. 14 from 1879 until his death in March 1883. Deceased was unmarried and died intestate. This application is filed by W. V. Maclise who states that he does so on behalf of the heirs. Would suggest advisability of communicating with heirs as to ownership in deceased's lands.
16678		McKay is probably the most enterprising farmer and settler in the District, proprietor of Saw & Grist mills, deals largely in cattle. has stabling on Sec. 6 for about 100 head. Greater part of Sec. is inclosed by wire fences -

16679 Claimant owns River Lots 80 & 81 Prince Albert. Being largely in Stock has sent hay on this Section for a number of years. Was prepared to purchase & owned have purchased when the land was $1.00 an acre had the land been in the Market. McDonald made H. entry & P. for 1/2 Sec. 8 of this which has been cancelled. States that he obtained the improvements on the latter 1/2 Sec. in payment of a debt & entered for it thinking that under the circumstances the Government would sell it to him.

16680 Has H & P. entry for S 1/2 25. and asks to be allowed to purchase N 1/2 at $1.00 an acre. Evidence of this residence and improvements in Commissioner's office 10.1408 File C. 3365.

16681 Miller first began residence near River on Sec. 24. Has sold all 24 except S portion about 40 acres to Moore and Macdonall (for description of Miller's portion see description of Moore & Macdonall for remainder of 24) Miller is one of the best farmers in the district. claims to be the model farmer. Does not appear to have dealt exclusively in claims. The only claims he seems to have had anything to do with are the lands sold to M & M and to Boyd (see file Gray and Miller to Boyd. S.W. 1/4 of 36 & S.E. 1/4 35. 46. 2 W. 2nd M.

16682 Gray's improvements consisted of 5 ac. breaking done in 1880. Claimed this as P. in connection with S.E. 35. adjoining on N. cropped the 5 acres in 1881 & 1882. Had on this land a stable worth $200 fencing worth $20, his improvements being also a house worth $65. Ward made H. entry to this Sec. 18. Commenced residence April 1883 and has resided to date. States the only improvement on land when he entered it was a little fencing worth $10. Ward has since broken 6 acres, 5 of which 3/4 had been broken by Gray. Has erected house worth $200. stable $50. fencing $30. Well; worth probably $110. Total improvements $350. Ward states that but for the dispute as to his land he would be now married. Has P. entry to S W. 1/4 36. I see no reason why his entry should be disturbed.

Transfers on file, Notices, date & amount.	Remarks.	Land Board Decision.
16680	(1) Claimant is an old man. Came from Kildonan in 1875 & located on what proved to be S.E. ¼ 35 + N.W. ¼ 26. Has resided there ever since. Has on it. buildings worth about $700. Has 40 acres in all broken and fenced - Is largely raising cattle. Is desirous of it. E.W. ¼ 35. + Pre. N.W. ¼ 26.	
16684	(2). Swann bought this land in 1879 from one Thomas Hourie who then had 2 acres breaking. Swann has promised to convey the land if he can obtain title. Has River lot 3 P.A.	
16685	(3). Kelley commenced residence in 1875 and has resided continuously on the land ever since. Settled before survey. On S.E. ¼ of this sec. there are buildings partly completed - originally erected by one Pierre Jaraie in 1876. About 2 years ago One Alexis Hamelin purchased buildings, tore them down and ~~partially~~ rebuilt them. Never completed or occupied. Material worth probably $100 ~~Hamelin~~ is a trader at Lac. la. Biche. Is said to have taken up a claim there. On S.W. ¼ of this section, one Baptiste Jaraie erected a building in 1875 and sold it to the late Hon. James McKay. Used as a Mail station. 10 acres broken around the house. Still in cultivation. Present owner not ascertained. McKay's house worth probably $ 75.	
16687	(5) Drever is a hard working man. It seems incredible that he should not know where he was settling at the date he took up this land.	
16688	(6) ~~Mr Alley~~ Bell claimed S.E. ¼ of this Sec. Bell's residence was on S.E. ¼ 35. Had 8 acres broken on N.E. ¼ 26. Cannot see that his claim amounts to anything -

Sir,

I have the honor to enclose herewith a Schedule of H. B. Co. lands in the Prince Albert District, squatted upon, and to which the Claimants wish to obtain H. & P. Entry.

It would appear that all these parties so settled through ignorance, and I told them that all that could be done, was that I could assure them, the Govt would use its good offices to obtain the H. B. Co. to waive their right to these Lands, taking others in lieu thereof, and that, if that Corporation did so, the Govt would be prepared to treat liberally with them

The Schedule discloses the amount of residence and improvement done in each case

I have the honor to be,

Sir,

Your obedient Servant,

Wm Pearce

Inspector

The Minister of the Interior,

April 9th 1851

I have the honor to enclose herewith a Warrant of 4th. 19. 6d. drawn in the favor Oliver Dibbert, Superior refuse, case to which the Claimant would be entitled 4th. Feb. Inst.

It would appear that all Discharges on settlement through inadvertence, were I take them that all that could be done, was that I would cause them, the Sect. to receive the Sum of Three Pounds to obtain the 4th. 19. 6d. to receive Receipt to those Cases, stating where we have heard, once that, if that Corporation did so, the Sect. would be prepared to treat likewise with them

The Warrants discharges the amount of Receivers once withdrawn once we each case I have the honor &c.

Sir,

Your obedient Servant,

Auditor.

Transfers in file; nature, date & amount	Remarks.	
16691 Agmt. 9/1/80. A. Rocan & E. Johnstone, whereby R. agrees to lease his claims to 160 acres with buildings but described as any particular lot &c. Johnston to do certain improvements as seen. Document Baetin to Jas. Stevenson 9/2/82. consideration $1450. Baetin sells all his right reserving acceptance to Johnston until 1st May 1883. Stevenson 2.C. Thomas McKay 2/5/82 $650. 2.C. 22/5/82. Thos. McKay to J. Billings $650. Baetin and Rocan are one and the same individual.	The house, stable & 1½ acres breaking are on S.½ 24. Johnstone was an Englishman reputed to be very respectably connected, is now reported to be living on Indian Shell River. Married to a squaw. Johnston at one time claimed River lot 24 Prince Albert which he sold to one Thomas Rennie in 1883. He seems to have been anything but a desirable settler. The only benefit he seems to have been to the country was in spending money he received from his friends. It appears Johnston sold the land to Rocan and then rented it from him. Subsequent transfers not shewn. Billings states that he bought this land for one Wm Bell of Hamilton. Transfer does not appear.	
16692	Findlay who first took up this land appears to have materially improved it, but before applying for patent sold to Lawrence Clarke who exchanged it with McIver for River lot 52 P.A. in 1882. McIver began residence at once and is largely improving it. There is said to be a conveyance from Findlay to Clarke and from Clarke to McIver, the former being mislaid.	
16693. aff't of Oman that in Summer 82 he sold to Sumner for $250. & if Sumner gets free patent Oman is to get $160 more. aff't of Wolf that in Spring 81. he sold to Sumner for $260. and is to get $160 more if Sumner gets free title.	Sumner is a native of the country, Service of H.B.C. Has a large family. Seems a worthy Citizen. Had a timber lot which was cancelled owing to non residence. Apart having been sold to him subsequently.	
16694. Aff't of Ruttle that he bought from Sanderson.	Through a misconstruction of Regulations, Ruttle obtained entry. It was reported to H.O. from whom no instructions have been received. Ruttle is a first class settler. Asks that Sanderson's time should count as his own & his sold to him at $1.00 per acre. Is particularly anxious to obtain patent forthwith as he intends erecting a grist mill on Sandy River adjacent to this H. and as a little village will probably spring up in the vicinity he desires to be in a position to grant title to parties desiring to settle and establish business there. Note. If R. is granted privilege of patent he must make regular application corroborated as to facts disclosed in file in which his statements are not corroborated and there is nothing to shew purchase from Sanderson.

16693	McBeth claims that he is entitled to patent for H. & to purchase P. at $1.00 an acre as he has resided on it nearly four years and took up the land prior to 1879.	
16696. Aff: of Deacon sale to Shaman July 1880.	Shaman is an engineer and farmer. Has worked some time in H.B. Co. Mill appears to have purchased this land in 1880 from Deacon and owing to a misconstruction of Regulations by Agent was allowed to make Hd. entry to this land 16/2/83. Entry thus irregularly obtained & reported by Agent to H.O. has not been disturbed. Shaman now asks H. patent and to Purchase Pre: at $1.00 per acre.	
16695 Keenan made first improvts & sold to Ballantyne. K. is one of Ballantyne's corroborating witnesses and says he did sell. 2. C. Ballantine to Boyd.	S.E.¼ claimed as H. S.W.¼ as P. Keenan first informed in 1878; sold that year (Oct) to Ballantine. One Lee files a claim to S.W.¼ but his claim may be ignored. Lee made H. & P. entry Dec. 1882. Ballantine states that he applied to Agent for entry but could not obtain it as Agt was not notified until Aug. 1882 to grant entry to odd numbered sections.	
16699. 2. C. Cook to Boyd.	Roderick Cook now claims right to purchase S.7. 15. same Tp & Rge. at $1.00 per acre. In aff: concerning S.7. 15. Cook states that in summer 1883 he resided 3 mos. on W.½ 2. 46. 2 W 2. his present homestead.	
16700. Affdvt of McLeod that in 79. he purchased from Roderick McIvor. 2. C. McLeod to Boyd.

16701 2.C. Neilson to Boyd.	10 acres of the Breaking & $15 worth of fencing are on N.W. ¼ 32, balance of breaking and bldg. &c being on S.W. ¼ 5. There is considerable discrepancy as to dates in Neilson's affd. on file. He is a Norwegian & discrepancy has arisen thro' ignorance or stupidity. N.W. ¼ 32. was entered by one Mowat as P. 15/5/02 when Mowat stated his willingness to pay value of improvts on S.W. ¼ 5. Not yet done for timber.	
16702 2.C. Gray & Miller to Boyd.	Miller laid claim to this land stating that he employed Gray to make improvts Gray denies statement & claims improvements as his own. On 18/12/02 this ¼ sec. was sold to one Manley by agent who had not been notified of Boyd's claim. Manley was instigated to purchase this by his Solicitor, W.V. MacIsaac and probably Knew of Gray's residence & improvements. However a patent has issued. The question arises whether it is worth while to cancel it by legal process. It might be advisable to tell Boyd that if he does this he can purchase it. Boyd's agent files letter asking that Boyd be granted S.W. ¼ 35. Still vacant. in lieu of this. It appears Manley agreed to convey a ½ Section to one Percival V. Rideout & being unable to purchase one ¼ Sec, owing to a previous claimant, he purchased this and conveyed it to Rideout. The whole transaction on the part of Manley & his Solicitor is very reprehensible.	
16703	Bell is reported to be very well off, but is reported to have become insane & is now in Toronto for treatment.	
16704 2.C. Baillie to McKay 23/5/02 $300.	House now worthless & fencing probably in poor condition. Breaking summer fallowed last year. Claim as originally taken up touched on Pa-o-nee Creek which runs through S. ½ of Sec. If McKay's claim is'd be recognized the equitable way to divide Sec. 2. would be to grant McKay E½ of Sec & Goodfellow W½ S.½ - the creek being of considerable value on the property if utilized for stock raising.

16722 Affdt. of Drain that in Spring 1882 he sold to Brock for $630. which he has received.

Finlayson first broke on this lands when living on River lot 7½ - Thos McKay acquired it from Finlayson and sold to Drain in 1880. Drain cropped 30 acres in 1881 by a tenant. No crop since - Cultivation is therefore worthless and fencing probably of little value. Drain claims right to H.E. S. Sec 14. 118. 26. all the breaking and improvements on S.W. ¼ 29.

16723 Affdt. of McKay that he sold to McKenny Spring 1882 for $150 which he received 26. McKenny to Hewitt 6/83. $500.

McKay first lived on River lot 53. Prince Albert from 1877 to 1878 when he sold - Since selling 8½ of 11 he made H. entry 7/82 to River lot 6. 46. 26 which he has cancelled at his own request as being unfit for cultivation. The Minister has given him permission to make 2nd H. entry - He sold to McKenny who never lived on the lot and has been dealing somewhat in claims. Hewitt now asks free patent for ½ Sec and P. for other ½ Sec at $1.00 an acre. All improvements are on S.E. ¼ 11.

Sir,

I have the honor to inform you that a letter - which has apparently been mislaid - from Mr Kilvert of Hamilton, written on behalf of the South Saskatchewan Railway Company, appeared among the papers relating to the Land matters at Prince Albert which I have recently reported upon.

The letter in question alleged that an agreement had been entered into between the Railway Company and certain residents in the vicinity of Prince Albert by which the latter agreed, on certain conditions, to convey to the Railway Company

undivided interest in River lots the description of which was given in the letter of Mr Kilvert above referred to.

One of the conditions of the agreement was that the Railway should be completed on or before 1st August next - now clearly impossible of fulfillment.

Mr Billings informed me in Prince Albert (he is, I understand, Secretary for the Company) that he had full authority to cancel the agreement in question but before doing so desired to obtain from the property owners, who were parties thereto, a proportion of the money expended by the Railway Company.

As this is a matter which should be settled between the individuals and the Corporation directly interested I decided not to make a note of it in reporting upon the lots embraced in the agreement, and I now write you on the subject merely that you may, if you deem it advisable, have a statement arranged at before the issue of patents.

Sir,

I have the honor to direct your attention to the last clause in my report on the Prince Albert land claims.

The Department of Justice may consider that in many cases the Exhibit of title is insufficient, owing mainly to the absence of written conveyances of the lands affected, which, at the dates of many of the transfers, were not thought to be necessary by the persons interested.

I may say, however, that these titles are not less perfect than many of those which came

Sir

I have the honor to enclose herewith

N.O. file No 61475, covering an application by one Bernard Brewster for patent for Homestead & Pre-emption Lots 11 & 12 Sec 46. R. 25 W. 2nd Mer.

In this connection, I may say that the said Brewster was informed by the Agent in my presence - that if he began residence in June 1879 and had since then complied with the homestead requirements as regard residence, he could at any time apply for his patent & would thereafter be allowed six months within which to pay for his Pre-emption at $1.00 per acre -

In cases of these River Lots where the area of the Pre-emption exceed 160 acres: the Agents was instructed to charge $2.00 per acre for all such Excess.

Cher ami,

Merci de votre bonne lettre. Je suis heureux de savoir que vous avez pu vous reposer et que votre santé s'améliore. Je crois que vous avez bien fait de ne pas vous hâter de revenir à Paris. Ici, il fait très chaud et l'atmosphère est lourde. Il vaut mieux rester à la campagne, à l'air pur, que de subir la fatigue et la chaleur de Paris.

Je suis très occupé avec mes élèves qui préparent leurs examens. Il faut que j'aille à la Sorbonne, à l'École des Beaux-Arts, à l'École Normale, etc. Je suis très fatigué par tout ce travail.

Mes parents sont à Nice depuis quelques jours. Ils y resteront jusqu'à la fin du mois. Ils sont très heureux d'être à la mer et de se reposer.

Je vous embrasse bien affectueusement.

Votre dévoué

Sir

I have the honour to enclose herewith the decision of the Land Board in the great majority of the claims surveyed at Prince Albert and vicinity. Some few which are included in lands not yet open for entry are not embraced in list enclosed. You will also notice that in a few cases where the lands are not open for entry a decision is given. When the lands are open, enters some new conflicting claims arise the decision to be carried out.

For your information an extract of the report, showing the classification and recommendation is also enclosed.

You will please notify all parties of the decision, and do soon as

April 12th 4

Dear Sir,

The schedules of the orders in the Prince Albert cases have been send you by this post. If those claimants as a class are not satisfied with the treatment accorded I cant help it. I think they have been very liberally dealt with. In many cases I've no doubt parties may think an invidious distinction may have been made. In matter where the line may be drawn the man who comes on the unfavourable side of it will think the decision as between him & the party who comes just beyond had an favourable side an unjust one. As you are aware the greatest possible pains was taken in the investigation to ascertain the facts in each case. When the classification thereof was made the mode of treatment adopted

Geo. Duck Esq
Agent Gen Lands
Prince Albert

195

Exhact from Report of Prince Albert claims, shewing the Classification, and the decision made in each Class.

The claims have been divided into the following classes. The first six apply to the River Lots in Prince Albert, the remainder to lands other than River Lots.

—Class 1—

Those by reason of residence on, and peaceable possession of, on and prior to 15th July 1870 - the date of the Transfer.

—Recommendation—

River Lots - 160 acres free; 160 acres at $1.00 balance if any, at $2.00

It will be found that possibly with one exception, that of John McDonald River Lot No. 81 & 82, none claiming River Lot have conducted farming operations thereon to such an extent as to warrant granting more than 320 acres at the minimum price - In one or two cases the owners have farmed largely, but on this account they are generally claiming the right to purchase lands outside the River lot, farming operations being confined chiefly to the latter

—Class 2—

Claims taken up since date of Transfer by Claimant, who is still resident thereon, having completed at least three years residence.

—Recommendation—

From the letter of the Surveyor General to Agent Duck dated Dec - 79. concerning Peter Hourie's claim, the right to homestead one River lot and pre-empt another is conceded. Where bona fide residence commenced prior to 1st June 1880. would recommend pre-emption at $1.00 per acre, if subsequent to

more 1/4 Sections in addition

—— Recommendation ——

As these claims are based on occupation of the land at a time when there was no distinction between odd and even Sections - would recommend that applicant be treated on the basis of this recommendation in Class G. If applicant has Homestead and Pre-emption entry, consider the pre-emption as purchase, the value of improvements to entitle claimant to proportionate area as in Class G. Thus the total value of his improvements to be taken into consideration whether made on Homestead or other part of Section E.g. A. has a Homestead and Pre-emption, but claimed right to purchase remainder of Section - would grant right to a 1/4 Section in addition to his pre-emption, if total value of his improvements were worth $1000, to 1/2 Section, if improvements are worth $1500.

—— Class 12 ——

Claims to Hudson Bay Company Sections by reason of occupation before survey - claimant requesting the Government to use their good offices to induce the H. B. Company to waive their claim thereto and to accept other lands in lieu thereof

—— Recommendation ——

The only thing to be done in these cases is, if the claim seems to be a bona fide one, to request the Hudson Bay Co to waive their claim to Lands affected and accept other lands in lieu thereof.

—— Class 13 ——

ಹುಬ್ಬಳ್ಳಿ	೦.೩೩	೦.೫೫	೦.೮೯
ಬೆಳಗಾವಿ	೦.೨೮	೦.೪೬	೦.೭೨

ಮೇಲಿನ ಕೋಷ್ಟಕದಲ್ಲಿ ಕೆಲವು ಪ್ರಮುಖ ಸ್ಥಳಗಳ ಜನವರಿ, ಫೆಬ್ರವರಿ ಮತ್ತು ಮಾರ್ಚ್ ತಿಂಗಳುಗಳ ಮಳೆಯ ಪ್ರಮಾಣವನ್ನು ಇಂಚುಗಳಲ್ಲಿ ನೀಡಲಾಗಿದೆ. ಈ ಮಾಹಿತಿಯನ್ನು ಸಂಗ್ರಹಿಸಲು ಪ್ರತಿ ಸ್ಥಳದಲ್ಲಿಯೂ ಮಳೆಮಾಪಕವನ್ನು ಇಡಲಾಗಿತ್ತು. ಪ್ರತಿದಿನ ಬೆಳಿಗ್ಗೆ ಎಂಟು ಗಂಟೆಗೆ ಮಳೆಮಾಪಕದಲ್ಲಿ ಸಂಗ್ರಹವಾಗಿದ್ದ ನೀರಿನ ಪ್ರಮಾಣವನ್ನು ಅಳತೆ ಮಾಡಿ ದಾಖಲಿಸಲಾಗುತ್ತಿತ್ತು. ಒಂದು ತಿಂಗಳಲ್ಲಿ ಸಂಗ್ರಹವಾದ ಒಟ್ಟು ಮಳೆಯ ಪ್ರಮಾಣವನ್ನು ಆ ತಿಂಗಳ ಮಳೆಯ ಪ್ರಮಾಣವೆಂದು ಪರಿಗಣಿಸಲಾಗಿದೆ.

ಮಳೆಯ ಪ್ರಮಾಣವನ್ನು ಅಳೆಯಲು ಬಳಸಿದ ಮಳೆಮಾಪಕವು ಒಂದು ಸರಳವಾದ ಸಾಧನವಾಗಿದೆ. ಇದರಲ್ಲಿ ಒಂದು ಕೊಳವೆಯಾಕಾರದ ಪಾತ್ರೆಯಿದ್ದು, ಅದರ ಮೇಲ್ಭಾಗದಲ್ಲಿ ಒಂದು ಕೊಳವೆಯಾಕಾರದ ಕೊಳವೆಯನ್ನು ಜೋಡಿಸಲಾಗಿರುತ್ತದೆ. ಕೊಳವೆಯ ಅಡ್ಡಳತೆಯು ಪಾತ್ರೆಯ ಅಡ್ಡಳತೆಗಿಂತ ಚಿಕ್ಕದಾಗಿರುವುದರಿಂದ, ಸಂಗ್ರಹವಾದ ನೀರಿನ ಪ್ರಮಾಣವನ್ನು ಹೆಚ್ಚು ನಿಖರವಾಗಿ ಅಳೆಯಲು ಸಾಧ್ಯವಾಗುತ್ತದೆ. ಪಾತ್ರೆಯನ್ನು ಒಂದು ಮರದ ಸ್ಟ್ಯಾಂಡಿನ ಮೇಲೆ ಇಡಲಾಗಿತ್ತು.

ಮಳೆಮಾಪಕವನ್ನು ಇಡಲು ಆಯ್ಕೆ ಮಾಡಿದ ಸ್ಥಳವು ಸಮತಟ್ಟಾಗಿದ್ದು, ಸುತ್ತಮುತ್ತಲಿನ ಯಾವುದೇ ಕಟ್ಟಡ ಅಥವಾ ಮರಗಳಿಂದ ಕನಿಷ್ಠ ಎರಡು ಪಟ್ಟು ಎತ್ತರದ ದೂರದಲ್ಲಿರಬೇಕೆಂಬ ನಿಯಮವನ್ನು ಪಾಲಿಸಲಾಗಿತ್ತು. ಇದರಿಂದ ಗಾಳಿಯಿಂದಾಗಿ ಮಳೆಯ ಹನಿಗಳು ಮಾಪಕದೊಳಗೆ ಬೀಳುವ ಪ್ರಮಾಣವು ಕಡಿಮೆಯಾಗುತ್ತದೆ. ಮಾಪಕದ ಅಂಚು ನೆಲಮಟ್ಟದಿಂದ ಸುಮಾರು ಒಂದು ಅಡಿ ಎತ್ತರದಲ್ಲಿರುವಂತೆ ಅಳವಡಿಸಲಾಗಿತ್ತು.

ಮಳೆಯ ಪ್ರಮಾಣವನ್ನು ಅಳೆಯುವಾಗ ಕೆಲವು ಸಮಸ್ಯೆಗಳು ಎದುರಾಗುತ್ತವೆ. ಉದಾಹರಣೆಗೆ, ಆವಿಯಾಗುವಿಕೆಯಿಂದಾಗಿ ಸಂಗ್ರಹವಾದ ನೀರಿನ ಪ್ರಮಾಣದಲ್ಲಿ ಸ್ವಲ್ಪ ಕಡಿಮೆಯಾಗಬಹುದು. ಆದರೆ ಈ ಪ್ರಮಾಣವು ಅತ್ಯಲ್ಪವಾಗಿರುವುದರಿಂದ ಅದನ್ನು ಲೆಕ್ಕಿಸಲಾಗಿಲ್ಲ. ಮಾಪಕದಲ್ಲಿ ಕೀಟಗಳು ಅಥವಾ ಎಲೆಗಳು ಬೀಳದಂತೆ ಎಚ್ಚರ ವಹಿಸಲಾಗಿತ್ತು. ಒಂದು ವೇಳೆ ಹಾಗೆ ಬಿದ್ದಿದ್ದರೆ ಅವುಗಳನ್ನು ತೆಗೆದು ಹಾಕಿ ನಂತರ ಅಳತೆ ಮಾಡಲಾಗುತ್ತಿತ್ತು.

ಈ ಮಾಹಿತಿಯನ್ನು ಸಂಗ್ರಹಿಸಿದವರು ಶ್ರೀ ಎಂ. ಎಸ್. ಕೃಷ್ಣಮೂರ್ತಿ ಅವರು. ಅವರು ಸುಮಾರು ಹತ್ತು ವರ್ಷಗಳ ಕಾಲ ಈ ಕೆಲಸವನ್ನು ನಿರ್ವಹಿಸಿದ್ದರು. ಅವರ ಪ್ರಕಾರ, ಮಳೆಯ ಪ್ರಮಾಣವು ವರ್ಷದಿಂದ ವರ್ಷಕ್ಕೆ ಗಣನೀಯವಾಗಿ ಬದಲಾಗುತ್ತದೆ. ಕೆಲವು ವರ್ಷಗಳಲ್ಲಿ ಮಳೆಯು ಸಾಮಾನ್ಯಕ್ಕಿಂತ ಹೆಚ್ಚಾಗಿದ್ದರೆ, ಕೆಲವು ವರ್ಷಗಳಲ್ಲಿ ಕಡಿಮೆಯಾಗಿರುತ್ತದೆ. ಈ ಬದಲಾವಣೆಗಳನ್ನು ಗಮನಿಸುವುದು ಬಹಳ ಮುಖ್ಯವಾಗಿತ್ತು.

ಈ ಮಾಹಿತಿಯನ್ನು ಕೃಷಿ ಇಲಾಖೆಯವರು ಬೆಳೆಗಳ ಯೋಜನೆಗಾಗಿ ಬಳಸಿಕೊಳ್ಳುತ್ತಿದ್ದರು. ಮಳೆಯ ಪ್ರಮಾಣವನ್ನು ಆಧರಿಸಿ ಯಾವ ಬೆಳೆಯನ್ನು ಯಾವಾಗ ಬಿತ್ತಬೇಕು ಎಂಬುದನ್ನು ನಿರ್ಧರಿಸಲಾಗುತ್ತಿತ್ತು. ಅಲ್ಲದೆ, ಅತಿವೃಷ್ಟಿ ಅಥವಾ ಅನಾವೃಷ್ಟಿಯಂತಹ ಸಂದರ್ಭಗಳಲ್ಲಿ ಪರಿಹಾರ ಕ್ರಮಗಳನ್ನು ಕೈಗೊಳ್ಳಲು ಈ ಮಾಹಿತಿಯು ಸಹಾಯಕವಾಗಿತ್ತು.

ಮಳೆಯ ಪ್ರಮಾಣವನ್ನು ಅಳೆಯುವ ಈ ಪದ್ಧತಿಯು ಬಹಳ ಹಳೆಯದಾಗಿದ್ದರೂ, ಇಂದಿಗೂ ಅದರ ಮಹತ್ವ ಕಡಿಮೆಯಾಗಿಲ್ಲ. ಆಧುನಿಕ ತಂತ್ರಜ್ಞಾನದ ಸಹಾಯದಿಂದ ಮಳೆಯ ಪ್ರಮಾಣವನ್ನು ಅಳೆಯಲು ಹಲವು ಸಾಧನಗಳು ಲಭ್ಯವಿದ್ದರೂ, ಸರಳ ಮತ್ತು ವಿಶ್ವಾಸಾರ್ಹ ಮಾಹಿತಿಗಾಗಿ ಈ ಹಳೆಯ ಪದ್ಧತಿಯನ್ನೇ ಅನುಸರಿಸಲಾಗುತ್ತಿದೆ.

Dear Duck.

Yours of the 18th to hand re Cameron. I presume you can't manage up with you who have so much leisure on their hands. If the public knew the true facts of the case I imagine there would not be much sympathy for Cameron. Could you not get some friend to write a letter to Times showing the other side.

If you look at my recommendation on the file which is what the Commissioner meant to carry out you will see Cameron is required to satisfy you that either he did not destroy the timber, or pay for what has been destroyed. He is not required to pay for what was used. Wanton destruction of timber is what was aimed at to be punished.

Further although legally he was entitled to entry only for ¼ Sec on which he resided 120 ac. to accomodate him the ¼ Sec was split the other way so as to give him as much land free as possible.

Again right of 2nd entry was granted to people to make them farmers, and from letter from H.O. entry has been refused when people wished to take up lands adjacent particularly will it be the duty to say if present that when under the new amendment he the homesteader can live anywhere within two miles of his homestead. So that under the recommendation of mine Cameron after

Geo Duck Esq

applying for his patent can H. either of the Yukon to the South and must not move his residence. If the public know all the facts I think there would be very little sympathy for Cannon.

If however you think advisable you may without further delay about the timber must give Cannon entry to the Yukon or which he has missed and P. entry at once for the adjoining one. leaving it future to grant and on what terms entry to the land to the South. And tell Mr Gore to collect the dues at posts & Yukon.

I presume when the decision in the P. Albert case reached you there will be so many other topics to discuss, each on his individual claims Cannon's case will be lost sight of.

Am rather anxious to hear what is the opinion on the terms of settlement. I think in all concerned they are liberal enough.

Should you decide to grant Cannon entry you may write and explain to Minister. the whole position. It will then I think go through without any hitch

Compts to Sanderson and Collins

Dear Sir,

The Schedules of the orders in the Prince Albert cases have been sent you by this post -- If those claimants as a class are not satisfied with the treatment accorded, I cannot help it, I think they have been very liberally dealt with. In many cases I've no doubt parties may think an invidious distinction may have been made, no matter where the line may be drawn, the man who comes on the unfavorable side of it, will think the decision as between him + the party who comes just beyond, but on the favourable side, an unjust one.

As you are aware, the greatest possible pains were taken in the investigation, to ascertain the facts in each case, then the Classification thereof was made, the mode of treatment adopted, and it has been carried out on that basis. Let it hit whom

on the sketch attached to this.

Our market for hay and firewood is at

On Sec 36-52-25., the W½ portion there

have been buried there, an application has been made
been made to Government for that purpose, by a
committee representing the town of Edmonton, who
if granted will undoubtedly access thereto and
the road, is across said Lot. No 2.

We would direct your attention that to go from
this day the H.B. Co post to this cemetery by highways
as already established require to go north to Sec.

will perceive compels a distance more than 3 miles
to the nearest access there by the route proposed

actions regarding them have been such that our interests would be greatly impeded by having the location of such highway to his private good will.

Further the road allowances as laid out in Plan No. 53 - 28-11 are in many places intersected by bad swamps rendering construction of highway practicable very expensive to us, for owners to own and struggling settlers, which require all their means and time to further their own actual wants.

If you grant our prayer we will have and obtain from the D. L. Surveyor Municipal plan it necessary so that no delay in having patent to said property need ensue.

This road is the most direct route to what is known as the Stony plain which is a highly desirable tract for settlement in which already several have settled. There are also several settlers already along the River above us. This road is also the most direct route to the Stony Plain Indian Reserve, and would be of great benefit to the forces.

We are aware that the Public Work Council have the powers granted to open up roads; but we respectfully submit the object we wish to attain could be done, as we suggest, more immediately, without expense to your Dept or injustice to any interest.

Hoping you will take this petition into your favourable consideration and grant our humble request.

I have the honor to enclose herewith a report re a dispute concerning the position of River Lots 6 to 18 inclusive on the South side of the East Saskatchewan River at Edmonton the parties in dispute being the Rev. John McDougall as trustee for the Methodist Mission Claimant to lot No 6. and David McDougall claimant to lot No 8. of the one part and the claimants to lots 10 & 18 of the other part.

This report is submitted for your consideration and approval, as action of some nature or another will probably be necessary. Unless you decide to let the lots remain as they have been surveyed. The suggestions would not necessitate any further being done on the ground, merely amending the plan for leaving from off the rear of each lot the amount required

Edmonton Alberta
16/7/84.

Sir,

I have the honor to report on the case in dispute between John McDougall representing the Methodist Mission, claimant of Lot No 6 Edmonton, David McDougall as claimant of Lot No 8 adjoining, and the claimants of Lots 10 to 18 to the East.

It will be noticed, that according to Deans survey, all the Lots commence as they go back from the river 4 & 6 and 8 become triangles. The claimants to the latter contend they should be treated at least as liberally as the remainder, No 10 to 18 inclusive.

There are in addition two other disputes viz: as to boundary between 4 & 6, another between 10 & 12 but as these latter are minor, and do not affect the principal point at issue they may be treated totally independent there of.

On Monday the 14th instant the claimants, or parties representing them, of all Lots on the North side of the river, from 4. to 20. inclusive met me at Edmonton: the following were present No 4. Donald Ross. No 6. Rev. John McDougall. No 8. David McDougall. No 10 Charles Stewart representing L. Richard. W. L. Robertson & Richard Hardisty claimants to No 12 W. L. Robertson & Donald McLeod claimants to No 14. No 16. 18 & 20. by claimants respectively James Rowland, Wm Rowland and Kenneth McDonald.

In 1870 the Rev Geo: McDougall staked out the Mission Property: built thereon in 1870.

In the spring of 1872. the Rev Geo McDougall Richard Hardisty, Wm Rowland & Kenneth McLeod commenced at a stake on the North side of the present trail, on the Easterly boundary of the Mission property which runs about with Deans line at that point. They measured on a line running North Easterly and gave to the Rev Geo McDougall 10 chs Wm Hardisty 10 chs Richd Hardisty 10 chs 7 chs McLeod Gillivray 10 chs Lowdes McLeod 10 chs Harrison Young 10 chs Wm Rowland 80 chs in all 70 chs & the Eastern limit of Wm Rowlands property as staked being marked now by a stone, shewn on Deans plan of Edmonton. which stone was planted about 1873 Kenneth McDonald's claim being to the East of this stone. (Note. This course is about N 22° E. astronomically and according to Deans plan this distance is about ten 70 chains.) At the time it was staked it was intended to run out the lines about at right angles to the line as measured.

Prior to March 1873 at which date the Hudsons Bay Company's Claim was located or surveyed, the following improvements had been done on the several claims.

Rev: Geo: McDougall. House erected.

Williams

Wm Hardisty. Nothing - Richd Hardisty. Nothing.
On the East half of the Mr Gillivray claim
there was an acre and a half of breaking -
and on the Mr Ross claim three acres and a
half. one house partially erected. on the Nelson
Young Claim there was about one acre broken
it being then claimed by James Rowland. on
the Wm Rowland Claim there were three acres
of breaking. log house in course of erection
and Kenneth Mc Lean had a house. stable
and four acres broken and fenced. all the im-
provements were at or near the line as established.

In 1875 one Otty a D.L.S. was employed
by Mr Richard Hardisty to run the line between
him and Mr Ross, said line being intended for
the centre line of the original Edr Mr Gillivray
claim. This line was run due North and South
and Mr Ross protested against that line, and
cut him off on the West and his neighbours on
the East contending that their lines should run
in a North. Westerly direction.

In 1881 one R Bourne D.L.S. made a
projected survey enclosing the limits of these
lots. his bill for services amounted to three
hundred and twenty dollars and this was paid
by the settlers in proportion to the acreage -
If the lines were to be North and South.
Wm J Rowland however did not pay, but
consented doing so, if on survey by the
Government, the lines agreed with those laid
down by Mr Bourne.

The foregoing statement we believe to be
correct - in its various particulars.

In Notes accompanying this the line as at present claimed is marked A.B. It crosses the 49th parallel of north latitude about 95° 14' west longitude. Between A and 1 claimed by Rev. Mr. McDougall, and claimed by Paul Mr. Paul, between 1 and 2 originally Mr. Hardisty now by Rev. Paul Robertson. 2 & 3 originally Richard Hardisty. 3 & 4 originally Mr. McMurray. 4 & 5 Donald McKenzie. 5 & 6 Duncan Grant, now James Rowland & 6 original & present claimant Mr. Rowland.

The McMurray claim 3 & 4 was situated in inferior quality between 2 & 3 and 4 & 5 and is now claimed by the occupier of the former claimants of stones. It is also claimed by the Wesleyan Missionaries, and a separate description will be made.

It will be certain that at the time the Hudson Bay Co's papers were engraved March 1873, the improvements were very meagre, and were close to the line as staked out, so that from the direction stakes, the line might have been run due N & S without actually affecting the improvements then made. There is no doubt that at the time it was staked the intention was to run back several miles into the line as staked. The Rev. Mr. McDougall states that when the survey was began to run the Easterly limit of the Hudson Bay Co's reserve the line was found on some portion East of which penalty located: that his father the Rev. Mr. McDougall protesting against it, it was changed to its present position. The Missionaries were then aware of the creation of the Hudson Bay Co and that it was claimed on

the

S.

the Easterly boundary of the Province, be found, were to run parallel thereto the lot would be very much reduced in area. Mr John McLoughlin further claims that his patent conducts direct the Courtenay bearing from the Hudsons Bay & Puget Sound and South the other direction this must run on the same course and therefore the Province interests were not injured by allowing as located. The same observations applies to lot 8. it being then owned or claimed by Dr John McLoughlin. Richard Hardesty & representing this claim and that of his brother William appears as to have conducted for the same and as early as 1850 Mr Hardesty employed a surveyor to run a line North and South, defining the boundary between him and Mr Lord, or see Ld 122 14. Mr Lord's neighbours to the East however contend on having their lots run to adopt the situation they have since been established by Mr Deane, and the result would have been that Mr Lord would have had very little left of his neighbours on both sides had claims not been made.

The Easterly limit of 15 was not carried out at right angles to A B. but the country being heavily timbered the bearing was made when it could be done the most sharply & Mr Lord also appears to have had his improvements extend over the greater area & thus drawn the line between him & Mr Donald it will stand. Letter appears to have been taken as the governing line for the claims to the West.

The following is a copy of a Memo on this subject from Mr Levy now chief Surveyor of Victoria.

Victoria 6th Dec 1870.

The claim lying East of the N. E. Boundary
known as Fort Edmonton and the Methodist
Mission, Peter McDougall, Colin Fraser,
John Sinclair, Donald McLean, Wm Cowland and Lot Monkman, McDonald.

The Eastern line of the Mission runs North
East and at its Southern extremity is only
about a chain from the edge of the river bank
This river bank (200 feet high) runs pretty
about N. 30 E leaving a sort of wedge shaped
piece between it and the Mission Line. This
piece was divided into claims by Rev. Mr.
McDougall & Mr. Hardisty pacing out
to make the frontage, but as any disputes
might easily come to arise the boundaries of
the lots. Mr McDougall took first claim
Mr Hardisty the next (now decided between
John Sinclair and Colin Fraser). Donald McLean
the next. Wm Rowland the next & N. McDonald
the last. Many have since origin partial
settlement.

Wm Rowland sold the half of his claim next
to D. McLean & his brother James Rowland,
Mr. Hardisty sold his to John Sinclair who
afterwards sold half to Colin Fraser.

Mr. Hardisty says the arrangement originally
was that the lots should go straight back
from the bank a mile or 20, and so

Donald McLeod claims, But from not having enough work to time his lines he runs North and has indeed Surveyed (his brother-in-law) to the same, as that his line runs through McLeod's field & encroaches his house. In case on the other side of McLeod runs their lines N. 21 W (N 17 W magnetic) thus making on McLeod.

McLeod further states that they have encroached on both sides of him by erecting their stakes Mr Munro one foot within on this point.

I think in this dispute Donald McLeod has right on his side. Supposing if the lines were all run North, the last letter N. Mr Donald other has some improvement would be pushed into the River.

Respt
W. F. King

The next action of any moment to any in the case was in 1864 when Mr Munro & McLeod in Edmonton were employed by the claimants of Lots 6 & 20 to define their boundaries. He did so by running them N. & S. and on observing the Pole Line was found to be quite wrong. His Sale for Lot 20 was then prohibited by a new claim by all the parties except Samuel Pilliam Rowland claimants of 16 & 18 who agreed to accept 21. The Co. adopted Barnes Subdivision and it is probable if Mr Deane had

5

has in 1882 adopted it then would not have been under objection by the Sandie's interested. This is the first time that Thomas McDonald Claimant of N°20 appears to have taken any interest in the matter, and he was old and feble in decrepitude of having the grant settled so that he can obtain a title to his property. It will be noticed that he has a very large area as surveyed by Deane, but he appears a very good settler, and states that when the property was first staked out he claimed all the land east of Wm Rowland.

Two lots were claimed to run back from the river 3 miles, but owing to claim and the settlement to the North of Red Rock, this has been made them. Naturally land making them on the average about one and three eighths of a mile in length.

After taking everything into consideration I think the line between N°19 & 20 as established by Deane is where it should be, though it gives to Thomas McDonald a very large area. It can be granted 100 acres and the remainder can be disposed of either to him or to someone else. Therefore, assuming that line to be correctly established, it appears to me that the equitable division of the land between it and the H.B. Co's reserve would be to divide along Red Rock in proportion to the widths of the lots on N-A and B-A produced to intersect the H.B. Co's claim. The lines in blue represent the boundaries under that subdivision.

The following show the areas of the lots under the 3 different systems. Deane's

as surveyed. Red, according to Brown's subdivision. Blue subdivisions as understood. The above Lettered areas are only approximate but are probably very nearly correct.

16.	86.	81.	-5	70.	-16.
18.	89.	85.	-4	70.	-19.

At these rates, however, it would not be expedient to make this subdivision as projected on plan, a large number of buildings having been erected over the pipe on lots 10, 12 & 14 which would if this were adopted be placed on lots other than those situated, besides a large portion has been subdivided into town-lots in conformity with Brown's survey. It may be argued that the Claimants of these lots had no right to subdivide and sell as they have, and that the purchasers should look to those from whom they bought to make good any loss incurred; but in some cases it is doubtful if means of redress are available besides it will be found that as they are all trespassers on the public domain, the rights of the latter to the portions claimed are probably as strong, in some cases more so

between the claimants of the said lots from whom they purchased.

After having written out the said statement signed by Mundy, Mr Kerr, Rowland & Mc Donald, I spoke out to all that if they could agree among themselves no delay need occur in having patents issue, but without such agreement delays must occur as that the only contestants were the Russells and David Mc Dougall, and if the remainder could arrange with them to withdraw their protest, it would save time. I suggested that perhaps they might be satisfied by receiving some land from map of lots. Kennedy & Rowland expressed his willingness to contribute a reasonable quota towards such solution and I believe a proposition was made to the Mc Dougalls, which they have refused to accept. David Mc Dougall, if the Russells had not protested would have accepted Deane's offer but as they did he concluded to do as they, but I believe he offered to withdraw his protest if 12 acres were given him.

John Mc Dougall on behalf of the Russells on the 15th inst: filed with me the following letter.

Sir;

I beg to state that on the part

12

part of the Methodist Mission Claim.
We are willing to accept an area of 160 acres
conterminant with our present frontage &
running North parallel with the Hud-
son's Bay Company's Easterly line, on
the same frontage (as near as practicable)
and area running in a North-Westerly direction
up the line of the Western boundary of the
Kennette McDonald Claim as shewn by
the Deans Survey

I have &c
pp a.
John McDougall.

So far as David McDougall's Claim to Lot
No 8 is concerned, as will be seen by the evidence
it is not a very strong one, and no injustice
would be done him were the Lot to be left
as it is.

The valuable portions of these Lots
are the front, and so far as that is concerned they
never were all they ever expected or
claimed.

Lot brought without any action be granted
Land elsewhere in the neighbourhood to the
extent of difference between portion allotted
them by Deans Survey & that by the blue
projection.

Lot 8 clear. Nothing has been done
by either of the Claimants to render these Lots
valuable, their enhanced value is owing
to the action of Claimant to the East &
the Hudson Bay Company to the West.

Land to satisfy Lot 6 would be
obtained

350

obtained from Section 8 to the North. It is in a township interested by the Saskatchewan River & could be claimed by the Hudson Bay Co but if it were represented to that Corporation that to some extent their lot has been injured by the location of the Hudson Bay reserve, it would probably waive its claim to same.

If that arrangement could not be made I would suggest the portion in sketch in yellow, marked 20A which contains about 54 acres be granted it.

20B is not nearly so valuable, contains 34 acres and should it be desired to add any more to lot 8, it might without injustice to McDonell claimant of 20, be taken therefrom. This could be done without making any further surveys on the ground, merely making an amended plan of that portion of the Edmonton settlement, reserving from off the rear of each the area required.

I have thus gone fully into all the facts and matters bearing on these claims so that no delay need ensue in arriving at a decision. The Claimants & surveyors being particularly anxious to obtain patents & have their lands released from delay as possible.

That in 1872 I entered into possession of the river claim now occupied by me in the town of Edmonton.

There was an allotment made at that time between the water front limit of the Settlement claim. I was not personally present when the claims were laid out, but I understood that the claims were laid out as follows running eastward from the Mission claim, viz Geo.ᵉ M.ᶜ Dougall, William Henry Lindsay, Richard Hardisty, Edward M.ᶜ Ellmery, Amelia M.ᶜ Love, Hannah Young and M.ᵐ Rowland. Geo.ᵉ M.ᶜ Dougall claim is now occupied by Geo.ᵉ M.ᶜ Dougall. William Henry Lindsay entered into possession of his claim but [illegible]

Richard Hardisty entered into possession of his allotment in 1873 and built a house subsequently he leased about 1869 and made improvements consisting of fencing, ploughing & cultivating. Richard Hardisty was only allotted claim subsequently on same as mine by Steward who laid them out.

Edward M.ᶜ Ellmery never entered into possession of the claim allotted for him as he said it was too small. M.ᶜ Ellmery gave up said claim to be divided between Richard Hardisty and myself, now forms the new Settlers claim instead. M.ᶜ Ellmery abandoned the claim or allotted to him by [illegible]

The first improvements made in 1872, after the above arrangement, made on the border of the Mc Elvane allotment consisted of about ten acres of clearing which has been under crop every year since 1874.

Richard Hardesty moved on the western half after Mc Gill sold my allotment and he owns, since becoming the original settler.

Sir.

I have the honor to enclose herewith a letter addressed you, by one James Price, who has been granted Entry to the W½. 25. - 53 - 24 W of 4th Meridian.

His position is, that the result of entry as Homestead, and Pre-emption, to the E½ he accorded his son who is now, or will be shortly, 20 years of age. The improvements made on the said ½ section for the son are not worth $10.00 in all, merely the cutting of a few logs for a house.

It will be noticed that he has been liberally treated himself in the matter of entry, as it must have been late in 1880 before he began bona-fide residence on his claim. (I think he stated it was in 1881.)

After he made me his statement, he asked if I did not think his son was entitled to Homestead and Pre-emption entry; I replied in the negative. As he seemed to think that if the Minister knew his case, he would grant it, I told him to write you a letter and I would forward it to you.

I may say, I understand that Price is a first class settler, has a large family and is particularly anxious that his son should have this help section as it adjoins his own.

I suggested it would be advisable for his son to at once make Homestead entry

I have the honour to enclose herewith a declaration of one Osborne to Legal Subdivision 3 and S½ of L.S. 4. in Sec 20 - 53 - 23 W of 4th P.M. for the consideration and decision of the Land Board.

The history of the case is that Osborne in 1898 first made slight improvements on the N.W.¼ of this Section. When the ½ was open he made homestead entry for the N.W.¼, Pre-emption for S½ 4, but before returns were made by agent to Head office the Colonization Company decided to make their head-quarters in this vicinity, now known as Clover Bar, and an arrangement was entered into, between the Co: & himself whereby he agreed to abandon all claim to his Pre-emption and take L.S. 3 & S½ L.S. 4. 60 acres. He was granted the same and when the returns were made to Head office, it was decided by the Dept of Justice that it must be cancelled, it not lying adjacent his Homestead. The Col: Co applied then to purchase the entire ½ Sec: and their agent informed me that it has been sold them and that they are prepared to sell to Osborne at the same rate the 60 acres as Osborne would have to pay the Co'y: Osborne professes to be afraid to trust to them to do so and made the enclosed declaration.

Sir:

I have the honour to enclose herewith a declaration of our Power Customer by Sundry Agreement 3 dated 4th of A.D. 1908 for 20-03-23 W 4th & 5th for the Provisional Government of the District of Edmonton.

The boring of the 20 & 21 Townships are 100 feet under Official Engineers, for the W.M. District Records. Where the 4th runs along the Canal Reserve Boundary for the N.W.M. Co. Limited Agreement dated 1st Sept. 1908, the Canal Reserve is 200 feet wide, and as arrangement has been entered into between the Co: & Municipal Authority to grant a Canal Reserve 200 feet wide, all trees standing on said Reserve will be cut down by Power Co: & Municipal Authority.

Trusting the above will be found satisfactory,

I am Sir,

Your obedient servant,

Alberta Power Co. Ltd.

Secretary.

As he points out his Entry had been cancelled through no fault of his, but through action taken on advice of Agent of Co:, who is also Agent for the Govt and that he was prepared to carry out & prove his agreement and did not think the Co should reap the advantage of a technicality.

As will be seen by his Declaration he has, or has not proved a first class settler, and has no right to this 80 acres unless he performs his Homestead duties. Further his claim is such that he would be required to pay $2.00 per acre for his pre-emption. It might not be expedient to sell him that portion now, there being no guarantee that he will fulfil his Homestead duties.

The easiest solution of the difficulty would be, that the Co if they have power to sell the title to said 80 acres, be requested to sell it to him at $2.50 per acre. He will probably object to paying that amount now, claiming that as a pre-emption he would not have been required to pay for it for two years. As to that, he cannot acquire title to land by such purchase, even if he should forfeit his Homestead, the land being probably worth much more than $2.00 per acre.

Another solution would be, if this portion has been patented to the Col. Co:, to request them to deed it back to the Crown. When Osborne is entitled to his Homestead patent, if could be sold him at $2.00, should he forfeit his right to his homestead, it then to be disposed of as the Minister may direct.

I have the honor to enclose herewith a Declaration of one William Keith to the N½ of the N.E¼ of Sec. 20 Tp 53. R 23 W of 4th P.M. for the consideration and decision of the Land Board.

The history of the case is this. In 1883. Keith purchased the claim of one Jackson, to the Eastern half of 20 - 53. 23 W of 4th P.M. Jackson had 15 acres cultivated but no buildings or residence. He made his entry on the 14th of June 1883 with the Edmonton and Saskatchewan Land Col: Co: For Homestead the S.E¼ of 20 & for pre-emption the N.E¼ of 20, but before returns were made by the Agent to the Head Office, the Col: Co: decided to make their head-quarters in this vicinity now known as "Clover-Bar", and an arrangement was entered into between the Co: and himself, whereby he agreed to abandon his pre-emption and take the N½ of the N.E¼ 80 acres, as one. He was granted the same and when the returns were made to Head Office, it was decided by the Dep't of Justice that it must be cancelled, it not lying adjacent his Homestead. The Col: Co: applied then to purchase the entire ¼ section, and their Agent informs me that it has been sold them, and that they are prepared to sell to Keith at the same rate the 80 acres as Keith would have to pay the Gov't. Keith professes to be afraid to trust to them to do so, and made the enclosed declaration -

As will be seen by his Declaration his proving to be a first class settler, and thus no acre would with safety be sold to him at once, as there can be no doubt of his performing his Homestead duties. His claim is such that he would be required to pay $2.^{00}$ per acre for his pre-emption.

The easiest solution of the difficulty would be that the Co: if they have received title to said 80 acres, be requested to sell it to him at $2.^{00}$ per acre. Sir,

In the matter in dispute between W. Roberton and R. Nardsky, claimants of lot 12 and Donald McLeod claimant of lot 14: both of one part and Wm Humberstone who claims a portion of both lots of the other part, I have the honor to report.

The file enclosed contains the evidence on the case, and it may be summarized.

The present lots 12 & 14 as originally staked out in the spring of 1872 were three lots, claimed by Rich'd Nardsky, Ed: McGillivray & Donald McLeod. McG's portion lying between the other two. This was staked out for McG. and when he came to look at it in the Fall of 1872, he did not like it, being scrubby, so he went down the river about five miles, took a claim, and afterwards moved to Victoria, and has remained there ever since. He never proved any claim to it: gave a Quit Claim of ½ his interest to it in favour of Wm Humberstone on June 19th 1882. consideration $25-00. This was subsequent to Humberstone's squatting on it. Nardsky & McLeod divided the claim between them equally (on McLeod's affidavit.) In 1875 Nardsky employed a Surveyor to define the line between him and McLeod. and the centre of McG's claim was taken

A. Walker Esq
Com Dom: Lands
Winnipeg
Man

taken as the division. In 1891 another survey was made by one O'Brien D.L.S. and the centre of the lot was then taken as division between McNeil and Hardisty. It would appear that the neighbours generally considered McGillivray's Claim as belonging to Hardisty and McLeod.

In October 1890 Numbration came to this neighbourhood & Stake the first proposes taking up a Claim near what is known as Little Mountain which is about Dec: M. 54 - 24 W of 4th, but was told by McLeod that he was holding it for a cousin of his & that he afterwards intended taking up 25A, but was informed that it was claimed on behalf of the Half Breeds, owned by McLeod & Fraser (the same McLeod), which is situated near the river on the southerly end of Lot No 20. He then claims that to obtain information from McLeod as to the exact position of the McGillivray Claim, he pretended to wish to obtain from him a lot for erecting a dwelling upon. Having obtained this information, he operated upon the said McGillivray Claim, and has continued to occupy it. His house was burned during the night, and during the operation of a certain vigilance Committee, organized to prevent jumping Claims, and that McLeod stated that against him would have forcibly removed this house; but McLeod states, he always felt sure of the justice of his Claim, he never had any doubt when the proper time arrived the Govt would pay no attention to that of Numbration. That is also the view entertained by the majority of the residents of Edmonton, as shown by that the boundaries of lot 14 covered by this McGillivray Claim

247

claim does not as partly, as those on the remaining portion.

His license to claim is worth $200 upon sale would cover. He states he has also opened a drift for 120', 5½' x 5½', into a coal seam on bank, erected a coal shed at mouth and graded a road down the hill - cost of an expense of $200

Lot 14 has been partitioned into lots, and according to it, this house claimed by Hamilton is on a street

In this connection it ought to be said in all patents to lots in the Edmonton Settlement, to reserve the right of coal mining, and open streets, the Coy paying any the actual damage done to the property, for the lands taken for roads or for working and mines. By this means Hamiltons claim could be protected in his mining & he should receive protection and encouragement in that. Another case of dispute between the claimants of lots 4 and 5 could be easily settled by reserving same rights. Knowles corner of lot 4 contends his line should go to the top of the hill. The chief reason is, to enable him to drift into the bank for coal or get wood for house and stock, when come out of the coal seam, and also to have right of way to his property.

Further as to Hamiltons claim on the grounds of location. Viz. He was Pottery works Claim & Kennedy Claim of lot 13 20 two months time & all of the men in one lot for each building, and the Coy claim on a much greater scale during the first 3 years to

385

247

the cost being about $30.00 per annum.

After taking all the evidence into consideration I would recommend that so far as his claim to the portion known as the Billing land is concerned, that it be ignored, but his claim to the land adjoining the coal be protected, if it can conveniently be done.

If this meets with your approval, please endorse and forward the Minister.

Sir,

I have the honor to endorse copy of H.B. file No 6521, also a letter of instructions addressed to the Agent of Hudson's Bay Co.

If you will examine copy of Order in Council dated 3rd inst. in connection with my letter to Agent, you will see reason for action taken. Grant was re-examination on ground; found Norris a good settler, valuable buildings and about 350 acres under fence, his enclosure extending some distance into Sec. 14 12 to the West; has been for many years in occupation thereof, and although not living on the land in question but four years, has for about 10 years, if not longer, lived on Sec. 11 adjoining.

I trust my action will meet with your approval. If so please endorse and forward to Head Office.

Sir,

I have the honor to instruct you to make the interchange of entries without fee which are requested in the inclosed affidavit. If you as representative of your Col: Co:, have no objections to granting Stanton the S.W¼ 33 in lieu of the S.W¼ 34 as a pre-emption, I presume the Minister will have none.

It does not appear on what grounds you insisted on having the entries made as they were: you certainly treated Stanton liberally enough considering his claim.

Mr. Mowat called on me and in presence of Mr. Simpson, I came to the conclusion that Mowat had no guarantee, that if he did not know what he was doing when he made his entry, he should have. I am of opinion that he is at this date instigated to make this application by the Revd R. Newton who has had a violent quarrel with Mr. G.A. Simpson the Agent of the E. of C. Sir.

I have the honor to report to you, for decision of the Land Board, and confirmation of the Minister an application by one Malcolm Groat for Dom. Lot No. 2 Edmonton Settlement.

The said Groat first began his improvements in 1869, but it was not till 1875, he began his residence thereon. He has shewn his good faith by having this lot surveyed for him by a D.L. Surveyor in 1875, and a description of the same prepared, and application to obtain a title thereto either by purchase or lease was made in Sept. last on his behalf by W.J. Christie Esq. late Hudsons Bay Co factor.

Groat has proved a good settler: see declaration taken this date, attached, and excepting therefrom 4 chains from off the Easterly side of the lot, and a right of way across the lot one chain in width, to give access to Edmonton by water up the river, I would recommend 160 acres be granted free, balance sold at $1.00 per acre.

With reference to the right of way across Groats lot, that was made a subject of letter and Report to the Minister on the 16th instant.

As to the 4 chains in width, reserved from off the Easterly side of said lot (see sketch enclosed)

With reference to Lot A claimed by Wm Berry, containing 10 acres: a portion was given him last year by Mr Berry for Sunday attendance, by the said Great, but the understanding as to area was rather vague: the stable it was then was 10 acres. Mr Great stable it was 7 acres. However Berry was a good settler there up to the time of his death, dying intestate: and his Widow has since resided there, and has supported herself and children by her own exertions, being left in poor circumstances. She has the reputation of being a very industrious, hard working woman, worthy of very consideration and I would recommend as a free gift a portion 4 chains in width & extending back from the river a sufficient distance to include 10 acres (see sketch)

With reference to Lot B

In 1876 Great stated he promised to give to the Church of England 5 acres on top of the hill, on condition of Church and School being erected and school kept open; but if not the land to revert to him. He claims the Church has not fulfilled their part of the agreement. I cannot see why the Church has not about as good a right to it as Great has, as he does not seem very modest in area claimed. A church has been erected, and continually used as such, up to date; and I would recommend a strip 4 chains in width and 22½ chains in length containing 9 acres be granted on payment of $1.00 per acre. I presume patent should issue to the Bishop of Saskatchewan in his corporate capacity. A right of way one chain in width, should be reserved across said strip.

With reference to Lot C.

Great it would appear, made about the same time

258

time, a similar arrangement with the R.C. Church standing there now. This body appear also to have purchased one Collins's right to one acre on Creah Claim, he having at one time erected a dwelling there. A building was erected for a Church but is not now used as such and was used very little as a Church or school house.

I would recommend a patent issue on payment of £1 per acre for same area, also reserving a right of way of one chain in width across it. This patent to be issued to Bishop Crawford as head of Episcopal Corporation of the Diocese of St Albert.

D.

This lot to be disposed of as the Municipality may direct.

I have the honor to enclose herewith, the application of one William Cant, to purchase Sec: 19 & the S.E. ¼ Sec: 30 - 54 - 24 W of 4th, with his affidavit in support of same.

It will be seen that his improvements are very extensive, and he has displayed more enterprise in the way of cultivation & building, than any other individual in this District.

It will be observed however, that his residence has not been in conformity with the Homestead requirements of the Dominion Land act, but after taking into consideration all the facts of the case, I would recommend he be granted 160 acres free, the balance of Section 19 & the S½ of the SE¼ Sec: 30 - 54 - 24 in all 700 acres, (540 acres to be purchased) at $10.00 per acre.

Sir;

I have the honor to enclose herewith D.L.S. file No. 64,187 and report in the case in dispute concerning the boundaries of lot 15A Edmonton, between Wm. H. Budmi and Thos. A. Anderson. The report also contains a recommendation as to the terms under which Budmi shall be permitted to acquire the said lot 15A.

Report.

Thos. A. Anderson claims lots 13 & 15 which are to the West & South of 15A. Budmi claims the latter one and disputes both boundaries as established by D.L.S. Deane.

The history of the lot is this. In 1877 one Norman McKay purchased from an Indian, who now takes treaty, his claim, which consists of a shanty & stable & half an acre breaking. The improvements were probably worth $10 at that time for Metis & Cattle there were no claims, other than those of Indians & as Hughes no doubt been informed in the treaty made at Carlton the property was, had no right to transfer. McKay vacated the Claim the following autumn he sold to one Wm. Astley. His residence consists chiefly of clapping on & making his livelihood by working in the neighbourhood. He paid $125 for the Claim and sold to Mr. Astley for $150. Mr. Astley who lived on it from the time he bought from McKay put in

similar

280

similar nature; his improvements consists of erecting two walls of a house and stable & putting out putting into a fence, about two rails. He sold to Richd Hardisty, who does not appear to have done anything, and sold to one Benjn Clark Wood, who has a claim of any date, if at all, and made no material improvements, and sold to one Wright, who sold on April 1st 1892, to one Marshall Brodin who died intestate a few days subsequently. His brother was on his way from Montana to join him at date of his death, and reached him about one week thereafter, and has resided constantly thereon since about May 1st 1892. Marshall Brodin dying intestate his father Wm Brodin became his heir, and he filed declaration to purchase Claimant Sept 21st 1892 Prior to sale by Wood to Wright there appears to have been no written transfers. Since then all appear on file.

As the residence prior to that of Brodin does not appear to have been within either the spirit or letter of the Dom: Lands Act, I would recommend that Brodin be permitted to acquire it as a Homestead, his time to count from May 1st 1892.

As to Boundaries.

When Mr Kay took possession it is probable he had a very vague idea where his boundaries were. Only one thing seems clear and that is that a spring on the top of the bank belongs to the Claim. Brodin says, to take in that spring the line on the West side would require to go 1.50 further West.

Mr Aulay who succeeded from Mr Kay states that the lot as now laid out agrees about with what he supposed were the boundaries at the purchase. That he did not know whether the spring alluded to, was on the lot or not, but he graded a road

260

proof to it & it was now by him withdrawn objected. He also enters a claim which by Mann's survey is on lot [redacted] thought it was to the West of his claim. His objection for putting it there he states was to have his claim extend West to take it in. To take it in would also include the spring. No one seems to have objected to his placing the stake where he did. and his contention was that this being the 1st claim had prior right to location.

The question of boundary seems seems to have arisen, like Messrs Anderson (Crown Timber Agent) purchased what is claimed as 15 for one Purser. (Austin states he supposes I was the person who claimed it.) These owing to the contest between Austin and Anderson refused to have anything further to do with the lot & sold it to Messrs Anderson. Austin and Anderson have been quarrelling over the boundaries ever since the Spring of 1862.

It would appear to me that the strongest evidence in support of what was intended as the Westerly limit of the lot is the location of the spring. Austin states that if the line were extended 150 Westerly it would take in both the stable and the spring. These does not appear to me sufficient reasons for changing its southerly boundary. I would therefore recommend that Austin be permitted to homestead all of lot 15 A. and 150 rods off from off the Eastern limits of lot 13. extending Southerly from the River Thames between 25 & 26 one mile to the S.E. angle of lot 15 A. containing in all 126 acres.

Sir,

I have the honor to endorse herewith for the decision of the Land Board, N.C. File 5911. being an application by one James Alexander Petrie, protesting against the Survey of Lots 38 & 40 Edmonton Settlement. His Declaration taken by me is attached to the file.

As will be seen, he has been for only 6 months a bona fide resident on his place since he first took it up in 1881, the remainder of the time, he has been a clerk in a store in Edmonton, riding down to his place each night after the store closes, about four miles down the River by the trail, and returning in the morning in time for business. He claims a half a mile frontage, but when survey was made, his shanty was about 40 rds and about 1 acre of a garden patch broken came on Lot 38. Lot 40 contains 200 acres, and he has no reason to complain of area. He however claims it is rough & scrubby.

After receiving all the evidence in the case, I see no grounds to change survey, and would recommend Petrie be allowed to Homestead 160 acres, and to pre-empt the balance at $2.00 per acre, his time not to count till he becomes a bona fide resident upon the land, not elsewhere in town and staying there as at present, and would suggest that the Agent be instructed to notify him accordingly.

Sir:

I have the honor to enclose herewith N.R. File No 43340. with report thereon for the consideration and decision of the Land Board.

The facts of the case are briefly these: Some 7 or 8 years ago the Rev'd Dr. Newton, then of the Church of England, settled on what on survey proved to be the S/2 of 19-53-23 W of the 4th. This is a fractional 1/2 sec: being broken by the River and contains 288 acres. His improvements as per affidavit, consist of about 12 acres breaking, buildings and fencing at $1000 etc (In this and all other cases the valuation is placed extravagantly high, the basis being a days work of an ordinary man @ $3/) All the improvements except about 3 acres of breaking are on the S/2 of the S/2 of said section, which half contains about 145 acres, judging by the plan. When the Edmonton & Leduc Land & Coal Co: were surveying Clover Bar, situated on the opposite bank of river, their head-quarters, an arrangement was entered into between Dr. Newton & Mr. Simpson the Company's agent, whereby the former relinquished all his right to his Pre-emption the N/2 of the said S/2 of Sec: 19. excepting 12 acres in the form of a square situated on the top of the bank, which the Company agreed to deed to him when they secure a title to the same.

The effect of Dr. Newton not claiming entry as a pre-emption

Pre-emption being, that it would be the Co.
What representations Simpson made to him to in-
-duce him to do so I am not aware of, nor would
Mr. Newton state same either verbally or in writing.
but simply states he is convinced the Co. are paid
and he has the 12 acres, and that the Col. Co. have
not carried out what they promised; that the establish-
-ment of their head-quarters at Clover Bar, have not
been, nor will it be of any benefit to him or his property.
His greatest objection seems to be, that he should
regard to have anything to do with Simpson.
Mr. Simpson on his part states he does not know why
the Co. should have such antipathy to him. Mr. Newton
further states he is certain Simpson has not run the
line correctly between the said North & South halves
of the said half sections. Implied if such were the facts
and he could prove that the line was intentionally run
incorrectly, not only would he have his commission as
D.L.S. cancelled, but would be further subject to a heavy
penalty.

After careful review of the case, so far as
Mr. Newton has furnished same, I can see no grounds
for interfering. It was an arrangement entered into be-
-tween the parties, if it was a bad bargain on the part
of Mr. Newton, he has himself wholly to blame for it.
And I make recommendation accordingly.

If approved I would suggest that
Mr. Newton be advised directly from your office.

Dear Mr Walker,

I have enclosed with this, an official Report on the painful dispute between the Rt: Hon Col: Cr: and the Revd Dr Newton: it is rather a personal quarrel between the Revd Dr & the Agent of the Co Mr Geo. G. Simpson. The Dr is, I think very, he has been up before the local courts, on several disgraceful charges, threatening life by drawing revolver &c. I think it is a disgrace to the Church that such a man should be left in charge. He is quite clearly, but some of his children, & wife live with him. I do not know if He has for reasons I have failed so far to understand, taken a violent dislike to Mr. Simpson, and uses every opportunity to insinuate disagreeable matters towards him. The only official matter I see fit is how any, I have thought it advisable to send you this confidential report which you have permission to use as you judge best.

Dear Mr Peter,

Yours sincerely

Edmonton
July 22nd/04.

Sir,

I have the honor to submit herewith for the consideration of the Land Board, the evidence in a dispute between William Cust and William Nicholson, taken before me regarding their title to the SE¼ of Sec: 30. Tp. 54. R24 W of 4th M. M.

The summary of the evidence is as follows:

Cust went on his Claim viz section 19.-54.24.W4th in 1877. and has been making improvements and enlarging his acreage ever since. At the time the survey was made, he states, that he had as much breaking done on the SE¼ of Sec: 30 (the part of land in dispute) as he has at present.

Nicholson states that when he went on his Claim in 1901. he planted a stake about 10 or 12 chains South of the Northerly limit of the SE¼ Sec 30, as the Southerly limit of his Claim. and that when Cust's breaking came a short distance beyond that stake; that he made entry with Mr. Simpson, the Agent of the E. & S. Cols Co: in Nov^r 03 for the NE¼ of 30 as Homestead and the S.E¼ 30 as pre-emption, and that he told Simpson at the time of Cust's improvements on said SE¼ 30.

Cust and Nicholson are both first-class settlers, and after weighing all the evidence, I recommend that the South ½

If this be approved, it will be necessary to instruct Simpson accordingly, and to notify Cust and Nicholson of the decision: also to request Simpson not to grant entry in future, on land mis-stated by another settler to the extent this was.

Sir,

I have the honor to enclose herewith the evidence in the case of application by George Lagnow to Homestead, Pre-emption, and purchase of a half section additional: also report thereon for approval of the Land Board; which if approved sanction Agent and notify Lagnow. In this and all cases where parties are accorded the right of purchase, I think 60 days after notice by the Agent is ample to complete the transaction, failing in that, their claims to lapse.

The facts of the case are these: Lagnow settled on what proved to be the S.W¼ 24-53-25 W of 4th P.M. in 1874. He has resided thereon continuously ever since; has about 70 acres under cultivation, and upwards of 300 rds fence: the evidence originally of two claims which is borne out. He is a very fair settler. As will be seen by the sketch enclosed, his improvements are on 4 different sections. He will be best protected by getting him the S.W¼ of 24 as Homestead, the S.E¼ of 23 as Pre-emption & selling him the N.W¼ 13 & N.E¼ of 14 all in Tp 53. R 25 W of 4th.

When the date, and length of residence of Lagnow, also the privilege of 2nd entry are considered, would recommend he obtain his Pre-emption and be permitted to purchase the additional ½ sec: at $1.00 per acre cash.

I have the honor to enclose herewith file containing the evidence of Peacock and Perret, re improvements made on the S.E. & N.E. ¼ respectively of Sec: 36-53-24, by them at the time Mr. Adkins made entry to the said ½ sec:

You will please notify Peacock if he wishes to obtain the first right of entry to this land should cancellation ensue, it will be necessary to make formal application therefor and deposit the bond fee within 10 days of notice else himself otherwise such privilege cannot be accorded him.

You will please notify Mr. Adkins to show cause within the usual number of days why his entry to the same should not be cancelled on the ground of not attaching the improvements on the ½ sec: in question at date of entry, and paying into your hands the value therefor, and further for non-compliance with the Homestead provisions of the Dom: Lands Act.

When evidence is all in attach it to this file and forward to the Comr. for decision by the Land Board.

29th July 1884.

Sir,

I have the honor to enclose herewith for consideration and approval by the Land Board, evidence and report thereon, concerning a dispute over the boundaries of the River lots claimed by them viz: Lots Nos 7. 9 + 11. Garneau Claimant of 7. Walter 9. + McDonald 11.

They all settled there about the same time viz 1870 and the following shows the present value of improvements made by each on their respective lots, together with the area according to Plans survey.

Claimant	No Lot	Area	Value of buildings.	Value of breaking.	Value of fencing.	Total.
		ac.	$	$	$	$
Garneau	7.	269.	235 00	170 00	200 00	625 00
Walter.	9.	120.80	1260 00	100 00	150 00	1510 00
McDonald.	11.	235.	355 00	40 00	100 00	495 00

It will be observed that Walter has much the more valuable improvements, but it is contended by Garneau that Walter is not a farmer, being a carpenter, and proprietor of the ferry across the river at this point. So far as residence upon their respective Claims is concerned, Walter, excepting for one year has since July 1878, the date he first began residence thereon, complied with the enumerated requirements of the Dominion Lands Act. Garneau commenced residence in April 1876. Walter in July 76. McDonald in

autumn of same year. Garneau has probably lived on his lot more than either, McDonald and Walter's residence being about equal. It will be further noticed that none of the three have made their living wholly out of their Claims. Garneau doing freighting, McDonald freighting and trading, Walter carpentering and ferrying.

Garneau states he claimed 320 acres along the river and one mile in depth, but he always thought his Claim was narrow but supposed it would be extended far enough back to make up the 320 acres. He this day filed a claim to the portions of Sec: 29 & 30 lying in rear of his lot: this being disputed will be reported upon separately.

McDonald did not appear, being away from home, but his wife did, and I presume he expected to claim 320 acres.

Walter states he thought his claim as strong as any one until McLeane D.L.S. told him he expect to be satisfied with what he already had by his survey, that he had no rights whatever, & that he Leane could not give him anything if he saw fit: that it was under those conditions he signed the paper dated 8th Sept. 82. agreeing to the division between him and McDonald: that if Leane's authority was supreme, he supposed he would have to accept it, otherwise he would not have signed it.

Walter seems a good natured, easy going, but hard-working man, first class settler, a person who could be easily bluffed.

So far as the Boundaries of their Claims as laid down by themselves are concerned, the only evidence [illegible] by [illegible]

275

which he states agree about with the line between 7 & 9 as laid down by Deane. Walker never seems to have accepted this as forming limit, but seemed to put his claim on the ground, claiming that C.P. would certainly protect him to the extent of 160 acres, if that amount was available without interfering with the improvements of others.

After reviewing all the evidence, it would appear that Walker, had not been so liberally dealt with, as his neighbours on either side and that he should be protected to the extent of 160 acres, or thereabouts. and would recommend he be permitted to "pre-empt" all of "Lot" No 9. and 4 chains from the Easterly limit of Lot No 7. giving him about 156 acres in all, leaving to Carman 235 acres, the same area McDonald has in lot No 11.

I would recommend that Carman be granted 160 acres as homestead on No 7. and be allowed to pre-empt the balance of the lot at $1.00 per acre: that McDonald be granted the same on Lot No 11 adj. 160 acres as homestead, and to pre-empt the balance of lot at $1.00.

The above arrangement would entitle to come to settlement with a building erected on the top of the hill by the "Corporation Caisse-Corse. Domus Interbigno of St Albert. which is situated about 2 chains West of the Easterly limit of lot No 7. This is a frame building, only walls & roof yet completed and could be readily moved to come on portion of 7. allotted to Carman, as Settlement Co. - parties could probably purchase a portion from Walker at reasonable rate if they particularly wished the building to remain where it is situated -

The aforesaid Corporation as per deed attached to file, on 10/4/83 purchased a portion 10 chains

adj.

in width from off the Easterly side of Garneau's lot. This of course would be ten chains off the East side of the lot so granted by the Govt to Garneau. The portion for said 10 chains could be granted to said Corporation on payment by Garneau of $1.00 per acre pre-emption entry fee. Leaving him balance of lot about 15 acres to be secured as Homestead.

The description of the portion to be granted to said Corporation, being described as a portion of said lot 10 chains in width extending from the Saskatchewan River south to the Southerly limit thereof, the Easterly boundary being parallel to and distant 4 chains Westerly therefrom, the Westerly boundary being parallel to, and distant 14 chains Westerly therefrom, containing by admeasurement 81 acres be the same more or less.

Sir

I have the honor to enclose a list of entries furnished by you, with map shewing the lands affected, which have been granted; but which are outside of the provisions of the Dom. Lands Act.

Owing to the length of time that has elapsed since entries were given it would probably in many cases inflict hardship on those having entry were they now cancelled. I have therefore this day recommended to the Commissioner of Dominion Lands that they be not disturbed.

You will therefore please forward map, list and copy of this letter to the Ministers with your next returns.

Sir,

I have the honor to enclose copy of letter, list and map I have this day sent to the chief of the Edmonton Cal. Coy.

You in a great measure explain themselves. Though at date of entry they were grouped irregular and should not have been granted, as they were liable on the impossibility of the Agent, Mr Simpson, were they now cancelled, many of the parties would no doubt have a substantial grievance, the error not being their fault but that of the Chief of the Dept. Also has prompted the recommendation made. If they could have been cancelled promptly, I should prefer it had been done.

Sir.

I have the honor to enclose herewith evidence in favour of the application by Donald Ross for Patent to River Lot No. 4, River Survey, with report thereon for decision of the Land Board.

As will be seen the file raises two points: 1st as to the boundary between it and the Methodist Mission Lot No. 6. 2nd as to the terms under which Ross should acquire title to the lot.

1st As regards boundary: From the evidence there is no doubt but the line as defined by D.L.S. Deane, is about where the boundary between claims originally was settled. Ross does not deny that, but contends that he has been a better settler than the Methodist Mission: has complied fully both with spirit and letter of the Dom: Lands Act, and should be protected as far as he wishes namely the top of the hill. In reality his chief desire to come to the top of the hill is to protect a road graded on the side hill giving him access to his property on the flat, where his hotel is erected, also he has drifted in the bank on the Mission property for coal, which drift has given him a plentiful supply of good water for his house and stock.

So far as road down the side-hill is concerned the law has granted him protection. As to the coal mining scheme & water privileges my recommendation on this head, which was made in the Humberstone Case

case is adopted he will be amply protected therein. Therefore would recommend that the line between lots 4 & 6 be left as established by Deane D.L.S.

2nd as to terms.

Ross has erected buildings on this lot to the value of more than $7,000 ??, fencing brushing amounting to about $600 ??. He has resided continually on the lot since 1874. The lot contains 65.6 acres. Would recommend he be allowed to homestead it and his time to count from date of going into residence thereon.

I have the honor to enclose herewith file in the case in dispute between John Irwin and William Mavor re S. W¼ 21-52-24 W of 4th & E½ with request Honour for the consideration and decision of the Land Board.

The sketch enclosed shows the position of Mavors improvements.

As will be seen by Mavor's evidence he has been speculating and selling out his claims for some years. This claim he took up in 1882, purchased from one Norman in 2nd May 2 acres of breaking and a shanty, put on this but no another claim, moved the shanty on this. He states he thought Irwin's fence would be the boundary. He states he does not want a pre-emption through the S W¼ of 16, to which is vacant & on it he had some breaking & states he has sold his right to it for $25.00 to one John Shields & claims a homestead right to the S W¼ 21 covering most of Irwin's improvements, which however he states he is willing to pay for, and covering very close to his house & outbuildings, as per Sketch. Further at the time of Survey his improvements were so slight on 21, he could easily have moved over on 16 & knowing survey would be made that year he might easily have known it was done before taking up a claim. Mr Mavor is far from being a 1st class settler.

Dear Sir,

Yours of the 4th inst. is duly to hand, and I am very glad to see that you have decided to accept the position of Chief Engineer. Mr. Kelly, after much consideration, decided that he could not undertake the duties of the position, and I am very much pleased that you have decided to accept it. I am sure that you will find the duties very pleasant, and I am sure that you will find the duties very pleasant.

settler.

Irvine settled 4 years ago, is a fair settler. This is the only claim he ever had: bought it also from Mr. Kay, who also sold a later claim to Mayor. Irvine states & Mr. Kay corroborates that when the latter took up the Mayor claim it was with the understanding that if on Survey the latter's improvements came on the same ½ sec as that of Irvine he was to give them up to Irvine.

After due consideration I would recommend Mayor be permitted to Homestead the S½ of the S½ of SW¼ of Sec: 21-32-24 W of 4th, 40 acres. That Irvine be permitted to Homestead the N½ of SW¼ of same Sec: and pre-empt the balance of SW¼ 120 acres at $1.25 per acre.

Sir:

I have the honor to enclose herewith for the consideration and decision of the Land Board, Copy of H.O. File No 50218 & report thereon being an application by certain parties in Edmonton and vicinity for the W½ 36 - 52 - 25 W of 4th for Cemetery purposes.

The ½ Sec: in question is fractional & contains in all 314 acres. Across the N½ of same a depression exists known as Livingston's Coulee. The portion to the North of said Coulee is not wanted for a Cemetery and one Mr. Kay (D. L.) [illegible], who claims the S½ & and S W¼ (exc) ¼ 53 - R 25 W of 4th & desires to purchase it. Both parties were informed that before that could be done, the Govt would require a plan of survey of the N.W¼ 36 filed showing exactly the position of said Coulee

Can see no reason why this ½ Sec: should not be granted for the purpose desired; but that it should be made a gift by the Govt, does not seem to one particularly strong and I have suggested to some of them that it might be sold to them at $10 per acre & think that would be accepted willingly.

Would therefore recommend that on filing a plan showing the position of the Coulee, known as the Livingston Coulee across the N.W¼ 36 - 52 - 25 W of 4th all the portion of the W½ of said Sec: lying south of and

said Ravine be sold them at $1.00 per acre and that the portion to the North of said Ravine be sold to Mr Kay at the same price.

I presume it will be necessary to obtain the opinion of the Dept of Justice as to how such a grant as this can be made. I would appear to me advisable that a Joint Stock Co: be organized to acquire this property for Cemetery purposes and that only. Could, or would it be expedient to grant this to any the Trustees mentioned in the application? There is no doubt they are the representatives of the public sentiment at the date of the meeting referred to, but whether they are at present ought be questioned, or were or what guarantee is there that they will carry out the object for which this land is applied for! Could it not be done better by a Joint Stock Co: or through Municipal organization?

Already several have been buried on the land applied for.

Sir:

I have the honor to enclose for approval of the Land Board, file and report on the application for patent by Isaac Simpson for River lot No 5 Edmonton Settlement.

There are two points involved in application 1st boundaries of the lot. 2nd terms under which it could be acquired.

As to 1st the triangle I think from Cochrane's south the boundary between lots 517 should have been extended of 100' further East, all which was claimed, as would appear from deed which was shown me, Cochrane & Patton, was 32 chs. and that he has secured. Simpson claims he should go further West and also East, and urges that he should go East particularly on account of obtaining access to a trail in rear of his house without trespassing on lot No 7. So far as that is concerned a highway can and should be made along the bank of the river, and when formed into a Municipality it can be done or the N.W. Council can do it prior to that. I would not be inclined to change the survey to suit the interest of one individual in the matter of roads, and as obliterating the injury to this lot by reason of survey is not material would not recommend its change.

As to terms under which title should be granted, it would come under Class 5.

Sir.

I have the honor to enclose for approval by the Land Board, the file and report on the dispute between L. Garman and John Connors re SE¼ 2-57-2. R24 W of 4th M.

Garman is claimant to Pair Lot No. 7 and claims that he should have 320 acres in all to which he says his lot is short of that amount he is entitled to make up from lands on the west. That is a principle which could not be admitted. There is no doubt that people who took up the lots since say 1875, did so with the idea that they would extend back one mile & if they settled as close together that 320 acres each would be allowed to each. It was their own fault, having the best more portioned off to a greater extent than 160 acres, and that was sufficient area for the vast majority, judging by the amount of cultivation carried on. It might be in some cases where land is available and the settler has shown by his improvements that he is worthy of special consideration, that he should receive land to that extent, (320 acres). but in Garman's case his cultivation has not been extensive, about 30 acres, because he sold from out of his River claim 80 acres to the M.C. Mission, saying that his River lot contained more than he required.

It would further appear that the improvements

W. Walsh Esq.

539

284

improvements made by Whitford were done under Farnum's consent and according to affidavit of Thos. Anderson, attached, when Farnum contested his pre-emt (Preston) claim, he did so on the ground he was interested on behalf of the river. The lots were laid out on only an acre, so that he had no grounds of complaint on that score. Would therefore recommend that Farnum's claim to the 1/4 sec. in question be not entertained.

Former the present Claimant is Frank Krueger & Friends is living upon and improving the land in question. He purchased this old claim, but seems to have a very vague idea of what right thereby he has acquired. So far as residence & improvements of former claimants are concerned they would only confer on present owner the 1st right to secure, either by Homestead or purchase as the Minister may decide and would recommend accordingly, if sold the price to be $2.50 per acre. Former being an officer of the Dept can't presume acquired title only after permission from the Minister has been asked and obtained.

Sir:.

I have the honor to enclose for decision of the Land Board, file and report on application of Robt Holmes to Homestead & Pre-empt the W½ 5-53-23 W of 4th & he will be seen by evidence taken by me, Holmes came to this neighbourhood in 1881. In 1882 prior to survey he made some improvements on SW¼ of said Sec: He states that when the base line, one of the boundaries of this ¼ Sec was run he had 10 acres broken, that being on an odd Sec. and before survey he was entitled to Homestead & Pre-emption entry, that he now has 25 acres broken and 20 acres in crop, has never lived on it, but with his brother on Sec adjoining, has also a house in course of construction. That he was notified by Agent of Col: Co: in August 83, at which time he claims to have had upwards of 12 acres broken - states he thinks he had 15 acres.

Mr. Simpson on behalf of the Co: disputes his right to Homestead & pre-empt the ½ sec: in question claiming it for his Co:

That at date he settled he could not have known where he was, if he did not the Act did not protect him, and if he were a squatter which he was not having never complied thereon, that until late amendment to Act he was not permitted to live anywhere, except upon his claim, that no improvements were done prior to Grant of land by the Govt to his Co: & at date of his notification, which from prior affidavit of Holmes appears to have been on July 16th 83, there were very few improvements on the land.

That subsequent to the notification by him. he

Lieber Freund!

Ihren lieben Brief habe ich richtig erhalten und
so gern ich auch Ihrem Wunsche nachkommen möchte
Ihnen Ihr Manuscript zurückzusenden, so kann ich
es doch nicht thun, weil ich es noch nicht ganz
durchgelesen habe. Ich habe mir vorgenommen
es in den Ferien zu thun, und dann werde ich
es Ihnen sofort zurückschicken. Ich habe es
auch schon einmal gelesen, aber damals
nur flüchtig, weil ich es, trotz vielen
Bitten, nicht eher als bis Ostern
wieder haben wollte. Ich habe es damals
sehr interessant gefunden, und ich
zweifle nicht, daß es auch jetzt
so sein wird.

Ich habe mich sehr gefreut, Ihre Handschrift

Ich habe Ihnen schon lange nicht geschrieben,

Sie im Geiste bei mir zu sehen.

Holmes claims the W½ Sec: 6 in said Tp and files protest. (exhibit A) in which Holmes forbids him trespassing on said W½ 6. That Simpson purchased his right to this ½ Sec: paying him Sterling $75.00 (as exhibit B).

Holmes on this head says he was fooled solely by his lawyer & if he has done wrong, it was not intentional but he is surely the victim of bad advice: that he only sold his improvements on the ½ sec: & that the reason he did not go further with the improvements is owing to a letter he received from the Crown Timber Agent Thos: Anderson (as exhibit C.). So far as the latter reason is concerned I fancy from Holmes' manner that Anderson's notice had very little effect on him.

It will be noticed that this letter of Anderson's (exhibit C) is dated April 29th 1887. Mr. Kernan who appeared in behalf of Holmes in his affidavit (exhibit D). states that about the 10th of April through no improvements were on the S. W¼ 5: but Holmes claimed it. So that it would appear he at one time had two claims, one on each side of his brother David who has entered as Homestead & pre-emption the East ½ of Sec: 6.

Holmes is excitable & quick tempered and obstinate & drinks and no doubt has been the cause of a good deal of annoyance to Mr. Simpson & it may be as Mr. Simpson claims, he knew he was settling where he was not entitled to a Homestead and pre-emption.

After all the evidence is taken unto consideration would recommend that the SW¼ of said Sec: be sold to him at $2.00 per acre leaving him to acquire what town land in addition he wants from the Col: Co:

S-

286

It might be as well perhaps to request Stw Col. Co: to sell it the said SW¼ to him at that price: I do doubt it would be done if asked –

I have the honor to enclose for consideration & decision by the Land Board fyle and report in case of dispute concerning sec 16. Tp 53 - R 24 W of 4th M. The disputants being Frederick Rowland, Henry Fraser Alex. Rowland, Hugh McKay & Peter McCollum. The 3 former are old settlers, natives of the North West & took up their claims in 1877 & 78. Frederick Rowland was allotted a River Lot, but his improvements extended beyond the River Lot, to the amount probably of 25 acres. Henry Fraser and Frederick Rowland settled behind other River lots. on sec 9. Fraser had improvements on 16. his & F. Rowlands' cultivation as far as 16 being in one enclosure. Across nearly the centre of sec: 16, from N West to S East runs a creek known as the 2nd Rat Creek. This Creek was always claimed at the Northerly Boundary of these claims and occupied generally respected them.

In the Spring of 82 McKay erected his house on the N. W. 1/4 & has resided there ever since, is a good settler. He states he told Rowland he was willing to divide so that they would have equal areas Rowland claims that being the 1st he should be more liberally treated & should obtain if possible 320 acres.

Peter McCollum settled in 1883, is not a good settler, really a carpenter, unmarried. his improvements so far as his house is concerned are valued much too high.

Sir,

I have the honor to enclose for decision of the Land Board file & report in the matter in dispute between John Paul and James Lauder concerning the N½ 17. Tp. 53. R 24 W of 4th.

The said Paul is a half-breed & works the greater portion of the time for the Hudson Bay Co: has been on the place for the past 4 years and has 7 acres under cultivation. His improvements for the future will not probably be any greater than in the past & the S½ of 17 (frac) is available & if he homesteads that I think will probably all the land he ever will be able to cultivate profitably.

Lauder is a hard-working industrious man with a large family & at the time he settled on the land did not know where he was. On survey his buildings came on this ¼ Sec: and part of his breaking. There is nothing on the file to show whether at that date Paul had any improvements on this ¼ sec: a rock from now, Paul does not know what amount of breaking he has, states there is some.

I would recommend that Lauder be not disturbed in his entry, but required to pay Paul at the rate of $5.00 per acre for all breaking done by him on the ¼ Sec: at date he Lauder made entry.

That Paul be permitted to Homestead the S½ 17. It might be thought advisable also to grant him

I have the honor to enclose herewith plan and report re the S.E 1/4 20-52-24 W of 4th m. in dispute between Darius Doty & Donald McLeod of the one part, and J.F. Schneider of the other for the approval of the Land Board.

There are two points to be decided 1st as to which party has best title or should it be divided. 2nd as to terms under which it is to be granted.

1st This 1/4 sec was taken up by two Indians named Ward (Father & Son) several years ago. One Kipoplin lived with them. About 1881 Ward Junr moved onto the reserve & gave his claim to Kipoplin who in 1882 sold to Col: Jarvis, Jarvis sold to Donald McLeod; the latter, a half interest to Darius Doty.

Shortly after Kipoplin sold to Jarvis in Spring of 1882, Ward Junr sold to one Myers. Myers shortly after to one McRae, McRae in 1883 to Thos: Anderson, anderson on 21st July. 84 to J.F. Schneider.

The sketch enclosed shows the relative positions of the improvements.

Where the line as intended between the Claim of Ward Junr & Junr does not appear very clear, it is doubtful if either ever had a very clear idea themselves. Worked what was convenient to the Quarter. Kipoplin states it was surveyed

Cher Maître,

Paris, le 28 juillet 19..

Je vous remercie de votre lettre et de votre invitation pour le 29-30-31 juillet à votre hospitalité habituelle à Deauville. Malheureusement, je ne pourrai pas y aller, car j'ai un rendez-vous d'affaires très important à Paris le 30 juillet au matin. Je ne peux pas le manquer.

Je vous prie de transmettre mes amitiés à Madame Dreyfus et à votre fils.

Bien à vous,

Alfred Dreyfus

Ward Jun^r Southerly limit was about 100 yards South of the house, which is about 100 yards South of the Northerly limit of the said ¼ sec: so that according to that, the Southerly limit of Ward Jun^r's Claim would be less than 10 chs South ~~of the said~~ of said ¼ sec: I revisited the ground in company of representatives of both Claimants. W.S. Robertson on behalf of Mr. Lead & Doty & Thos: Anderson on behalf of Schneider, but no very clear trace of the old boundary of Ward Jun^r could be found. The sketch represents as nearly as possible what I could ascertain. Doty or rather his representative Robertson, has made considerable improvements since he took possession. Robertson is a brother-in-law of Doty who is Customs Officer at Goderich Out, and this Claim is intended for a son of Robertson's named Henry a lad at present living on it & who will be 18 years of age in a few days.

Anderson stated he intended this Claim for himself; but not getting permission to homestead from the Minister decided to sell out. Schneider has filed a letter stating he claims the S/2 of the Sec: but he evidently means the E/2. Anderson's improvements are very slight and not nearly as much as when he or rather Mr. Rae purchased it. The total value of his improvements ~~to~~ today on the ¼ Sec: would not equal $30.^{00} He has however, one of the best crops of barley on it that I ever saw, but area under crop in all does not exceed 5 acres. of which not over ~~than~~ 4 are on this ¼ sec: The first legitimate settler on this ¼ section was Lipsplin all others prior being Indians. and so far as having residence by others than Indians on behalf of Schneider, this only one so far has been Myers who

289

only lived on it 3 or 4 weeks in 1882. On behalf of Doty & Mrs Leod. Kipplin lived on it as claimant 1 year, Nita Wards, but not as claimant, 2 years ago, Col: Davis, resided on it a few months in 1882. a hired man lived on it 3 months & cut Spring of 1883 Harry Robertson has resided upon it.

After receiving all the evidence, would recommend that Doty & Mrs Leod's claim to the ½ sec be recognized, requiring them to pay into hands of agent for benefit of Schneider, the present cash value of breaking and fencing thereon, & he be permitted to harvest & remove his crops now growing thereon.

As to terms under which Doty & Mrs Leod or their representatives can acquire title to the SE ¼ 20. & N ½ ¼ 17, that they can Homestead the S. ½ ¼ 20 and can pre-empt the N ½ ¼ 17. pre-emption to be $2.50 per acre. The fact residence of those who from time to time have claimed it being of such a nature, should not lessen the three years residence required of the party who finally obtains entry. In fact only 1 years residence has been put in and that by Kipplin. the ½ sec: might be sold at $2.50 per acre cash.

That Schneider can Homestead the N ½ ¼ 20 and pre-empt the N. W ¼ if vacant pre-emption to be $2.50 per acre.

Sir.

I have the honor to enclose for consideration & decision of the Land Board file and Report concerning the application of one W. J. Abbotson to Homestead & Pre-empt the W½ 17-53-24 W of 4th

The history of the case is this. One W. J. Graham in March 1882 erected a shanty on wheat on survey ground & the W½ 18-53-24. W of 4th Commenced ploughing, hoping he was on an even Section. When survey of ⅌ was made it was found there were 7 acres broken on SW¼ 17 & 3 acres on N.W¼ of same, 10 acres in all. He sold his breaking to Claimant Abbotson who hoped thereby to establish a claim to the ½ sec: Graham himself entered the E½ of said Sec: 18 as a Homestead & Pre-emption.

Abbotson is a Teamster in Edmonton, has done no residence except 4 weeks when cutting hay, presumably for consumption in Edmonton. The cropping in 1883 was done by Graham. The file does not show who is doing it this year, nor that there has been any other or actual improvement done. Abbotson claims he did not know when he purchased that the was on an odd Sec: but there is no doubt Graham did when he sold him.

Cannot see on what grounds he should be accorded either Homestead or pre-emption entry & recommend the ½ sec: in question be disposed of by the Col: Co: as they see fit.

About the 1st July I received your letter requesting a permit for 10 gals. Whiskey. Yesterday I rec'd a reply stating you had been pleased to grant a permit for only 2 gals returning me $4.00

I have the honor to request you will be good enough to inform me when I may be accorded another permit, and what is the limit thereof. If there are any regulations in connection therewith I would be glad if you would furnish me a copy of same.

By mistake the express messenger handed me a permit belonging to another party and that permitted 6 gals. I would like to know what steps it will be necessary for me to take to have at least an equal privilege accorded me. The party mentioned is a settler in this vicinity.

Sir.

I have the honor to report herewith for the information of the Minister on the Inspection of the Office of the Edmonton & Saskatchewan Land Co: so far as the Agent of that Co: is also the Agent of the Dominion to receive Homestead & Pre-emption entries with their Seal.

The Agent is Mr. Geo: A. Simpson & the Office is situated at Clover Bar, a new point just established with Post Office, about 7 miles East of Edmonton being on Sec: 20 - 52 - 23 W of 4th Mer. While on this point, it might be stated that Clover Bar is the head-quarters of the Co: They have built a store, blacksmith & Carpenter shops. A boarding house, in one of the rooms of which the Office is situate. Also established a 1st class wire rope ferry across the Saskatchewan River & graded approaches to the same. This ferry is free to the public.

The Office was opened early in July 1883 & the returns generally as is shown by the books, have been made very promptly. Monies are remitted in the form of cheques. At Head Office it will be known whether they have reached as the books show, as per following list.

" 24th "	Dec. 1st "	$ 360
June 1st/84	June 2nd/84	$ 160

Four entries made since then but not sent H.O. = 20.

Total amount received $ 1830. of which $ 1810 has been sent Head Office, balance still on hand having been taken since last return.

I checked over his Application Register with the stubs of the receipts & found them agree.

There have been 18 more Homestead than Pre-emption entries made.

The office is conducted by a Mr. Ross a bro-in-law of Mr. Sinclair & he seems to have a very good idea of business. His Township Registers have not been kept write any system however, being, like last year found several of the Col. Cos. merely a duplicate of the Application Registers, except that he had improved so far as to keep each Township by itself but commenced on Top line with the 1st entry made in it, and so on as made; it would be impossible without a good deal of work, what lands were at any time vacant. I pointed out to him how they should be kept and anticipate they will be all right for the future.

His letter repository was not kept at all: did not know how to do it; I advised him in this & also of letters rec'd, & to take some lessons from the Edmonton Land agent Mr. Gauvreau who will soon learn how to keep them as they should.

Instructed him to write Ho. Head office for a supply of letter back & Clips to attach letters thereto.

The copying ink in this office also seems

298

seems very pale, many being scarcely legible.

As to what the Co. are doing,

At Clover Bar they have established a 1st Class steel wire rope ferry which with approaches cost about $1,000.00. It costs for wages $30.00 per month to run it. not allowing anything for wear & tear.

This ferry is free to the public.

They have erected a good frame boarding house 36 x 30' costing $3,000.00 - Carpenter & Blacksmith shops 30' x 50' & $1500 1st Class store 30' x 50 costing $4,500. Bank - Barn in course of erection 30' x 60' to cost $2,000.00 Have on ground 5 head of working horses. 1 walking plow, 1 common plow. 1 walking rake, 2 wagons 1 Mowing Machine. 4 spring tooth harrows 1 cader 1 slough. Have a blacksmith shop & tools for the accommodation of settlement as well as Co. Have broken 100 acres & intend this season to break 200 acres in all.

Brought in 400 bushels of Red Fife Spring wheat, which was sold to settlers at 80c. and time given for payment. The Co. expecting to take wheat in lieu at the market value when delivered.

Have a lot of stock on the road now, consisting of 1 stallion, 6 brood mares, 1 bull & 6 cows all thoroughbred Durhams. 1 boar & 7 sows Berkshire & about 20 fine grade sheep.

I think it will be admitted by any fair minded Judge that the steps the Co. have already taken & probably will continue to take, must be of great advantage to this settlement.

As to the agent. After going through all the disputed cases in this vicinity, I must say that he always gave the benefit of any doubt, & where he erred was in granting entries as Homesteads or pre-emptions or both on 3rd Sec., when according

Sir,

I have the honor to enclose herewith for the information of the Minister my Report on the Inspection of the Crown Timber Office at Edmonton.

The Agent is Mr. Thos: Anderson who opened his Office in Edmonton in Dec. 1881. For some time the Office was situated at the Hudson Bay Coy's Fort, but for some time past it has been in a building on River Lot 13. claimed by his son Thos. A. Anderson. The building is a good log one but furnished very meagrely. Mr. Anderson states he has, so far, not been allowed anything for Office rent, and for some time after opening the Office had to furnish the fuel. He had an advance of $100.00 on ye of furniture but that he had to use long ago in other disbursements absolutely necessary: he is however getting in some furniture: has only lately received his safe, having been one & not two years on the road. He cannot now open it though he has the Combination, reason for-bably the tumblers have become rusted so that they will not drop when they should. He, however hopes to obtain the services of a Mechanic in Edmonton who formerly had some experience in the manufacture of safe locks and anticipates no great trouble on that score.

He thinks he should receive an allowance of

Mein lieber Freund!

Ich habe Ihnen zu danken für Ihren Brief vom 19. d. M. Ich bin Ihnen sehr verbunden für die Mittheilungen über Ihre Angelegenheiten. Ich hoffe, daß Sie Ihre Sache gut machen werden. Ich habe Ihnen schon geschrieben, daß ich Ihnen gern behülflich sein werde, wenn Sie mich darum ersuchen. Ich habe Ihnen auch

of $200.00 per Annum on the Office list. From what I can learn of rents here, I think $10.00 or $12.00 would be ample. Should it be decided to allow him Office rent.

He has a Forest Ranger attached to the Office at a salary of $700 per annum, also an allowance of $4.00 per day for travelling & living expenses when away at a distance from the Office on business in connection therewith.

There is one Clerk a Mr. Smith, a son of the Hon.ble Frank Smith of Toronto; his time commenced in Dec.r of last year. Up to May his salary was $1.00 per day since $2.00. He is only temporarily employed.

The salary of the Agent is $1200.00 per annum. The work of the Office is not so many but what one man could easily do it, still it may be advisable a clerk should be employed also.

To give you an idea of the work of the Office, from 1st of July 1883 to same date 84. Letters sent 313. Letters received 102.

His letter-book is indexed nearly up to date, but much of the ink used is so pale as to be scarcely legible. The indexing though not very good is sufficient to enable the Agent to turn up anything readily, the work of the Office being so light, that his memory, he seems to have a good one, would in most cases enable him to do so without the aid of an Index.

His letter Register is not kept as it was intended & he has all sorts of subjects on the one file. I advised him to get a few lessons from Mr. Saurzeau Edmonton Land Agent on this point, and it may be anticipated that in a short time his register will be kept as it should be.

His Ledger and accounts seem very well kept. His past experience in business serving him advantageously on this point, and I think his returns have

been

299

been promptly made.

His permit-books I presume are kept as they should be, he had none for 3 months after opening the Office. The system is so plain that a man, as intelligent as he is, could not blunder. I think, on that point he stated however he felt very few of the Permits formerly issued by parties who take them out. I think by judicious management that might be overcome.

As far as expenditure for outside services of the Forest Ranger are concerned, he is not extravagant. He stated about $125.00 would cover all during the past year, but reports his experience difficulty in having the Depts make the advances necessary to enable him to conduct that work as it should be done. When the Forest Ranger is scaling logs at the mills in the vicinity of the Office he allows him for his dinner at the Hotel. The Mills are 1 about 2/3 of a mile from the Office the other about 2 miles. Also the same complaint regarding advertising which he states is absolutely necessary, but he has had to pay out of his own pocket several small sums on that head.

As to the Agent himself he is I think very thoroughly honest and straightforward: but probably somewhat deficient in tact. There is no doubt he had a hard Office to fill; but with the establishment of a Land Office Entries being obtained, it is probable many of the difficulties of the past may be avoided in the future. There being a great many disputed claims he has to some extent been misled upon them, in very many if not all no doubt with a sincere & honest desire to protect what he considered rightful ones. This has been in a great measure the cause of the ill feeling against him; but there will be no longer any occasion for such & it is to be hoped.

Sir,

I have the honor to report through you for the information of the Minister on the location of the Land Office at Edmonton.

No instructions had been sent as to where it was to be located and until today, no final steps had been taken by Mr Gauvreau, thinking that perhaps instructions on that head would be sent, but as he leaves with me for Battleford in a couple of days some arrangements had to be made at once.

He secured a house for dwelling on the Easterly side of R.B. 60 Reserve, about midway between the Fort and Easterly limit of business portion of Edmonton. You will then see the location is central and all interests are equally well treated. The P.O. is at the Fort, the telegraph Office is at a short distance to West probably 200 yards; the Indian Dept Office adjoins the Telegraph Office; the largest Hotel in the place is about 150 yards to the S.E.; it is also about midway between the ferries, one in front of lot 9 the other about lot 21. The proprietor is to provide good comfortable Office adjoining the dwelling. The rent of the two combined is $25.00 per month and to be taken for one year with privilege of renewal for another at same rate. I think a fair allowance for the office about $9 or $10.00 per month if such is to be allowed. Mr Gauvreau

The Claimant is James J. He wishes to Homestead Lot 32 and Pre-empt the SW¼ 14. 53. 24 W 4th immediately to the North. He on the 13th November 1883 Homesteaded the said ¼ section to prevent anyone taking it. He recommends if his pre-emt be granted to Homestead and Pre-empt. against probably in the immediate neighbourhood of his present Claim. This is not the object for which the privilege of second Homestead was granted & he should be distinctly given to understand that. How to prevent such being done is a difficult matter, but it could be done in this case thus. Having had a Homestead entry, it will have to be cancelled and he cannot obtain 2nd entry without the permission of the Minister. I therefore would recommend on payment of Homestead & Pre-emption fees a patent issue to him for River Lot No 32 and the S.W¼ 14 - 53 - 24 W to sold him at $4.00 per acre, the Agent to inform him that the privilege of 2nd entry will not be accorded to him without Special permission of the Minister.

Sir,

I have the honor to enclose field report for examination and decision of the Land Board on Rural Lot 34 Edmonton Settlement.

The Claimant is George Cullion: as will be seen by his evidence, he has resided constantly on said lot since 1878, has 25 acres broken, 35 acres fenced & has buildings to the value of $700.00. He resides to Homestead Lot 35 & Pre-empt the S.E¼ 14 immediately to the North. He on the 13th Nov.r 1883 homesteaded the said ½ section to prevent any one taking it. He now intends if his request be granted to Homestead & Pre-empt again & probably in the immediate neighbourhood of his present Claim. This is not the object for which the privilege of second Homestead was granted & he should be distinctly given to understand that. How to prevent such being done is a difficult matter, but it could be done in this case thus. Having had a Homestead entry, it will have to be cancelled and he cannot obtain 2nd entry without the permission of the Minister. I therefore would recommend on pay ment of Homestead & Pre-emption fees, patent issue to him for 160 acres, balance of lot, & the S.E¼ 14. in all 164.4 acres be sold him, at $1.00 per acre and Agent instructed to inform him that he will not be permitted to make 2nd entry except by Special permission of the Minister.

Sir,

I have the honor to enclose herewith for consideration and decision of the Land Board file and Report in the case of Wm Bourick, that he be permitted to Homestead River lot No 30 & Pre-empt the E½ of the E½ of Sec. 15. 53. 24 W of 4th M.

It will be seen that he first made improvements in 82. has resided continuously since, has 40 acres under cultivation on said River lot and 4 acres on said Sec. 15. that his buildings, fencing, & other improvements he values about $1,000.00

Fraser who has the adjoining lot wishes to Pre-empt the W½ of the E½ of said Sec. between Stony Ck. where ½ Sec. which is still vacant.

It is probable they both will wish to Homestead & Pre-empt again on obtaining their recommendations for patent for these lands.

A letter on behalf of the Edmn & Sask Col. Co. dated the 18th instant is attached to the file in which it is claimed that if these River Lot Claimants are accorded right to pre-empt on odd Sec. in the year, any River lots vacant at time Grant was made the Col. Co. should be handed over to it. The area of odd Sec. which the Minister decides must be given to settlers within the tract will of course be deducted from the area granted & so much less will have to be paid, so I cannot see that any hardship is inflicted on the Co. It will no doubt be argued that the best lands are taken, as

against that if they are permitted to count the settlers in such cases as being had in by them it would be fully offset thereby. It may be argued if River Lots are not to be included in area granted the settlers on them should not be permitted by virtue of settlement duties to pre-empt outside thereof. When such is permitted I think those portions should be considered as River lots, in a word they should be deducted the area granted the Company.

After taking all the facts into consideration I would recommend Wm Bonwick be permitted to homestead River lot No 30 and pre-empt the S½ of the S½ of Sec 15, the price of the pre-emption to be $1.00 per acre, that being agreeable to John Fraser.

Sir,

I have the honor to enclose herewith for consideration and decision of the Land Board together and Report in the case of John Fraser, that he be permitted to homestead River lot No 28 and Pre-empt the W½ of E½ of Sec: 15-53-24 W of 4th

It will be seen that he first made improvements in 1872 having staked out his claim in 1871.

That he has resided continuously on the lot since 1872. That he has under cultivation on said Lot 30 acres well fenced. That he has 4 acres of breaking on said Sec 15. That he has a house on the Lot valued at $600.00

Barwick who has the adjoining Lot wishes to pre-empt the E½ of the E½ said Sec: between them the whole ½ Sec: which is still vacant.

It is probable they will both wish to Homestead & pre-empt again, on obtaining their recommendation for patent for their lands.

John Fraser did not appear before me personally being absent from this vicinity

As to the constitution of the Ed & Sask Col: Co: in reference to granting Claimants of River Lots portions outside thereof on Report on River Lot No 30.

After taking all the facts into consideration would recommend Fraser be permitted to Homestead 160 acres of Lot 28. purchase the balance of the lot 19 acres & pre-empt the W½ of the E½ Sec 15, purchase

I have the honor to enclose for consideration of the Land Board file and Report in the case in dispute between A. Ross & Wm Inkster concerning River Lot No 45 Edmonton Settlement.

Ross one of the disputants, is a bro-in-law of Geo: A Simpson, Agent for the Edmonton & Sask.n Col: Co: & the acting Agent for said Co:, the other is a native of the Country.

Ross' claim amounts to this. When the survey of the River Lots was made, there being no claimant for this Lot, Ross staked Down the surveyor puts his name on the same. Knowing when finally open for disposal he would have the 1st right to acquire same, on whatever conditions the Govt might impose.

Inkster the following Spring commenced to make improvements on the lot, states he did not know it was claimed by Ross, but after being on it two weeks his claim to same was disputed by Mr Simpson on behalf of his Co: Mr Simpson claims that all unoccupied Lands even if River Lots at date the leases were handed over to his Co should go to them. So far as the River Lots are concerned, I think his claim cannot be acceded to, therefore have gone on and decided on these cases, ignoring it. The practice of the Dept.t with reference to other river lots at Prince Albert, on the South Saskatchewan at St Laurent & below it; was to grant Homestead & Pre-emption entries regardless whether No.s was odd or even, neither has any reservation in these

Mon cher ami,

Je viens de lire à mes amis de Commentry votre lettre. Nous sommes tous de votre avis, et nous ne voyons pas de meilleur moyen que celui que vous nous indiquez, c'est-à-dire de nous adresser à M. Dumas, député de la Seine, qui a déjà fait des démarches en faveur de nos ouvriers. Nous vous prions donc de vouloir bien vous charger de cette affaire, et nous vous en remercions d'avance.

Nous avons vu Mr. Dumas hier matin, et il nous a promis de s'occuper de nos ouvriers. Il nous a dit qu'il avait déjà fait des démarches auprès de Mr. Thiers, et qu'il espérait obtenir quelque chose. Il nous a conseillé de faire une pétition, et de la faire signer par le plus grand nombre possible de nos ouvriers. Nous allons nous occuper de cette affaire, et nous espérons que nous réussirons.

Nous avons vu Mr. Jules Simon, qui nous a dit qu'il ne pouvait rien faire pour nous, mais qu'il nous recommandait de nous adresser à Mr. Dumas, qui pourrait peut-être faire quelque chose pour nous.

cases have been made either for School or Hudsons Bay Co: lands, the Hudsons Bay Co: having their claims to 1/20 satisfied from out of sections in rear, or lands granted in other places by consent of the Minister on request of the Co: as to whether the 1/20 reserved for School purposes has been likewise satisfied I am not certain, but I think not. Taking that as a precedent it would appear that these Town Lots in Edmonton, St Albert & St Saskatchewan were open only for Homestead & Pre-emption.

Inkster has resided in all about 2 months, his improvements are very small, his valuation is $75.00 probably $100.00 would be ample.

It will be further noticed that he had a squatters Claim at Bruce Albert which he sold, and though he is not entitled to very much consideration, Ross would probably prove the better settler: but his claim is not a strong one.

Either one will be ignored, or the Lot must be divided into E & W halves, giving Inkster that to the West, which is probably all he will be able profitably to attend to.

Sir,

I have the honor to enclose file and report for consideration and decision by the Land Board, on the application by James McDonald to Homestead pre-emt lot No 24 Edmonton Settlement.

There are three points in dispute, 1st as to Boundary of lot. 2nd as to claim preferred by one Michael Deane: 3rd as to the terms under which he should acquire title.

1st As to Boundary: Kirkups the Claimant to lot 26 first had improvements made as early as 71 or 72. & continued the same. Slater he has resided continuously since May 1880. McDonald however asserts that Kirkups has been requested to furnish further evidence on that point: at all events he had power to do so for a claim as McDonald has got: the latter is a Carpenter, works in Edmonton, for the past year goes out and sleeps on the lot at night. He is a bachelor. Kirkups took up his claim assuming his Westerly boundary would be parallel to the Easterly one, and forty chains distant therefrom, and extending back one mile. The latter Mr Sanford Slater was established by Deane, whom he and those had always agreed upon. At that time Frederick Rowland had not claim South of Rat Creek. McDonald saw that would leave a piece of land between Kennedy McDonald, Frederick Rowland & James Kirkups and the ferry breaking he made same over. I think. Kennedy McDonald's Claim

I think he made some error which came on Rowland's lot, at all events he stopped on seeing improvements like Survey. Atkins found the house he had commenced to build came on Lot No 22. Mr Atkins moved the material and erected his house near the N.W corner of Lot 24., where all his breaking on said lot now is. Kirkups further claims that although he gets 302 acres, the front is so badly broken by the Rat Creek and the River, he has a great deal of valueless land (on plan) also he loses a great deal by the lake and swamps around it: further that he had on his former claim, as he originally entered it, was North End of said lake & swamps & which by present Survey is on lot No 24, and he should get at least 320 acres. On this point would recommend that he Kirkups be granted a strip 2 chains in width from off the Easterly side of Lot 24, leaving Mr McDonald's portion 18 chains in width, giving him 146 acres & Kirkups about 318 acres.

2nd as to dispute between him and Indian Brave (Wacha Sa) from evidence in otherwise, it appears he is an Indian taking treaty, after squatting and levying blackmail, in several places he finally settled on the rear of Lot 24 & 26. His house is on 26, breaking on both lots: further his representation, or rather that of his household, wife & daughter, is not an amicable one: being an Indian debars him from any rights, & when he appeared before me to prefer his claim, he said he took treaty & admitted to have sold his right to one Claim he preferred on Lot 4, twice on his own behalf & twice on behalf of other parties & twice in all.

I informed him his claim could not be entertained & would report accordingly -

3rd

317

3rd As to the terms under which Mr. Donald can acquire: he certainly in spirit, does not come within the Homestead requirements of the Dom: Land Act: but he is a good settler, an industrious, enterprizing man, one of a class who will show ahead the country. He an enthusiastic advocate of the Claims of Edmonton as a desirable place for settlement, and would recommend he be permitted homestead entry, but if he would prefer purchase, it be sold him at $2.50 per acre.

Sir:

I have the honor to enclose for decision of the Land Board report on the dispute between James McDonald & the Ed & Sas. Land & Col. Co: re SW¼ 15-53-R24 W of 4th

The evidence in this case is attached to file in connection with application by said McDonald for River Lot No 24. as a Homestead.

In the 1st place the said McDonald is a Carpenter and builder, see advertisement enclosed, clipped from the Edmonton Bulletin, & really lives in Edmonton.

As appears from his Affidavit he came to Edmonton in 1879, took up a claim that year by staking it out, being part of what is now River Lot No 24, did not do anything on this ¼ sec until 1883. Claims that in March 1883, he occupied the stable on said ¼ sec: did his breaking, 7 or 8 acres in Summer of 83. it is said. stable is probably worth $30 or $40. He further states he applied to Mr. Simpson when surveying this ¼, that he claimed this ¼ sec in connection with his Homestead, but Simpson refused to take it stating that he could not get it.

So far as that is concerned Simpson was right on the legal point, he was not entitled to it. He had never been a settler on lot 24. besides, this pre-emption was not adjacent his homestead.

For some reason or other many of the Claimants to River Lots maintain they were entitled to

to a pre-emption if their lots are not contain 320 acres. What force rest to this I cannot ascertain, but that the claim was general was beyond doubt. Many of them cannot get it, the land not being available without an encroaching on others whose claims as regards rights are just as strong as those on the Fair lots. It might be equitable when a settler has shown that he is worthy of special consideration that a portion of some acc: available might be sold him; but McDonald certainly is not one of those cases.

The Col: Co: acquired in April 1862 their tract so that it was upwards of a year afterwards, before McDonald made any improvements on this spot that the claim he did so knew he was on an odd acc.

After taking all the evidence offered into consideration, I would recommend that McDonald's claim as a pre-emption be not allowed: but that the Col: Co: be requested to sell it him at any £2.10 per acre. He would have, from each of his neighbours, had to pay the Govt £2.10 per acre and it would not probably be fair to the Col: Co: to sell their choice lots, at the price the Govt would sell, provided the claim was one which should be recognized.

Sir,

I have the honor by direction of the Minister to instruct you during my absence at Battleford to make an enumeration of the settlers in the Edm & Sask Land Corp tract. As you will see by copy of the Agreement which I have handed you this enumeration is to be made at the Expense of the Co. You will therefore notify the Agent of said Co to provide you reasonable transport, should he not do so you will please obtain transport otherwise, keeping an accurate a/c of your disbursements so as to obtain reception in duplicate for all outlays in connection therewith.

You will please try and see each settler. If not obtain the information as accurately as possible from his nearest reliable neighbours. You will prepare a set of questions as follows, answers to which are to be obtained when practicable. You will enumerate all on odd & even sections, things on former that may not have homesteaded but purchased from Co.

1st name & P.O. address. 2nd age. 3rd Married or single, if married what family. 4th Had settler ever a Homestead entry previously to present, if so what became of it. 5th When he came to the Edmonton District & whence from. 6th When he began his residence upon his claim. 7th Amount of breaking and cropping each year. 8th Present total value of improvements giving each separate. No. of horses, Cattle. Sheep. pigs & Chickens -
10th Any other statement each settler may wish to make -
11th What land he now has entered as Homestead or Homestead & Pre-emption, or purchased from the Coy.

The Agent Mr. Simpson will inform you what Tps he wishes enumerated.

In addition Mr. Simpson will give you the Tps which his Co: have asked to have granted to them, outside the Settlement of St Albert which I think is situated within one if not two of them, you will make a similar enumeration of all settlers & Claimants to land therein, being careful to obtain all.

It is probable you will be asked in the latter Tps what the purpose of this enumeration is, in which case you will please tell them it is for the information of the Minister. There on the town Sections where there is no dispute, if they wish & Mr. Simpson is agreeable can now make their entries with him, there on the road to file their claims with one or any return to Edmonton & instructions will be issued in due course -

Should Mr. Simpson question your authority for making this enumeration, hand him your instructions for perusal.

After you have finished the work on the ground you will please schedule this information, keeping each Tp by itself, and take the letters in order of the Sections & retain such Schedules till I return unless otherwise ordered -

Guildford Aug 11th 4

Dear Sir Burgess.

Meeting yesterday with an English half breed formerly of the Qu'Appelle Dist. belonging to the Roman Catholic Branch of Church. finding he was an adherent of Riel I tried to obtain from him all the information I could regarding the Riel movement. His name is Bremner and he is a type of the ignorant class of Half Breeds.

1st As to the alleged secrecy at meetings. Each man took an oath. as he stated the oath recited that you were not to divulge what took place in the meeting unless you felt your duty compelled or required you to do so. The object of this precaution was to excite curiosity & thus obtain largely attended meetings. He illustrated this by himself stating he did not attend the 1st meeting thinking he would learn if it the next day or so, many things were told him, but when they learned anything was in secret all learned turned out as the following etc.

2nd He is an ardent admirer of Riel & thinks that Charles Mcdowall & others of this faction were failing to get what they wanted, they concluded to send for him and obtain his advice and assistance. Thus originated the . Rims Letter. They imagine the "Metis Nation" Head of Family Reign. & Minor Claims. By the way I see that an Judge Rymal has come to for as an adherent of the Cause of Metis Grievances. I pointed out to Bremner that Metis family had not done the half breeds of Red River any good but rather harm. He admitted it, but said they were entitled to them & should get them. Riel with them Metis privileges was promised to all the half breeds both in Manitoba and the North West, also that a certain portion of the Country was to be set apart to pay expenses of procuring & improving it. He thinks that each Province and Territory was to have the Control of the Lands. Just now I may state that many of the Leading Whites claim the half breeds of the North West should be included as well as Metis in them. It would of course be to the interests that such claims should be done away with, opportunity to make fortunes would thus be prevented, but many no doubt state as it became daily commonly reported [illegible]

I am only sorry in which danger many wise thoughts
this agitation & with the Indians. We always thought the
half breed element [illegible] the 7 much contrary was a source
of weakness in regard to the Indian question. and recent-
wards have confirmed that. During the recent troubles in
Assiniboia Canada I was informed among the
Indians. and Big Bear after starting for Ft Pitt to release
his nephew was overtaken by messengers sent back to Duck
Lake where Crozier & several of the Police stayed and
heard news of fighting with the chiefs from the engagement
of Carlton Lake how and Riel & his [illegible] to consult with
them the result will not be unexpected. All the troubles have
been question. Big Bear was acting as for as his nature would
be not known until for. Poundmaker also was acting for both
upon to go always. I understand the Carlton Indians
feel sore on account of not being assisted as much and
as they thought they should, the result is that they have not come
down & as much as they thought this year as last. Factor
Indian Agent Dr Mac. has turned out of the house and
other under measures to Indians timely taking measures.
Numbers.

A great deal of house cleaning is going on and
come up to within a short distance of this place with the
organization. as from success of their operations it would
happen to be well organized.

Am getting on well now. Outside of the wire still operating
a disease I shall [illegible] much trouble always
at matters now. A great many recent additions on other Bands

You are at liberty to make what use you please
of this letter.

Sir,

I have the honor to Enclose for Consideration and decision of the Land Board file and report in the Case of Wm D. Gunn to homestead the S.E.¼ 20 and Pre Empt the S.E.¼ 25 in Tp 53, R. 24 W 4th.

You will observe in the evidence that Gunn had made improvements prior to entry in 1882 on the Pre Empt quarter, and although they are not material, as he has to him they are of great value as he is a cripple from paralysis, poor, destitute of a livelihood other than he can derive with work a wife and family, 3 small children and would recommend that the entry be granted. It is however to be distinctly understood that this is not to be taken as a precedent in any future case.

If this meets with approval it will be necessary to issue duplicate Scrip &c. in lieu for the purposes, also to instruct Agent Simpson of the Colonization Co. in Chipman to comply with decision.

Sir,

I have the honour to enclose for consideration and decision of the Land Board at Calgary in the case of the application of Thomas Logan to purchase the East half of Section five (5) in Township eighteen (18) Range two (2) West of the fourth Meridian, the residence of Mr. Logan's father Mason. Mr. Logan has resided upon and cultivated the said land for the past three years and has purchased the same at $1 per acre as required by the Regulations in that behalf, viz: 320 acres at $320.00.

The land was entered for by Thomas Logan on the 1st day of October 1881 and he has resided thereon continuously ever since. Mr. Logan also has a claim settled on Section 4 in the same township and also resided continuously thereon until the spring of 1883 when he sold his improvements on that claim to Alexander Gold for $300.00. From the papers in the case it would appear that Mr. Gold has not resided upon the land for nearly that amount

that may be sustained by the rapid deterioration in value which buildings & fencing soon assume when not kept in repair. There does not appear to have been any written transfers in these transactions, but there is no doubt they were as stated. So far as Morris claim of 1866 is concerned that from declaration in the case of River lot No 13 may be ignored.

Had Alexander remained on his claim he would have been entitled to a free patent and no doubt would have obtained his pre-emption at $1.00 per acre. Thos. Logan would also have been entitled to his claim, excepting being both in the same section it might have been impossible to decide so as to give each their amount budget per cent to each their respective improvements. If Alexander his selling out may have acquired a right to another section which he could not obtain but remained on this till he obtained title thereto.

After taking all the evidence into consideration, I think he will be hardly dealt with if he be granted another section & pay $1.00 per acre and have value of section declaimed $2.00 per acre each; should he fail to comply within 60 days of notice his claim to lapse and be cancelled accordingly.

If this meets with your approval it will be necessary to instruct Agent to hire another section in this Dist. to replace the one thus lapsed.

Sir,

I have the honor to enclose herewith five files being applications for Homestead & Pre-Emption entries on both the Hudson Bay Sections.

The applicants were informed that it rested with the Dept. whether their request be granted that I would take evidence as to the nature of their claims and if they proved worthy of consideration could assure them you would use your good offices with that Dept. information to their claims & right to the land and accord an equal chance in lieu thereof.

The Claimants are:

4th	Alex McLeod	"	"	N.W. ¼ 26.33.24 " "
5th	Wm Dick Dillon	"	"	S.E. ¼ 26.34.23 " "

1st Regis Baldwin, settled in June 82. Built, log house 16x20. At time of survey had very little improvements done on the land. Has since then broken 15 acres & cultivated as well as possible. Has out 20 cords wood on 23, house & stable erected. Came here from Regina, born in Quebec, likely to prove a good settler.

It will be further noticed that he claims a Pre emption on N.W. ¼ 23. The pt which that can be asked on his behalf would be for the Colonization Co to be requested to sell it to him at $2.50 per acre. It is likely since otherwise he probably would have abandoned it on entry he having then very little improvements, and it might even be asking too much for the Colonization Co to sell it at that price.

All the Nos 2, 3 + 4 and 5 thereon Sec. 26 are on North of the River Saskatchewan and in pt intersected by it and under the 2nd of Surrender the Co may take these lands in lieu of others to the South of the same River. It may be that they were squatted upon prior to survey, and before the Co has stated whether it will take them or not that the right to do so now does not exist.

When 2, 3 and 4 first made improvements they supposed they were on Sec. 1 same Tp. and Rge, base line had been run by D.L.S. Adams in 1876, but owing to a change in system of surveys made in 1881 they found themselves on survey of Tp. on Sec. 26.

No 2 Murdock McLeod first made improvements in 1876 Commenced to reside in May 1880 and has continued there ever since. Has buildings to the value of upwards of $800.00, 15 acres broken and 100 acres enclosed. Asks for homestead and Pre emption entry to each portion. If granted would recommend his Pre emption be sold him at $1.00 per acre. He asks

No 2

asks to Homestead the S.E.¼ and Pre Empt the N.E.¼ of Sec. 26 Tp 53 Rge 24 W 4.

No 3 Mr C. Ross has already had one Homestead in Manitoba which he abandoned on account of the Grasshoppers and water. He secured $400.00 for his improvements. He is a mechanical Engineer and has been working at that in Edmonton for 1½ years. He first made improvements in 1881 when he broke 8 acres and fenced 20, he did not Commence residence till June 1883. Since then has Constantly resided thereon, has house which he states is worth $900.00, 25 acres under cultivation and fenced, is a married man and is able to prove a good settler. He does not claim a Pre Emption. He asks for Homestead the N.W.¼ 26-53-24 W 4

No 4 Alexander McLeod asks to Homestead the S.W.¼ 26-53-24 W 4 took possession and Commenced improvements in May 1880 residence Continuous since May 1882 - has house and buildings with fencing valued at $650.00, 30 acres broken and under cultivation, is a single man and likely to prove a good settler.

No 5 Baptiste Salon claims to Homestead the S.W.¼ and Pre Empt the N.W.¼ of 26-54-23 W 4 took it up in 1881 and states has lived about (4) four months in each year on it since, has 12 acres broken

Petition of 1st applicant Edward Dale

" " 4 " David Tate

These lots are in settlement of Red Mountain on South side of River. They would have naught and scrubby wood as at least some distance from the Edmonton town plot, owing to their not been settled upon till recently. The applicants are Half breed settlers but do not know they are liable to grounds. Dale and Mc Leod ill in addition to the lots sent to be submitted to the Council of 31. The lots asked are greater in area that they will be entitled to without scrip.

I can see no grounds to refuse Entry, but in these and all lots in settlement both would recommend entry be given subject to conditions of

of personal residence upon the lot, that patent do not issue until 20 acres are put under good cultivation and fenced, a habitable house in fair condition erected thereon, and at least 5 acres each year be put under cultivation. Many of these lots are claimed by people living in Edmonton and working at other things than farming and by this means said Hiis only can they be compelled to improve the land. Should they not comply with these requirements within 60 days of notice, this claim to cease to exist and land to be open to re-application on paying into the hands of Agent for benefit of claimant the Cash value of the improvements thereon.

If claimants think these conditions too hard they will have the privilege of taking lands elsewhere not subject to such conditions.

Should Hiis meet with your approval it will be necessary to specially instruct the Agent and have him incorporate these conditions both in the application for entry and [illegible]

I have the honour to Enclose for consideration and decision of the Land Board file and report in the case of the application of John Duncan Jr. and J. to E. ½ 6. 54. 23 W 4th The Chief Joints in his application to Enfranchisement wants his Pre Emption at $1.00 and the time of his predecessor on this "Treaty" to Count as his own.

Duncan lived some ten years near Fort Saskatchewan had a claim there which he sold for $2000.00 the case of claim of Frank Oliver who had resided since 870 thereon. What kind of man Duncan does not appear. Duncan appears to have been dealing to some extent in claims. The McKinney claim on sec. 36 adjacent was sold to him by Duncan. Thus is no doubt he is a good settler. but I cant see that any hardship will be inflicted on him if he be required to complete his 3 years and pay $2.00 per acre for his Pre-Emption & recommend accordingly.

I have the honor to enclose for consideration and decision of the Land Board file and report in the application of Pascal Marechal to Homestead and Pre Empt the E½ of Sec 24-53-25 W 4, the W½ being the Homestead.

There is one point in the file to which attention is particularly directed viz: that he has allowed a portion of his Homestead Marechal and the assignee of Scotty to whom Marechal has since deposited and the former agreed to permit Marechal to take out the patent the date having taken place prior to May 25th 1883 — and to abide by such decision as they have agreed.

Marechal is a half breed and has resided continuously on the land since 1878, has 5 acres broken, buildings not improvements.

Recommend that application to Homestead the S.E.¼ and Pre-emption the N.E.¼ Sec 24 be granted.

I have the honor to enclose herewith file and report for consideration and consideration at the Land Board Office an Application by one Philip Sale to Homestead River lot No 1 and Pre Emption of Sec. 36 Tp. 24 Rge 16 West to make in all 320 acres. The River lot Contains 198 acres.

He will be seen that he has in accupation his improvements are at present 25 acres broken, buildings and fencing to the value of $575.00 / probably that valuation is very high.

Would recommend he be permitted to purchase 160 acres, being the balance of the lot, the entire 198 acres but that patent do not issue to him till he has 40 acres under Crop Cultivation.

My dear Mr Walsh.

I got up the 22nd about with eloping from Brandon some considerable hard last night. That no time might be lost in taking action concerning that affair I telegraphed you today to instruct Blanchard to take proceedings. I marked the message to be collected as I find many good messages on this line were such delineation. I was in some doubt as to what policeman to send: I think Blanchard's [illegible] as good as any if they are not too busy. The only objection to take proceedings in this case is that suspecting a judgment is obtained they might beat me on the execution. I dont suppose either the writer or prosecutor have many assets that might be available.

Am going on home my self, expect to return to Edmonton in two or three days. Could do nothing more than with any certainty till plans of St. Albert 1874. Postal Clerk arrived which I hope to find them on my return. As you will see in due course there are a great many cases. both here and at Edmonton.

Have had very warm weather till this past two days which have been uncomfortably cool. Edmonton crops looked very well, but the weather these last two days, compels to all in the Office.

noticed that in said Sec. 6 on the land applied for the land appeared to have fallen through. There is a portion of this cultivation in the N.E. quarter section but it was left to themselves to manage. Chas. Thos. Hayes has applied to do so this year. Further enquiry does not disclose it, he in addition to the claim entered as Pre. Lake now has one improved Sec. 36, which he is improving and intends when he obtains recommendation for Patent for this homestead to enter for. Undersigned recommended he be permitted to enter the S.E. qr. Sec. 6, the N.W. qr. Sec. 31 Res. and purchase the S.E. qr. Sec. 31 Res.

No. 2 Edmund Jewell has resided on his homestead since 87. Continuously has 30 acres under cultivation and 20 ac. fenced buildings worth $650.00 fencing $250.00 well $30.00 He is desirous his attendance farming exclusively, is a fair farmer. The portion he wishes to purchase contains only timber and is valuable only in connection with this property. Undersigned recommends he be permitted to homestead, pre-emption and purchase as he requests, his pre-emption and purchase to be $1.00 per acre. Same the N.E. qr. Sec. 23, Pre: the S.E. qr. Sec. 26 and purchase the N.W. qr. Sec. 23 all in Tp. 63. R. 25 W. of 4th.

No. 3 Robert Logan has resided on his homestead continuously since 874. has not farmed to any considerable extent, his occupation mostly being trading. He has had for some years past nearly the whole of the portion applied under fence for his stock, a large number of horses and oxen being required for freighting purposes. His buildings including stables to the value of $1,300.00 fencing $600.00 Breaking &c. The portion of land applied for as pasture contains — acres [illegible]

recommended to be submitted to Surveyor. Sub. E. ½ Sec. 5 the N.E. at $1.00 per acre and purchase the fractional N.E. ¼ of Sec (1) at $2.00 per acre which fractional portion Contains probable abuttments.

No 4. The portion he wishes to pre Empt is an odd section adjacent to the portion claimed as homestead and is within the limits allotted to the Edw. Blackstock Col. Co. All the improvements he has on the 80 acres taken up deed in 1883. His residence through Commenced in 1879 has not been in Conformity with the requirements of Dom. Land Act. No State Plan to be seen on 28 available as a Pre Emption. He further should be Commended in the case it could be that the Col Co be asked to sell him, if they would, the S.W. ¼ 29 at $2.00 per acre. No 5 is within the Col. Co's land and the Signature of the Co, Mr Simpson will have to be notified of decision.

No 5 Likely Quebec, an old Miner, wishes to purchase the N.W. ¼ 25 Pre Empt the N.E. ¼ 26 and purchase the N.E. ¼ 25 the latter Containing ——— acres (see plan). He has been 15 years a settler on the claim but only 10 since Commenced to cultivate. He has 15 acres broken, putting that at $5.00 per acre and taking the valuation of Buildings and fencing as what he places it, which is probably too high, the total valuation of his improvements amounts to $300.00. He is one of almost the universal number who think they should have a pre Emption though what they will do with it when obtained would puzzle them.

to Hmd. the N.W.¼ 25 Tp. 6 R. 6 W. the fractional N.E.¼ at $1.00 pr acre. on granting him what he asks, but the price of his Pre Emption and purchase to be $2.00 pr acre.

No 6, Alexander Robertson, bases his claim largely on an alledged promise made him by the Lindsay Russell. Further when he settled he supposed according to an old base line then run that he was on an even section which ran down to the river. He has obtained a Hmd. Entry to the N.W.¼ 22 and asks for a Pre Emption Entry to the fraction of S.W.¼ 27 lying between his Hmd. and river. He is a very excentric individual and devotes a good deal of time to gold washing in the River, and judging of what he will do in the future by what he has in the past, the portion Homesteaded will be more than he can farm as it should and would be Commended that he be notified that so far as S.W.¼ 27 is Concerned his claim is of such a nature that he will have to treat with the Govt. for it.

Gallipoli August 13th 1884

Sir

I have the honor to enclose herewith an application from one Christ Taylor for permission to purchase a Town Lot. He also declares that he owns no other land in Gallipoli.

He owned a good deal in the neighborhood of Pasha Point, but a portion of the County and he now dwells with his son, and would prefer to purchase his present residence.

I have the honor to be

Sir

Your obedient Servant.

Sir,

I have the honor to Enclose for consideration and decision of the Land Board file and report in the case of Frank Greenwood to S.W.S. the NW 18.32.24 W4.

The only point in it is that he took possession of a claim on which one Wright unmarried and deceased, intestate and who had broken some 4 or 5 acres. Wright had been in it only a short time when he died, his father residing near Toronto had written Concerning it and file was refused me. Told Greenwood, if he would ask Mr McDougall S.D.C. factor to give him a certificate that he can him enclose, the value of the improvements made by Wright Jr, in a letter registered and sent to said Wright Snr. that there would be no difficulty in obtaining his entry.

If this meets with your approval please instruct Agent accordingly.

Sir,

I have the honor by direction of the Commissioner of Dominion Lands to enclose C.D file No 16352. from a distant relative of the late J. Hurst and T. J. Jackson enquiring the W½ 3-48 26 W 2nd.

The file disclosed that neither Hurst nor Jackson ever obtained entry of said ½ sec. and that the former in 1882 sold out his claim to one Jeffers in 1883, and the latter abandoned his claim in 82. Hurst has only 6 ac. broke and Jackson only 2 ac. Each have erected a small frame shanty. Jeffers has the claim fenced & the value of improvements he puts at $300.00 he purchased Hurst's improvements for $75.00 which with the $10.00 fee he has paid the Dept. and is entitled to patent No 79, which is part of his own pre-emption & Jackson's and has received the usual certificate in connection therewith.

T. J. Jackson has also entered and paid for entry of the S½ of the same section 26 Twp 48 R 3 W 2nd in the Battleford District on the 4th day of March 1884. he has broken 2½ ac in 85. he has improvements for which he puts the value at $50.00 Thompson Jackson and wife are also living on this land & have a comfortable house in which they reside. I was informed that Jackson has left the country & gone to the States.

After carefully examining all the evidence in the case I would be glad to hear from you whether the entry of Jackson should be cancelled & the money refunded & also if I have the right to require both parties to attend at my office and give evidence. Notice to be given to Jackson by registered letter. The evidence of the Jeffers children will be taken before a Justice of the Peace at Battleford.

Sir

I have the honor to direct your attention to the Commissioner of Mission Lands to enclose herewith C.O. file 17870. being an application by Rev. Mr. McWilliams to purchase the S½ 4 10-48-26 W 2nd and also if there be no valid claim to the remainder of the Sec. that he be permitted to homestead and pre-empt it.

The file does not show that Mr. McWilliams has performed a claim thereto and it will probably be found his claim is [illegible] Further the Presbyterian Mission already possess a claim before me for a portion of this for Mission purposes.

While desiring to do everything that can be done to assist the Rev. Mr. McWilliams it cannot be maintained that he should receive special favor in this Sec. his immediate interest of the Presbyterian Mission property which consideration has been denied in regard to their claim thereto. Mr. McWilliams is the incumbent of said Mission, appointed by them and not a settler in this district within the true meaning of the term. Were special consideration shown him, every minister of all denominations would with equal force [illegible] so far as his Son is concerned it would not be fair to the former that a piece of land so closely situated should be granted at this date on the same terms that were accorded in the first. As to Mr. Weirdi he is on the eve of selling his already broken, and [illegible]

[illegible]

clerk in a store, has been many years in the North West and if his object was to acquire a farm and follow the pursuit of agriculture he has had many opportunities of the same. He does not seem to have thought of it except when at Battleford and Prince Albert he imagined some place was likely to become valuable as a town site.

Taking all the facts into consideration would recommend it be sold by public tender, and not subject to Homestead Conditions as regards residence, its proximity to the town of Prince Albert not rendering it particularly desirable that residence should be enforced

You will therefore advertize this for sale by public tender notifying all interested parties. To be sold by the ¼ Sec. or frac. portion when the ¼ Sec is not entire. any one party however can purchase the whole. Terms ¼ Cash balance in 1, 2 & 3. years with interest at 6% per Annum payable yearly on the unpaid balance. In addition to the price tendered the Cash value of the improvements thereon to be paid into your hands for benefit of party making same. Envelopes to be inscribed on outside tenders for — ¼ Sec. and forwarded to me registered. Communications with file and copy of this letter to be retained for 30 days

Sir

I have the honour by direction of the Commissioner of Dom. Lands to enclose herewith a.o. No 6351. being a despatch between Wm Drain and R.J. Hunt. Mr Drain claims the Southeast half (S½) of Sec. 4 - 48 - 26 W 3rd Mr Hunt the whole of it.

Mr Drain is a Canadian, Mr Hunt an Englishman. H.B. Co. Traders are allowed within the Reserves of the Sat. Crees. Drain has resided on from 1878 to the present. Drain had a claim to a half section adjoining which he sold at a good round figure. Mr Hunt by agreement of Land to this South of this to do some breaking Drain and by mistake broke on the S and resolved to have Hunt refer it. Hunt as early as 1878. seems to have chosen to acquire land but forgot that to establish a claim prior to survey by actual personal residence thereon and the limit to be acquired was 160 ac.

After taking all the facts into consideration carefully. I recommend that he be permitted to acquire the N½ or N W ¼ which he selects at $1.50 per acre. Drain the South East ¼ at $2.00 per acre. Both Crees Cash. The other ¼ sec to the Department of Dominion to the Reserve provided he see it in three months. The matter delay after advertising for 30 days.

Battleford, August 10th 18

Sir

I have the honour to enclose for consideration and decision of the Land Board five files and report thereon being applications to homestead or pre-empt or both as stated viz: the applicants all basing their right to do so on ground of settlement prior to survey also by acquiring [illegible] from former claimants certain rights to the respective [illegible]. Number. Description. Purchase. Purchase.

1. Wm. McAdam Jr. Clay SE¼ 2. SW¼ 1. -53 25

2. Robt. Jackson [illegible] SE¼ 35 SE¼ 36 — — 24 W 3

3. Jas. Wm. Jr. Wm. McAdam SE¼ 21. NE¼ 16 —

4. Thos. Jas. Gossin jun. SW¼ 13. 53 — 75

Regarding the 1st and 2nd applications the claim referred to in each may be ignored the claim preferred therein being of little consideration, legally or equitably.

The claim arising by reason of the settlement of persons claiming of such a recent date, subsequent to 1st May 1880 may be ignored, but there is this to be considered with regard to nearly all these claims, the settlement was made prior to survey and no means of knowing whether they were on sections or not. In further Wm. McAdam Jr. in 1879 was [illegible] in the vicinity of Edmonton, from which survey [illegible] in the system of survey in force [illegible] on sections &c. the probability was [illegible] found themselves on odd ones. [illegible] been a very general impression that so long as settlement [illegible] Crown, the settler would be protected in his [illegible] odd or even. In addition [illegible]

345

346

regulations of July 9th and Oct 14th 1879, the Amendment to the D.L. Act of 7th May 1880. by which the Govt intend protect no one who has acted or been. Dec[d] nor the regulations of 25th May 81. on which came into effect 1st Jan[y] 1882. In answer to inquiries as to cause of such ignorance the reply invariably has been. "The publication were such that months would elapse before we could learn anything further. There were all sorts of rumours as to which little or no attention was paid, believing the Govt would deal liberally with all when the time arrived"

If there were any parties in the District who were cognizant of the regulations, either personally or through the press it was not believed.

It may be observed here, that judging by my own experience, when one ceases to receive mail regularly very little attention is paid to the newspapers when they come to hand.

There is one point on which I am not certain that is the date the old Dec[d] along the North Saskatchewan was set apart by "Dim C" as securing a portion of the land grant of the C.P. Ry. It was passed I think late in 1882 or early in 83. so that up to that date the Govt could without infringing with the rights of land corporations dispose of all old Dec[d] if deemed expedient. Had these people any reasonable means of knowing when they were. They might then perhaps be required to purchase when an old Dec[d] but they had no such means. It requires no doubt be true that ignorance is no excuse, and by the Amendment of 7th May 1880. squatters should be as they were not protected. The object of that act was no doubt to protect the public interests as against land grabbers in regard to those portions valuable for other than agricultural purposes. and the public generally accepted it as such. Also it might further be urged with considerable force that the regulations of July and Oct. 79. did not extend to the 2nd [illegible]

Thus on after considering all the facts I would recommend that where settlement was made and improvements effected prior to the 1st Jan[y] 1882. & no [illegible]

346

[illegible] Block is taken in the name of the C.P. They acquired any rights in the vicinity of Edmonton or Battleford. The do not apply however to odd lots sold to Col. [illegible] which have been [illegible]

The surveyed land in Duck Mountain was extended to 1st June 1880. For Edmonton we did recommend extension to 1st Sept. 80. This may however be ignored as settlers at Edmonton or Battleford were very few until 1882.

There will be many cases where settlement did not take place till after 1st Jan. 83 and at same time land was not surveyed. With reference to these, without consulting the Minister I would prefer not to answer any recommendation. In these it is probable that the C.P. may claim acquired a vested interest, but will when the case is represented to them waive their right and accept other lands in lieu, the settlement to them is not known, and to their settlers in many cases it represents their all. This intention of settlers generally are known fully and it would be to the interest of both Corporation to deal them.

With reference to the particular cases enclosed.

1st Donald Sparrow has improvements to the value probably of $300 00 will prove a fair settler, I recommend this claim from the child who is entitled to same dated from 1879 to 1882. Still improvements chosen to them were confined to the SE ¼ 2. Recommend he be permitted to H and P on his quarter, and if deed of the remainder of 36 is [illegible] for Breaking purposes. He may be sold the balance his Pre-emption and purchase at $2.50 per ac. In carrying out this decision will require to [illegible] at their own expense a [illegible]

2nd [illegible] Claiming has improvements to the value of probably $700 00 will likely be [illegible] settler. Recommend he be permitted to H & P on deferred pay, the latter to be $2.50 per ac. It will be [illegible] Should over [illegible] a claim to this land he appears to have [illegible] it may possibly [illegible] a fifth of it to [illegible]

3rd [illegible] Inspection which to [illegible] SE ¼ 27-5-2-26 W of 4th [illegible] improvements

Improvements to the value probably $200. Considered a claim from the Reg[ular] Indians, no consideration can be given as a claim, price $1.25 per acre but the Indians were to vacate [illegible] acres. Will not make a good settler, but would recommend his application be granted.

No 2 Christopher Burley Anderson claims right to H SE¼ 21. P. N.E¼ 6 – 52 – 24 W 4th is only 19 years of age and has lived since since 52. Spring made 52. Consequently before he was 18 should have known that he was to hold 160 acres and so that ground his claim might be ignored. It is however advisable only for agricultural purposes. He is the son of the former Indian Agent, who with his wife and daughters reside with applicant on portion claimed as homestead. After considering all the facts would recommend his request be granted for P. to be $2.00 per acre. It might however be advisable to specially call the attention of the Minister to this case.

No 3 John Norris for claims H entry to SW¼ 13 – 53 – 25 W 4th has been settled upon by one Ingram, since deceased, in 18[illegible] and resided thereon with exception 8 – 80. It then passed into hands of Wm [illegible] who sold to present claimant in spring of 82 and he has resided thereon ever since. He has [illegible] He recommend his request be granted

Battleford, August 16th 1884

I have the honor to report through you for the information of the Minister on my visit to Battleford to investigate claims to Land in that vicinity.

On 30th July I sent W. J. Scott Esq Registrar Battleford the following telegram

"Leave for Battleford tomorrow. Please advise claimants to lands there".

Left Edmonton July 31st reached here at 7 P.M. 7th August and found Mr Scott had telegraphed Battleford with a notice of which the enclosed is a copy.

On 7th I opened a room for an office and had it fitted up. Commenced receiving evidence on the 8th and have been busy up to date. Soon as I have Liquor I shall begin to report thereon. I think evidence has been offered in the great majority of cases. Those which have not will be settled on what documents &c and I have left with Mr Pre Lamie who is a Notary Public several blank forms of affidavit for him to receive evidence and forward me. There are only a few disputed claims. Finding no plan of Battleford here I would have been at a loss had I not secured the services of Mr. A.C. Lamie D.L.S. who surveyed it, and him prepare a plan of it and vicinity. His assistance has been invaluable to me. Have paid him usual rate for 9 days services and hand my account herewith duly certified for approval.

I have &c

The chief question of interest in dispute is regarding the town site of Battleford, but I think an easy solution can be arrived at, and which will be cheerfully accepted by the great majority.

I expect to start for Edmonton tomorrow Evening and have telegraphed you to that effect.

In all my telegrams to you I send them to be collected, experience having taught me that many never reach their destination

I do not know how long it will take me to finish Edmonton; but I think the back bone of the work in that vicinity is broken. There may be more cases to be preferred than I now know but they are simple ones as a class, and if it were necessary for me to be elsewhere could be attended to by Mr Garrioch.

Since commencing the investigation as will be seen by my returns no time has been lost

Sir:

I have the honor to send for consideration, and decision of the Land Board, plan and report, in the application for patent by the following parties:

Lot N° 20. Kenneth McDonald.
" 18. William Rowland.
" 16. James Rowland.
" 14. Donald McLeod.
" 12. D. J. Robertson & Richard Hardisty
" 10. Rev^d Samuel Pritchard.
" 8. David McDougall.
" 6 Archibald Morrison.

I have produced sketch together with the quarter of boundary as well as evidence under which title is to be acquired or awarded.

As to Boundary, that has been fully reported upon and a recommendation made for the abbrevial of the Islands, and whatever is finally adopted on that head, will only affect the boundaries, not the conditions under which title is to be acquired.

Lot N° 20. has been continually occupied upon by Kenneth McDonald since 1872. Buildings, claimed value $700.00. Has agreed to convey 5 acres as Mill site & 1 acre to Henderson for brick yard.

Recommend 160 acres granted free, balance at $1.00 per acre: & pay Homestead & Pre-emption fees in addition.

Lot 18. Claimed by William Rowland: has resided

L. Wade Esq^r
Com^r Dom^n Lands
Winnipeg
Man

resided continuously since April 1873. Buildings worth $1200 has agreed to sell 5 acres to Mill owners at $5. per acre. Recommend he be granted Pat. on paying $10. Homestead entry fee.

Lot 10. Claimed by James Rowland: has resided since June 1872 excepting 1 year. Buildings he values at $300 has brewery and fencing: has agreed to sell 10 acres to one Frank Davis for $50 on acquiring title. Recommendation similar to 10.

Lot 14. Claimed by Donald McLeod: has resided on 1/4 of the time since Oct. or Nov. 1873. From sworn statement W.L. Robertson attached, it would appear that the buildings present on the lot are worth upwards of $10,000. McLeod has sold or given bonds to convey on acquiring title several small lots, the original lot being subdivided into small lots. In this case also 12 & 14 several of the present owners asked me if the Govt. would issue patents to their respective parties. Implied not that it would be advisable to allow the patent to issue to the Claimant of the whole lot, & let him deal as above. If they would not agree to that, let all the owners on each of those lots agree upon a trustee, and the Govt. would issue patent to him. To still further complicate matters Davis & Fraser during the summer, & not duly advised parties to agree among themselves, if not, delay in issuing patents must ensue, and the interests of all must suffer thereby. As far no protests against the issue of the patents to the Claimants, have been filed, & I think the various owners & Claimants may be left to arrange these details among themselves.

In this case would recommend patent issue on payment of $10. fee, the usual Homestead entry fee.

Lot

Lot # 12. On this Claim there has been no residence of any amount by the owner of the lot at any time. Richard Hardesty first owned it, but did not reside thereon. Sinclair then owned from 1875 to Dec. 1881 residing thereon only one month.

Richard Hardesty first owned it & then sold to Sinclair. Sinclair sold it to Hardesty, who agreed to convey 1/2 interest to one Rich^d McGuin, if he paid half the purchase money, which he did not do, and consequently no conveyance was made to McGuin. He sold 1/2 interest to one F.D. Wilson & 1/2 interest to A.W. Hyppen. Hyppen conveyed to W.S. Robertson. Wilson conveyed his 1/2 interest to Hyp^n Stackwood & Lake and they last conveyed to W.S. Robertson, so that now the owners are Rich^d Hardesty & W.S. Robertson each an undivided 1/2 interest.

According to sworn statement of W.S. Robertson the buildings now on the said lot 12 are worth $12.00^{cts}.

There being no protests except by claimants, would recommend patent issue on payment of $5.^{00} per acre.

Lot 10. Colin Fraser owned and resided continuously on the lot for 5 years. There are buildings thereon to the value of four or five thousand dollars probably more. It has passed through several hands & is now owned by the Rev^d Sam^l Rutledge. No written conveyance but from affidavits of Fraser & McDougall there is no doubt he is owner.

Would recommend patent issue for this lot on payment of fee of $10.^{00} Homestead entry fee.

Lot 2. On this lot no residence has ever been done by the owner. buildings to the value of probably $2.00 ^{cts}. Now owned by David McDougall who bought from his Mother widow of the Rev^d Geo. McDougall who acquired from the government at his death, [illegible]

to the death of the said Rev^d Geo. D^r Bourgeault, who died intestate. There are no written conveyances, but there is no doubt that the Claimant is properly entitled to it.

Would recommend patents issue on payment of $1.00 per acre.

Lot 6. This Lot has been used by the Methodist Mission since 1874 and continuously but fairly so.

Would recommend patent issue for this Lot on payment of $10.00 the fee required for Homestead entry.

In these Claims and many others there are few or no written conveyances, but the affidavits show that the sales were made in most cases at last time as in those in Manitoba, Power Colbert & other Scouts in the North West there were none.

Sir,

I have the honor to report for the consideration & decision of the Land Board on the dispute concerning the Boundaries between lots 10 & 12 Edmonton ~~District~~.

I have in the report to the Agent fully set the real question of boundaries affecting lots 6 & 20 inclusive, and have recommended for his approval a survey of ~~subdividing~~ lots 6 & 8, whose interests seem to me to have been sacrificed for the benefit of lots 10 to 20. without disturbing the boundaries as defined by Deane D.L.S. so all that is approved them is only the question between 10 & 12 to be settled.

I cannot see on what grounds the Claimant can protest. The following is Copy of an agreement entered into between Colin Fraser, who at that date claimed lot 10 & Keppen who represented the Claimant to 12.

Edmonton July 5th 1894

We the undersigned hereby agree that the division line between our respective properties shall be one run and staked out by R. Bourne D.L.S. but if at any future time the Govt shall survey those several Claims, then this agreement shall be null & void, and the Boundary shall then be that surveyed by the Govt

proceeded by Mr Bourne & Co. a sale deed. at that time thought it would be adopted, but Mr Bourne said as we acceded to this agreement they were bound to accept the division as laid down by the Govt Surveyor. In some manner or another the Claim Frazer Claim Lot 12, was laid out by Bourne under Claim 12 but according to the evidence of Frazer 12 should be 50 ft wider. Between him & Struck Frazer had a sort of an understanding with Yardley who Struck claimed that the said 50 ft which belonged to 12 should go to 10 but this was never carried out. It ought to be here mentioned that the way this extra width to 12 & 10 came in was thus.

When first asked out Bourne represented 3 claims the middle one of which adjoined and the two outside ones [illegible] between them. (See Report on Mr Everett's Claim) dated 7th July). On the understanding which was to be carried out, Bourne handed the said plan to Frazer. These claims were being altered and altered continually by Claimants and it would seem they had a very vague idea as to where their limits were. Both 10 & 12 did better by Reams Survey, than they would, had he adopted Bourne's boundaries, and I cannot see any grounds for granting the claim of Lot 10. even had not the above agreement been entered into which I do not see no grounds for protesting I recommend accordingly -

Sir:

I have the honor to enclose for consideration & decision of the Land Board, an application by one James McNamara to Homestead Rein Lot 1030 & Pre-empt Lot No 32 Township Eleven.

These lots in the Edmonton Settlement which have no improvements shown on the plan, are usually and very desirable hay privileges.

The Regulations of them as a class are not understood settlers, although as Agricultural lands they are inchoate & labourers in Edmonton and vicinity frequently be

The enclosed Tele is a specimen of them

It seems to me that the claim to Homestead Lot 25 which contains 308 acres, and Pre-empt Lot 32 which contains 154 acres; that the total value of his improvements to please at Dept 7, $100 & $200 would probably be fairly enough.

In cases of this kind where I would be entirely disinclined to recommend the issue of patent, I would be very glad to receive instructions of the Minister to obtain a report on

I would recommend that Lot be open for entry, the area in Homestead, balance as Pre-emption at $2.50 per acre. If claim 3 months after Agent's notice & time of the lease under which this lot is to be entered by

Sir

I have the honor to inform you that I will probably be able to leave here in about two weeks it may take me some few days longer to make reports in all the cases. Some of them will require to be held for some time to enable claimants to furnish further evidence desired.

I have thought it advisable to thus notify you, as there is now nothing [illegible] for me to do I could be [illegible] at Calgary.

Edmonton.
27th Aug. 1878.

Sir,

I have the honour to inform you that
the agent in Edmonton has received instructions
to proceed to the Agency of Fort Macleod for the
purpose of hearing applications for Homesteads
on the North side of the Red Deer River about 30
miles below Jail Creek the centre of Settlement.
Applications within the limits of the Macleod Town, the
Calgary Town and the Edmonton Settlement, will be dealt
with by the Agents of those districts respectively.
Applications for Homesteads will also be received
by the Agent at Battleford.

In order that applicants for Homesteads may
not be subjected to the inconvenience of visiting
the Agency,

In case the applicant could not make his declaration
personally before the Agent, the declaration may be
made before any Justice of the Peace, Notary Public,
Commissioner for taking affidavits in the Supreme Court
of the Province, or Stipendiary Magistrate, and the
Agent may accept the declaration so made.

In case of the applicant being unable to attend
personally at the Agency, he may appoint by power of
attorney any person to act for him in making the
application, and the Agent may accept the declaration
so made.

In the event of the applicant being unable to attend
personally at the Agency, and not having appointed
any person to act for him, the Agent may accept the
declaration of any person who may appear to him to be
acting in the interest of the applicant.

In the event of the applicant being unable to attend
personally at the Agency, and not having appointed
any person to act for him, the Agent may accept the
declaration of any person who may appear to him to be
acting in the interest of the applicant.

The Agent will forward the declaration to the Minister,
after considering which the Minister will issue the
Patent to the Homesteader. The Patent will be
forwarded to the Agent as soon as issued, who will
then notify the Homesteader.

The Honble
Minister of the Interior

were not enough for a Claim: a new party could come along, purchase the land adjacent and reap as much benefit from the discovery as the discoverer. That there should be an exception from the general Rule in the Legislature, no one as yet has conceived. It appears to me that there was considerable force in Lieut Emberton's, and would refer it to you for consideration.

Lieut Johnston requests that as some applications are already before the Court relative to Claims on the land adjacent to the Lake, they may be disposed of under the Claims: the consideration also is pressed upon him that many a new discovery of auriferous productions will have of great value, which they should be liberally treated and would recommend that these applications should be disposed of by you.

Should it find the Lieut Governor in Council, that it may be necessary to alter the Law, I am directed to request that you will be pleased to advise the Council thereon as early as may be convenient.

Sir,

I do not to prevent the possibility of future [illegible] grants within the Indian Reserve to the South of Edmonton in Tps 51 & 52, Rs 24 & 25; I have the honor to request you will be good enough to furnish Mr Cameron the Edmonton Agent with a diagram, shewing the sections and portions of sections in the above Tps which you have included within said Reserve.

For your information I may state that on August Mr McDonald lays claim to S/2 22-52-24 W 4th, stating he has been settled thereon prior to it being made a reserve, and purchased certain improvements and the good-will of the Chief of said band of Indians to the Section in question -

Sir.

I have the honor to enclose herewith a plan of the Spot being an application by one Angus McDonald to Homestead and Pre-empt the S½ 22-52-24 W of 4th also a copy of a letter I have this day forwarded Wm J.C. Nelson D.L.S. at present engaged surveying this Reserve.

So far as this particular claim is concerned it is not a particularly strong one, but he will no doubt win that only for the uncertainty about it, he would have done much more.

I have been requested by several of the Edmonton people to urge that this Indian Reserve be located somewhere else. That there are only some half dozen families, and they should not be permitted to have their reserve here, being Indians who really belong to the Lower Slave Lake Country, and if they insist on taking up their abode here should be joined to some other band. Others again whom I imagine are in a position to know state there would be no difficulty in persuading them to leave the treaty and take up their Homestead and Pre-emption as citizens, they being really half-breeds. Having once taken treaty bars them from making ordinary Homestead & Pre-emption Entries, but that in time could be remedied and in the interval the land selected for such entries by them

Clausewitz 38 part

Lieber Herr Professor!

Ihre Karte ist meiner Braunschweiger Adresse gefolgt und hat mich daher erst gestern hier erreicht. Ich bin Ihnen für Ihre Einladung sehr dankbar, kann sie aber leider nicht annehmen, da ich Ostern bereits in Braunschweig sein muß. Ich habe dort noch einige Vorlesungen zu halten und muß mich auf die Prüfungen vorbereiten. Ich hoffe, Sie werden mir nicht böse sein, daß ich Ihnen nicht zusage, aber ich bin wirklich sehr gebunden.

Ihre Arbeit über Clausewitz habe ich mit großem Interesse gelesen. Sie ist sehr klar und scharfsinnig geschrieben und ich bin Ihnen für die Zusendung sehr dankbar. Ich habe mich schon seit langem mit Clausewitz beschäftigt und bin der Ansicht, daß er in der Tat der bedeutendste Militärschriftsteller ist, den wir besitzen. Ich habe mich auch bemüht, seine Gedanken in meinen Vorlesungen zu verwerten und habe mich dabei auf den Standpunkt gestellt, daß Clausewitz nicht nur für seine Zeit, sondern für alle Zeiten geschrieben hat. There is no doubt it would be of very great advantage to the vicinity of Edmonton if this Reserve were done away with, and have thought it possible if the attention of the Supt General of Indian Affairs was directed thereto, he might find some means to meet the wishes of the settlers in this vicinity in this respect.

Sir,

I have the honor to direct your attention to certain information to be furnished the Edmonton Agent with as little delay as possible: A plan shewing what are the area of all the broken quarter sections adjacent the settlement Survey at Edmonton; the same information with regard to that of St Albert and Fort Saskatchewan. The plans of St Albert shew all the quarter sections which are broken but in no case are there areas nor data to enable any person to ascertain such areas. In Edmonton settlement Survey the plans are not shewn what quarter sections are broken and that of Fort Saskatchewan there is nothing to shew where it is except that it is on the Saskatchewan River and already Mr Simpson Agent for the Edmonton & Saskatchewan Land Co has given Homestead and Pre-emption entries to a half section almost wholly occupied by River lots. Mr Simpson has been instructed to cancel such entries forthwith.

I would suggest that some of the Surveyors now in the field in this vicinity be instructed to do this work before the close of this season's operation there being no post to

Sir,

Where the land
adjoins a Canada Pacific Railway Reserve
the Edmonton Agent will be little able to
furnish: Applicants desiring entries
shall file letters Quarter Sections adjoining
Railway Reserve at Edmonton: the above
information with regard to that Agency
when all the Quarter Sections entered
shall have been surveyed. Applications
for land in Townships not then surveyed
will be dealt with as far as practicable
by reference to the Edmonton Plans
and Field Notes of the Surveyors
but their entries will be subject
to adjustment when the Township
Plans are received.

Applicants for Homesteads
must state in their applications
the Township and Range in which
the land is situated, and the
Section, Quarter Section, and
number of acres required.

Applicants for Pre-emptions
must state in their applications
the Township and Range in which
the land is situated, and the
Section, Quarter Section, and
number of acres required.

Applicants for Timber Berths
must state in their applications
the Township and Range in which
the land is situated, and the
Section, Quarter Section, and
number of acres required.

Applicants for Coal Mining
Locations must state in their
applications the Township and
Range in which the land is
situated, and the Section,
Quarter Section, and number
of acres required.

Applicants for Hay Permits
must state in their applications
the Township and Range in which
the land is situated, and the

to plant her mounds to build it could be readily done after they would have to cease work in ordinary Township Surveys the ground being frozen, and would request that before leaving Edmonton on Completion of this work they be instructed to furnish this information to the Agent here, so that no delay may insue through want of it. All the Agent requires being that the outlines of these Settlements should be plotted in the various Dp. maps affected and the area of all fractional Quarter Sections shown. The whole work required will not probably take more than three (3) weeks and 5 or 6 men in the party.

Sir,

I have the honor to enclose herewith for the consideration of the Land Board, files and Report on 21 cases, being Applications to Homestead or Pre-empt or both, on odd or even sections, or both, the claims having settled in advance of survey and could not be where they were.

The recommendation in each case is made on personal and has been done on the supposition that Report "A" made at Battleford on Aug: 15th would receive the approval of the Land Board and the Minister. It states most fully with the general question of squatting, in advance of Survey & what recommendation should henceforth always be treated. The principal point to be determined is, those which have been squatted upon since date may have to come within power of the C.P.Ry. by order in Council setting apart the belt on the North Saskatchewan, to satisfy the Land Grant to the Railway.

These files, for convenience have been schedulized and under the head of Remarks the recommendation in each case has been made.

I have the honor to be

Edmonton
Sept. 1st, 05.

Sir,

I have the honor to enclose herewith report of duties re Tps. 55, R 22 & 24, applied for by the Saskatchewan Land Coy of Canada for Colonization purposes: I was instructed verbally at Calgary by the Deputy Minister to make such report. After perusal and having copy made, please forward to Minister.

This Co applied also for Tps 54 R 25 W, but Mr Lay the Land Agent of the Coy after enumeration was made, informed me, that his Coy would withdraw their application for these Townships.

During my visit at Battleford, Mr Macaulay the Assistant Agent made the enumeration and prepared the schedules which clearly all the information, which probably the Minister requires.

As will be seen there are no Claimants to land within these Townships, but the great majority are on even sections. There are in all, 6 odd sections claimed for Homestead or Pre-emption or both and three quarters of a school section. These claims to odd, will be reported upon as soon as the evidence is all in, and to whatever amount entry be granted that area could be deducted from the area entered in odd sections in Townships granted to the Company.

Another claim will shortly be preferred in Tps 55 - 23 W by the R.C. Mission to two sections for an Industrial School which if granted could also be deducted. It would be well in the meantime

A. Dakin Esq.
Com: Dom: Lands
Winnipeg -

Tps can be passed over to receive them. Entry can issue for Tp 52 - 22 W of 5 & W/2 34 in Tp 55 - 23 W 2nd. If not granted to Mission for school purposes they could be afterwards handed over to the Coy -

W Pearce -
Supt

Dear Mr. Walsh.

I enclose with this a schedule of the commissions of Justices with the Court attached to the Edmonton and Saskatchewan Land Coy of Canada, and think that all the necessary information is in it. I do not know exactly what form Mr [illegible] has adopted, but if it is not better than this, as good, this might be shewn him and have him make his returns in conformity therewith. It would be well to have uniformity about them.

On date of their arrival in the country, I think necessary to enable the Minister to determine what sections have been placed on the lands by the Company, that those that have come without the aid of said Company, in some cases against their wishes.

Yours faithfully -

Sir.

I have the honor to enclose for your information, and after making copy of the same to be forwarded to the Minister, a schedule showing the letters now located within the tract allotted to the Edmonton & Saskatchewan Land Coy of Canada.

I was instructed to make said enumeration by M.O. Letter of 30th June 1894. No 75.859.

While I was at Battleford, Mr. Macaulay made the enumeration and schedules thereof, and has given all the information that can be obtained, or may be desired. It is I think very reliable.

There is one point to which it may be well to direct your attention, that is the numbering is not consecutive, which is owing to the enumeration of settlers also in Js 55 Rge 23 & 24 for which claims may have applied. They were all schedules together and on the two Letter Journals a separate report can be made.

Journals 56 & 57 have not been sent and Mr. Macaulay informs the Genl Manager of the Coy informs me that the Company have relinquished their claims thereto, & asked for 55 Rges 20 & 24 in lieu thereof.

There are 127 on the four Journals, of these probably 3 have left the country: 25 have not entered yet for, but about 16 of them will remain only, which will make about 115 settlers within the tract.

Yours

A Walsh Esq
Com: Dom: Lands

Next number will certainly prove to be a
decrease, either in a less or other way of the present
number.

I trust this enumeration will meet
with your approval and that of the Senate.

Sir

I have the honor to enclose for your perusal & to be forwarded the Minister a confidential report to accompany my official report on the enumeration of the Settlers within the tract allotted for colonization purposes, in the Edmonton & Saskatchewan Land Dy of Alberta. This report can be used officially if the Minister so wishes it.

From the date of the arrival of the settlers in Edmonton it will be seen that only 17 have come to their country since the Ex opened their office in July 1893.

Forty-four settlers have come here since April 1st 1892, at which date I am informed the land was allotted to this Company.

Several are put on the census who claim Pre-emption entries within the tract and have their Homesteads on Rural Lots. Some have made Homestead entries within the tract and are yet living on Rural Lots, and claim title also to the latter through performance thereon.

I think with reference to entries granted in odd sections, it would be well to deduct them from the amount granted to the Co: and not enumerate the settlers thereon, or in the settlement Belts as belonging to their operations. It may be thought advisable to tabulate settlers who were here before the Co: began operations, or at least before the grant was made.

Edmonton Sept 20th 1884

Sir,

I have the honor to enclose herewith Copy of Map file 1-1-384, with report thereon for consideration & decision of the Land Board. I find the claims of 5 others with all the evidence offered in support thereof: they are also forwarded herewith as the case really are and the same claims (see agreement on the margin ("a")) although it is now stated that the agreement was long since broken.

To fully understand this case and others, it will be necessary to enter into a brief recapitulation of the history of the Town-plot Reserve at Battleford: this report to be read also in connection with all papers in our Town plot.

By Order in Council dated February 20th 1878, a "block four miles square, making in all sixteen square miles, be reserved at such a point in the vicinity of the Battle and Saskatchewan Rivers as may be found most convenient for a Town site."

The Order in Council further reserves from sale and settlement, to be set apart for construction of the C.P.R. a belt 20 miles on each side of the Telegraph line as then constructed, from 20 Miles West of Qu'Appelle to 20 miles West of the Battle River. The said 40 mile portion had some months previously been proclaimed from the Western Boundary of Ontario to 20 miles East of Red Deer. So far, there is nothing to show that the Town plot Reserve has been done away with, or in fact anything to show that the Railway Reserve has been done away with.

A. Watson, Esq.
Com: Dom: Lands
Winnipeg

826

[illegible] On the 21st April 1876, the following minute was [illegible] by the Council of the Province of the Legislative Assembly at Battle River.

"Settlers claiming lands within two miles "each way from the Telegraph Office Battle River shall be "reserved for Town purposes. no settlement thereon "allowed."

The first point to be determined is regarding the location of the Telegraph Office at that date. From the evidence of Bernard Fremont attached to file, it would appear that that office was located over the South West Angle of the NE¼ of section 17 - Tp 43 - R17 W of the first Telegraph Office, and the portion marked out in yellow (on plan), would be the 16 square miles which that as a centre. If however it was from [illegible] Telegraph Office, then the portion included within the Blue Margin represents the 16 square miles so reserved.

Legally, all squatters subsequent to the 21st February 1876, had no standing whatever on the Township Reserve or elsewhere. So far as this Reserve was concerned, it would have been generally fairly well respected by the public. It is true, there were a good many squatters on the same, but they knew their claims through the proposed settlement of parties prior to this Order in Council of 21st Feby 76, or at any rate they were squatters on the public domain, and were prepared to purchase at their valuation from the Govt, a reasonable area [illegible] as required for Mixed

Bed and Dow Creek being worked by A Dunn Co on an over flow Claim and for which he has applied for Deep Right of 100 ft Creek

Scott Bros Claim now owned by J.B. Lindgren, has a house worth probably $75 & building and fencing $200

There is no evidence to show value of Australian improvements: probably at one time were worth $100 & at present not one half that amount.

On Eldorado the value of building, fencing & tilling as regards $200

Scott and Brandon in the Spring of 03 undertook Claims and the improvements on Scotts Claim by path at $600

On the Red Claim the improvements consist of a set of house logs worth possibly $50

After staking off the Claims they can & have made an effort to cover the bearing portion of the town on their Claims, and the portion claimed known was laid out into town lots and so it can't they were given away on building conditions. Most of the parties took 2 lots, on condition of building, the other at prices ranging from $50 to $200. They also gave 5 acres to the R.C. Mission, 5 acres to the Presbyterian Church, 2 acres to Dominion for a drill field. It will be seen that this town plot does not agree with the Govt system of survey. Not 68 100 lots. In July 02. 192 lots were laid out, and in pursuance of Ordinance this plot was extended to 402 lots in all. The parties on the Bottle Claim in the Spring of 03 knew the plot was flooded on which account the bearing portion of the plan made for the ground was given up to their own town site. It is highly favourable situated for

for a town; but there is just as good a position near the old town site or what plan does on the North Platte.

In 1872 when the Union Pacific commenced the survey of this route, the Co. laid out a town site on the South bank of the River, and if these parties who made an effort had been desirous of obtaining title, there was plenty to have been obtained on the South bank and they would have been removed from the Public Grounds which is what Military Authorities generally try to obtain. It will be argued that the North side is much more favorably situated for a town site but it is true, but the South side is fairly so.

In May 1873 the Co. extended the survey from the South Fork of Platte River, North to the South Branch of Loup River. Three lots were laid out North & South and East & West and indicated the portion surveyed by Mr Bonds. The result was that some [illegible] lots or less according to the Mr Bonds survey [illegible] and more according to the Co. survey, and in place of accepting the position and conforming with the Co. survey a most determined effort seems to have been made & have been actively working, except the Mr Bonds survey and ignore the Co. system. They argued that it is better adapted to the location than the Co. system: so far as the position outside it may possibly be so, but as to that portion the Co. system only with, & when the whole town plot is taken into consideration, the Co. system is infinitely better adapted than the other. If the other conditions were made to conform to the plat and Co.

My advice was asked by several parties who were erecting houses on the portion of the Co. town

Town-plots, surveyed by D.P. Brooks, are in every case
Mineral claims & except the Lot Survey and if none
the Claimants, that if the Lot proprietors Lien claims
did not follow they would cause the land to be
sold (after it out, but would be allotted portions ac-
cording to the Lot Survey. Where in any case
where parties have erected buildings or other erections
they have applied for lots according to the Lot Survey
many of the buildings now erected can be altered
around to conform with the Lot Survey. Those that
cannot, however will not be molested till the
buildings require to be repaired or rebuilt. The
Hotel in course of erection is built on a street
and the proprietors knew they were entitled to
one. Front. It is on a side hill above the Post
on the Back Street, where at that point is only a
water, one storey, and it may be many years before
Depot will demand the street be opened back of the
present built.

The Portion enclosed within the Town Limits
shows what has been entered into Lots by the
Government. There are about 300 Lots and the
hundred lots between the Bridge & Lake Shore
Hotel and shores of a Mountain Lake of the
Rocky River.

After taking all the evidence into consideration
would recommend these Claims be reserved
only Lots for.

Where improvements exceed $200
for each $200 are to be extra Claimants of one
half the upset price. This will enable them to
purchase at a very cheap rate but enough to
secure to them their improvements. Where im-
provements do not exceed $100 no patent to be granted.

Sir,

I have the honor to report, under confidential cover for your personal, and to be forwarded by you to the Minister, my views on the known point of dispute. I have also this day reported officially and forwarded [illegible]

That six Claims are grouped together as being in the same position, and can not be the case of more than three.

The six Claimants are A. McDonald of Winnipeg Merchant and General Dealer in the North West. W. L. O'Donald formerly of Fort de Prairie, now of Edmonton, also Merchant and General dealer, W. H. Gardenier and W. J. Ambrose both officers in the Mounted Police, Hayter Reed, late Indian Agent at Battleford, now Assistant Indian Comr. for the North West Ter.s & W. J. Scott, late & now Registrar at Battleford. It will be seen the two & were Clerks, and still are, Officials of the Govt. and also belonging to the Dept. of the Interior.

In addition to the Official Report I have only to say that of all the cases of squatting that have come under my notice this takes the palm for check. Not one of them, in the strictest strictness of imagination, could be considered settlers. Two of the parties are Merchants. Four are paid officials of the Govt, and their only use is to strengthen the action of the Govt. In fact I am fairly with respect to these claims, and if not this it the Govt make a great many Claims, the effect would be very serious in the neighbourhood of Battleford.

Sir,

I have the honor to request you will direct the attention of the proper officer to the fact that the necessary plans have not been furnished the Edmonton district.

At present I received no plans of Edmonton, Fort Saskatchewan and St Albert. They were forwarded me; but only in requisition and will require these furnished to be taken back with me, to have available when making future reports.

It is possible there may be many plans in this District which have not been forwarded him and Mr Gauvreau should be requested to send to H.O. a list of all required so that if there are any they may be sent.

I would request a Township Diagram sheet be furnished each deputy showing all the Townships surveyed and also those under contract for this year in this respective Districts also what Townships and lines were run last year and probably will be this within which the Townships have not been subdivided.

Sir,

I have the honor to inform you that in consequence of certain settlers at Big Lake, Alberta, having set out in the ground to make an examination into alleged position of certain claims on the S.E. Branch of the Sturgeon River below Lot No. 1. I thought probable that I could make a classification of them and allot their claims in fractional portions of sections but found so much bush and scrub, the Sturgeon River also so different from what the plans show it, that I could do nothing and concluded the better plan would be to extend the River Lots down for some distance below Lot 41 - such claimants Dan Carey, Mark Ward, Thos Saunders & Saunders are amongst the best settlers in the neighborhood.

Enclosed with this find a Petition which you may see to have these claims in as little broken as possible.

Red Fox Lake is not shown on all sections 8 except the N.W. ¼ should be subdivided by extending the River Lots. May I suggest all various ones should be marked in Red ink at the same time.

Sir:

I have the honor to submit for the consideration and decision of the Land Board file and report in the case of a claim preferred by Frank A Smart to the S.E¼ 31-43-16.W 3rd

This is within the town plot at Battleford and a portion of this ¼ sec: embraces a portion of the claim preferred by A. McD. Dowdall & friends.

The greater portion of this claim is outside of the 16 square miles reserved for the town site and that is probably the chief point in its favour.

In Dec 1901 two mounted Policemen named McD. Dowdall & Hurley, staked it out, and erected a shanty or house thereon in July or March following. Hurley never left the force, McD. did, and remained on this claim from May to October 1902, made improvements to the value of $300 and sold the claim for $700.

Smart purchased in Dec 1902 and had a man living on it from that date to May 1904 & since latter date has resided personally upon it. From May 1903 to May 1904 lived within ½ of a mile of it. Improvements are possibly worth $1000.

Smart was a merchant in Battleford till within a short time ago. He now clerk in a mercantile establishment.

It appears that in 1876, one Johnston had a shanty on this claim and lived thereon for some time probably one year, when he left and one Dewar obtained his right to this claim as payment of a debt. Dewar however appears not to have resided it very highly as he deputed

or person's right thereto, and shall be entitled to Claim paid on acct. 12th Sec. 2d Act. Claim for District Claims.

That as there was one of the town plot reserves there was a probability it might be open for Homestead and Pre-emption entry, although at date he purchased he should have known, that Claims such as theirs would not likely be recognized. After taking all the facts into consideration would recommend on half of the block be made a free gift, balance of the block sold him at half the appraisement price.

Sir:

I have the honor to enclose for the consideration and decision of the Land Board fyle and report in the dispute between J.W. Sutton & J.M. Skelton, concerning the N½ 19-53-16 W of 5th

I cannot see that either of them have the slightest claim to the section in question. I more would have been preferred had not Mrs. McDonald & friends squatted upon and preferred a claim to over a large portion of the town site of Battleford.

Sutton in the spring of 83 erected a building and stable which is occupied by him as a boarding house and livery stable, and put in a garden of 2 acres & has occupied it ever since, and at date of his pre-emption, in 82, there is no doubt that all he claimed was 2 acres.

Skelton preferred his claim through purchasing from Smart who purchased from one Jno Paulson who had a building erected on what proved to be on survey this section. Paulson fyed claim to Smart who abandoned so to Skelton his right to this section. He had none, and from the affidavit in reference to actual claim, it would seem that he never claimed anything but his house and stable and sold them for $200 which the stables alone were worth.

After taking all the facts into consideration would recommend Sutton be permitted to purchase for

Sir,

I have the honor to enclose for the consideration and decision of the Land Board, file concerning a claim to NW¼ 20-43-15 W of 3rd pd preferred by the Rev. Thos. Clark.

This Claim is within the town plot at Battleford, was part of the Osler Claim & states that Osler promised him if he acquired title. Has been occupied since 1877 by the Church Missionary Society, and Clark prefers Claim on the understanding that if he obtains it, he will reimburse that Society for their improvements.

At the date this Claim was taken possession of there were reasonable grounds for supposing Osler's claim was one which could not be ignored, and if Osler's statements are true, it might be recognized to some considerable extent had not his actions subsequent to that date voided any title he might have.

After considering all the facts would recommend a purchase of four lots, and if he wishes, he be permitted to purchase in addition one lot at one half the upset price for every $200 worth of improvements, assuming them to be worth $1000.

Sir:

I have the honor to enclose herewith file and report on the case of the Claim of [illegible] to a piece of ground near Battleford for the consideration and decision of the Land Board.

It would appear that Baker and one Westfall under was Superintendent for Baker the Contractor for the construction and maintenance of the Telegraph Line, took up a parcel of land which is now enclosed within the Town-plot of Battleford and may approximately be described as bounded on the South by the Battle River, on the West by 1st Avenue West, on the North by 10th street and on the East, including any one fourth of a mile East of said Town-plot subdivisions. Possession appears to have been taken in Oct 1875; This came within the Reserve made by Order in Council Feb. 1876. But as an affidavit under Schedule A sworn to by Baker states he was in possession of land on the South side of the River when Inspector Wilson visited it for Govt purposes which must have been in the months of Jan or Feb 1876, it is now thought probable he can establish bona fide possession on this Claim file after preservation of Town-Plot. In the Report file one Thos: Scott states, about Sept 1st 1876 Baker was living at Telegraph Office, was then up with party, returned with him to Fort Pelly & did not return to Battleford till the following Spring.

Westfall left the District shortly after-wards and Baker states never saw anything of his claim since he [illegible]

Osler further states that in 1878 he purchased on the East bank of the River (he must mean the South bank) a portion of land from one Kennedy, and further says he claims to make out two miles in depth, on which was erected two log houses, and the following Winter Capt. Sprotte of the Arrowsmith River, wanted them for Fort purposes, and he vacated it on the understanding that his claim on the North side should be respected or shared. I think there must be a mistake of one year in the date: for must be date of purchase and following winter when occupation was made. Kennedy was a trader in the employ of Robertson Hayes, or else Hobart & Co.: I think the former, and I so said Osler when he was on his way to Ballenford: His Claim he could have considered of very little value, or that he had some thereto, as he appeared to make a gift of his right to Osler; but Osler insisted on giving something in payment, and Kennedy accepted a gold watch which he probably sold or gave away on the first opportunity. Should Osler's Claim through this may be ground as Kennedy had no claim to sell. If anyone had any right originally would be only enough ground for trading purposes, it would have been his employers and they never pretended any.

Osler, it would appear attempted to make improvements on this Claim and state he had to cross Barkers, but owing to the erection of the Arrowsmith Hotel Barkers he said was unable, through watering, being unable to stomp it and cattle breaking down his fences to succeed in proving up; but he seems to have pushed there a considerable portion of the time till 1879. from then on.

In the first affidavit he states, he is Wakefield South of this Claim as a stock farmer. Only two words of it is written for that. A portion on the first

when confirmed by the Govt which does not appear very likely, is to entitle for him the following manner, when not confirmed, very poor footage, so as a Claim from it would have been a failure.

On Sept 19th /70 Coler by ordinary Covenant sold unto Chas Rigg wife of Chas Rigg an undivided ½ undivided apparently in the whole Claim. consideration $500

By a letter from Wm H. B. Hibbard of Winnipeg dated Nov 5th /70 addressed to the Minister the latter says he has purchased an undivided interest in this Claim, does not state what amount paid nor what proportion of the whole he acquired.

On Sept 19th /70 Coler writes that he has sold a ½ interest to Chas Rigg, 2 one acre lots to A Russell & 3 one acre lots to Charles Mooney Esquire.

Note It appears to have purchased 160 acres from Coler & Wright - in his affidavit states that the books of the firm show advances on of after purchase, to Coler exceeding $600, which have not been repaid by Coler, but what was to have been the amount paid for the Claim doesn't appear.

Coler also in the Spring of 70 made Homestead and Pre-emption entries in the Little Saskatchewan District which he abandoned after abandoning as he states it would not obtain his Claim.

By letter from Hon. Scott to P. dated Aug 22nd /70, it would appear that Coler sold his right to Chas Rigg Claim. Coler has been in the employ of the Dept of the Interior since the Spring of 1871 about one half the time.

Coler cannot be very considerable interest

on

on the fact that he purchased the forty acre of the Indian before settling on the land. He only that was not sufficient his claim; but in fact his claim was not before the land was sold by the Indian he was many years and time thereon from date of settlement to the time of sale by the Indian.

Now in my draft he did not purchase in any manner, but that he did or by reason is very doubtful from the statement by letter in Council, and had he continued & made upon and improved the same like the present law & not forfeited his right by sale made as he was made, he would have been entitled to obtain 160 acres or more reasonable compensation therefor, should the Govt require the land; but he has forfeited all claim he may have had by selling and abandoning, and confers no right on the purchaser, excepting the Church Missionary Society claim, which have entitled a claim to some extent by their own action independent of those of Otto.

The claims of the Church Missionary Society & Platt have been repeatedly reported upon, and recommend that the claims of Otto and all other such purchasers from him be not allowed -

As you are aware the late Deputy Mr. Russell gave the credit of that Construction of the Act. On the completion of my report with reference to application for town lots in Battleford, I would recommend that action should be taken at once to sell at valuation [illegible] is unwise both in that place, as that the people there will no longer be able to say that doubts exist as to title to those lots. If an Agent were appointed in Battleford, he would be the proper officer to carry out such a sale, but as none will likely be appointed this next Spring, I would suggest that W. J. Scott, Registrar at Battleford, be authorized to carry out such sales. His ordinary remuneration to be such sum for necessary clerk hire, &c. as he could return monthly to H. O. He is under a salary from the Dept. his duties are very light, in fact scarcely anything to do: he might be asked to do this amongst without increase.

Should he not do this, then I would suggest the Agent at Battleford be entrusted to attend to this duty. By communication with Battleford being carried from Fort Pitt.

Sir,

I have the honor to submit for the consideration of the Land Board the report in the application of R Fuller for 365 acres of land in the vicinity of Battleford, being composed of the N½ of the N½ 16 & the N½ 17-43-16 W of 3rd

No further evidence was offered on at Battleford on behalf of said claim. One J. Macdonald called on one, stating he was Fuller's agent & acted as such in obtaining evidence in regard to such, was replied to in the affirmative and told that any evidence he wished to offer would be received, and would be particularly glad on two points, one as to Fullers residence thereon and the value of improvements at present. He replied Fuller never lived on it and there are no improvements beyond a few rotten fence rails. if such could be called improvements

Fuller claims to have expended $600.00 on a bridge over the Battle River. $1500.00 in buildings $150.00 in fences and gave the use of his cultivated ground to the Indians.

As to the bridge over the Battle River, that was put up solely for his own profit, & he expected it would prove a good investment from tolls, & was disappointed for his Contract Work. Indeed it did not so, as his misfortune. As to Buildings they were erected in connection with his contract for the construction and maintenance for four years of the Telegraph Line from Fort Pitty to Hay Lakes, a few miles from Edmonton and were to form

for Telegraph Office, shelter for his men, and stock in connection with said contract.

If he receives consideration for the Beacon, it is probable the Beacon Dues of the Light will reimburse him on application whatever amount is equal and proper.

He claims that he has complied with all the regulations in force, at date he took it up & claims as he never was a settler under Act requires, and if he is entitled to any consideration, every Contractor for the Govt who is carrying out his contract has to erect buildings and improve land could be entitled to the same.

After considering all the evidence offered and known, would recommend that this claim be not recognized to any extent.

Sir:

I have the honor to submit for the consideration & decision of the Land Board file and report concerning an application by Col: Robertson for a piece of land on which are situated the remains of his Fort.

It would appear that at one time he squatted & fenced over 20 acres and had a plan made showing its position, but owing to a change in system of Surveys since, its position regarding the section is very much changed. Though no Survey has been made of it, I think it is within the enclosure marked in Crosses on the S.W.¼ 19-43-16 W of 3rd.

It is probable that as long a public Cemetery may be established in Battleford; among the papers enclosed re Battleford affairs you will find one for land for the purpose of a public Cemetery. If this should be granted, steps will likely be at once taken to utilize it as such, and then probably the Colonel would prefer to remove such remains thereto.

However should he wish to secure the property where the graves now is, would recommend in forwarding a plan of Survey, the same be sold him for $20 00 if the area be 20 acres, that it be sold him at $10 00 per acre.

Sir:

I have the honor to enclose herewith for the consideration and decision of the Land Board, file & report in the case of the application by the firm of W. Hughes Jr. (successors to the firm of Stewart Bros) for 160 acres of land in the township of Battleford, a part of the Order Claim.

The facts of the case are: One Brown manager for Stewart Bros of Buck Lake visited Battleford about [From Brown's statement on outside file it would appear to be early in Feb. 76.] January 1st 1876. [illegible] Interpreter with him to Buck Lake, they [illegible] up with an attack of scurvy, & were unable [illegible] the following spring. Hughes states the books of the firm show advances in goods were made him to upwards of $600.00, which have not been repaid, that 160 acres of Cole's Claim was purchased, though what was the amount in all to be paid does not appear.

In the summer following Stewart Bros erected a house thereon, intending to occupy it as a trading post but this was not been done. It has since been occupied by tenants of the firm. They claim to have fenced 40 acres and broken a greater portion of same. The fencing is stated to have been burned up for fuel by the Mounted Police and others, and a stable erected by the firm, removed by Hayter Reed to put on his claim & held it: the said stable shortly afterwards was burned up by a prairie fire.

Their claim was one which if occupied by the firm could be recognized only to the extent of a reserved area for trading purposes, not

Sir,

I have the honor to enclose herewith copy of M.O. file No 3034, being composed of petitions &c in reference to survey & settlement at Battleford.

This is sent to your office to be filed for reference in connection with consideration of claims in neighbourhood of Battleford.

It may be well to avoid your attention to the fact, that the residents of the vicinity of Battleford are under the impression that 16 square miles has been prohibited from settlement, and they draw particular attention to the necessity of having the town site surveyed, so that they may obtain title and erect permanent buildings for residence and business.

Sir,

I have the honour to submit for consideration and decision of the Land Board, Copy of N.C. Sec 15, 207 and report thereon being an application by one Albert Brown for 80 acres in the neighbourhood of Rabbitford.

Mr. Burr states, under date of writing of this Claim, that it must be the one now claimed by J. A. Smart if not it is included in the portion claimed by Mr. Brown and his friends. At all events it appears that Brown's Claim has been forgotten by parties living near in Rabbitford and vicinity. Read in this respect makes no mention of this Claim.

The Claimant was in the employ of Abbott Bros. and purchased his first farm from them, a portion of this (Abbott's) sold upon Claim, also for himself from them a claim to 80 acres, which Abbott in his affidavit attached to file states, "rightly some of the land I had "originally taken up at the Forks of the Saskatchewan "& Battle Rivers, this portion was outside of the square "mile of land to which I now make claim." (Abbott would appear to have gone extensively into taking up Claims)

Brown made improvements on this Claim he alleges to the extent of $600, more or less, though Abbott in his affidavit states he did much less. (Both above mentioned affidavits are made)

This Claim has apparently been abandoned by Brown, so far as improvements or residence are concerned for the past 6 years and what was done is now of no value.

Sir,

I have the honor to inform you that Mr. Frank Oliver has written me a letter, protesting against the location of Mean's Line on the East limit of the Mc Leod Lot, as it interferes with some improvements he once made & which he states were located where they were, with the concurrence of Donald Mc Leod the then owner of Lot, and fixed at Mean's survey.

In this regard the question of [illegible] it has occurred to me the better way to do would be to get [illegible] me or Oliver such assurance or satisfaction, that he would withdraw his protest, as I am on behalf of all claimants particularly anxious that no delay should occur in the issue of patents.

Sir:

I have the honor to enclose for the consideration and decision of the Land Board, Copy of H.O. file No 1467. with report thereon, being a claim preferred by one Thomas D. Mulkins to lands in the vicinity of Battleford.

The file is bulky and for a summary of the evidence would refer you to the first 4 sheets of the same.

That Mulkins proposed to have a good claim there is no doubt; but that he ever intended taking up land for other than speculative purposes, or that he would ever have developed into an agriculturist, is more than doubtful. His career prior and since would probably convince anyone that he was not a desirable pioneer settler, nor that he has ever proved a useful & valuable citizen; but not in developing by his own exertions or expenditure of money the capabilities of Manitoba and the North West.

That until the sale of his claim to McDonald he was persistent in pressing his rights on every possible occasion as evidenced, as witness the Petition to the Marquis of Lorne on the occasion of his visit to Battleford, (cause petition is worthy of perusal), In May 1902 he sold his claim to A. McDonald of Winnipeg, the same McDonald who took possession of a piece of land & had it cut into lots between the Saskatchewan and Battle River. It ought be mentioned here that McDonald by his actions subsequent to the date of purchasing this claim has done all he possibly could to depreciate the

the advice of the property for town site purposes on the South side of the Battle River. He by his Solicitor, Delancey C. Fuller of Hamilton, prefers the to this Claim of Sculkins.

From the basis on which most of these claims on the Saskatchewan have been settled and taking into consideration all the facts of this case would recommend that Mr Donald or his assignee be granted one half a block in lots free, balance of block at one half the upset price -

Sir,

I have the honor to inform you that last night I met Mr Harrison Young of the H. Bay Coy's post at Lac-La-Biche, in company with Mr Clarke Mr Gratz D.L.S. The latter as you are probably aware received instructions to make a settlement survey during the coming winter at that point.

Mr young states that the settlement commencing at the mouth of Owl River extends South Easterly & around the South Easterly Bay of the Lake, then North Westerly to Hudson Bay Coy's post. then a space of about five miles without any settlers, then settlement commences & extends to the head of the R.C. Mission.

In the portion between Owl River and the H Bay post, nearly all the settlers are treaty Indians, who have not yet been allotted their Reserve. There are two bands of them & between the two they claim as Reserve all the shore of the Lake around the Eastward from Owl River till within 2 miles of the Hudson Bay Coy's post. That if their Reserve be not located there, those Indians who have made improvements during the past few years will lose the same, & further the said improvements to them were considerable representing their all.

I enclose a white line plan of all settlers, furnished by Mr Young, commencing at Owl River; those taking treaty are designated.

As you are aware trouble has in several cases occurred through the surveys being finished ahead of the location

location of the Reserves, Mr. Cotton has been stopped by Indians only a short distance from Lac-la-Biche & and it appeared to me probable, if you were aware of the state of affairs there you might deem it advisable to postpone the Survey till after the Main Dept has located the Reserve. Supposing the Surveyors were prevented, some mischief-making individual, and the country abounds with such, might tell the Indians that the Govt intended taking their land, and trouble or at least unpleasantness might ensue.

There is nothing to prevent the Indian Dept making the said Reserve survey during the coming Winter, the country is well wooded and it could be done more economically in Winter than Summer.

If it should be decided to shove ahead the Settlement Survey this Winter, I would suggest the co-operation of the Indian Dept and their Reserve be located at the same time.

Mr Young states the letters are in no hurry for their Surveys, but no doubt you will know from other sources whether they have asked for it or not.

The Indian Comr is expected up here the latter part of this month. You might wish to confer with him on this matter.

I have informed Mr Dr Cotton that I have written you, and if it be decided not to prosecute the survey during the coming Winter, he could be communicated with at once. It will be about the 1st Nov before he will be ready to go there.

Sir,

I have the honor to submit for the consideration and decision of the Land Board 62 folio note report thereon, which are forwarded herewith, a memorandum of the kind of remarks and recommendations, in pencil, formed on which the Claims is based, also recommendation in each case.

Enclosed with this I send a tracing of the town plot of Battleford North of the Battle River: also copy of Town Plot on South side of Battle River. On these plans the lots applied for are marked in yellow.

In addition to those so marked, according to my recommendation if approved the following persons would be entitled upon conditions mentioned to the number of lots opposite their names, and would suggest the right of choice in order of names be given next after those applied for.

A. McDonald	24 lots at ½ upset price.
J. A. McGregor	1 " " " " "
R. D. Contractor	1 " " " " "
W. M. Anderson	1 " " " " "
W. J. Scott	3 " " " " "
Frank A. Hart	10 " free & 10 lots at ½ upset price.
Mrs. Jno. Clark	5 " " 4 " " " "
C. E. Hughes & Co.	2 " " 2 " " " "
J. H. Holden.	2 lots at ½ upset price
H. H. Otter.	6 " " " "

A. McDonald (company of N. Anderson) 10 lots free. 10 at ½ upset price on South side of Battle River
Peter Ballantyne, 40 lots free on South Side of Battle River.
Total by lots free - 14 lots at ½ upset price -

A. Waddell Esq
Com. Dom. Lands.
Winnipeg
Man

The portion coloured brown would require to be reserved.

1st That about the Public Square to be reserved for Public purposes; as no objection to sale in Lots adjoining Lots in that Reserve for Storehouses & offices.

2nd That the small portion on which Buildings erected by the Govt. It may be remarked that the Buildings now occupied by W.J. Scott as a residence comes on a Street. The plan might be amended by drawing 4th avenue West between 3rd & 4th Streets.

3rd That portion around Govt House in the Town Govt. also the N 1/2 of 17 & N 1/2 18 and the small strips being part S 1/2 of 17 & S 1/2 of 20 be reserved for Industrial School purposes. The old Govt House being now used for such a school in which there are I should judge about 30 Indian boys also appear to be doing very well.

That portion coloured green between 16th & 18th Streets, and between 1st and 2nd Avenues West would recommend to be reserved for Market Square and Public Buildings such as Town Hall &c which may in future be required.

To the outside of the Town plot the S 1/2 of the S 1/2 10-45-16 (coloured green) is asked for Public Cemetery by the Rev. J.A. Cameron & J. Clarke and others, the two former representing the Presbyterian & Church of England respectively; Would recommend it be sold for that purpose at $1.00 per acre, so soon as the proper steps be taken by the Public Body for organization and incorporation, care being taken that the Public interests in such Cemetery be protected, and those petitioners be required to fence off, if this recommendation be approved.

A Strip 10 chains wide from off the Easterly line of the Town plot S 1/2 Sec 30 adjacent the Town plot is recommended to be reserved for Public Park & Recreation grounds, containing about 28 acres. A Petition was presented

Brunette setting that the 3 blocks and streets between 9th & 12 streets and between 1st and 2nd avenues will be granted for this purpose if not the portion recommended by Capt. Ludlow should be granted. The latter extends the best situation, being bounded on the South by the River. It is true a claim to this was presented by one J. L. McKendree, for which a letter from Secretary Bartlett, but it is of such a nature it could not be granted, and I presume there is no other application left for favorable treatment to him. You may refer to me or not the petitioner, and as we have this map of Minnesota that is why I desire that a portion of this claim be granted. A good illustration of the encroachments by these non-resident petitioners.

If these reservations are approved it will be necessary to have new plans prepared for Registration purposes showing the exact reserves. This can be done at M.C.

The business portion of the town plat is upon the flats on the South side of Battle River, but owing to the floods of last year and following spring, entirely over flats, all buildings on it have either been removed or abandoned. The probability is that all the business portion of the place will shortly be found on the North side of the Battle River. Those parties who erected buildings on the flats, are strongly urged by every element of decency to be liberally treated, and those who speculated in vacant buildings to the South of Battle River, and have recommended that a reasonable sum be granted to one half the appraisement.

As to the Claims of the various Churches.

1st R.C. Mission. This is presented in two claims. One on behalf of the Episcopal Corporation and is to the South of the Battle River. The other in the name of the "Pere Oblats" &c to claim the land North of Battle River.

2nd The Town of the Scotch Church to
front on the South side of Main Street.
3rd The Church of England on North side.
4th The Presbyterian Church on North side.

Whatever Crown may be applied for connected
with these Churches they should be required to be on
the same basis.

Whatever Claim are preferred through purchase
of gift to these Churches by others on any Reserve, as the
parties who made such sales or gifts had nothing to bestow
the only claim they had was their improvements
they are now entitled.

Would recommend that each of these Churches
be granted to the extent of one Block (20 lots) at one half
the upset price; whatever more they wished to purchase
may be permitted to do so at the rate of another Block
at the upset price. This will give the R.C. Church 20 lots
on the South side of Main and 20 lots on the North side,
at these rates. So however that Church has spent $4,000
continue to spend on improvements over what the
other Churches are likely to, the accusation of favouritism
towards that Church cannot be urged as against these rates.

It will probably be urged that it is necessary
for persons who have town plots which they wish to im-
prove of to make free gifts of a reasonable amount for the
erection of Churches thereon and that the Crown
do likewise. It may be that the Land Board or the
Minister will concur in that view if so that recom-
mendation can be made.

Price.

The policy adopted at Fort Qu'Appelle of permit-
ting the purchase of the place to open a reasonable
area at the upset price, ought will be adopted here and
should recommend all the applications entered be

withdrawn

105

[illegible] in that manner to the extent applied for, and further that the [illegible] have upset prices established here, viz $50 for corner lots $30 for others. Settlers like Citizens of Battleford as a class were entitled such treatment liberal.

Among the Applications I would particularly direct your attention to that of [illegible] and recommend he be issued 160 acres on the flat for his [illegible], say the SE¼ 20-43-16 W of 3rd Though a Policeman he has done and is doing as much to increase the production of the country as almost the best [illegible] His record as a soldier & policeman appears [illegible] I think such men should be recognized, hence recommendation that he [illegible]

It might be well to direct your attention that many applicants to purchase lots on Town Agent & Clerk in the Indian Office & I have recommended they be permitted to purchase at upset price.

Would you that these applications be cleared over in your office. as have not time to do so before mail will leave. There may be a double application for some lots. Town on South side of Battle River are not coloured on Plan.

Sir

I have the honor to enclose herewith 7 plans covering 10 cases, which are submitted and recommendations made in each case for the consideration and decision of the Land Board. They are in the vicinity of Rathgar.

All the facts on which my recommendations are based are fully set forth in the Reports and I have only to call your attention particularly to the recommendation concerning the Claims of Isaac & Pierre Pambrun in which I have recommended a sale on terms rather than a Pre-emption entry. My object in doing so was this; if sale be made the land will probably fall into the hands of both settlers and there will then be 2 quarters of one. The Pambrun Settlers will not make [illegible] through probably contiguous. If granted as a Pre-emption I fear it may be locked up many years before title is secured from the Crown.

Commissioners
Regd 5th Feb 1878.

Sir,

I have the honor to enclose herewith for the consideration & decision of the Land Board Copy of D.O. file No 1283 with affidavit made since report on same, being the claim purporting by Peter Ballendine to land within the Town plot Prince Albert.

For history of this Claim it appears
Peter Ballendine the Hyperical pro in the service of the Hudson Bay Co: until 1874. On his arrival here he has been doing some trading for the Hudson Bay Coy but it by no means on the Grand scale of Battle River. Ballendine being about to leave the service of that Co: decided to buy out their Station and start trading on his own account & put them stores for sale in the Spring of 1876. Some buildings were erected for that purpose & have been occupied since. Mr Ballendine in 1876 staked these & applied for Claim, intending it to be 12 chains wide & three miles in depth: the land on Carons's plan shows the boundaries of this Claim as claimed by him. (Mr will be seen not claim over three hundred otherwise his & the Indian reserve have subdivided each other).
In 1876 he also marked his Boundaries with plough furrows.
In 1878 Mayor Patterson Supt of Public Works commenced the erection of buildings for the Govt on this Claim. Ballendine forbade him as he forbade Ballendine doing anything.
Ballendine lived on this Claim about two weeks in 1876, commenced permanent residence in April 1876 & has resided thereon continually ever since. His occupation has been trader, sub-contractor for carrying N.W. Mails from 1876 to 1883, freighter &c. Has done very little farming

might have done more, had his Claim not been [illegible] possession of by the Govt. Does not seem to have been acting in Claim to any considerable extent, the only one being one on the NW¼ 26-43-16 which he took up in 1874 having made to do any farming on the Battleford town site Claim. He broke a/f several acres and sold his improvements to P.G. Laurie.

This Claim is I think the one that should be treated the most liberally of all in or near the vicinity of Battleford. Ballantine plead his poverty & that he intended to keep his residence here, and that 20 months previous to the location of Battleford as a Town-site and ever before the probability of such, previous location of the Fitzpatrick Claim. It is true he did not become a bona fide resident on the 160 after such location & selection, but he probably would have done so when he did, had no such selection been made. Further he has acted loyally in this matter and no complaints or petitions in the matter, having it left the Govt. that whatever respect he might have would be liberally treated. It may be argued that his intention in taking up a residence there was to secure, rather than improvement. Matter true, but few customs was to take up Claims & claim in spite by Order in Council that was one of the rules of the old "Council of Assiniboia" and Ballantine was more favourable, no doubt, under those rules than under the Dom. Land Act. After taking everything under this Claim into consideration I would recommend that Ballantine be granted free title to the patent of 2 blocks, 66 lots, one complete and surrounded by others in the Town-site on the South side of Battle River and thereby privilege of homesteading if he so desires the NW¼ 18-43-16 W of 3rd excepting thereout 5 acres around the R.C. burying ground located thereon.

Sir,

I have the honor to enclose herewith two folio, being cases of claims to portions of Hudson Bay Ry's reserves, that if you see fit you may by exercising your discretion to waive their claim thereto, which if done the Applications may be granted.

1st Peter Rhuden settled in 1892 on what on survey proved to be the NE¼ 8-46-19 W of 3rd when he wishes to Homestead and to Pre-empt the NW¼ adjacent; has seven acres broken on 8 and eleven acres on 7. Houses worth $120.00 and fencing to the value of $70.00. All these valuations are high as Rhuden is far from being or likely to be a first Class settler: has hunted Buffalo on the Plains too long. One ¼ section is more than he can ever profitably occupy.

2nd Charles Michel Dumais settled in 1892 on the W½ 26-42-16, buildings and improvements worth $100.00. 30 or 40 acres broken. Wants SW¼ as Homestead, NW¼ as pre-emption. He is likely to prove a good settler.

Edmonton -
Sept 6th 1904.

Sir,

I have the honor to enclose for the consideration and decision of the Land Board file and report concerning a dispute between P. Taylor and A. Baumerman about the E½ 20-46-19 W of 3rd

The history of the case is this, Peter Taylor was in the employ of the Indian Dept as farm instructor, which he left in the spring of 1903 and has been residing on his claim since.

His brothers and their families near Poplar Point Manitoba, having their sold out, he persuaded to take up land in this vicinity. Their settlement is known as the Brunnen & Taylor Settlement and is the best in the vicinity of Battleford. When David Taylor came along in 02, Peter got him to induce him to remain in the neighborhood the portion he had located and on which he had been breaking I decided to take up a claim last. Being unmarried, as David extended his improvements last, now on sec 20, Peter protested and David replied that when survey was made they could easily arrange their matters between them. In 1903, R.C. Laurie D.L.S. was engaged to run a line so that they could tell where they were, and then David Taylor concluded to claim the W½ 21. Peter the W½ 20 & hoping to buy the E½ for his son who will be 18 next January. Mr Peter further has offered to pay David for his improvements on W½ 20. It may be mentioned that Peter Taylor is not at all well off. All his brothers and Baumerman are. The latter is a nephew of the parties and came up to their neighborhood in May last, bringing a stock of goods with him and has started

A. Walsh Esq
Com: Dom: Lands.

started a store, purchased David Taylor's improvements on East ½ of 20 & commenced his residence thereon on July 30th 1884. Intending to obtain this ½ section. It is true that young Taylor, Peter's son is not old enough to settle upon land, but by the time this Township will be open for entry he will, and it was only natural and proper his father would like to have him settle near him. Bamurman & David Taylor's part in the matter strikes me as being rather contemptible under the circumstances. It was the outcome of a dispute between the brothers Peter & David. Bamurman & Taylor were both informed to make no further improvements on the land till this is settled. Public opinion would appear to be in favour of Peter.

I would recommend that Peter Taylor's son Maurice Edward be granted Homestead & Pre-emption entry to this ½ section on payment into the hands of the Agent the cash value of Bamurman's improvements for his benefit.

If this is approved would recommend both parties be notified without delay from your office.

Lamoraton.
Aug. 8th/84.

Sir,

I have the honor to enclose for the consideration and decision of the Land Board, letter and report thereon concerning claims to land in the N. Qu'Appelle settlement Dom. Lands.

A brief history of the settlement may be of service.

The first to make a fair settlement in that vicinity were Joseph & Francois Lamoureux, who have always carried on their operations in partnership and have been known as Lamoureux Bros. One of them met Mr. Sandford Fleming at Kamloops B.C. when he made the trip in 1871, commemorated by Principal Grant's book "Ocean to Ocean". Lamoureux was then on his way East looking for a location to settle. Mr. Fleming advised him to locate about 20 miles below Lamoraton, stating if ever the C.P.Ry was built by the Yellowhead pass it would probably cross the North Qu'Appelle near there, the banks being favourable for a crossing.

Lamoureux Bros. staked out a claim there in 1873 & commenced residence thereon in 1874 and one or both of them have been there ever since. They have a small steam saw & grist mill in operation at that point. In 1875 a post of the N.W.M. Police was established there and the place has grown into a very fair settlement. The people living there are not yet despair of seeing a Ry cross the River at that point. As however that is a contingency on which it is difficult to base any action, would not recommend that any claims there should be disallowed, though they might legally and even equitably be treated

pr. All these claims are prior to May 7th 1880, and strongly by transfers and non-purchase the Claims will may have forfeited their rights, as in other places, in dealing liberally with such claims, these points have to be overlooked, the same measure must be meted out here though the probability is that it may at some day be a point of considerable importance and weight in the public interest to ascertain the interest in the Crown lands which could be done without doing injustice to any one. Less would issue to a few individuals but to no considerable extent and they would be fully responsible for the same.

In these Claims at Fort Qu'Appelle will be found that of some members of the Mounted Police, but they have been occupied long since and mostly on purchase from others, who had partial upon and made improvements generally to a very limited extent. In such cases I have recommended the land to be sold at $1.00 or $2.00 per acre as the improvements, age of claim or other circumstances may warrant.

This Report I have marked "Report Y." and it is to be read in connection with all these Claims in that Settlement

The four files accompanying this are

1st Andrew Laing. Lot No 11.
2nd Stephen Lamoureux Lot No 30
3rd John B. Beaupré Lot No 20 & N½ of S½ & (part) 35-22 W of 4
4th James Reid. Lot No 26, fractional portion of part 26-54-23 W of 4th & the S½ of part 32 & 6-35-22 W of 4

Containing in all about 330 acres.

1st Andrew Laing settled on this lot in 1875 and has lived thereon ever since. is a good farmer, has 40 acres broken, buildings worth $400 fencing $200 Title $50.

160 acres, and pre-empt the balance at $1.25 per acre.

2nd Stephen Lawrence bought out the claim of one Jean D'Eutpre in June 1877 & has been station worker, is only a poor farmer, has 20 acres broken, buildings worth $175.00 fencing $50.00 Shall he be permitted to Homestead 160 acres & pre-empt the balance at $1.25 per acre.

3rd Jean Baptiste Beaupre settled on this in 1874 & has been station worker, is a poor farmer, has 40 or 50 acres broken, buildings worth $800, fencing, value $150.00 Wants portion of section 6 in rear for hay lands which with his lot will make in all about 240 acres.

Recommend that he be permitted to Homestead 160 acres & pre-empt the balance applied for at $1.25 per acre.

4th James Reid settled on this lot in 1876; he is a good Canadian farmer; has 40 acres broken, buildings valued at $1400.00 Wife 100.00 Fencing $300.00 He has a Homestead & Pre-emption entry to the E½ 36-54-23 which was given by mistake of Col: Coy, but as it is nearly wholly covered by pre-emption instructed him in Reid's presence to come & apply to H.O. for refund of entry fees. The lot, with the portions applied for in rear make in all about 330 acres.

Recommend he be granted what he calls Homestead 160 acres & pre-empt the balance at $1.25 per acre.

Sir:

I have the honor to submit for the consideration and decision of the Land Board, 4 files with report thereon pertaining claims to lots at Fort Saskatchewan. All these are claimed by parties who belong to the Mounted Police force.

1st P. J. Curran to Lot No 4.
2nd Robt Belcher to Lot No 9.
3rd O.B. Steele to Lot No 12.
4 Wm Newbold to Lot No 14.

1st P.J. Curran joined the Mounted Police in 73. left the force 79. rejoined last May 1884. In 78 commenced to improve a claim near Big Lake and built a house, which however was not a success, but on survey of Indian Reserve came within its boundaries. States he laid out on it $1150 but all the damages he has received from Indian Dept is $150 Took up this claim in 1881. After he was at Big Lake was taken into the Indian Reserve, had on it 10 mounties: have 19 acres broken. 10 of which however were done by one Lamoureux, intending it for another claim. Has buildings worth $75 and fencing $10 Area of Lot 329 acres. asks for liberal treatment on account of his loss at Big Lake which was pretty much cut down by the delay in payment of damages. His wife who teaches school at Fort Saskatchewan called on me in reference to this. Her impression formed was that she really thought they had been hardly treated by the Govt so far as Curran is concerned I do probable he is much better off in the force than out of it.

Recommend 160 acres be sold him at $1 per acre + balance of Lot at $2 per acre.

Sir,

I have the honor to endorse for consideration and decision of the Land Board. 2 files and report thereon being claims to lots at Fort Saskatchewan.

1st Adolphe Faillon lot No. 6
2nd Onesime Bergeron lot No. 10.

1st. Has first commenced his residence within Spring of 01, & has resided constantly since. Is a native of the Province of Quebec: has been mining & in Montana N.T. for 22 years. He is not a first class farmer: has 13 acres broken, buildings worth $150.00 fencing $60.00 area of lot 366 acres.

Recommend he be granted Homestead Entry for 160 acres balance of lot Pre-emption at $2.00 per acre, but that patent do not issue till he has 40 acres under cultivation & buildings and other improvements to the value of at least $600.00

2nd Onesime Bergeron, commenced residence about Feb. 1879. & he has been there ever since; Also a native of Quebec and has been in the N.T. about 20 years before coming here: does not appear a first Class farmer: has 25 acres broken. buildings worth $60.00 fencing $100.00 area of lot 318 acres.

Recommend he be granted Homestead entry to 160 acres: Pre-empt the balance at $2.00 per acre. but patent do not issue till 40 acres are put under cultivation or other improvements made to the value of $600.00

Sir:

I have the honor to submit herewith for the consideration and decision of the Land Board, this report concerning Town Lot No 20 Fort Saskatchewan.

No Application has been filed for this lot by A. McDonald, but presume he has no further evidence to offer than that set forth by Lamoureux Bros: (Stopped Transit), an extract from whose evidence so far as McDonald's claim is concerned is attached to this file.

McDonald has subdivided a portion of this lot into Town Lots and is reported to have sold some.

I wish to obtain a statement from Lamoureux as to what he only sold the improvements but from the price paid it is probable McDonald thought he would obtain title through them.

After considering all the facts would recommend this lot be sold McDonald at $20.00 per acre cash.

I have the honor to enclose for the consideration & decision of the Land Board, the Report in the Application of P. Heminick to acquire Lot No. 28 Fort Saskatchewan, and the fractional portion of Sec: 36-54-23 W of 4th mer. not part of said lot.

With reference to the fractional portion of said Sec: 36. I considered Reid's claim much better than Heminick & have recommended accordingly. Reids Lot No. 36 contains 195 acres. Heminicks No. 28 contains 272 acres.

This lot was taken up in 1874 by one John Bourke who resided thereon till the Spring of 1881. Sold to Heminick in Feb. 82 for $2,000. Since Bourke left it has been occupied by a tenant of Heminick. The improvements consist of about 25 acres breaking, buildings worth $1500 fencing $300.

Recommend on payment of $20. as usual fees, and $112.50 cash, balance of lot above 160 acres at $1. per acre, patent for said lot issue to Heminick.

Sir:

I have the honor to submit herewith for the consideration and decision of the Land Board, file and report in the application of Philip Hemmick for Lot No 14 Fort Saskatchewan.

In 1877, one James Halfpenny purchased the improvements on this lot from Inspr Curran & Barlow. Owen's family had worked thereon, had 10 or 12 acres broken & 2 or 3 cropped. Halfpenny is reported to have paid $30 for the claim, and worked thereon possibly one half the time till Nov. 1881 when he sold to Hemmick. Had 15 or 10 acres broken and fenced, & house & stable worth $100. Hemmick has since taken off one crop. The place is now in no better position than if it had never been occupied. Hemmick has cultivated a portion of it only, and sold some of them, agreeing to make good title when he obtains one. The lot contains 149 acres. If the cultivation and improvements had been kept up would recommend it be sold at $4.00 per acre, the previous & prior improvements not being sufficient to justify his request for a fee patent. It might be sold him at ordinary homestead application at $2.50 per acre, but as similar cases at Buck Lake were sold at $4.00 per acre, presume he will have to be treated the same & recommend accordingly -

Sir.

I have the honor to enclose for the consideration and decision of the Land Board File & report re the case of the Application of Philip Steinmetz to Lot N° 10 Fort Saskatchewan.

This was originally a portion of the Lamoureux Bros' Claim at Fort Saskatchewan. In Winter of 97-98 Lamoureux Bros sold their improvements on what is now this lot for the sum of $600 to Steinmetz. Improvements were 10 acres of breaking and fencing. It will be seen that the improvements were not worth that amount, so Steinmetz no doubt thought he was obtaining more than the mere improvements.

Steinmetz commenced his residence in Sept 97 for the purpose of obtaining this lot. The buildings which cost him $500 fencing $300 and 30 acres under cultivation. The lot contains 93 acres.

I recommend he be allowed Homestead Entry thereto, and patent issue on completion of 3 years residence thereon, at 50 cts per acre as he may choose.

Sir:

I have the honor to submit for the consideration and decision of the Land Board the appeal in the matter of dispute between Philip Heminck and Octave Beaume concerning Lot 2nd of Fort Saskatchewan.

The facts are as follows: Heminck in the Spr. 81, learning that no one claimed the lot in question determined to do so, and at once erected a house on it which cost him $150.00 which however has been burned down by Beaume fire, and has sold a ½ interest in the lot to Walter Beattie & Geo. A. Simpson for $1,000.00. He claims by reason of his improvements the right to purchase.

Beaume of 102 Beaume, purchased from one Daniel Williams, his claim to this lot for $250.00 which however has never been paid. Heminck claims that Williams had him he has no claim, he certainly has no improvements thereon, and the fact of never having paid would confirm that. At the time Beaume had claim to it Heminck had the body of said house erected. Beaume appears really to have done nothing till Feb. 1883 and even then has made thereon in all, not quite, ten cords. I at present working for Mounted Police, by time he is a patriot. The buildings worth $40.00 fencing $10.00 2 acres in crop. None cultivated broken.

This lot is really all wood and one that would not at present be chosen for agriculture: its value lay in its position from the prospect of Fort Saskatchewan in time on as future being a place of some importance.

Sir,

I have the honor to enclose for consideration and return of the Land Board file and report in a dispute between four different parties.

1st A.P. Forget who claims right to Homestead the S½ & Pre-empt the N½ 36-43-17. W

2nd L.C. Baker who claims the right to Homestead the S½ 31-43-16 W 3rd and pre-empt S½ 36-43-17 W 4th

3rd M.J. Porter who claims right to Homestead S½ of N½ 31-43-16 fract: and Pre-empt N½ of N½ 31-43-16 fract:

4th Ira Clink who claims right to Homestead S½ 36-43-17 W 4th and Pre-empt N½ 36-43-17-

5th D.L. Clink who claims right to Homestead N½ 36-43-17 W 4th and purchase N½ 31-43-16, S½ 6-44-16 containing about 35 acres & S½ 1-44-17 containing about 120 acres.

At the time the survey was made there were three quarter sections in dispute viz: the N½ 36-43-17. Between D.L. Clink & A.P. Forget. The S½ 36 between Ira Clink & Baker & the N½ 31 between D.L. Clink and Porter.

1st as to the N½ 36. D.L. Clink, now Dominion Farm Instructor went to Battleford in 1890 & has been engaged by the Govt as Farm Instructor to the Sarcee Stoney & Blackfoot Indians. He sent one Squirrin also an employee of the Govt in Dept Govt at Battleford, now near Fort Pitt. Before this an arrangement, Squirrin was to make upon this ½ sec: Clink was to make the improvements and after title was obtained to deed up. Squirrin never fulfilled his part of the Contract. Clink broke four or five acres which

have been cropped each year by Clark. It has generally been known as the Swain field and by letter on file addressed by him to Lloyd dated March 14th 1904. It appears that he also claims it, but it is stated that Swain keeping jumped his claim in favour of Clark.

Lloyd claims this section as Pre-emption and commutation under the S½ sec: after same, which he holds as Homestead.

Cannot see that either of these have much claim to it, & recommend that it be sold by tender to the highest bidder, dividing it into 4 portions L.S. 11.12.13 & 14. From its position many in Battleford might like to purchase so more one probably a good price would be obtained. Terms ¼ cash, balance in 12 + 3 years. If this is approved I would be obliged to notify both Clark and Lloyd without delay. The cash value of improvements to be paid in addition for benefit of party owning the same.

2nd lot to be the S½ 36-43-17 in dispute between Jas Clark and L.C. Baker. Jas Clark is one who has been for several years living in Dakota. He states he have a Homestead there. Has never been in Battleford except once on a visit to his brother D.L. Clark, the latter states he will soon be coming up intending to settle. The improvements have been made by D.L. Clark and consist of 15 or 16 acres of breaking, house & granary which he states are worth $100 each.

Baker claims this place as a Pre-emption in connection with his claim to the S½ 31-43-16 W of 3rd which he took up in May 1902. He lived on it 10 days in 1902, a few days in 1903 and has been a station since last May. Has a shanty built on it worth he states $75.00 3 acres breaking, done in 1902 + fencing worth $20.00 The N½ 31 is a fine piece of land containing probably 110 acres. Baker is one of a large class who in forming a home very soon + adapt in the North West, finding

in.

is a character requires I any the smallest amount of cultivation possible. the only thing being done on an extensive scale being the amount of land claimed.

I would recommend as far as the N½ 31 is concerned that Baker be permitted to select from out of the 4 sec: 10 acres which may be selected in at $5 per acre cash, and the balance of the ½ sec: sold in Legal Subdivisions as per Legal Subdivisions. 11 + 14 will be broken, one letter of the others may after Baker has exercised his choice - as to the S½ 36. Clerk never having been in the country his claim cannot be considered by any; if he should be here when the land is open for entry, he can enter for any that may be available. I would recommend that the ½ sec: be sold also by tender in Legal Subdivisions and on same conditions as the N½ 36, & approved both parties should be at once notified.

As to the ½ sec: in dispute between D. L. Clark and J. Parker, the N½ 31. It contains about 120 acres, the remainder is in the Souris-side. Came to this vicinity in July 1882, his house and improvements are on the portion surveyed in the Souris-side, but is outside of the 4 mile Timber reserve, which is the only demand in his favour. In this case I recommend he be granted 5 lots as a free gift and be permitted to acquire remainder of the Bank at one half the upset price. As a settler he ranks the same as Baker.

I wish to return to Dept D. L. Clark's Homestead & Pre-emption entry in Dakota claimed the S½ 36. N½ 36 N½ 31. N½ 6 & S½ 1 marked on sketch accompanying A.G.C.D.E.F.

As will be seen by his Declaration he has done considerable breaking, but as an Employee of the Dept he should have left himself clear of these disputes. He was told so by me. The great complaint against Clark was that when any one came and asked him about the land

h

reported adversely thereon. I am again. Mr Hinkley he would not be able to take up such claim he says others would ask for them. Viz N½ 36 + N½ 31.

Clerk has been a long time in the country and with knowledge would not claim as a squatter more than 160 but reserves himself that the Act gives him right to buy two acres & the town plot that by having improvements upon it he would be able to get it at whatever price should be put upon it when for sale. He also broke 15 acres on a ¼ section of Hyde Park which he sold. He had a Homestead in Manitoba. There is this to be said in his favour however, that he was probably done more improvements in cultivation than any half dozen others combined in the immediate vicinity of Battle-ford.

After considering all the evidence would recommend that he be permitted to purchase the N½ of the NE¼ 36 + S½ of the SE¼ 1. 160 acres at $2.00 per acre, the balance of Claim to be sold in legal subdivisions by public tender as recommended in N½ 36. This will preserve to Clerk the greater portion of his improvements and give him the land at the minimum price; if approved by the Clerk and Keeper should be at once notified

Sir:

I have the honor to submit herewith for the consideration of the Department of the Interior my report of my visit to Pigeon Lake for the purpose of investigating the application by Peter Pigeon

1st To report to Department the pre-emption portion of S½ 22 and pre-emption of S½ of NW¼ of same section 22. Township 47 Range 1 West of 5th Meridian Alberta. Also the pre-emption portion of the SW¼ 23 Township West of 5th Meridian Alberta and all the pre-emption of the NW¼ of same section Township West of the said Meridian and South of the Battle River, all in Township 50 Range 22 West of 4th Meridian. This portion contains in all probably about 180 acres, but until the Dominion survey is fixed on by the Township Surveyor it will be impossible to determine it accurately. The Homestead has been reported to have been abandoned as soon if possible.

Pigeon took us up to his cultivated land on the about 2 miles south of Battle River and has about 2 acres crop, but a house worth $100 stable worth $50 Fencing to the value of $60 all formed by a Municipal Road Survey. Owing to the various encumbrances he had to take to his calling of cook and Restaurant Keeper. Now known as Edmonton that Pigeon is a hard-working industrious man, but a bad manager & owing to his confidence in tramps on his ranch cannot ask probably make more, but would recommend this request be granted.

Sir,

I have the honor to enclose for the consideration and decision of the Land Board, 2 petitions, requesting Town Lots at Port Sarnia &c.

1st Alexander Taylor for Lot 11 ; that petitioner
2nd Public Institution " 185 "

1st Taylor took possession in 1830, purchased the Claim of a former occupier Charles Hurdle, who had been in possession about 9 months, which was known by the name of Maria Jane's place. Taylor remained upon it from April 1831 to May 1832, and then he states, upon his information and at the solicitation of the Chief of the Township, took charge of the Executive Office which he has been ever since: has 26 acres broken up, cropped, buildings worth £100 currency &c. The lot contains 316 acres, is wood land, has no advantage by situation &c for purchase under 10 months purchase at 6/8 per acre, recommend the lot never be sold but at Public Sale. He considers £20 currency offer for the lot as low.

2nd The Claim of Public Institution to Lot No 5 comes far from a strong one. It is doubtful if any improvements were ever put in on it, nor do the improvements warrant it in any event. The lot contains 200 acres. It is most probable if Johnston from whom Robertson had had entry made, might have acquired title by purchase under 10 months purchase at £2 &c.

In further reference to my report dated Aug. 26th concerning Lots 6, 9, 10, 12, 14, 16, 18 & 20 Edmonton. I have the honor to direct your attention to the fact that several parties who own portions of Lots 10 Edmonton, have requested that payment for the lot issue to Colin Fraser, as trustee for the various owners of that lot. If that can be done I would recommend it in the strongest terms.

Another point has been filed by Mr Frank Hine concerning the position of the line between Lots 14 & 16 as established by D.L.S. Dean. The amount at issue is not very considerable and think if a short time the parties interested arrange it between them. Should they fail to do so within say two months I would then make a recommendation in the matter, but in the mean time would prefer it should be amicably settled between the interested parties. and think probably it will.

In Report A dated at Battleford on the 15th ult I went fully into cases similar to the present & have nothing further to add, except that these two if granted to the Colonization Company in lieu of others. The Settlers thereon ought at once to pre-emption right, one of whom are at $5 per acre, as long as settlers have prior to date of being handed over to this Company. The recommendations in these cases are made in conformity with said Report A.

1st. It claims that the NW¼ of 14 is badly broken by the Battle River, under the Homestead & his house thereon really stands. It is probable what he says about this portion is true. He ought to be allowed to or to be suggested his Pre-emption and purchase at the $1 per acre, and be granted patent on payment of pre-emption purchase & entry fees; this procedure has been very done, except not on the Homestead, having erected his house prior to survey being made & recommended.

2nd Except pre-emption cases to be in conformity with Dominion Land Act & for the time, permanent entry be granted for entry for Homestead but his application for patent be not received until he has had under crop 40 acres or made improvements thereon to the value of $100. The improvements at present are valued by him at $200 which is probably too high.

8th Comr has in 1854. It is not to be construed to cover
Quartz veins. Cannot see that this claim to pre-emption
can be consistently granted. Recommend that the prayer
of Memorialist be refused as to 80 A. of land at
Carpenter's, that the grant be issued for 1.000 feet
only instead of 1/4 section as applied for. Upon
payment of value to be fixed & receipt by him of the Register
9th Evidence from us M.R. to warrant the claim to pre-

upon satisfactory evidence of a settlement & improvement.
Recommend this request be granted upon payment of the usual
fees & charges &c. A grant subject to Mineral reservation
will issue & the usual Affidavit be forwarded
to be executed upon receipt of the Patent.

10th Has not been on the ground so cannot say whether
his request be granted for pre-emption & the charges &c.

11th Delaney states he claims to have four partners in the
quartz portion but it is evident if any existence ever
does claim, but on oath against the claim will probably
be forfeited under the act. No improvement of any
nature, even a dwelling or boundary fence, is
Mullen's statement (by the way Delaney & Mullen appear
on his diary as partners) but on the ground
this statement is anything more than
mythical, his occupation being merely a blind to obtain.

After examining all the evidence, Delaney

equity & recommend accordingly -

I have the honor to inform you that I reached here last night from Edmonton, found nothing special awaiting me.

I telegraphed you this morning to know if there was anything specially you wished me to do, day, within two weeks. If not I propose going down to Winnipeg so I think I can be home extra hurried up the Edmonton & Battleford claims. They are now all pretty fully reported upon except those of H. Albert, in a few days these can be done. There are several claims settle vicinity of Edmonton, also a few at Battleford which as yet have not reported on but they are nearly all appeal or decisions on other matters, and cannot finally be disposed of till action is taken on others.

The Edition of the "Tribune" last night contains the following:

"Public Notice is hereby given that the Provincial Government of British Columbia have not recognized the claim advanced by the Dominion Government of Canada to certain portions of the lands in the belt of the Canadian Pacific Railway through British Columbia. The provisions of the Railway Lands Act enacted in the Railway Act of 1884 now in force through the Province of British Columbia will be confined to Railway Belt, as well as

Calgary Sept. 16th 1882,

Sir

I have the honor to enclose herewith a petition received just as I was leaving Edmonton, asking that patent for the front portion of River Lot No. 10 be issued to John Brown as trustee for various owners. A tracing accompanies it, showing the portions owned by the several parties whose names are attached thereto.

A few days previously the same parties sent in a petition asking patent thereof issue to Colin Fraser, which I recommended and forwarded to you, to which file please attach this.

For some reason which I cannot understand they now wish it to issue to John Brown.

I think the best way would be for patent to issue for the whole lot to Brown. He can then deed the portion to these claimants & balance to the Rev. Jean Pilchard. For some reason or another these parties object to patent issuing to Pilchard, stating they fear they will have trouble in obtaining deeds from him.

If there is no patent possibly can issue to a trustee, they then will advertise for parties to file their claims, carry out transfer, thus relieving this Department of trouble in the matter. If such can be done, would recommend it in this case.

I have the honor to apply through you to the Minister to purchase the easterly 10 chains of that portion of the North West 1/4 sec. 14 Tp. 24 Rge 1 W. of 5th M., lying North of the Bow River. This will not interfere with the buildings or improvements on the said 1/4 sec. claimed by one Frazer who is an employe of the N.W.C. Co and has been here for years. It will I think be found on investigation that Frazer has no right to the 1/4 section in question, either legally or equitably, and if to receive at the upset price say, 10 dollars, he will be liberally dealt with, — should it not be so I will waive all claim to same. As to the price I would suggest that the Minister fix the same, or leave it to you to do so. The object of this application is to obtain a place to erect a residence thereon. I would further suggest a reserve 3 chains in width along the bank of the river as a boulevard. The portion applied for has no value for other purposes than a place of residence. It will prove I think, valuable for garden purposes, the near by a line of open ground. By irrigation which could be easily

because if there were a continued effort, both would grow on about 2/3 of it, thereby enhancing the beauty of the location, and if I obtained it I would purpose doing something of the sort.

I, in June last, wrote Mr. Land Commissioner of the C.P.R. asking the price of a certain portion of Sect. 13, which, had it been one I could have accepted, I intended applying to Government for permission to make the purchase. The reply I received was that it was not yet placed on the market and when it was to be, he feared the price would be much higher than I would feel justified in paying.

The area of the piece applied for, after reserving the 3 chains suggested would be about 13 acres.

I have the honor to enclose for consideration and decision of the Land Board file and report concerning the disputed claims to river lot No 17, Edmonton.

First: The H.B.Co. who claim the whole or a portion of it, having asked for a mile square.

Second: Donald Ross, who claims the Railway part of said lot.

Third: Alex. McDonald, of Winnipeg, Merchant, Alex. McLeod, of Edmonton, Farmer, and Murdock McLeod, of Edmonton Farmer, each holding a 1/3 undivided interest, and claiming the whole lot.

As to the H.B.Co.- About 1875 they erected a mill on the creek which empties into the Saskatchewan river on this lot. The mill was removed some years ago. Probably neither it nor the dam stood on this lot but on lot No 19, to the East. The miller's house is standing on lot No 19; So far as the H.B. claim to this lot or even to lot No 17 is concerned it may be ignored. If any claim equitably existed ever, it must be through the construction and operation of this mill; that is a business enterprise and if said enterprise

purpose of carrying on the milling business were sold them at the minimum rate of $1.25 per acre they must be dealt with liberally. The mill was not a success and has been removed. No benefit was or ever has accrued to the public by it. That company occupies a different position in regard to mills to that of any other corporation or individual in the country. Their own interests required the construction of their mills. They were not erected for the benefit of the settlers. If the settlers profited by them, the company did equally and there is no reason why a bonus in the shape of a grant of land. Lands should be granted them on account of same.

So that the question of claimants seems narrowed down to that of Ross, Rose, and Dennis, vs. McDonald, McLeod, and McLeod.

So to the claim of the latter that is pleaded strength the residence and improvements performed by one Charles Gauthier, who obtained the place in 1877 from one LaRoche, gave him $60 for it, lived there continuously till the Spring of 1882, and had buildings to the value of about $300 cy, fencing $40 cy, breaking probably $75 cy, with 15 or 16 acres broken. Gauthier was a very poor farmer, and was working with a greater portion of his time. Since he sold out, the place

446

the place has been cropped but no residence of any amount has been done, and the buildings now are probably of very little value.

As to the boundaries of Gauthier's claim he appears to have had a very vague idea of where his claim was, and states that straight the coal claim of Ross was above his lot. Beyond merely claiming down Lotte river he seems not to have exercised any act of ownership except around his dwelling where his boarding was which was on the rear of this lot.

He claims that Daniel Dagnault who settled on the front of this lot and from whom Ross purchased his claim settled there by his permission, stating all he wanted was to build close Lotte river where he could fish. Dagnault denies this stating Gauthier never made any claim to this portion. In October, 1880, Ross purchased Dagnault's claim and at once commenced coal mining thereon, and has occupied the lot up to date, having spent thereon upwards of $2000.00

Gauthier and his assigns appear never to have disputed Ross's claim to the portion below the cut bank, which is about 45 chains North of the Southerly limit of this lot. Though Ross's claim to the portion North of the said cut bank seems to be recognized by both

Dagnault, he being at one time a treaty Indian, he plats he does not take treaty money at present but he has not refunded the treaty money already received, and taken the other steps necessary to reinstate him into full privileges of citizenship. Still it is I think clear that Gauthier had no claim to the portion claimed by Ross.

After due consideration of all the facts, I have recommend patent issue to McDonald, McLeod & McLeod for the Southerly 46 chains of this lot, containing 103½ acres on payment into the hands of the Dominion Agent of $10.00, the usual Homestead Entry fee.

It may be observed that there is a Quit Claim deed on file from Gauthier to Thurston McLeod, but the one from Thurston McLeod to Alex. McLeod has never been fully executed, and calls for the whole of the lot, which is undoubtedly a mistake as Alex McDonald in his affidavit written by me and sworn before the Dominion Agent plats he only obtained a 1/3 interest (~~undivided~~) in the lot in question. The deed by Thurston and Alex. McLeod conveying a 1/3 undivided interest to Alex. McDonald also on file appears regular enough.

Plat the remainder of the lot, 100½ acres be sold to Ross and Howe (Dennis, the other member of the firm mentioned having no longer

or

446

any interest therein) at whatever terms the minister may direct? I may state that as agricultural land it is not of ordinary value, being stubby and broken, and if used as such I would suggest £2 per acre. As coal mining lands they will not prove valuable unless a seam is discovered below the river bed, in which case it will prove expensive to keep out the water, the seam above the river being limited in thickness, area small, and poor as to quality. There is hardly a doubt in the neighborhood which would not prove much more valuable as mining land. Though these claimants have been mining, here without authority, their enterprise has been of great value to the Edmonton district, demonstrating that an inexhaustible amount of good fuel could be obtained readily and cheaply at their doors, and would recommend that such enterprise should receive every encouragement possible. If used as coal lands, presume they could not be held at the upset price £10 per acre, but submit for your consideration whether this portion might not under the circumstances be used as agricultural lands.

Sir

I have the honor to enclose for consideration and decision of the Land Board file and report concerning river lot No 19, Edmonton. This lot was included in the application of the H.B.Co. reported upon in the case of river lot No 17 adjoining, and on the same grounds I recommend it be granted.

There are two other claimants for the lot in question, one William Bird, the other William Stabb.

The former has not filed any claim, nor did he appear before me. I sent word for him to do so, but he did not appear. It was reported to me that he was not in that neighborhood being engaged freighting between Calgary and Edmonton; but he certainly must have known that his evidence was wanted and he could without much trouble have given it. From inquiries made I would appear that Bird was miller for the H.B.Co. mill, and lived in the dwelling house on this lot near the river, erected by the said Co. When the corporation abandoned that site and removed the mill, Bird remained in

The Commissioner possession of the house whether by

their consent is not does not appear. The house being log could not be advantageously removed. Bird has a few acres, probably 6, near his house cultivated farmed. Also a small piece, about 2 acres, supposed to be on lot No 23, but from McKenzie's statement it must appear only about 1½ acres are on that lot; the remainder being on lot No 21.

William Stiff, from statements of Bird, Arnold, Ross, and Magrath, attached to file, appears to have settled on this lot, supposing it to be vacant, and with Bird's consent. His house is on the brow of the hill. He settled there in April 1812, and has resided thereon upwards of six months in each year since. He has a house which he states is worth £250 and other buildings and improvements worth £125 &c, 1 acre broken, and 5 acres cleared of scrub ready for breaking. His occupation really has been teaching school and book-keeping &c. Neither Bird nor Stiff are likely to prove ever ordinary farmers, and to whatever portion entry be granted I would recommend that patent do not issue till, in addition to the requisite residence, improvements to the value of £800 be placed by each on his portion.

Arnold recommends that Stiff be permitted under the above conditions

447

to make Homestead Entry of the Southerly 80 chains of the said tract containing 100 acres. That Bird's claim to said 20 be next allowed, and that he be permitted to make Homestead Entry for the remainder of the said tract, containing 70 acres.

I have the honor to enclose for your perusal and consideration and also that of W.E. Smith, and then later forwarded letter Minister with any further suggestion you may wish to offer, on the desirability or otherwise of subdividing into villa lots portions of sections 14 and 22 Knob of Bow River.

It may be assumed that these sections can be treated with as the Minister may see fit. All the claimants thereto will I think on investigation prove to have settled thereon subsequent to this township being reserved from settlement. Before going however any further it might be well to take the evidence of the claimants. No doubt however they will be liberally treated if they receive, as a free gift one lot, or have one or two sold them at the upset price. The accompanying plan shows how I would suggest they should be subdivided, generally 5 acres in area. I would also particularly direct your attention to the reserve for public boulevard, 3 chains in width, along the river. This boulevard would no doubt in time become a favorite

Dear

I have the time to write you upon several occasions and also stated that Annie, our dear little grandchild was very sick, so the doctor ordered us to stay, so the doctor ordered us to stay with her. We received letters from Portsmouth of dates 14 and 23 last of Theo dear.

We were so pleased that they could be treated with so little money as it. All the doctors would attend to without charging us anything. Hoping these few lines will find you all well. Please write us how you are and how the children are getting along. We would be glad to hear from you all. Annie is very sick, and the doctor says that she will not live. Our grandchild

resort both for riding and driving and boating. It is about one mile in length and by some excavation where the cut bank is, it might be extended without any considerable expense. Whoever should be instructed to make the survey should possess good judgment and taste and lay it out to the best advantage, survey the streets if necessary to get the best and cheapest grades on the hills, and have the lots laid out giving the best views of the river, Mountains, and other scenery.

Do you not see all the lands subdivided in this neighborhood are divided into such small lots that no one would care to erect a good house thereon as a private residence. Though he might purchase considerable area, it is probable that some one would purchase a small lot alongside of him and erect a shanty thereon. By giving parties a chance to acquire considerable area the probabilities would be that it would in the near future be acquired by those who would build respectable residences thereon, and if it were possible to compell purchasers not to erect more than one dwelling and one stable to each lot for say, a term of ten years, I think the scheme of having this portion developed wholly by private residences of the better class would be carried out. Whether such could be done or not I am not prepared to say, but hope it could.

There is a probability in the near future that a bridge will be

449

bridge over the Bow River at or near where the line between sections 14 and 15 crosses it. Should that be done these lots would become very desirable for private residences.

If it be decided that this or a similar scheme should be carried out it would be well to instruct the Agent to appraise the public after that, and have the survey made as quickly as possible. Early next Spring no doubt many would like to go on a portion to prepare it, build or arrange for building. Many who financially are unable to build could be prepared to purchase, enclose their lots, plant trees & shrubs thereby enhancing their value. If a member were added it is possible steps might by combination be taken to irrigate &c.

Calgary is such a lovely spot I think it would be a great mistake not to do everything in reason to improve its beauty, and what is suggested in this would be making an effort in the line indicated.

All of which is most respectfully submitted.

Sir

I have the honor to inform you that several of the Citizens of Calgary called on me and asked that I should recommend, that a portion of some eligible section in the vicinity of Calgary should be reserved for a Public Cemetery and asked what steps it would be advisable to take to enable the Town to make a Grant for that purpose. I suggested if a Joint Stock Co was formed and incorporated, I did not think there would be any objection to the Town selling a reasonable portion for that purpose, and that it might be sold at the minimum price $1.00 per acre.

In company with Messrs Hardisty Laughead, and Mr Lineham I took a look over some of the lands in this vicinity, and they decided to apply to obtain all that portion of the W. ½ Sec 18 Tp 24 R 1 W 5th lying south of the right of way of the C.P.R. The situation is very good overlooking the town of Calgary, and a fine view is to be obtained therefrom although on a hill a road of easy grade can be cheaply built. There is some scrub on the side hill which if granted for a cemetery purposes, will be properly protected and more trees and shrubbery cultivated. It might also be deemed advisable to reserve a portion of this section for a Public Park and Reservoir purposes, in case it should ever be the future be necessary to furnish the water supply to Calgary by means of a Reservoir.

As to Claimants to this section on the NW ¼ I failed to see anyone residing on it having improvements. In reply to my enquiries of the Claimants to the NW ¼ and he stated he did not think anyone claimed the the ¼ in question

Sir

I have the honor to enclose herewith for consideration and decision of the Land Board, files and reports thereon, scheduled for examination, embracing the major portion of the claims preferred to land in St Albert. This return embraces the greatest variety; who can prove title under the Manitoba Act; some few will have to be reported upon specially, they requiring a fuller report than can be conveniently embraced in this Schedule.

This settlement is nine miles from Edmonton, to the Half West, on Sturgeon river and Big Lake; viz N.E. 33 and 34, Rge. 25 and 26 W. of 4th M., and its history may be briefly cited.

In 1861, the Bishop of St Boniface, now Arch-Bishop Taché, and the late Rev. Père Lacombe established a mission of the R.C. an Catholic Church here, the object being to induce the half-breeds, chiefly of French extraction, then living at Fort St Ann & the Lesser Slave Lake to settle here, at St Albert. They, the missionaries, held their property as it was only a question of a generation or so that these people could subsist by hunting there were from the Buffalo. At the time Claims. They were a wise lot and the Mission deserves great credit for the progress

which they have made in inducting them in agricultural operations. They, until the buffalo were about extinct; viz, about 1876 or 1877, usually did nothing material in the way of cultivation. Had houses erected in which they wintered, about the last of May or early in June they all left their homes, nearly all the women & children going with the men. They, or the majority, usually returned late in July or early in August and what hay they wanted they cut, and attended to anything they wished in the way of building or repairing their houses. About the middle of September they started out again for the fall hunt, & very often did not return till the ground was covered with snow. I will state the amount of cultivation they did, Wm Cook now owner of lot No 32, St Albert, and the largest farmer in the Edmonton District, states that in 1877 when he came to St Albert, about the largest grain grower had not 6 acres under cultivation. Such being the case, since that date their progress has been very much more rapid than prior thereto. The great majority of them speak nothing but Cree. Very few, if any of them, are good farmers, or even fair ones, but those who know them best assert that their progress has been much more rapid than the most sanguine could have
